

Austro-Germans Suffer Heavy Loss

PEACE CAN BE RESTORED ANYTIME, SAYS BRYAN

Suggests Mediation as "The Way Out" in Third and Concluding Section of His Statement

WASHINGTON, June 18.—Former Secretary Bryan in the third and concluding section of his statement on the "Causeless War," issued today, suggests mediation as "the way out." As a preventive of war, Mr. Bryan proposes universal extension of his investigation commission peace treaty plan.

"Mediation," the former secretary of state says, "is the means, provided by international agreement through which the belligerent nations can be brought into conference; time for investigation of all disputes is the means by which future wars can be averted and the cultivation of international friendship is the means by which the desire for war can be rooted out."

Peace Educational Movement

In elaborating his plan for restoration of peace, Mr. Bryan urges: That neutral nations in advocating peace crystallize sentiment in favor of peace into a cohesive force and offer mediation jointly or severally; that the warring nations join in a treaty to provide for investigation "by a permanent international commission of every dispute that may arise, no matter what its character or nature" and that a world-wide educational movement to cultivate a spirit of brotherhood among the nations be undertaken as the final task of the advocates of peace.

Cannot Exterminate Great Nations

"Great nations cannot be exterminated," says Mr. Bryan. "Predictions made at the beginning of the war have not been fulfilled. The British did not destroy the German fleet in a month; Germany did not take Paris in two months and the Russian army did not eat Christmas dinner in Berlin. But if extermination were possible it would be a crime against civilization which no nation group of nations could afford to commit."

How to Restore Peace

"Mr. Bryan continues: 'When can peace be restored? Any time now if the participants are really weary of this war and ready for it to end. If any nation is not ready, let its ruler state in clear, distinct and definite terms the conditions upon which it is willing to agree to peace; then if an agreement is not reached, blame for continuance of the war will be upon those who make unusual demands.'"

"In proposing mediation, the former secretary points out that The Hague convention expressly declares an offer of mediation shall not be considered an unfriendly act, and adds:

Continue Offers of Mediation.

"The duty of offering mediation may seem to rest primarily upon the United States, the largest of the neutral nations and the one most intimately bound by ties of blood to all the belligerents. The United States did make an offer immediately after the war began, but why not again and again until our offer or some other offer is accepted? But our action or failure to act need not deter any other neutral nation from acting."

"This is not a time to stand on ceremony; if any other country, for any reason—no matter what the reason may be—in a better position than

we to tender its good offices, it should not delay a moment."

Investigate Treaties

To assure permanent peace, Mr. Bryan urges that his plan of investigation of treaties be adopted by the warring nations.

"A treaty such as those which now protect the peace of the United States," he said, "would give a year's time for investigation and report and who doubts that a year's time would be sufficient to reach an amicable solution of almost every difficulty? Does anyone suppose that the present war would have been begun if a year's time had been taken to investigate the dispute between Austria and Serbia?"

DENIED BY BERNSTORFF

CALLS AT STATE DEPARTMENT TO CONTRADICT MEYER-GERHARD STORY

WASHINGTON, June 18.—Count von Bernstorff, the German ambassador had an engagement today for a conference with Secretary Lansing at the state department to personally deny the accuracy of published reports that a safe conduct obtained for Dr. Anton Meyer-Gerhard had been used to return to Europe by Dr. Alfred Meyer, a German purchasing agent of war munitions.

The conference was arranged for by the ambassador who wired the secretary from New York. Previously, the charge d'affaires of the German embassy at Cedarhurst, L. I., had made a general denial of the published charges of deception.

Count von Bernstorff at today's conference was expected to request the state department to exert its influence to prevent the spread of such reports.

Napoleon Met His Waterloo One Hundred Years Ago Today

The memorable battle of Waterloo was fought June 18, 1815, a few miles south of Brussels. It was at this battle that Napoleon, the man who sought to conquer the world, met his disastrous defeat. With the great conflict now raging in Europe more than ordinary interest attaches to the centenary of this event. It will be recalled that it was the sensational stand of the Duke of Wellington's men that won the day and settled for all time the ambitions of the man who sought control of the world's destinies. In the accompanying illustration are shown Napoleon, the tomb of Napoleon in the Madeleine chapel in the Hospital des Invalides, in Paris, and Napoleon as he sailed away from France.

Story of the Battle

One hundred years ago today the most momentous battle in history—the battle of Waterloo—was fought. On that day the great French army of 125,000 men, led by Napoleon Bonaparte, was practically wiped out. At 1 o'clock in the morning Napoleon was waiting in the rain and darkness before the plain of Waterloo; at 8:30 that night he was rumbling back to Paris, lost.

The French losses were over 40,000, the Prussian only 7,000, and the British and allied 15,000. Some 45,000 killed and wounded lay on an area of about three square miles.

Marshaled His Army

At 1 in the morning Napoleon rode out to the front, which was flung along the plateau that looks north over the field of Waterloo. The rain was still falling heavily. Between 7 and 8 he rode out again. The field looked bad. He hoped to open fire at 10 o'clock on the patient English troops which had bivouacked in the wet corn on the ridge opposite. By 10 it was clear, but the field was still hopelessly soft. A little before 11 he rode a third and last time along the lines to marshal the army. A half-hour later the great battle began.

After more than an hour's fighting the French were driven down the slope

by the Union Brigade and Napoleon's first move had been checked.

Bulwag's Troops Arrive

Already there had been another disagreement in a battle which had gone now too successfully from the start. Napoleon had seen a dark cloud emerging from the woods at St. Lambert off to the east. It might be the expected aid from Grouchy. But not long after 1 o'clock there was no doubt that it was Bulwag's troops, moving rapidly to Wellington's assistance. Grouchy had not intercepted.

This was the crux of the battle. Bulwag was now at hand. There was nothing for Napoleon to do but to leave Marshal Ney with the order to carry La Haye Sainte at whatever cost, and hurry off to keep the German contingent from cutting off his supplies and line of retreat at the village of Plancenoit.

It was a hard and gallant fight that the French offered the unexpected attack on their right. But more and more divisions were needed to hold the Prussians back, and still there were no signs of Grouchy. The Young Guard, the cream of the army, went in, but still Plancenoit was held by Bulwag. Three battalions of the Old and Middle Guard, valuable material, were ordered in; two batteries followed and Plancenoit was retaken.

hospital. He was a member of St. Patrick's parish for a number of years. The body was removed to the rooms of Undertaker C. H. Molloy.

GLEASON—Mrs. Delta E. Gleason died yesterday at St. John's hospital. She leaves one son, John J., and three sisters and two brothers. The body was taken to her home, 353 Bridge street.

HOLLINGSWORTH—Mrs. Margaret Hollingsworth died yesterday at her home, 5 Richardson avenue, aged 51 years. She leaves her husband, Thomas, three daughters, Mrs. Margaret Rock and Lillian and Helen R. Hollingsworth, and two brothers in Scotland.

CASEY—Julia Casey died at the home of her niece, Mrs. John Mauchester, 21 Lynde street, Salem. The body was brought to this city and taken to the home of her sister, Mrs. Edward J. O'Neill, 21 Phillips street.

SULLIVAN—The funeral of Cornelius Sullivan will take place Saturday morning at 9 o'clock from the home of his sister, Mrs. Timothy Kennedy, 19 Druett street. At 9 o'clock a high mass of requiem will be sung at St. Patrick's church. Burial in St. Patrick's cemetery in charge of James E. O'Donnell and Sons.

DEATHS

FARRELL—Michael Farrell, aged 50 years, died yesterday at the Lowell

If you want help at home or in your business, try The Sun "Want" column.

Napoleon hurried back to the front, all unconscious of the fact that the Prussian reinforcement under Pirch I. and Zielen were coming up.

These reinforcements forced their way into Plancenoit and Napoleon became desperate.

He made one last reckless snatch at victory. Before the farmhouse of La Haye Sainte he addressed his men. He urged them on. They rallied superbly, and the Imperial Guard started forward in its last effort to drive the English back from the coveted turnpike.

Walked to Destruction

The French army, what was left of it, walked straight into the jaws of destruction. Yet Wellington waited for the final action before putting out his hand for victory. He delayed advance until Zielen had pierced the northeast corner of the French right and thrown the whole wing into confusion. Then, seeing that the battle was won, he gave the famous order for the whole line to advance—a thin line, but one which met with little resistance.

A little after 3 o'clock Wellington and Blücher met at La Belle Alliance and it was agreed that the Prussians should take up the pursuit, which they did, driving the French out of seven successive bivouacs, and finally forcing them across the Sambre.

BOGUS DROWNING SCARE

MAN DISTOBBED AT HALE'S BROOK, SLEPT THERE AND WENT OFF WITHOUT CLOTHING

The discovery of a hat, coat and vest, the latter containing a gold watch and other valuables, on the banks of Hale's brook early this morning, gave the police a short investigation, as it was feared that a suicide or drowning accident had occurred. Sergt. Giroux was dispatched to the scene in the hope of getting information. He found no other clue and took the clothes to the police station. A short time afterward Inspector Maher met a man walking in Middlesex street without hat, coat or vest. The man said he slept near Hale's brook but could not remember taking off his coat or leaving the spot this morning. He was taken to the station, however, and identified the clothes found as his property and the mystery was cleared.

ADVANCE IN GALICIA MADE AT GREAT COST

Lost Tens of Thousands of Men, Says Petrograd—Russians Being Pushed Back Steadily

The assertion is made by the Russian war office, in a review of recent fighting in Galicia, that the Austro-German advance has been made at great cost. In two days' fighting near Strzy the Teutonic forces are said to have lost "tens of thousands of men" and on one section of 35 miles on the Galician front, between May 29 and June 15, their losses are placed at between 120,000 and 150,000.

Russians Pushed Back

Reports from Berlin and Vienna, however, indicate that the Russians are being pushed back steadily all along the front. The latest communication from the Austrian war office says the Russians are now unable to resist their opponents.

Negotiations With Balkans

Negotiations between the allied powers and the Balkan states are again under way. According to information reaching Berlin from Sofia, Bulgaria demands territory from Rumania, Greece and Serbia in return for her participation in the war with the allies.

A Berlin despatch expresses doubt whether former Premier Venizelos of Greece, in case of his return to power following his victory in the elections, will be unconditionally in favor of going to war. The deadlock on Gallipoli peninsula and the reported failure of Bulgaria and Rumania to accept the latest offers of the allies are advanced as reasons for this view.

New Allied Attack in West

The heaviest fighting of several weeks is now in progress on the western front in consequence of the new attacks by the French and British. Each side is sustaining severe losses and although reports from Berlin and Paris are at variance, it is evident the French have made some gains in the district north of Arras, northwestern France.

RUSSIANS SCORED NOTABLE SUCCESS ON DNIESTER—CAPTURED 5700

PETROGRAD, June 17, via Paris, June 18, 6:30 a. m.—A notable success was scored by the Russians on the Dniester above Zaurawa on June 14 and 15, which resulted in the capture of 5746 men, according to an official statement issued at the war office tonight. Austro-German forces also are reported to have been hurled back on the same front further to the southeast, while another force which crossed the Dniester above Mizlow was destroyed. No comment is made on the action between Luckow and the Danube except to state that the engagement was "fierce." The communication follows:

"In the Shavil region and west of the middle Dniester there has been no essential change. All German attacks were repulsed during the 15th and the engagements continue."

"On the Narow front there were no engagements during the day."

"On the Baura, above Sochaczew, we repulsed on the 15th attacks by small Russian forces. The battle continues."

"Fierce engagements took place on the 15th between the town of Labaczow and the San and in the region of the village of Krakowice."

"On the Dniester front on the night of the 16th in the sector between the Tismana and the Strzy rivers the enemy was thrown back in disorder. Our notable captures on the Dniester above Zaurawa in the course of the 14th and 15th included 202 officers and 5414 men, six guns, 21 machine guns, catapans and other booty."

"On the 15th the enemy crossed the Dniester above and below Mizlow. The forces which crossed above were destroyed and those which crossed below were checked. The fighting continues."

"In the direction of Chotin, between the Pruth and the Dniester we pressed the enemy on the 15th."

COMMODITIES TO REMAIN UNDER CONTROL OF GERMAN GOVERNMENT UNTIL AFTER WAR

BERLIN, June 15, via London, 11:23 a. m.—The federal council has declared that all contracts of sale affecting the 1915 harvest of rye, wheat, spelt, barley and oats and also crude sugar, so far as the contracts call for fulfillment after August 31, the order indicates that these commodities are to remain under the control of the empire until the end of the war.

DROPPED DEAD

Man Injured at Hide and Leather Factory Died on Way Home

John Clark of 248 Church street dropped dead near the corner of Pond and Perry streets about 10 o'clock this forenoon while on his way home from the American Hide & Leather Co., where he was injured early in the morning. An emergency call was sent for the ambulance and the man was rushed to St. John's hospital, but physicians pronounced him dead. He is survived by a "sister" in Fall River, whose name is not known.

About 7:30 o'clock this morning Clark's left hand was caught in a tanning machine. He was then taken to St. John's hospital where the injury was treated. He expressed a desire to return to work and did so against the advice of physicians. About 9:45 o'clock he again complained that the injury bothered him and started to walk home. An attempt was made to have him ride in a carriage but he refused to do so. While walking along Perry street he was stricken and died immediately.

U.S. MAIL OPENED

Seal Broken, Letters
Opened and Censored
in England

WASHINGTON, June 18.—Formal notice that United States mail pouches destined for Sweden had been broken open in England and their contents tampered with, was submitted to the state department yesterday by W. A. P. Ekenstrom, the Swedish minister, with a request for appropriate action.

The minister called at the department and delivered to Secretary Lansing a letter written on instruction from his government, reciting instances of interference with mail for Sweden and pointing out that such acts were in violation of the provisions of the world postal convention and of other treaty stipulations. The letter stated that the seals of the bags were broken, that letters were opened and censored, and that one registered unit was retained.

Two specific cases were mentioned, one involving mails sent on the American steamer New York, when she left on May 29, and the other pouches carried by the British steamer Adriatic which sailed on May 21.

In the former case it was asserted that out of 29 registered letters and packages, seven arrived in Sweden opened, while the greater part of the other mail had been censored. Of the Adriatic's mail, which arrived in Gothenburg on June 9, several letters were said to have been opened and one registered unit to have been retained. Whether the piece of mail matter shown by a comparison of receipts to be missing was an official communication has not been revealed, but it is known that diplomatic correspondence was sent from Washington on the Adriatic.

Officially it was stated in allied diplomatic circles today that there had been various instances of interference with official mail in this country, and that the Russian embassy had evidence of six cases in which mail had been tampered with on United States railway mail cars.

PROTEST BEFORE SEC. LANSING
WASHINGTON, June 18.—The first official protest growing out of reports of the interference with the mails since the European war began was before Secretary Lansing of the state department today with a request for action.

The complaint in point was that lodged with the secretary by Swedish Minister Ekenstrom, who in a letter written on instructions from his government, stated that United States mail pouches destined for Sweden had been broken open in England, that letters had been opened and censored and that one registered unit had been retained. The communication recited two specific instances of interference with United States mail for Sweden, pointed out that such acts were in violation of the provisions of the World Postal convention and asked that appropriate action be taken.

While state department officials declined to indicate what, if any action, would be taken, it was said in diplomatic circles that representations probably would be made by the United States to Great Britain, asking that special precautions be taken to protect American mail passing through British territory.

DENIAL BY SHAUGHNESSY

Canadian Pacific Railway President Says He Is in England on Transportation Matters

LONDON, June 18.—In an interview Sir Thomas Shaughnessy, president of the Canadian Pacific railway, denied that he had been offered officially the position of contractor for munitions mentioned by Lloyd George.

"Such a report," said Sir Thomas, "is premature. My business in London is merely to negotiate with the war office to see what assistance the Canadian government can offer in the way of supplying food and other material for the equipment of the British army. In this connection the Canadian Pacific railway could, of course, facilitate the conveyance of food to the allied armies."

LIEUT. WARNEFORD DEAD

ZEPPELIN CONQUEROR KILLED BY FALL—NEEDHAM, AN AMERICAN, ALSO DEAD

PARIS, June 18.—Lieut. Reginald A. J. Warneford, who gained fame recently by blowing to pieces a Zeppelin over Belgium, was killed today by the fall of an aeroplane at Euc, France.

Lieut. Warneford was piloting the machine, which had as a passenger Henry B. Needham, the American writer, who also was killed.

The lieutenant had been spending a few days in Paris, where he came after his Zeppelin exploit to receive his decoration of the Legion of Honor.

According to a report received in Paris, the accident resulted from an explosion in midair, which caused Lieut. Warneford to lose control. The machine fell from a height of 300 feet. Needham's body was taken to the English hospital in Trianon Palace, Versailles. He had been in Europe about four months acting as correspondent of magazines and a New

STOMACH SUFFERER GETS PROMPT HELP

Hartford Resident Gets Quick Relief From Use of Wonderful Remedy

Mrs. S. E. Johnson of 81 Whitmore street, Hartford, Conn., was a victim of stomach and digestive disorders, attended by much pain. She suffered from pains in the side and other discomforts.

She took Mayr's Wonderful Remedy and found quick relief. In writing of her experience she said: "The pain left me the next day after taking the remedy. It's simply wonderful how it relieved me, and you may be sure I shall tell everyone who has stomach trouble about it."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee. If not satisfactory, money will be returned.

WHAT THE FRENCH MAID SAID

THE DAINTY HANDKERCHIEF

"I want to give auntie a present for her birthday," announced Marjorie. "I can't afford to buy anything elaborate but would like to make something that would be a love gift," she concluded to Marie.

"Why not give her a beautiful handkerchief?" asked Marie. "Few people stop to think how acceptable a gift handkerchiefs can be, not only the plain common kind, but dainty hand-made and embroidered affairs. Not that the plain initialed handkerchief is to be despised as for general wear the good twenty-five cent handkerchief will look neater and wear longer than any number of cheap lace affairs, which not only wash ragged in a short time but look cheap all of the time."

"Like on baby clothes, if lace is used at all, it must be of the finest and there must not be too much of it. Here is where the hand work comes in. It is no trifling piece of work to roll the edge of a fine piece of linen and apply a bit of Valenciennes edging by way of ornament. The neatness of stitching is necessary and the smoothness and most dexterous of fingers, but when finished there is no more acceptable gift. The narrow lace edging should be real and the linen of the finest. If a tiny initial for a monogram is added all the better."

REWARD FOR CAPTURE OF FLAGS

BERNE, June 18.—An Italian manufacturer, Signor Clerici, has given \$10,000 to be distributed in five rewards of \$2,000 each to the soldiers who capture the first two German or Austrian flags in battle. Similar patriotic offers are being made in many Italian towns.

In Vienna, Baron Leopold Chlumetzky has offered a prize of \$250 to the first Austrian or Hungarian soldier who captured an Italian flag.

FRANCE IN GOOD HEALTH

PARIS, June 18.—France is in excellent health. None of the epidemics dreaded with the coming of hot weather have developed. There were 539 deaths in Paris last week as against 516 the preceding week and 242 the average for this season of the year. Typhoid fever, the most dreaded of all diseases, made only three victims. Reports from points where soldiers are concentrated and where there were a great many cases during the winter show that the epidemic is abating.

Reginald A. J. Warneford, a young Canadian sub-lieutenant in the Royal navy, suddenly acquired world-wide renown by destroying a Zeppelin over Belgium on June 7, this being the first time on record that a Zeppelin had been wrecked by an aviator in an aeroplane. By a brilliant flight Lieut. Warneford obtained a position above the Zeppelin, and dropped bombs on it. The dirigible crashed to the ground and burned. The 25 men in the crew were killed.

For this feat Lieut. Warneford was decorated with the Victoria Cross and the Cross of the Legion of Honor.

Lieut. Warneford made his first flight at Hendon, Eng., less than five months ago, and had been with the flying squadron only a few weeks.

half of 15 residents of Rhode Island.

The libel and damages are claimed upon the charge that impure water was provided on the steamer in September, 1913, when the Rhode Islanders were in a party of excursionists carried on the steamer to the Ferry centennial celebration here.

It is charged that many cases of typhoid fever resulted, of which several proved fatal.

The steamer came to this port to convey the Rochester chamber of commerce to Detroit.

WAR FASHION IN PARIS

PARIS, June 18.—Warm weather has finally brought fashion back to the Bois de Boulogne—war fashion particularly. The other morning were noticed taking their morning ride a pretty American girl in the costume of a boy scout and an English girl in khaki, leggings, at crowned cap and all. On foot was another girl in a blue skirt giving a perfect illusion of dark blue trousers with a black stripe down the legs. There was also a pretty blonde with the blouse of a marine and a brunette in a cantiniere's red tunic and pale blue skirt. Horizontal blue tunics—in perfect imitation of the new regulation infantry blue—with green and red trimmings are now very common. The only war costume that is not very closely imitated in extreme fashion is the red cross; it is prohibited by government decree.

Gloucester Boxer Loses Gruelling Con-
test to Johnny Mello of New Bedford
—Other Bouts

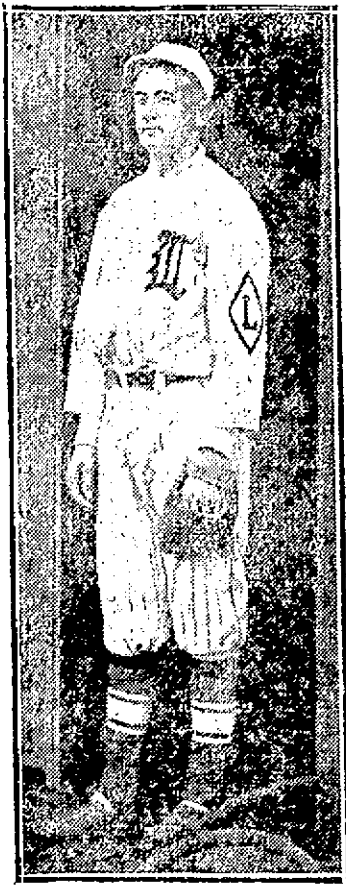

LOWELL, June 18.—In what old ringsters call the most gruelling boxing ever seen here, Johnny Mello of New Bedford put away Battling Sylvia of this city in the 11th of 13 scheduled rounds.

Sylvia was on the receiving end throughout and only his extraordinary toughness carried him so far. Billy Burke of Lynn and Joe Rivers of Gloucester boxed a six-round draw. The Syrian Kid got a decision over Young Myett, both local men, in four rounds.

LANGFORD JOLTED AT MILFORD

MILFORD, June 18.—Sam Langford, the Boston boxer, was given a jolt here yesterday morning by a Johnson, much less famous than the heavyweight, but more effective. Langford and his trainer were motoring into Milford Centre from West Milford and tried to pass a long dirt trolley car run by Motorist William G. Johnson. The auto skidded at the wrong minute into the trolley car and Langford was upset, but with only his feelings hurt. His car was badly wrecked.

You need a good lawn mower now. The Thompson Hardware Co. has a full line of Philadelphia and other fine makes.

LEFT FIELDER STIMPSON

PITCHER ZIESER

EDGEWATER, N. J., June 18.—Of- ficially Jim Rice is the head coach of Columbia University's rowing crews, and acting in his official capacity he has made for himself a name in that branch of sport which is second to none. Each year his first task is to build up the physiques of eight young men to stand the wearing rigors of the grueling four mile races, and with the limited material he has to work upon Rice has in the past worked wonders. Of course his crews have never approached the performances of those of Cornell, but when one takes into consideration the plentiful supply of material for crews that Cornell has to choose from the results achieved by Rice seem remarkable. A good mixer and predominantly democratic, Rice en- joys the respect and admiration of his oarsmen, and it is because of his sterling qualities that his charges "pull hard" for him, both figuratively and literally. Rice at present is hard at work developing a crew with which he hopes to repeat last year's victory, and, whether or not he succeeds in his endeavors, it is certain that when the crews line up at the starting line the Rice crew will compare favorably with any in the race. Picture shows Coach Rice giving instructions to Captain Sanborn of the Columbia first varsity.

Fitchburg Beaten 2-1 in Shortest
Contest of Season—Zieser on
the Mound

In the shortest game of the New England league's 1915 season thus far Lowell took another diamond squabble from Fitchburg yesterday afternoon at Spaulding park by a 2-1 score. An hour and fourteen minutes was the official time of play.

Left fielder Stimpson, Lowell left fielder, was the individual hero of the contest. It was Stimpson's bat in the seventh session which crashed against the seamed sphere for a double to left bringing Barrows home with the winning run.

It was also Stimpson who provided the afternoon's fielding features. In the seventh and eighth innings Stimpson was a very busy personage. Two putouts in each round were his contribution and a couple of 'em were of the sensational order. His catch of what looked like a certain safety on Young's bat brought the spectators to their feet in unmitigated applause.

Fitchburg was lucky to score at all while both of Lowell's runs were earned tallies. A foot by Shorty Dee in the fourth gave the visitors an incentive with one man already gone into the discard. Dee played the ball poorly for it was of the simpler variety of the round knock.

The error was followed by a long single and a scratch hit which served as a scoring medium for Smith who was on third at the time.

Another is another player who should come in for his share of credit for the victory. The local catcher snuffed the ball to McGinn in the fourth with the bases choked, getting Pennington in the midst of a quiet little sista. Zieser then tightened up and forced the next batter to drift one toward Fahey.

Fahey played a rare game at the hot corner. His chase in fielding several of his chances were deceptive for they did not look difficult as they really were. It was the best job of third base tending that we have seen here this season.

Zieser and Tucker both pitched good ball although the local twirler held himself in better restraint at critical points. Tucker wasn't slaughtered by any means but his delivery was found for shots to safe territory when his meat runs. Only one act of generosity was displayed during the game. Zieser passing Pennington in the fourth.

The game in detail: Campbell, Fitchburg's first adventurer against the Zieser "stuff," shoved a fly into Barrows' hands. It was easy picking for "Curly." The next two batters were easy infeld out. Fahey and Bowcock being on the pegging ends with McGinn the receiver.

Gaston took his place behind the bat for the visitors in spite of his injured wrist which Fahey spiked as he scooted home in the first inning of Wednesday's game. The efficiency of the Fitchburg catcher was demonstrated when he grabbed Swayne's foul fly near the grandstand.

Fahey smacked a blow for two bases down the left field line and arranged for the visitors to score. Bowcock singled to center. Bowcock hit into a double play when his grounder took a lucky hop near second into Young's hands.

Fitchburg looked dangerous for a moment, but only a moment. In the second, Moran opened with a Texas leaguer to left. Fahey made a fine play of Sullivan's grounder and his bullet peg to Bowcock cut off Moran at second. Alcaraz took Pennington's foul fly and McGinn snuk into collision on a grounder to Zieser.

Lowell fared no better in her portion of this round. Alcaraz biffed a base hit to center. Stimpson died on a soft roller to Sullivan and Tucker threw out both McGinn and Dee.

The visitors never had a sliver of a run in their third turn with the stick. Gaston biffed to McGinn outside the foul line and the Lowell first baseman then smothered a grounder off Tucker's bat. Dee peered out Campbell.

Gaston, c	3	0	0	1	0	0
Tucker, p	3	0	0	1	0	0
Press, rf	2	0	0	3	0	0
Totals	32	1	5	24	12	0

Two base hits: Fahey, Stimpson. Stolen bases: Sullivan. Sacrifice hit: Bowcock. Double plays: Young, Campbell and McGinn. Left on bases: Lowell 3, Fitchburg 5. First base on errors: Fitchburg 1. Bases on balls: Off Zieser 1. Struck out: By Zieser 3; by Tucker 1. Umpire: Bransfield. Time 1:14.

With Zieser at bat a foul tip split Gaston's thumb so badly that the Fitchburg catcher was forced to retire. McGinn donned the protector while Smith went to first and Taves to the right gasster. Zieser and Swayne both died to Smith and Fahey went out on a grounder to Sullivan.

Dee's boot in the fourth of Smith's simple grounder started trouble for the locals and before three men were retired the score was tied. Dee's error was made after Fahey had thrown out Young. Moran followed the misplay with a clout to right which sent Smith to third. A scratch hit along the third base lines scored Smith. Alcaraz's snappy throw to McGinn after Matty filed the bats with the demonstration of a puncheon helped relieve the situation as Fahey was caught off the bag. Fahey

then threw across the diamond for McGinn's estimation.

Nothing of moment occurred in the fifth for either club. Matty was invincible and scored two punchouts, while the horseshoe crowned 1 of the Lowell bats into waiting gloves. The sixth was also a series of putouts, although a spectacular catch by Stimpson in extreme left broke up the succession in the first of the seventh.

Lowell broke into the run, column again in the latter half of the seventh. Barrows opened with a fly which fell safe in short center and was pushing to second by Bowcock's advancing sacrifice. A long double to left by Stimpson brought in Barrows with a tally. Alcaraz and McGinn were unable to bring Stimpson home.

Stimpson made another wonderful catch in the eighth. After Campbell failed to reach on his grounder to Dee, Young sent up a short fly to left center. It looked like a safety but Stimpson's sprint, coupled with a dive at the end of it, completed a sensational putout. Stimpson was roundly cheered by bleachers and grandstand alike. Lowell's left fielder also took Smith's fly.

Lowell didn't do a thing in the eighth either although Swayne dumped a single into left.

Zieser was supreme in the ninth and all three batters to face him dropped out of the race without a murmur. Moran was easy for Fahey and McGinn on his grounder. Swayne took Sullivan's boost to right and Pennington fanned. The score:

THE O'BRIEN LABEL GUARANTEES VALUE

Any way you look at it, the Blue Serge Suit is the one best buy for any man.

If you want service, a blue serge suit, properly tailored, will outlast two average suits of other fabrics.

If you want the dressy look the answer is blue serge—if it's properly tailored.

If you want style you get it, too, if the blue serge suit bears the O'Brien label.

Good tailoring is the keynote to complete satisfaction in a blue serge suit. Don't overlook that.

The O'Brien Special \$15 Serge Suit is the limit of good value in \$15 clothes.

The Stein-Bloch Serge Suit at \$20 is the greatest value in high grade clothes we know of.

We provide blue serges in models for young men with all the style cleverness of our fancy suits.

You cannot go wrong on an O'Brien Serge Suit.

TALBOT'S

AMERICAN HOUSE BLK., CENTRAL ST.

A QUARTER CENTURY AGO

The employment of "spotters" recalled to the memory of many of the old residents of Lowell, a time when the city was a hotbed of contention in different communities, some of the opponents of the system claiming that a man who will engage in such business is not the surest man in the world to trust, while it has been argued that justice is inclined to take "spotter" testimony with a grain of salt.

Quarter of a century ago, Lowell was a no-license town and while the liquor inspectors who at that time were Messrs. Goodwin and Palmer, worked overtime and made many arrests, the law was being generally violated. Suddenly "spotters" appeared on the scene and arrests were made in unexpected quarters. When on the witness stand in police court, one morning, one of the "spotters" testified, when asked by whom he was employed, that the city of Lowell had employed him, there was a big sensation in and out of city hall and a lively discussion was held on the matter at the next meeting of the board of aldermen, reported in part by the old Sun, as follows:

"Alderman Drury having obtained permission of the board to say a few words, took the floor and said, in part: 'There has been a matter that both

the public and the press have been deeply interested in for the past few days, where a man on his oath in the police court recently swore that he was in the employ of the city, and with full knowledge of the board of aldermen. Now I want to speak simply for myself for I know that every member of this board is capable of speaking for himself. I want to declare that I had no knowledge that any man was in the employ of the city, or of the board of aldermen, doing work that every fair-minded man has no sympathy with, for it seems to me that if there is a man on the face of the earth to be despised it is the man who attempts to have another do an illegal act simply to betray him. It is work that I am surprised to learn any man would condescend to and I am surprised that it has been done in the police department, as it seems to me that our police department is thoroughly equipped, the seizure force recently having been increased by the addition of another man. It ought to be able to do its work without resorting to the means of all mean work.

"The idea of any man or men, a non-resident at that, being employed on this work is no credit to those who employ him. It is said that he is to be paid out of the city treasury, but can know of no right that any man has to pay such an employe out of the city treasury. I should not have said so much about the matter had I not seen in the evening paper that the committee on police, chairmaned at the course that the committee has taken with his hands of the whole matter of all mean work."

"When Alderman Drury had finished, Alderman Fletcher took the floor and said: 'The gentleman wishes to know who has been a party to this spotter business. I stand here to say that I am one of them. I am a member of the police committee and the mayor, the chairman and the committee have

worked harmoniously, until lately when the chairman of the committee washed his hands of the committee entirely and announces it in the papers. I think it would have been well to have told the committee of it. If the other member of the committee were present I think I could prove that the chairman of the committee was in favor of adopting this method to detect violation of the law. He is the cashier of a bank and he would not think it dishonorable to catch a rogue by means of marked money. The chairman has not been in harmony with us of late about many things and we know all about it. The place for him to express himself, it seems to me, is in the committee and not in the newspapers."

"Alderman Sawyer, the next speaker, said: 'What purports to be an interview with me? There has been no interview with me.'"

"Alderman Fletcher replied: 'Oh, well, if you deny it, that's different. The gentleman from ward 5 (Mr. Drury) has laid great stress on the spotter matter. He does not know anything about the men who are selling liquor; how they use every means to break the law you are not going to handle him with kid gloves; you must take him as you find him. If I have this matter to handle I shall do the best I can. If the board of aldermen does not approve of it it can take the matter away from me.'"

"Alderman Drury: 'I would like to know why it was necessary to increase the seizure force if you believed the city treasury could not do their duty. A lengthy altercation followed, Alderman Fletcher, Drury and Sawyer alone taking part in it. Mr. Drury maintained his position against the spotter system, alleging that it was a reflection on the police department and Mr. Sawyer defending the police committee."

The spotter system continued during the year and subsequently was brought into use by the Law and Order league in the days of license. At one time some 40 or more licensed places were copied in the lower court by spotter evidence. At another time nearly all of the hotels in Low-

sence for four months. Mr. Garner has been in continuous service as overseer of the yard for 21 years. He left for New York on Tuesday and will make an extended tour of Europe."

Mr. Garner was a well known figure in Lowell quarter of a century ago and he died in the early '90s. He accumulated considerable wealth and owned the old Sun building which he sold to John H. Harrington in April, 1888. Mr. Garner married in the latter part of his life, his wife having been a Mrs. Ireson. After his death his widow married a Brockton man who subsequently became the mayor of that city on the socialist ticket. Mr. Garner's step-daughter, Miss Stella Ireson, married Mr. Chester Coram, formerly of Lowell.

The Old Ward Three Club
The report in yesterday's papers of a meeting of the ward three republican committee, at which plans were made for the coming republican outing, calls to mind some other ward three clubs of the past, notably the famous old Ward Three republican club of 10 or 15 years ago, with Stephen Puffer and John S. Stratton as active members. This club was independent on politics and spoke its mind without fear or favor on all public matters; its particular hobby being the Cook wells. But quarter of a century ago there was a Ward Three Improvement association, and the hobby of that club was Hale's brook which at that time smelled to heaven for vengeance. These

orators of the old ward three clubs were veritable thorns in the sides of the members of the city council for they watched their official actions closely and criticized them in the plainest of language. Recent happenings at city hall, had they occurred in the good old days of the Ward Three clubs, would have caused the members of those organizations to put up a protest that would have halted the members of the municipal council if nothing else did. In those days the members of the city council received no salaries and hence weren't as sensitive about ad- versus criticism and its effects, as are the men who draw \$2500 per year. Twenty-five years ago while the people of old ward three were crying in vain for relief from the foul-smelling brook the city council after much jockeying bought the land along the river bank and established the Pawtucket boulevard. At a meeting of the old ward three club just quarter of a century ago, one of the speakers unburdened himself on the Hale brook matter as follows: 'This is a matter that should be above party politics, but the present government has fallen into political ruts and their failure to treat us properly in this matter is as gross a piece of political stupidity as I know of. They vote away \$25,000 of \$26,000 for a boulevard or race track which nobody wants except

a few interested land owners, but they take no steps to redress a matter that affects the growth and welfare of the city. They cannot do anything properly. Look at the bungling over the city hall and Memorial building. You cannot point to a single performance of theirs that has not been incompetently characterized all of their actions.' Those words 'they cannot do anything properly' have a decidedly up-to-date flavor, if all we read in the newspapers is true.

St. Patrick's Boys' School

The closing exercises of St. Patrick's Boys' school were held last evening and the diplomas will be given the graduates on Sunday next.

Twenty-five years ago the annual commencement exercises drew a large gathering to Huntington hall, on which occasion there were three graduates, James B. O'Connor, John J. O'Hearn, who formerly lived in No. Chelmsford, and William F. Finnick. Of the three none became a physician. Dr. O'Connor, and the present time is a resident of California. The other two became priests. Fr. O'Hearn is stationed at St. Francis de Sales church, Charlestown, while Fr. Finnick is in Marlboro. The closing exercises of quarter of a century ago were reported by the old Sun in part as follows:

"The graduating exercises of St. Patrick's Boys' school were held in Huntington hall Monday evening and attracted a large audience of friends of the school. Although the closing exercises of this school have been very creditable in past years, as indicating rapid progress, thorough training and strict discipline, yet those of this year far exceeded all previous affairs, not only in point of brilliancy, but also in the proficiency shown by all who participated as well as by the first appearance on such an occasion of the school band and orchestra. The clergymen who were present were Rev. Michael O'Brien, Rev. J. Gleason, Rev. J. Shaw, Rev. D. M. Burns, O. M. L., Rev. H. A. Constantineau, O. M. L., Rev. J. H. Pelletier, O. M. L., Rev. J. J. Gilday, Rev. William O'Brien, Rev. William O'Brien, Rev. J. J. Foley, Rev. E. A. Alexis, provincial of the Xaverian order. The exercises began at 8 o'clock and the program was highly creditable to the school.

After presenting the diplomas to the three graduates mentioned above, Fr. Michael O'Brien made an eloquent address.

Vets at Charlestown

Most every other city in the Commonwealth except Lowell has the opportunity to have a firemen's muster on the occasion of its big celebrations, as firemen's musters have ever been great crowd-drawing features, and have drawn crowds that spend money, which is as much to be desired as the entertainment afforded by the vets. In Charlestown on the 17th of June despite the many counter-attractions, it has been customary for years to hold firemen's musters, if it is every year, every few years, and this dates over quarter of a century. At the celebration of 25 years ago, a firemen's muster was a feature and the Lowell Vets as usual were on hand. The old Sun reported their visit to Charlestown as follows:

"As 8 o'clock Tuesday morning, headed by the Dumbarton band, the Lowell Veterans firemen's association marched from their rooms in Dutton street to the Boston and Maine depot on their way to the Charlestown celebration. They took with them as their guests Mayor Palmer, Aldermen Dickinson and Wilson, Councilman Crowell, Chief Engineer Bent and Assistant Engineer Larned of the Gardner fire department, and D. L. Page went along to provide refreshments. The veterans returned in the evening and attracted much attention as they marched through Central and Merrimack streets with their banners. It was a pity that Mayor Palmer did not don the red shirt and wield the baton in directing the movements of the company. The boys played well, but not quite well enough to gain the coveted prize. They all report a most tedious day as the arrangements at least so far as the firemen were concerned, were at sixes and sevens. The procession started at 10 o'clock but so great was its length that the veterans were kept standing in line until 12 o'clock before they started, and it was not until 3 o'clock that they got to dinner. This of course delayed the trial of the machines, and instead of beginning at 2 o'clock, as was announced it was half past four before the first stream was played. There was an immense crowd of people present and Lowell was third in the trial list. The Lowell Vets are under obligations to the Urban club for many courtesies extended. The first prize was taken by the Wakefield company, the second by the Peabody and the third by the Pawtucket. The Lowell men did well, but as usual the tub was not in good trim."

In recent years the Butler Veterans have succeeded the old Lowell Vets and have established a reputation throughout New England as a company to be feared in a playing company. The Butlers suggested to the mayor that they should be given the honor of the grand appropriation for the Fourth of July celebration be given for a firemen's muster but the suggestion was frowned upon and the militia will get the entire amount. The Butlers, it is understood have been invited to appear in the parade but it is doubtful if they will put in an appearance.

LEFT TIED TO TREE

Man Robbed by Armed Men in the Woods at Roxbury

BOSTON, June 18.—Residents of the West End are excited over the experience of Abid Alley, a recent arrival in this city, who on one of his first trips as a peddler of hats and fancy work was robbed in the woods at West Roxbury Wednesday by three men and left bound to a tree.

Yesterday the police had their first opportunity to investigate the case because it was not reported to them until late Wednesday night after the Syrian had found his way back to friends in the West End.

Alley, who boards at 18 Stanford street, is in a pitiable plight. He can speak very little English and is now penniless and dependent on his friends. The robbers took from him \$30 in bills, which represented his savings of the past year, and a leather suit case containing his goods valued at \$60. They even took a comb and a cheap watch, leaving him with nothing except his clothes.

He had been in this country nine months and came here about a week ago from Portland, Me. He bought an outfit from John Audi, proprietor of a lace-importing establishment at 72 Green street, and early Wednesday morning took an Elevated train and started for West Roxbury.

Alley left a surface car in the sparsely settled section, he does not know just where. The police spent many hours yesterday with Alley and

a young friend, Badie Audi, a cousin of the importer, trying to find the spot where he was held up, but without success.

Alley says that he had gone some distance from the car line and was in the thick woods when he saw three men approaching. He paid little attention to them. Suddenly they surrounded him and drew revolvers. There were two clean shaven light complexioned and rather tall men, about 26 years old, a short, stout, dark complexioned man with a mustache, who acted as spokesman.

"You'd better leave your suit case with us," he ordered.

Alley offered no resistance, and says he was not handled roughly. The three men led him about 15 feet from the roadway and bound him to a tree with his arms doubled in front of him. They used a flat tape which did not hurt, Alley says.

He fell among the thieves just before 10 o'clock and it was 3.30 in the afternoon before a good Samaritan came to his relief in the person of a wagon driver. He untied Alley and gave him five cents to get back among friends.

SOCIAL AND FRATERNAL

At this week's meeting of Industry council, 1722 Royal Arcanum, an interesting circular from the grand council was read calling the attention of all the subordinate councils in the state to observe Royal Arcanum day on June 23, when the order will be 35 years old. Routine and important business was transacted with Regent Harvey J. Chase presiding. Following the business session, which was enjoyed by the prize winners being:

First, Mrs. J. Farnham; second, Mrs. J. W. Sharkey; Gentlemen, first, Thomas J. Campbell and John Gorman; second, Mrs. D. A. Harrington.

The following musical program was also presented:

Piano solo, Harold Mehan; songs, Charles A. Carey; piano solo, Miss Ruth Mower; song, Jas. E. Gorman; monologue, Harold Hennessy.

During the evening refreshments were served by the following members of the entertainment committee: Harvey J. Chase, Thomas H. Wilson, George W. Stafford, Alex. E. Rountree, John McKinley, George H. Desrochers, James E. Gorman and R. E. Mower.

Elgin Lodge, N. E. O. P.

A well attended meeting of Elgin lodge, 166, N. E. O. P. was held last evening in Veritas hall at which much routine business was transacted. Secretary H. A. Burrows, representative to the supreme lodge, reported the proceedings of the meeting in Boston Saturday. A pie social followed the business meeting.

It was announced that Deputy Grand Warden Mrs. Estelle L. Evans of Cambridge will probably visit Elgin lodge at the next meeting.

Court Wamesit

Two new members were admitted and two applications for membership received at the regular meeting of Court Wamesit, Foresters of America, held last evening. A report of the outing committee was read. The election of officers will take place on the first Thursday in July.

Going to the Exposition? Don't Miss Colorado Scenery

No one can be indifferent to the beauty and grandeur of the Colorado Rocky Mountain scenery, and visitors to the California Expositions should make a point of seeing it. Also Denver, Colorado Springs, Pueblo, the Royal Gorge, and Salt Lake City.

Now there's no extra charge for all this if you go via the Burlington Route (C. B. & Q.) because it so happens that the through service of that line has been planned so that you pass all of these points by daylight, and you can view from the train a panorama of mountain scenery that is as celebrated as any in the world.

Surely on your way, you will not miss this opportunity and I would like to send you free, some pictures, maps and printed matter not only of the Colorado wonders, but also of Glacier Park or Yellowstone Park, which, by all means, you should visit on the return trip. Please make use of me—let me help plan the trip for you. Call on or write

Alex. Stocks, New England Passenger Agent, C. B. & Q. R. R., 284 Washington st., Boston, Mass.

NEWTON MAN MISSING

W. D. WAGENFELD DISAPPEARED IN STRANGE MANNER—RELATIVES ASK POLICE TO FIND HIM

BOSTON, June 18.—The disappearance of a well-known Newton man, William D. Wagenfeld, became known yesterday through an appeal made to the Newton police by his relatives. He dropped out of sight on Monday, leaving no word. Mr. Wagenfeld lived in one of Newton's best known residential streets, 251 Ward street, Newton Center, and he has been connected with a Boston firm.

His relatives in appealing to the police stated that had not been ill that his home life was happy, and that they could not conceive of any possible reason for his disappearance. According to them, he left his home for business at his customary hour Monday morning, arrived safely at his Boston office and left there about 10 o'clock. Since that time he has neither been seen nor heard from.

Those connected with his family also state that his business affairs are in the best condition, and that no developments there could have arisen to cause his disappearance. The conclusion has almost been reached that he has suffered some mental lapse and wandered off. A search of Boston hospitals and morgues will be made this morning.

Wagenfeld is 41 years of age and has been manager of an engraving firm at 247 Atlantic avenue. He has resided in Newton for three years. When he left his office he wore a dark mixed suit, a brown soft hat, high laced black shoes and turn-down collar, size 16. He is 5 feet 7 inches in height and weighs about 150 pounds. He is dark, and smooth shaven.

He wore a gold Waltham open-faced watch, numbered 15,340,128. He carried an Actna insurance policy in his pocket and an Odd Fellows' past grand charm. He belongs to Bethesda lodge, I. O. O. F., of South Boston.

ASKS \$250,000 DAMAGES

SCALE OF LIVING TOLD BY MRS. PELL ON WITNESS STAND—HUSBAND IN RAILROAD ACCIDENT

NEW YORK, June 18.—The scale of living in the household of S. Osgood Pell, before Mr. Pell was killed by a Long Island train near Long Beach, Aug. 3, 1914, was the subject of testimony in the trial in the Long Island City supreme court of Mrs. Pell's damages suit for \$250,000 against the Long Island railroad. The purpose of the testimony was to establish the extent of the financial damage suffered by the plaintiff through the death of her husband. The witness said that her husband's income averaged about \$20,000 a year, some years going as high as \$40,000 and in other years dropping to \$10,000. Mr. Pell allowed her the sum of \$4000 a year to cover household expenses and from \$500 to \$1000 a year for clothing. He also

made expensive presents to her, giving her the house in Westbury, N. Y., where she now lives, and jewelry, the principal articles of which were a string of pearls worth \$4000, a sapphire ring valued at \$1200, a diamond watch valued at \$1500, a diamond pin valued at \$150. Mrs. Pell entertained frequently before her husband's death, she said, and traveled rather extensively. Her last trip to Europe cost Mr. Pell \$1500. He allowed Isabella Pell, his 15-year-old daughter by a previous marriage, \$750 a year for school expenses and \$150 a month for general expenses. The accompanying picture of Mrs. Pell was taken as she left the courtroom in Long Island City.

ON ESPIONAGE CHARGE

REPORT THAT FORMER GERMAN AMBASSADOR TO FRANCE AND WIFE HAVE BEEN ARRESTED

MILAN, via Paris, June 18, 3.15 a. m.—The Corriere della Sera says it is reported that Prince von Radolin, former German ambassador to France, and Princess von Radolin were arrested in Berlin at the end of April, charged with espionage against Germany but that the charges forbade any mention of the incident.

After serving as German ambassador at Paris for nine years, representing his country in delicate negotiations with France when the two nations seemed on the verge of war over the Moroccan situation, Prince von Radolin retired in 1910, with the announcement that he was through with public life. He was decorated by the French government early in 1909. President Faillieres called upon Prince von Radolin at the embassy in 1910, the first time a French president had visited the German embassy since the Franco-Prussian war.

The retirement of Prince von Radolin was reported to have been hastened by the theft of his diary, in which he kept a minute record of his diplomatic experiences in Paris. These accounts were said to have been of such a nature that they displeased the French government.

SUN FEATURES SATURDAY

Real Estate Page, Spellbinder. They Do Say, Other Special Features of General Interest

Everyone will be interested in the Real Estate and Builders' page of The Sun. Real estate transactions will be recorded and news of interest printed on this page. The advertisers' directory will interest all who contemplate

building, buying or repairing property. The Spellbinder writes on the project to locate the contagious hospital in Pawtucketville. Water department finally takes George Bowers' advice. Everyone reads "They Do Say," the popular column of pointed paragraphs. Don't miss it tomorrow.

"What Hortense Told Me" will give helpful health and beauty hints. Making Dancing a Pleasure" will be the topic of "What the French Maid Said." "In Missy's Boudoir" will tell of some summer bathing mistakes. "Grace and the Fairies" will be the children's story.

CANADA'S LOSS OF ORDERS

OTTAWA, June 18.—The present situation of international exchange is blamed for Canada's failure to get war munition orders from the allies on a

larger scale by W. T. White, minister of finance. Because of the great trade balance in favor of the United States, Mr. White asserts, European nations can buy there only by exporting gold, by establishing credits with New York banks or by selling their securities in America. Mr. White asserts, "the rate of exchange is decidedly against Canada as between us and New York."

COMPANY G OFFICERS
The result of the election of officers of old Company G Associates yesterday was as follows: President, Franklin S. Pevey; vice president, Capt. George L. Cady; secretary and treasurer, William H. Spaulding; executive committee, Charles B. Kitchen, William P. Farrington, James Christie, Albert T. Green, Henry C. Hutchinson, Charles H. Horton.

Compare Camels

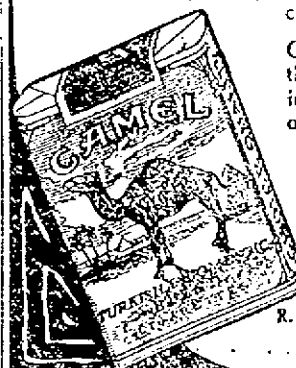

with any cigarette at any price! You get the flavor of the delightful blend of choice Turkish and choice Domestic tobaccos. It's more pleasing than either kind smoked straight.

Camel Cigarettes

Turkish and Domestic Blend

are smooth and fragrant. They won't bite your tongue and won't parch your throat and leave no unpleasant cigarette after-taste.

Camels sell 20 for 10c. Owing to the cost of the choice tobaccos blended in Camels, do not look for premiums or coupons.

If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), sent postage prepaid. If after smoking one package you are not delighted with CAMELS, return the other nine packages, and we will refund your dollar and postage.

DRUGGISTS' CONVENTION

MANY ARE TO ATTEND THE AN-
NUAL MEETING IN SPRINGFIELD
NEXT WEEK

Many of our local druggists are to
take an active part in the 31th annual
convention of the Mass. State Phar-
maceutical association, which will hold
a three days' session at the Kimball
hotel, Springfield, Tuesday, Wednesday

and Thursday of next week.

The convention will open Tuesday
with President F. J. Campbell of this
city in the chair. Mayor Storey will
extend the welcome of the city, after
which will come the address of the
president, and yearly reports of the of-
ficers and delegates to the national
convention. Wednesday forenoon the
nomination of officers takes place, and
will be followed by the very important
report of national and state legislative
activities of the past year, to be sub-
mitted by the legislative committee.
The election of officers will be held
Wednesday afternoon, followed by the
reading and discussion of papers, and
the convention will close on Thursday
with the installation of officers and a
general cleaning up of unfinished busi-
ness. Arno M. Davis is a member of the
legislative committee. William H.
Nelson has served on the executive
committee. Ray Webster has served
the past year as a member of the spe-
cial telephone pay station and postal
sub-station committee, and John H.
O'Neil is the chairman of the entertain-
ment committee, all of whom are plan-
ning to attend, and also George A.
Wilson, Frank Goodale, F. P. Moody,
A. E. Moore and many other local men.

PAIGE STREET BAPTIST CHURCH
The Paige Street Baptist church was
last evening the scene of a delightful

strawberry festival held under the aus-
pices of the ladies of the church. At-
ter the supper an entertainment, in-
cluding the following numbers, was
given: Piano solo, Doris Brown; vi-
olin solos, Dorothy Fairley; reading, Or-
pha Hutchinson; piano duet, Helen
Langshaw and Ruth Davis; dialog, St.
Brown, Nella Cross and Dexter Neal;
recitation, Walter Hayes; duet, Ro-
bert Smith and Wesley Boynton. The
supper was served under the direction
of Mrs. John Evans, assisted by a large
committee of women of the church.

TWO LOCAL SOLDIERS ATTENDED
SCHOOL AT NOBSCOTT HILL AND
REPORT GREAT SUCCESS

Sergeant Maj. Geo. D. Crowell, Second
battalion, Sixth regiment, and Sergeant
Fred Fahney, Co. K, have returned from
the cooking school which was held at
Nobscott Hill, South Sudbury, during
the past four days. The men report
the school was very beneficial, for they
claim they are now able to do most
anything in the culinary line.
The school was under the command
of Lieut. E. Everett Arnold, battalion
quartermaster. Eighth and the instruc-
tor was Quartermaster Sgt. F. Ban-
ger of the Washington barracks, who
has had charge of experimental cook-
ery for 21 years.
The day's program consisted of re-
cipes at 6 a. m.; breakfast at 6:30; lec-
tures from 8 to 11; dinner at noon;
lectures from 1:30 to 4:30 p. m.; sup-
per at 6; lectures from 7 to 7:30 and
tapes at 10 p. m. On Tuesday the men
were required to take a written ex-
amination.
Yesterday the school for officers at
the same point began. Those from
Lowell who attended were Major Colby
Kittredge, Major Charles A. Stearns,
Capt. Geo. W. Peterson, Capt. James
N. Greig, Lieut. H. G. Sheldon, Lieut.
W. C. MacBryne, Lieut. E. R. Walker,
Lieut. A. H. Cashin, Lieut. Melvin Mar-
tens, Lieut. James J. Powers and Lieut.
Charles J. Duffey.

THE FINAL MEETING
The final meeting of the season of
the Men's club of the First Universi-
tist church was held in Harrington hall
last night. Routine business was
transacted. The next meeting will be
held in October.

ACADEMY
Final Amateur Contest—Tonight
Three Prize Winners
VACONELLI BROTHERS
Will repeat their big musical act
which created a furore at Academy
last Tuesday night. They will
have new features.
JOE KING
The big Lowell favorite, winner of
12 first prizes, will display his ver-
satility in a 15 minute act, includ-
ing singing, dancing, harmonica
playing, acrobatic act, exhibition
of physical culture.
HENRY BELLEVILLE
Who made so big a hit with his
Chapin imitation last Tuesday will
display a set of brand new antics.

fered in Lowell
DON'T MISS IT

PAUL BUTLER'S DENIAL

STATES THAT NOBODY ANSWER-
ING DR. GERHARD'S DESCRIP-
TION VISITED CARTRIDGE SHOP

There seems to have been very little
if any foundation in fact for the re-
port that Dr. Anton Meyer-Gerhard,
Ambassador von Bernstorff's special
messenger to the Kaiser, was in Lowell
within the last month or so and that
he had been recognized at the U. S.
Cartridge company. If at the Car-
tridge shop at all he must have ob-
tained a permit to enter, as none are
allowed to enter without permits and
the management says that no permits
have been issued and no strangers ad-
mitted.
Mr. Paul Butler is the one man who
would be most likely to know if Dr.
Meyer-Gerhard was around, or if any
negotiations for munitions had been
made, and Mr. Butler is quite positive
that the mysterious doctor has not vis-
ited the plant of the United States
Cartridge company in this city.

Mr. Butler ought to know, but from
other quarters comes the report that

a stranger, said to have the looks and
general appearance of a German, visit-
ed the plant several times within the
last three or four weeks. However,
these reports are untruthful and may be
without foundation. The U. S. Car-
tridge company is very particular
about allowing strangers around the
plant and nobody is admitted to the
works without a permit granted only
to those who are known to be all right
but not to strangers mysterious or
otherwise.

ENFORCE WORLD PEACE

LEAGUE FORMED AT INDEPEND-
ENCE HALL, PHILADELPHIA—
TAFT PERMANENT PRESIDENT

PHILADELPHIA, June 18.—In his-
toric Independence Hall yesterday—the
anniversary of the battle of Banker
Hill—there was formed an organiza-
tion whose object it will be to pro-
mote the creation of a league of nations
with a view to preventing wars or, at
least, to lessen the possibilities of
armed conflicts. The name adopted
by the organization, after some debate,
was "League to Enforce Peace, Ameri-
can Branch."

Former President Taft, who presided
over the conference for a part of the
time, was elected permanent president
and, in addition, many representative
American citizens were named perma-
nent vice-presidents. A permanent
executive committee was selected with
instructions to take all measures nec-
essary to promote the objects of the
league.

In moving the adoption of the report
of the committee on resolutions, which
outlined the objects of the league,
the former president of the United
States expressed the hope that out of
this historic building may come a mes-

sage that shall again help the world."

The conference was not an assem-
blage of what one participant termed
"pure peace" men, but a gathering of
those who for the most part believe in
trying to bring about peace, even
though it be necessary to use force to
do it. There was an animated dis-
cussion over the adoption of the name,
and the only divisions that occurred
on the several questions that came
before the conference were on the
changing of the rule of the organiza-
tion and on the elimination from the
report of the resolutions committee
that paragraph which bound members
of the proposed league of nations to
use both their economic and military
forces against any one of their num-
ber that goes to war against another
member before the questions at issue
are submitted to the tribunal provided
by the league.

AT INDEPENDENCE HALL

Conference to Consider Adoption of Proposals for League of Peace—Prof. Taft Presides

PHILADELPHIA, June 17.—Men distinguished in many walks of life gathered at historic Independence hall today at a conference to consider the adoption of proposals for a league of peace and to decide upon steps to be taken with a view to obtaining the support of public opinion and of governments. The meeting was called by the national provisional committee which includes in its membership well-known publicists, educators, peace advocates, editors and economists, and was presided over by former President William Howard Taft. The plan was largely the idea of the former president, and is understood to have the personal though unofficial endorsement of President Wilson.

The morning session of the conference was limited to formal addresses, among the speakers being John Bates Clark of Columbia university; Theodore Marburg of Baltimore, former United States minister to Belgium; and Edward A. Filene, representing the chamber of commerce of the United States. Prominent men from many sections of the country spoke at the afternoon session which was open for general discussion.

Edward A. Filene
The American government may, by its action within the next few days or weeks, determine the kind of settlement that Europe will have after the war, Edward A. Filene, representing the chamber of commerce of the United States, declared in an address at the League of Peace meeting here today. This settlement, he said, fundamentally would be of great importance to the peace and prosperity of the United States.

"If America," Mr. Filene declared, "stands now for the rights of her citizens on the high seas, she will not give the world a sound peace. For her rights can only be finally vindicated, first, by a drastic reform of sea law, which means cooperating with other nations in creating legislative body to frame agreements on such law; and second, by just interpretation of this sea law, which means an international court."

Mr. Filene said that while he did not think the world could do without armies and navies, he believed America has it within her power to organize forces which are greater than either.

"Those forces," he said, "can be summarized in the term economic pressure, by which I mean the commercial and financial boycott of any nation, which goes to war without submitting its dispute to judgment of inquiry."

"That boycott could be of progressive severity. In the first, and what would be probably the usual and sufficiently effective stage, the nations forming a league for international law and order would refuse to buy from or sell goods to the offending nation. If its offense, however, were a very ag-

gravating one and continued despite the first measure, so that greater pressure were needed, the nations of the league could practically sever all intercourse with it and refuse to enter into financial or commercial transactions, refuse to receive or send its mail or to clear its ships.

"And then only finally, if such measures were ineffective, would military force be resorted to. But my plan is that in the first instance economic force is clearly indicated and that military force should be resorted to only if economic pressure proves ineffective."

Theodore Marburg
Theodore Marburg of Baltimore, former United States minister to Belgium, declared the growing purpose of the world is justice and this should be the real object of a league of peace.

"The present plan," he said, "stops at having the league act as an international grand jury to hale the nation lawbreaker into court, using the armed forces of the league, if necessary, to bring it there, and including that there shall be an investigation before any member of the league is allowed to go to war. It does not contemplate enforcing the verdict."

"The demand is a reasonable demand and a league formed with this object could not lead to oppression even though it failed to include all the progressive nations. Furthermore, if nations got in the habit of submitting their disputes to a tribunal the world would soon become impatient of failure to respect the award and a league of larger purposes would grow naturally out of the smaller."

Eight So. End Families Driven Out By Flames This Morning

BOSTON, June 17.—In the driving rain storm this morning, members of eight families were driven to the streets by a fire which started on the second floor of the four-story brick tenement block 115 and 123 Shawmut avenue, South End.

Women and children awakened from sleep by the suffocating smoke and the crackling of flames were forced to hastily put on clothing and rush through fire down over the stairs of the hallways to the streets. Fortunately no one was injured in the scramble for safety.

Much of the fire was confined to the second-hand store at 118 Shawmut avenue, where it started, but some flames reached an upstairs to the second and third floors and burned the furnishings of the apartments. The rooms at 120 Shawmut avenue escaped damage, although some was done to a grocery and provision store on the street floor.

Hallways extending through the second floor at 118 Shawmut avenue separated the apartments there. Joseph Silverman and his wife and five young children occupy the front apartment, and they had a narrow escape from suffocation. With barely more than their night clothing on, Mr. and Mrs. Silverman grabbed up their young children and ran through the wall of fire to the stairs and then fled to the street.

Mrs. Leah Harris, a widow, lives in the rear apartment on the second floor, and she and her nine children had an exciting time in escaping death in the flames. Bertha Harris, 18 years old, was awakened by the crackling of the flames and jumped from her bed, screaming to her mother. The flames had come up through the airshaft and were filling the apartment.

With her mother, Bertha ran to the beds and grabbed up the eight small children, ranging from 2 to 10 years of age, and ran with them to the front stairway and then down to the street.

Once they were in the street their predicament was a serious one, for they were without suitable clothing and the rain was pouring down in torrents. They huddled together in doorways.

A lad who lives in an upper floor apartment at 126 Shawmut avenue ran to the corner of Washington and Mott streets and sent in an alarm from box 1022, District Chief Coulter and Acting District Chief Fitzgerald O'Leary soon reached the scene, and they directed the work of the firemen, who in half an hour had extinguished the flames.

After the fire was confined to the building at 115 Shawmut avenue, the occupants of the apartments next door returned to their tenements taking the occupants of the house at 118 Shawmut avenue with them. All these persons, the children especially, suffered considerably from the exposure.

Edward Swartz and his family, who live in a third floor tenement, also had an exciting time in escaping, and their apartment was damaged to the amount of \$50. The damage to the remainder of the building and contents was estimated at \$500. Joseph Silverman owns the building and also occupied the second hand store at 118 Shawmut avenue. The cause of the fire was not determined.

CALLS COUPLE HOT-HEADED
Judge Walt Denies Deceit to Armstrong on Charge of Cruel and Abusive Treatment

BOSTON, June 17.—Nelson Day Armstrong has lost in his attempt to divorce his wife, Stella Armstrong, the daughter of Victor Levaggi, a wealthy fruit dealer. He alleged cruel and abusive treatment, but Judge Walt did not think he had proved his case.

The couple are young, hot-headed, foolish and unreasoning," Judge Walt said when he dismissed the libel yesterday.

WINS NEW OAKS STAKES
NEWARK, N. J., June 17.—The New Oaks stakes, a war-time substitute for the Epsom Oaks stakes of \$25,000, for three year old fillies, was run here today and won by Snow Mar.

Bright was second and Silver Tax was third. Eleven horses, including Herman B. Duryea's Flash V, started.

FIRED TWO SHOTS

Hub Policeman Drew Gun to Halt Attempt to Rescue Prisoners

BOSTON, June 17.—The city was crowded today for the celebration of Bunker Hill day, and despite the downpour of rain, the streets were lined with people.

About the only untoward incident in Charlestown during the early morning resulted when a man assaulted a woman on Sullivan square after the policeman had driven the crowd out of the playground there. Her eyes were broken and she was slightly cut on the face. Her hysterical screams attracted crowds of sympathizers who thronged about her and annoyed Patrolman Hornell, who was endeavoring to arrest the man who committed the assault.

Patrolman Norton at the same time came out of the playground with a drunken man whom he had arrested. The bystanders became incensed and a free fight resulted. The prisoner resisted and the policeman was obliged to fight with him all the way to the patrol box.

The two patrolmen managed to get together with their prisoners and were surrounded by the mob. The situation became desperate for the two policemen as they had to fight against scores, who endeavored to release the two prisoners.

Norton drew his revolver and fired two shots in the air to frighten the crowd and to call other policemen. The shots had the desired effect for a large detail of police rushed to the scene. They quickly drove off the attacking party. Some men in the crowd sustained cuts on their heads as a result of their fights with others.

The rain dampened the ardor of the celebrators and kept them indoors. After daybreak the usual boom of cannon and the snap of firecrackers accompanied by the tooting of horns and

the cries of enthusiastic young Americans merged in the making of the customary patriotic din of such a day.

THE DANISH GOVERNMENT
CONSERVATIVES TRY TO FORCE IT INTO WAR—VOTE WILL BE TAKEN

COPENHAGEN, June 16, via London, June 17.—Because the conservative newspapers are attacking the radical government on the ground of its neutral policies and are demanding a coalition government, the cabinet today called a conference of the representatives of the various parties and suggested that the opponents of the government bring up their alleged grievances during the debate on the address from the throne next Friday.

The government, it was announced, is willing to resign immediately if a vote of confidence is not forthcoming on its policy of neutrality.

BIG GOLF TOURNAMENT
SHORT HILLS, N. J., June 17.—After the dizzy pace set yesterday by Gil Nichols, the Wilmington, Del., professional, with his qualifying score of 147, the winner of the recent open tournament at Short Hills, N. J., was the most talked of player today of the six-day event which began the long 72-hole tour for this year's national open golf championship. Showers during the night had deadened the Baltusrol club's course and when the day's play began the weather outlook was not promising.

Thirty-six holes play was today's schedule, and a similar task has been set for tomorrow to decide which of the aspirants shall carry the national title during the ensuing year. Walter C. Hagen of Rochester, N. Y., the present champion, Gil Nichols, James Thompson, Philadelphia; James M. Barnes, Whitmarsh Valley, Pa., and Jack Dowling, Scarsdale, N. Y.; Louis Toller, ex-champion of France and George Lowe of the local club, are considered to be the most likely among the professional element to furnish the winner.

Francis Outmet, Boston, the national amateur champion; Jerome D. Travers, Upper Montclair, N. J., and "Chick" Evans, the young Chicagoan, are the best of the amateurs who carried the badge of championship eligibility in the qualifying rounds and these four up as formidable trio capable of defeating every foot of the race journey with the best of the paid golfers. Also Campbell, Baltimore and Tom Boyd, Fox Hills, N. Y., both professionals were the first to drive off today and the other pairs followed at intervals of five minutes. There was a large gathering of spectators in the neighborhood of the first tee at an early hour and visitors were constantly arriving.

Before any of the early batch of competitors had come within sight of the green, rumors arrived ahead of them that the record score of 71 was going to be broken.

Robert C. McDonald, the Buffalo professional missed a couple of chances to do this and on the home hole he just missed the cup for a 71. His card was 36-36-72.

The west's open champion, James M. Barnes of Whitmarsh Valley, Pa., who arrived next with B. Battell of Fitchburg, N. Y., equalled the record with 35-32-71. This was the best round of the tournament so far.

Also Campbell, Baltimore, and Geo. Severs, Merion, Philadelphia, had 76 each.

George Sarrent, professional of the Chevy Chase club, Washington, D. C., who won the national open title at Englewood, N. J., in 1909, had 40-35-75.

Outmet, the first of the amateurs to finish, had 77, three above par. He went out in 35 and came in with 42. On the 73 and 74, a total of 151, which was tied by the Philadelphian, James F. Thompson, as the lowest score of the first day. Thompson today took 81.

Wildlife Reid, an English professional, playing from Sarrent, N. J., had 77. George Lowe, the local professional, who was paired with Reid, took 78. The card of the Mohawk, N. Y., professional, Dave Stevens, read 37-39-76.

Jerome D. Travers had a 35 going out but did not play so steadily coming in, forty above the best he could do. His 78, however, was a stroke better than Outmet, whose score, 35-39-77, was duplicated by Max R. Maston of the home club who won the New Jersey state championship last week.

Gil Nichols, from whom a low score was expected, finished with 78. On his first round he was 38-40-78. On his second round he was 38-40-78. On his third round he was 38-40-78. On his fourth round he was 38-40-78. On his fifth round he was 38-40-78. On his sixth round he was 38-40-78. On his seventh round he was 38-40-78. On his eighth round he was 38-40-78. On his ninth round he was 38-40-78. On his tenth round he was 38-40-78. On his eleventh round he was 38-40-78. On his twelfth round he was 38-40-78. On his thirteenth round he was 38-40-78. On his fourteenth round he was 38-40-78. On his fifteenth round he was 38-40-78. On his sixteenth round he was 38-40-78. On his seventeenth round he was 38-40-78. On his eighty-sixth round he was 38-40-78. On his eighty-seventh round he was 38-40-78. On his eighty-eighth round he was 38-40-78. On his eighty-ninth round he was 38-40-78. On his ninetieth round he was 38-40-78. On his ninety-first round he was 38-40-78. On his ninety-second round he was 38-40-78. On his ninety-third round he was 38-40-78. On his ninety-fourth round he was 38-40-78. On his ninety-fifth round he was 38-40-78. On his ninety-sixth round he was 38-40-78. On his ninety-seventh round he was 38-40-78. On his ninety-eighth round he was 38-40-78. On his ninety-ninth round he was 38-40-78. On his hundredth round he was 38-40-78.

Jack Dowling, Scarsdale, N. Y., who qualified with 150 yesterday, took 75 on his first trip today.

Another par 71 was recorded when Jack Huchinson, Pittsburgh, professional, broke out at the home green. Joe Mitchell, a Ridgewood, N. J., professional, had two 2's in his outward journey for 25, but the pace was too strong to be maintained as he took 11 to come in, a total of 76.

Emmett French of York, Pa., had 77. Chick Evans, the western amateur champion, carried the gallery of the day behind him during his round with Jack Hobbs, the Englewood, N. J., professional. His play throughout was excellent and on the home green he took 75. A low ball for a 76, but the ball stopped within a couple of inches of the cup. He had to be satisfied with equalizing the professional record of 71 for the course, which was an achievement on the part of the young amateur.

Jack Hobbs had an 80. Louis Toller, formerly of France and playing from Canon Brook, N. J., had 77. He was paired with Ben Sayres of North Berwick, Scotland, who recorded 80 for the round.

Tommy C. Hays, Jr., the champion, was two over par both ways. John G. Anderson, the former Boston amateur, returned with a card of 77, and D. Clark, another amateur, from Baltimore, had 82.

A. BURTON ROBERTS DEAD
Town Clerk of Dayton Since 1883—Had Been Postmaster and Was Prominent Democrat

DAYTON, June 17.—A. Burton Roberts, town clerk of Dayton since 1883, died today from an attack of apoplexy. He had been postmaster of Dayton and was a prominent democrat.

ACCIDENTALLY ELECTROCUTED
SALEM, June 17.—Giovanni Gese, an employee of the Salem Electric Light Co., was accidentally electrocuted at the power plant today. He was repairing a canvas covering iron part of the machinery.

STEEL ARCH COLLAPSED

20 MEN THROWN 70 FEET AMID SHOWER OF DEBRIS—FOREMAN KILLED

CLEVELAND, O., June 17.—One man was killed, three were fatally injured and seven others were less seriously hurt when a steel arch at the east end of the new high level bridge being constructed over the Cuyahoga river collapsed today. The span was being constructed to support concrete mounds and a cable supporting it let go. Twenty men were thrown 70 feet to the ground amid a shower of debris. Vance Peel, foreman, was killed.

CHASED BY SUBMARINE

CANADIAN PACIFIC LINER MONTFORT ATTACKED OFF AVONMOUTH, ENG.

MONTREAL, June 17.—The Canadian Pacific liner Montfort which arrived here last night was attacked by a submarine when one day out from Avonmouth, Eng., her officers reported today. The Montfort seemed doomed, the officers said, but the steamer Damarra came up in the nick of time and shelled the submarine, causing it to dive. Before it dared to come up again the Montfort had made good her escape.

Here's the A-B-C's About P&Q Clothes!

The other day the P&Q Salesmanager, at New York, called me into his private office for a little confab. Said he: "As a judge of good merchandise, I know you'll agree with me that P&Q Clothes are excellent values." "You just bet they are," sez I. "Well then," sez he "don't be afraid to put a little more punch into your ads so as to do P&Q Clothes proper justice."

"Give the buying public the porterhouse facts! Does a man judge a play by the price of his ticket—well hardly! Same argument holds good with a suit of clothes. The tailor's big bill doesn't make the suit any better. It's the finish, the fit and the faithful service of the garments that count."

"That's where P&Q Clothes, at always \$10-or-\$15, come in. By our scientific tailoring methods we slight nothing. \$20-to-\$25 will buy no better. Tell folks why our clothes hold their shape so well. Show them how each P&Q garment is needled with hand-worked collars and shoulders, pre-shrunk interlinings and Damascus hair-cloths to give them back-bone."

"And don't forget," sez he, "to state a word or two about the P&Q method of selling—straight to the wearer—no middlemen. It means a saving of \$5-to-\$10 to every customer."

"Then too, remember it's Graduation Time now and young fellows will want Blue Serge Suits. Our 'TRU-BLU' Serges of fast color, Australian wool, fill the bill. Every one of our 12 stores is stocked with new models and they're dandies. Remember those we shipt out last week? Great, weren't they?"

"Now get busy," sez he,—and I did! Well, folks, the salesmanager stated the facts so frankly and so fully that the best I could do was to write down his talk just about the way he told it to me.

P&Q Customers, you men who wear P&Q Clothes and know, how do you feel about it?

ST. PATRICK'S SCHOOL DRAMATICS

Fine Entertainment Presented Last Night at the Opera House

Very Creditable Work by Pupils — Good Elocution

REV. BROTHER OSMUND
Principal of St. Patrick's School

Standing room was at a premium at the Lowell Opera House last evening, when the boys of St. Patrick's parochial school gave their thirty-third annual entertainment, one of the most elaborate affairs ever conducted under the auspices of this school. Never in the history of the school, according to a few of the old timers, had such a crowd gathered under one roof to attend an entertainment by school children. The large amusement place was taxed to its capacity and the audience was well repaid, for the program was bright and highly entertaining. It gave the parents an opportunity to see what is being done in this school in the line of education. The interpretation of the various dramatic parts demonstrated the excellent training the boys are getting under the able direction of the Xaverian Brothers, in charge of the school.

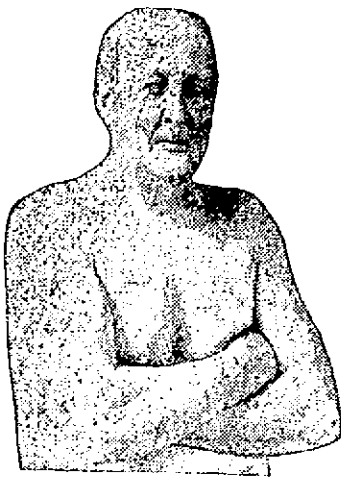

One of the busiest men of the evening was the master of the school, Bro. Osmund, who had general supervision of the affair, and it may be said that nothing lacked in the execution of the program. Each number was given with ease and satisfaction, and the frequent applause was a good mark of appreciation from the large audience.

The program consisted of several numbers, both musical and literary, that greatly pleased, but a feature of the evening was the presentation of a dramatic play in four acts, given by the pupils under the able direction of Bro. Idephonse, C. F. X. The piece was entitled "Under Two Flags," and was based on true patriotism and respect for the Stars and Stripes. The staging of the play was excellent in every way, while the various difficult parts were well sustained. It was really astonishing to many to see a number of boys still in their teens interpret such a masterpiece so very cleverly. The elocution shown was dramatic, the modulation distinct and the stage work pleasing. All the parts were well sustained and the boys who took part deserve special mention, while the leaders did remarkably well. The chief trouble with school dramas is to get the speakers to make themselves understood. Success in this respect was

67 YEARS OF AGE GAINS 22 POUNDS IN 23 DAYS

Remarkable Experience of F. Gagnon—Builds Up Weight Wonderfully

"I am a man of 67 years of age and was all run down to the very bottom," writes F. Gagnon. "I had to quit work. I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds with 23 days' treatment. I cannot tell you how happy I feel."

PAST "THE PRIME" BUT STOUT, STURDY AND ATHLETIC

"After I had taken Sargol for ten or twelve days I could see for myself that I was gaining weight at a rapid rate," writes F. Gagnon. "I gained 5 pounds in 15 days. I never felt better in my life."

"Your Sargol has done wonders for me," states Dr. C. J. Webster. "I have gained 21 pounds and look and feel like a new person."

"Would you, too, like to quickly put from 10 to 20 pounds of cool solid 'stay-there' flesh, fat and muscular tissue between your skin and bones? Don't say it can't be done. Try it. More than half a million thin men and women have gladly made the test, and that Sargol does succeed, does make thin folks fat even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, flesh creams, massage, oils or emulsions, but a simple, harmless, home treatment."

All reliable drug stores sell SARGOL with a positive guarantee to refund your money should there be no satisfactory weight increase. Louis K. Leggett Co., Carter & Sherburne, Co., Falls & Birmingham, C. F. George & Co., F. H. Butler & Co., Fred Howard, Lowell Pharmacy, Phelan's Pharmacy, Thos. C. Webster, Dr. C. J. Webster, L. Fields will gladly explain the comprehensive guarantee that goes with every box of SARGOL.

PRESENTED WATCH CHAIN TO AMERICAN RESISTRY

REV. BRO. BERNARDIN OF ST. JOSEPH'S COLLEGE RECEIVES MARK OF ESTEEM

Rev. Bro. Leon Bernardin, master of St. Joseph's college, was last night tendered an agreeable surprise by the members of the present and past executive committees of St. Joseph's college alumni, who as a token of love and esteem, presented him a handsome silver watch chain with charm. The custom of the order forbids the use of gold watches.

The affair had been organized by the present officers of the executive committee, as a mark of esteem and appreciation of the good work performed by the brother toward the organizing of the alumni, for it was really with the able support and through the untiring efforts of Bro. Bernardin that St. Joseph's college was formed.

The matter of forming an organization composed of former pupils of St. Joseph's college was suggested to Bro. Bernardin in the early part of the year 1913, and it was mainly through his efforts that the organization was formed. The presentation address was made by E. J. Laroche, a former secretary of the association. The gift was accepted in terms of appreciation in the course of which Bro. Bernardin assured his guests he will always do his utmost for the success of St. Joseph's college alumni and its members.

A pleasant evening followed during which a musical program was carried out, about every one present taking part in the entertainment. A light luncheon was served. Those present were Leoncio Gionet, Edmond S. Desmarais, Edmond Polys, John B. Richard, Arthur Simard, George E. Cossette, Arthur Giroux, H. J. Ducharme, Arthur D. Lamoureux, Isidore Frudel, Arthur St. Hilaire, Arthur L. Eno, Esq., Eugene Ricard, Joseph F. Montminy, H. V. Charbonneau, Esq., Roderick E. Jodoin and E. J. Laroche.

R. G. WAGNER SAYS HIS REQUEST FOR TRANSFER OF DANISH STEAMERS MADE IN GOOD FAITH

NEW YORK, June 18.—R. G. Wagner, president of the American Trans-Atlantic Co., whose application for American registry for a number of so-called Danish freight steamships has been refused by Eugene T. Chamberlain, United States commissioner of navigation, said in a statement made public today that his request had been made in good faith and that all the stockholders of the company are Americans. He explained his efforts to obtain American registry for the vessels by saying that while in Denmark last January he saw the opportunity to obtain an interest in the ownership of several vessels and was informed by the American consul that there would be no difficulty in transferring them to American registry.

Returning to the United States he incorporated the American Trans-Atlantic Co. Mr. Wagner said he laid all the facts before the navigation commissioner at Washington, assured the commissioner that all the vessels always had been under neutral flags, and gave him a guarantee that the ships would not be used in any way to embarrass the United States government.

SURPRISE IN FRANCE

FORMER MINISTER WRITES REGARDING PRES. WILSON AND WORLD'S OPINION OF HIM

PARIS, June 15, 3 a. m.—Gabriel Hanotaux, former minister of foreign affairs, has written for the Figaro an article regarding President Wilson and the world's opinion of him.

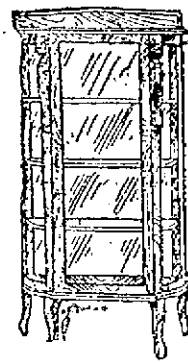

"We should be lacking in frankness to a great sister republic," says M. Hanotaux. "If we permitted it to be thought there that the three notes, particularly affectionate and friendly

in tone, addressed to Germany after much misdeeds had not caused a certain amount of surprise in France.

"America is the most important of the neutral powers and other neutrals look to her to take the lead in a concert of protestation. If President Wilson is thinking of the time when he can present himself as mediator and if it is his object for that reason to retain the confidence of both sides, he is turning his back on what he seeks. The future arbiter of peace will be the man or government who finally upholds at the opportune time the cause of conscience of humanity, of plighted word—briefly, of international honor. President Wilson has understood this; if it were otherwise he would lose a unique opportunity to place both himself and his country on a pinnacle in history."

FORCED TO LEAVE HOMES

LACK OF FOOD HAS DRIVEN PEOPLE OF EASTERN SONORA INTO MOUNTAINS

DOUGLAS, Ariz., June 18.—Lack of food in the towns and farming districts have driven most of the people in eastern Sonora into the mountainous section where they are subsisting on acorns and pitillas fruit, a species of cactus, according to reports received here today.

Hundreds in addition to those already in the hills, have been forced to leave their homes in the Campes district, it is reported, because of the confiscation of the wheat crop by Gen. Trujillo, Villa commander, for his troops. Only a small portion of the

crop was given to the civilians.

GUARANTEED BY CARRANZA
WASHINGTON, June 18.—John R. Sullivan, United States consular agent at Vera Cruz, today advised the American Red Cross that Gen. Carranza would do everything possible to facilitate the work at Vera Cruz of Charles J. O'Connor, who has been sent to Mexico to personally direct the relief operations of the Red Cross in southern Mexico.

Mr. O'Connor, who sailed from Galveston for Vera Cruz Tuesday will be joined at Vera Cruz by Mr. Shanklin, American consul general at Mexico City and the two will proceed to the Mexican capital and co-operate in solving relief problems there.

THREE TURKISH SHIPS SUNK IN DARDANELLES

British Submarine Torpedoed
Three Big Turkish Transports
Loaded With Troops

LONDON, June 17, 6.05 p. m.—The Star received today a telegram from Athens saying news has been received from Mudros that a British submarine torpedoed and sank three Turkish transports loaded with troops, in the Dardanelles above Nagara. The greater part of the troops and crews are said to have been drowned.

MONTEREY REINFORCED

CARRANZA GARRISON TO TAKE
OFFENSIVE—VILLA TROOPS SET
FOR HEAVY LOSSES

SAN ANTONIO, Tex., June 17.—Monterey, principal city of northeast Mexico, has been reinforced by 1000 troops under command of Gen. J. J. Trevino, who joined the Carranza garrison there last Saturday. Carranza will be started against Villa troops, which are threatening the city. Gen. Trevino has assumed command of all the constitutional forces in the states of Nuevo Leon, Tamaulipas and Coahuila.

Gen. Benjamin Herrera, a refugee here, made public information, which he said he received in a private message. Fighting in that section has resulted in advantages for Carranza, according to the message.

"Complete defeat" was administered to the Villa command at El Ebanio recently, it was said, while Villa suffered "heavy losses" at Elcamole.

TO RESCUE AMERICANS

SAN DIEGO, Cal., June 17.—With three companies, totaling 200 men of the Fourth regiment, United States marine corps aboard, the flagship Colorado, Admiral Howard commanding, sailed from San Diego at 9.35 a. m. today for the lower California coast.

Protection of Americans in the Yaqui valley is the object of the expedition.

Recent advices are that American colonists at Esperanza, some 100 miles below the border after standing off one attack of Kariol Indians, are hemmed in and threatened by another.

Admiral Howard has discretionary powers to land an expedition to res-

LABORER HIT ON HEAD

Zadon Casim, a laborer working on the construction of the new carriage shop building in South Lowell, was injured severely this morning when a plank struck him on the head.

He was working underneath a part of the construction and a plank dropped from the story above, striking him on the top of the head. A fellow workman took him down town and into the Sun building in search of a physician, but just before reaching the office of the doctor the injured man collapsed. The ambulance was summoned and once he was taken to St. John's hospital where his wound was dressed.

Miss Katherine Kelley, a popular teacher at the Butler school, was presented a handsome gold watch, the presentation having been made by the domestic science department of the school by the principal, Coradellus P. Callahan, the gift being from her associates teachers. Miss Kelley is to leave on July 1st for the Panama-Pacific exposition.

VETERANS MEET

Boys of '62 and '63 Live
Their War Days O'er
Again

With ranks thinned by relentless time, the members of the old Company G Associates met in the New American house at 1.30 o'clock this afternoon for their 44th annual reunion. Though time is beginning to tell on many of the veterans who were called to send letters of regret, the bond of fraternalism among those who gather each year never weakens, and the ties formed in the campaign experiences of over 50 years ago remain the same.

Though but one of the members of old Company G answered his last call during the past year, the number in attendance today was lessened by the fact that many living in distant cities or states are no longer able to stand the journey even to so delightful an event as the annual reunion. George W. Hutchinson of Somerville was the only man to pass away since the last meeting. He died on April 14.

Letters of regret were read by Secretary W. H. Spaulding from: Willie P. Atkins, Durand, Wis.; Col. Melvin Peals, Lawrence, Frank Buckner, Louisiana; H. T. Barnard, Bradford, Vt.; George D. Colburn, Roxbury; S. A. Lemfest, Wakefield; C. H. Parmenter, Oakland, Cal.; P. M. Spaulding, Berkeley, Cal.; Charles Spencer, Newport News, Va.; John Spencer, Meriden, Conn.; S. E. Stevens, Three Rivers, Mass.

Old Company G was originally composed of 50 members. Of that number 64 are known to be dead, while three have been accounted for, leaving 29 known living members. Since returning from the battlefield the veterans have scattered throughout the Union.

The comrades began to assemble at the hotel shortly after noon and while waiting for the troops to be sounded to call them to the private dining room the different "boys" were greeted as they marched into the parlor, one by one. At 1.30 a bountiful banquet was served. A merry conversation being carried on throughout.

Following the dinner an impromptu program was in order and each one present contributed his share with a war tale of the days of '62 and '63. Though the outward appearance of the comrades has changed, they told their reminiscences of experiences the same as when they met on the first reunion just 44 years ago and a more pleasing program could not have been presented.

"Kid Glove" Company
The Old Company G associates is an organization made up of the nine months' men who were in the second batch of soldiers to enlist in Company G of the Old Sixth Mass. in the Civil war.

The company was recruited by Capt. George I. Cady. There was in Lowell at the time an organization known as the Amateur Drill club and a number of the young men belonging to it enlisted with the nine months' men in Co. G.

Among them were many of the sons of the oldest and best families in the city. So large a percentage of the members of Co. G was of this caliber that the command was known as the "Kid Glove" company.

The company was mustered into service on Aug. 31, 1862, by Lieut. McLaughlin of the United States army and was immediately assigned quarters at Camp Wilson, located on the old fair grounds. The first officers of the company were: George I. Cady, captain; Sylvester E. Bradford, first lieutenant; Alfred L. Bradford, second lieutenant; and Nathan Taylor, first sergeant.

The company left for the front on Sept. 5, 1862, and until its return home and mustering out took part in the campaigns of the Army of the Potomac in South Virginia, Glendale against Persimmon, The Battle of Antietam, and at that time commanded by Gen. Fairbanks and was in Porter's Island of the first division of the Seventh corps.

The first battle in which the company took part was a lively one, known as the Battle of Antietam, fought on Sept. 17, 1862. At that time there were 200 men in the company, though it was thinned in the fall. It had few of its number lost in battle.

While at the front the company took part in the Battle of Fredericksburg, and the Battle of Chancellorsville, and was in the line at the Battle of Gettysburg, and the Battle of the Wilderness, and the Battle of Appomattox.

In 1872 the 1st division of the 6th Mass. was reorganized and the company was disbanded. The members of the company are now scattered throughout the country.

At last reports none of the Americans dared to leave. The Yaquis have declared their independence and are fighting to recover lands taken from them under the administration of Porfirio Diaz.

Orders for the embarkment of the marines were received by Col. John Pennington, commanding the fourth regiment last night and a battery of four rapid fire field guns and two automatic guns were sent aboard the Colorado. At dawn the three companies of marines with complete field equipment left their camp at the Panama-California exposition grounds and by 7 o'clock every man was aboard the Colorado. On the expedition the marines are under the command of Maj. W. N. McKelvey.

The Colorado does not take any bluejackets other than the regular members of her crew, numbering about 550 officers and men. Of these a force of about 500 men will be available for land duty.

Admiral Howard stated that the Colorado will maintain a speed of 14 knots an hour on the voyage south. At this speed she is expected to arrive at Guaymas about noon next Sunday.

THE BARTLETT SCHOOL
GRADUATING EXERCISES TO BE
HELD SATURDAY AFTERNOON—
THE GRADUATES

The graduating exercises at the Bartlett Training school will take place on Saturday afternoon, June 19, at 2.15 o'clock. As heretofore, much will be made this year of the musical side of the program—the chorus consisting of some 200 voices, being the largest the school has ever produced.

The list of graduates is as follows:
Esther Louise Blackie
Maudie Agnes Breen
Charlotte Claire Burns
Agnes Gertrude Casey
Sarah Leonora Collins
Ruth Isabelle Cook
Doris Muriel Curren
Annabell Gertrude
Anna May Grady
Blanch Lilla Harriet Gould
Gladys Elizabeth Handly

The public and all who are interested are invited to attend.

POST OFFICE CHANGES
MAILING DIVISION MOVED FROM
FIRST FLOOR TO FRONT OF
SECOND FLOOR IN NEW SECTION

The congested condition on the first floor of the local postoffice has been at least temporarily relieved by the removal of what is known as the "mailing division" to the recently renovated section of the building on the front of the second floor. The main floor of the office will now be exclusively used by clerks and clerks who have charge of the mail that comes from the depot to be delivered about the city.

While Postmaster Robert C. Crowley was in a room of the office he noticed that the mail could not be properly handled on such crowded conditions, securing permission from the post office department at Washington to have three mail offices on the second floor of the building made into mail rooms. The plan was approved and the work was done by the post office department.

one large room to be used by the mailing division. This work was done immediately but it took much longer to get permission to have an elevator installed to carry the baggage up one flight. Work on the installation of the lift was started a short time before Postmaster Crowley resigned, however, and it has recently been completed and is now in use. An iron stairway also leads from the main floor to the new department.

All the machinery and apparatus needed by the mailing division has been transferred upstairs and in a short time the racks used by the clerks in distributing their mail will be spread out to cover the entire floor, giving each man ample room to do his work without bothering his fellow employees. As soon as the incoming mail is brought to the postoffice it is placed on the elevator and taken to the mailing division, where it is properly sorted and then turned over to the clerks. It is now planned to install an incline belt conveyor and chute so that the mail placed in the slots by patrons may be carried up stairs without being handled by the clerks.

LABORER HIT ON HEAD

Zadon Casim, a laborer working on the construction of the new carriage shop building in South Lowell, was injured severely this morning when a plank struck him on the head.

He was working underneath a part of the construction and a plank dropped from the story above, striking him on the top of the head. A fellow workman took him down town and into the Sun building in search of a physician, but just before reaching the office of the doctor the injured man collapsed. The ambulance was summoned and once he was taken to St. John's hospital where his wound was dressed.

LABORER HIT ON HEAD

Zadon Casim, a laborer working on the construction of the new carriage shop building in South Lowell, was injured severely this morning when a plank struck him on the head.

He was working underneath a part of the construction and a plank dropped from the story above, striking him on the top of the head. A fellow workman took him down town and into the Sun building in search of a physician, but just before reaching the office of the doctor the injured man collapsed. The ambulance was summoned and once he was taken to St. John's hospital where his wound was dressed.

VETERANS MEET

Boys of '62 and '63 Live
Their War Days O'er
Again

With ranks thinned by relentless time, the members of the old Company G Associates met in the New American house at 1.30 o'clock this afternoon for their 44th annual reunion. Though time is beginning to tell on many of the veterans who were called to send letters of regret, the bond of fraternalism among those who gather each year never weakens, and the ties formed in the campaign experiences of over 50 years ago remain the same.

Though but one of the members of old Company G answered his last call during the past year, the number in attendance today was lessened by the fact that many living in distant cities or states are no longer able to stand the journey even to so delightful an event as the annual reunion. George W. Hutchinson of Somerville was the only man to pass away since the last meeting. He died on April 14.

Letters of regret were read by Secretary W. H. Spaulding from: Willie P. Atkins, Durand, Wis.; Col. Melvin Peals, Lawrence, Frank Buckner, Louisiana; H. T. Barnard, Bradford, Vt.; George D. Colburn, Roxbury; S. A. Lemfest, Wakefield; C. H. Parmenter, Oakland, Cal.; P. M. Spaulding, Berkeley, Cal.; Charles Spencer, Newport News, Va.; John Spencer, Meriden, Conn.; S. E. Stevens, Three Rivers, Mass.

Old Company G was originally composed of 50 members. Of that number 64 are known to be dead, while three have been accounted for, leaving 29 known living members. Since returning from the battlefield the veterans have scattered throughout the Union.

The comrades began to assemble at the hotel shortly after noon and while waiting for the troops to be sounded to call them to the private dining room the different "boys" were greeted as they marched into the parlor, one by one. At 1.30 a bountiful banquet was served. A merry conversation being carried on throughout.

Following the dinner an impromptu program was in order and each one present contributed his share with a war tale of the days of '62 and '63. Though the outward appearance of the comrades has changed, they told their reminiscences of experiences the same as when they met on the first reunion just 44 years ago and a more pleasing program could not have been presented.

"Kid Glove" Company
The Old Company G associates is an organization made up of the nine months' men who were in the second batch of soldiers to enlist in Company G of the Old Sixth Mass. in the Civil war.

The company was recruited by Capt. George I. Cady. There was in Lowell at the time an organization known as the Amateur Drill club and a number of the young men belonging to it enlisted with the nine months' men in Co. G.

Among them were many of the sons of the oldest and best families in the city. So large a percentage of the members of Co. G was of this caliber that the command was known as the "Kid Glove" company.

The company was mustered into service on Aug. 31, 1862, by Lieut. McLaughlin of the United States army and was immediately assigned quarters at Camp Wilson, located on the old fair grounds. The first officers of the company were: George I. Cady, captain; Sylvester E. Bradford, first lieutenant; Alfred L. Bradford, second lieutenant; and Nathan Taylor, first sergeant.

The company left for the front on Sept. 5, 1862, and until its return home and mustering out took part in the campaigns of the Army of the Potomac in South Virginia, Glendale against Persimmon, The Battle of Antietam, and at that time commanded by Gen. Fairbanks and was in Porter's Island of the first division of the Seventh corps.

The first battle in which the company took part was a lively one, known as the Battle of Antietam, fought on Sept. 17, 1862. At that time there were 200 men in the company, though it was thinned in the fall. It had few of its number lost in battle.

While at the front the company took part in the Battle of Fredericksburg, and the Battle of Chancellorsville, and was in the line at the Battle of Gettysburg, and the Battle of the Wilderness, and the Battle of Appomattox.

In 1872 the 1st division of the 6th Mass. was reorganized and the company was disbanded. The members of the company are now scattered throughout the country.

At last reports none of the Americans dared to leave. The Yaquis have declared their independence and are fighting to recover lands taken from them under the administration of Porfirio Diaz.

Orders for the embarkment of the marines were received by Col. John Pennington, commanding the fourth regiment last night and a battery of four rapid fire field guns and two automatic guns were sent aboard the Colorado. At dawn the three companies of marines with complete field equipment left their camp at the Panama-California exposition grounds and by 7 o'clock every man was aboard the Colorado. On the expedition the marines are under the command of Maj. W. N. McKelvey.

The Colorado does not take any bluejackets other than the regular members of her crew, numbering about 550 officers and men. Of these a force of about 500 men will be available for land duty.

Admiral Howard stated that the Colorado will maintain a speed of 14 knots an hour on the voyage south. At this speed she is expected to arrive at Guaymas about noon next Sunday.

THE BARTLETT SCHOOL
GRADUATING EXERCISES TO BE
HELD SATURDAY AFTERNOON—
THE GRADUATES

The graduating exercises at the Bartlett Training school will take place on Saturday afternoon, June 19, at 2.15 o'clock. As heretofore, much will be made this year of the musical side of the program—the chorus consisting of some 200 voices, being the largest the school has ever produced.

The list of graduates is as follows:
Esther Louise Blackie
Maudie Agnes Breen
Charlotte Claire Burns
Agnes Gertrude Casey
Sarah Leonora Collins
Ruth Isabelle Cook
Doris Muriel Curren
Annabell Gertrude
Anna May Grady
Blanch Lilla Harriet Gould
Gladys Elizabeth Handly
Eva Elizabeth Harrison
Mary Elizabeth Howe
Violet Rose Johnson
Mary Elizabeth Kane
Elizabeth Gertrude McCarthy
Catherine Boyd Meenan
Madeline Elizabeth Miner
Irene Mary Murphy
Anastasia Mary McMurphy
Margaret Madeline O'Connor
Elizabeth O'Neill
Edith Mae Paige
Marjorie Pearl Pratt
Florence Therese Rutledge
Mary Alberta Trainor
Hazel Mae Vaughn
Marjorie Dean Wiggins
Edith Elizabeth Wiggins
Charles Edward Bachelder
Harris Barber
Andrew Barrett
Frederic Andrew Cox
Harley Warren Crawford
William Patrick Cullen
Leroy Francis Farrell
Walter Augustine Hall
Robert Thomas Hall
Jesse Merrill Harrison
Francis Hessian
Arthur Quincy Hicks
Charles Jay Holden
John Joseph Lutzman
Albert Thomas McNeuzah
John Francis Meenan
Edward Rodgers
Thomas Sears
The public and all who are interested are invited to attend.

POST OFFICE CHANGES
MAILING DIVISION MOVED FROM
FIRST FLOOR TO FRONT OF
SECOND FLOOR IN NEW SECTION

The congested condition on the first floor of the local postoffice has been at least temporarily relieved by the removal of what is known as the "mailing division" to the recently renovated section of the building on the front of the second floor. The main floor of the office will now be exclusively used by clerks and clerks who have charge of the mail that comes from the depot to be delivered about the city.

While Postmaster Robert C. Crowley was in a room of the office he noticed that the mail could not be properly handled on such crowded conditions, securing permission from the post office department at Washington to have three mail offices on the second floor of the building made into mail rooms. The plan was approved and the work was done by the post office department.

Dr. H. LAURIN

The New York Surgeon Dentist. 253 Central Street
Open Sundays from 9 a. m. to 3 p. m. Tel. 4253—Opp. Owl Theatre—Over Tower's Corner Drug Store. The latest approved method of alleviating pain in all work.

Robertson said the condition of the lifeboats was good when the Lusitania left New York. In reply to the statement of the attorney for a relative of one of the victims that a certain lifeboat leaked so badly that all but two of the occupants were drowned, the chief carpenter replied that he was unable to say any light on this statement, but did it was possible for the hot sun to have warped the boat's sides.

Shouted "Ship Is Safe"
The evidence showed that Staff Capt. Anderson countermanded the orders Captain Turner had given previously to get the women and children into the boats. A number of witnesses testified that they got into the boats and to leave them later on orders from Capt. Anderson who was heard shouting: "The ship is safe."

Unable to Find Belts
A woman witness also told the court she was unable to find life belts. Another passenger said he helped to launch a lifeboat full of the women and children, unassisted by the crew, but the boat leaked so badly that it sank a few minutes after touching the water. Baron Mersey asked whether that was all that happened in being lowered as it was on the port side. The witness replied that if the boat bumped against the hull as it was going down he was unaware of it.

D. A. Thomas, known as the "British coal king," who was on the Lusitania was of the opinion that some members of the crew did not obey the captain's orders to attend first to the rescue of women and children, but attempted to save themselves first.

700 CIVILIANS KILLED
LONDON, June 17, 4.05 p. m.—The Central News publishes a despatch from Amsterdam saying that a traveler from Ghent, Belgium, brings a report of a revolt last Tuesday on the part of the inhabitants of Malines. German soldiers fired into the crowd, and the traveler says 700 civilians

were killed. The Amsterdam correspondent says no confirmation of this narrative has been received.

ON CONSPIRACY CHARGE
NEW YORK, June 17.—Carl H. Chandler, a detective employed by the United States government who was transferred last February from Boston to the New York district, has been charged with a conspiracy to defraud the government of a witness or been acquainted with Rae Tanzer.

EXPOSING FAKE COLLECTORS

In protecting the American public against fakes of all descriptions, our laws have made great strides of late years, but there is still room for the exercise of cautious investigation and the punishment of offenders. The Bureau of Education of the United States government has been making an exhaustive study of the educational question for some time past, especially in relation to more or less obscure schools advertised in papers and magazines, or schools for which subscriptions are solicited throughout the country, and the results of the investigation will be published broadcast in order to drive the fraudulent out of business.

Private or civic bureaus of information in leading cities are also constantly confronted with the question of fake schools or fake collectors for certain schools. From the result of their observation and the number of inquiries that come in from those who have been approached or imposed on, it is evident that fleeing the public is as frequent on the educational plea as on many others. One of the commonest forms of fraud is the soliciting of funds for the colored schools of the south, and Lowell has been imposed upon by this game as much as other centers. Every little while some colored agents go through the homes and stores of this city, collecting funds for an alleged charity, but in most cases the school for which the money is collected is non-existent, and in many instances the scheme is wholly unworthy of support.

The public should also be wary of the fake college student who is so apt to be found selling books during the summer months, and of the charity worker in religious garb. Whether the collector be in the dress of a Catholic nun or that of a Syrian priest, it will do no harm to investigate before subscribing to their cause, and it may be readily ascertained if the solicitors are genuine or impostors. It is too bad for the cause of real charity that so many fraudulent agents abuse what is sacred until all good people are naturally suspicious of strangers who ask money for almost any purpose.

Only a year ago an enterprising agent gathered together a body of young book agents in this city and sent them out over New England. Each was furnished with a dark suit in order to look like a student, and there was a carefully-rehearsed story that was meant to appeal to the credulous. So far has this form of fraud gone in Boston that the Boston Chamber of Commerce has established a bureau of information through which many innocent people are protected and which has been instrumental in exposing the worst forms of collection frauds.

In a broader sense, the Bureau of Education of the United States government found in its investigation of educational conditions in the south that for a long time money has flowed freely from this section for the support of undeserving or downright dishonest institutions. Almost every southern state has such institutions with agents working all over the country, and while the dishonest promoters of fake schemes grow fat and flourish, deserving educational institutions find it difficult to bring their needs to the attention of the country. The government will now strive to weed out the unworthy and fake schemes and to educate the public as to the need for greater caution in all relating to subscriptions towards distant schools or directly to alleged students of colleges and seminaries.

PUBLIC MARKETS

From the tone of the public press it is apparent that the first enthusiasm with which the public market idea was greeted in this part of the country has died down, nevertheless it is by no means a dead issue. References made to it favor more of business than formerly, and the limitations of this form of public service are readily acknowledged. Still, reports from centres where public markets have been established are contradictory, some asserting that they have proved a veritable boon, some declaring that they have been unqualified failures.

It is noteworthy in this connection that the city planning commission of Boston—an energetic and active body—has just recommended that four new experimental markets be established in that city, in order to bring about a reduction in the cost of living. Last summer, Mayor Curley opened two such markets, and was apparently satisfied with the result, and the suggested departure is only a continuation of the system. It is not proposed to go into it on an elaborate scale; the new suggestion states that suitable locations should be secured, if possible, without cost or at a nominal cost, and that the markets should be kept open from July 1 to Dec. 1.

The committee which made the investigation of Boston conditions reported matters that are equally applicable to this city. It was stated, for instance, that with the exception of comparatively few commodities, practically the whole food supply of New England comes from outside New England, and that the New England products in our markets are almost negligible. This is a condition that should be remedied, though whether a public market system would come to the rescue is problematical. It is largely a question of transportation and the lack of storage facilities.

Still, it seems peculiar to say the least that the farmers of Tewksbury, Tyngsboro and other parts are forced to take their commodities into Boston, and that these commodities are for the most part shipped out of New England. To a very slight extent the public market would make it possible for the farmers and the consumers to get together, but the larger problems would still remain unsolved. Only those who would put up with the inconveniences and primitive systems of a public market would profit by its establishment, and in time when the novelty wears off, it would in all probability die from disease.

So far as this city is concerned, the authorities do not appear willing that we should even try the public market experiment. The legislature passed a bill authorizing its establishment and the people of Lowell voted in favor, but the matter has never come up officially. If it be deemed advisable to try the scheme, as in Boston, it would not be necessary to pay out any great sum for a temporary trial, and a few months would suffice to show if it would be beneficial to the city or the contrary. All New England will fol-

low the Boston experiment with interest.

A LESSON IN METHOD

The humiliating spectacle given at city hall in connection with everything relating to the erection of a new bridge at Pawtucketville is a sorry lesson on the methods followed in municipal business of late. Without any attempt to respect the spirit or letter of the city charter or to observe the ordinary rudiments of business procedure, a stranger to this city was chosen enthusiastically to direct a bridge job amounting to \$50,000 or over, though there was no competition and no safeguard for the public interest. It is not strange that when attention was called to the peculiar proceeding, some of the commissioners should have a change of front, seeing possibilities in the case that they either did not see or would not see at the start.

The erection of a bridge is a big proceeding, but it is not necessarily anything over which we should have such ridiculous misunderstandings and round-about explanations. There is one definite, open and honest way to transact the business of the city; had that way been followed, there would have been no trouble and no public criticism. That way is the way prescribed by the charter—the way of competition, of full publicity and of open dealing. Had this way been chosen, we should not have some commissioners striving to justify an untenable course and others confessing that they acted hastily and unwisely. Our municipal heads cannot do better than to cancel all engagements and obligations made and start on the bridge matter with open minds and in accordance with good business methods.

It is perhaps well for the Lowell public that the original plans for the erection of the bridge were not as feasible as they looked. It will now be necessary to present definite plans to the war department, to the Locks and Canals company and to the Bay State railroad, and it will be just as necessary to take no step that is not dictated by prudence and provided for by the charter. A mistake has been made, luckily not a costly one, and profiting by that mistake, it will be possible for our commissioners to arrange for a new bridge in Pawtucketville while keeping the demands of economy and the restrictions that govern all municipal undertakings well in mind. Much as the people of Pawtucketville desire a new bridge, they do not desire a bridge in the construction of which any irregularity or lack of good business should enter. It is to be hoped that in all connected with the undertaking for the future, the commissioners will put the interests of the public above their own wishes and erect a suitable bridge in accordance with the charter and at the lowest possible cost.

A PEACE ARMY

Recent utterances of Henry Cabot Lodge on the subject of international peace or military preparedness, as the contrary. All New England will fol-

lowed his views somewhat since he first came out in support of his belligerent son-in-law, Mr. Gardner. He now contends, and reasonably, that it is futile to propose a cessation of world wars by the elimination of armaments, and for a democracy like ours to go unarmored is to invite the open hostility of other powers. He believes that to ensure peace here we should have adequate armament, but created on the understanding that it is for the preservation of our peace only and not for aggression. In other words, he is opposed to a continuation of our present policy, with a navy increased enough to meet modern requirements.

In the main, this is also the view of ex-President Taft who has expressed the conviction that this country could never become militarist in sentiment. Mr. Taft holds that it is not for America to indulge in peace dreams while the rest of the world refuses to see things in the same light, but says also that we must keep clear of the complexities of the world powers and maintain a navy large enough to afford a strong protection, should we be menaced by any foe from without. Neither commentator inclined to the twenty-fifth century idealism of our ex-secretary of state, but both sided clear of the shoals of militarism on which the Jungs would steer the ship of state. The entire country will agree with Messrs. Lodge and Taft that it would be foolish for this country to believe too implicitly in peace, to change its national policy during the European war or to be satisfied with anything less than an efficient and competent army and navy, according to American ideals and traditions.

With all due respect for the patriotism of our leading men of business, it must be confessed that the agitation for increased armament died down in proportion as war orders came in from the belligerents. The militarists may not have been over-zealous, but the views of the eminent statesmen as quoted sound like the disinterested views of wise and patriotic Americans.

CHICAGO STRIKE

The ending of the Chicago strike

and the submission of the questions at issue to arbitration is certainly gratifying, but the wonder is that at this age and after long experience in all parts of the country, such a strike should be necessary. In all relating to the public, as in street car difficulties, there are side issues involved that make it unfortunate, should a protracted trouble ensue. It would seem that had the conferences which brought about arbitration been held previously, the strike could have been averted, and even had it dragged on for months, it must eventually have been brought to a close by some agreement. Why, then, should it be necessary that the rights of the public be impaired, the transportation of the city injured, perhaps permanently, the bitterness of class struggles engendered and other evils stirred up by a strife that is entirely avoidable? There is something childish, if it were not tragic in its possibilities, in the sight of men playing at a game which is as dangerous as it is needless. Why, in all such difficulties as that of Chicago, should not arbitration come first and the strike last, if it must come at all?

AERIAL FLIGHTS

England lost forty lives as a result of two recent Zeppelin raids and at last the situation is beginning to look serious. A speaker in the house of commons a few days ago urged a marked increase in airship protection, stating that very probably a serious raid on London would be made in the near future. He was assured by H. J. Tennant, under-secretary for war, that bigger aeroplanes were under construction and that the number of machines have been increased ten-fold since the beginning of the war. Though reports are carefully censored, it is apparent that the incendiary bombs used recently by the Zeppelins did grave damage, even though only a few dirigibles were used. England may well prepare for a concerted attack of a large number, calculated to do grave injury to life and property.

SEEN AND HEARD

Nobody cares whether a man is self-made. It's what he has been made that counts.

Lots of men who boast of their cold tub in the morning kick like steers when a woman leaves the front door of the car open in zero weather.

That French plan of fastening revolvers in the hands of dogs and firing them when the mouth opens to bark at Germans is good; but imagine a hundred dogs biting at fleas and shooting at the same time!

The Bay State street railway has just issued its yearly folder entitled "Trolley Trips." Besides some handsome views and cuts of things historical and notable, much valuable information is given as to trips on the Bay State and connecting lines.

HAD SOME PIPE

A long time ago, about 40 years to be exact, there lived a man in this city who also lived for a time in Nashua, N. H. who made it a rule not to smoke more than one pipeful of tobacco each day. In spite of this fact he probably smoked more every 24 hours than many other men who were accustomed to filling their pipes several times. Every morning when this particular man went to work it was his habit to fill and light his pipe, and as regularly when he went to bed at night, he

shook out whatever ashes remained so as to have the bowl ready for use when the next morning came round. The man's name was Joel Hamilton, and the reason he was able to smoke in this fashion was revealed to the man about town yesterday when Joel's brother, George Hamilton, of 9 Cedar street, this city, called and showed him the pipe. It had a huge meerschaum bowl, so huge that the average sized five cent plug of tobacco just filled it. When the man who was smoking it became tired of the taste and desired a rest he used to put it in his pocket, or lay it down somewhere, and when he was ready for another smoke he did not have to fill it up. The pipe has been in a trunk ever since his owner died, 40 years ago this month, and was taken out by his brother Sunday for the first time since June, 1875. It had formerly a rich cherry color, Mr. Hamilton said, but had faded greatly during its long period of inactivity. However, it would probably not take very long to get it colored again.—Lawrence Telegram.

NOT A FLIRT SIGN

If you are anxious, dear sir, of avoiding every semblance of being a flirt, better not drive an automobile or do the arm-extension stunt for the driver when rounding corners. A couple of local women, at least, thought

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists with a guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

A man was flirting with them yesterday afternoon, for this reason. The young women were at the corner of Central and Market streets when an automobile turned into Market street from Central. As is customary, when the signal is to the left, the one riding in the left hand side of the car extends the hand as the signal. The sedate looking man beside the chauffeur did this, and the women saw him. Instantly one smiled and waved her hand back. The man in the car paid not the slightest attention to her, however, although holding out his arm in her direction until he had passed. "I wonder what that man was holding out his hand to us for?" the woman was heard to ask the other. "I thought he was trying to flirt with me and I waved my hand at him, but he never noticed me. I did not hear the reply, but it is to be hoped for the reputation of the man, if for no more, that the other woman was sufficiently informed as to the customs of the times to enlighten her as to the reason for the extended arm.

THE CALL TO LIFE

There's a broad highway with an open

And it leads far out from the swales

So it's off with the old,

And on with the new,

In the land of sky and the wide glad

There's a friendly kiss in the tossing

There are bells a-chime on the witch-

So it's up and away

On the blue, blue sky,

In our race for life up its rocky

There's peace of love in the magic

With the hay and the sun and the

So it's off with the old,

And it's on with the new,

Where the trumpeting call to life is

Oh, it's up and away where the moun-

By the broad highroad of the sky

And it's off with the old,

With the heart of a child where

There's life to spare.

—Boston Transcript.

EDITORIAL COMMENT

THE END NOT NEAR

Those who have thought the war in Europe to be nearing an end must have had a feeling of disappointment on reading the announcement that preparations are now in progress for another German offensive. Large numbers of German women are already sewing new furs for the army, while those used last winter are being renovated. Germany's efforts for some time past have been concentrated upon preparation for what will follow the efforts of the summer and autumn.—Lynn Item.

GREEK SENTIMENT

Greek elections make it seem very much as if popular sentiment were in favor of entering the war on the side of the allies. That would mean immediate assistance for the forces which are aiming at the capture of Constantinople and would make the fate of Turkey all the more sure and speedy.—Fitchburg Sentinel.

HUNTING VICE

Anthony Comstock, who has been hunting vice as a post-office inspector since 1872, it is reported will quit by request of his superior officers at the end of June. Mr. Comstock no doubt did a lot of good in his time, but he has made a lot of enemies, a number of whom are now people interested in vice. A man who is looking for evil all the time as a professional is bound to find it oftentimes where there is in fact little or no evil at all.—Dorchester Enterprise.

IS HE DONE?

One of the distinguished Romans, according to the school books, on leaving the ancient world of the world, said: "I go, but I return." It is not within human probability that the former secretary of state will ever return to Washington, from which city he went yesterday in any public capacity.—Providence News.

THE AMERICAN VIEW

"The note of February 10 is the best and most unimpeachable statement yet made of the American view. It warned Germany that, so far as the United States and its citizens and vessels were concerned, German operations in the 'war zone' about Great Britain and Ireland would have to be conducted in accordance with the recognized rules of warfare at sea. It did not suggest in any way that the United States might insist on Germany observing the recognized rules of warfare at sea in attacking merchant vessels belonging to other neutral nations or to enemy nations on which no American citizens were passengers."—New York Tribune.

DROWNING VICTIM FOUND

Body of William Crowley taken from Penobscot River near Bucksport, Me.

Bucksport, Me., June 15.—The body of William Crowley was found yesterday on the shore of the Penobscot river at Bucksport Centre.

Crowley was one of three young Bangor men believed to have been drowned from a motor boat on the night of May 22, when bound from Bangor on a fishing trip.

Crowley was 24 years old, unmarried, a son of Mr. and Mrs. Isaac Crowley, and was a sawmill employee.

The bodies of Clarence E. Wiley and Harry N. Freeman have not been found.

SIR THOMAS LIPTON DECORATED

NISH, Serbia, June 15.—Sir Thomas Lipton has been made a grand commander of the Order of Saint Sava. This is the highest Serbian decoration ever conferred on a foreigner. The order is granted for services in education, science, art, or literature.

HAT BLEACHERY

Ladies' and Gents' straw, leghorn and Panama hats cleaned or dyed and reblocked.

E. H. SEVERY, Inc., 133 MIDDLE ST., Open Mon. and Sat. evenings.

ATTACK SUBMARINE WARFARE. German submarine war against defenseless merchant vessels and non-combatants. The resolution also conveys sympathy to the relatives of all those who perished on the Lusitania.

We Have Made Sweeping Reductions

In the prices of several hundred Suits, and you can buy today the best clothing made in America at lower prices than we have ever sold goods for in June.

THE CATHOLIC FEDERATION

Meeting at A. O. H. Hall Addressed by Rev. F. J. Mullin, Pres. Chas. T. Daly of Medford and Others

Hibernian hall was crowded last evening when members of the order and others gathered to hear addresses by the officers of the Catholic Federation of North Middlesex. The speakers were: Rev. Francis J. Mullin, chaplain; Chas. T. Daly of West Medford, president; Thomas M. Nolan of Somerville and James O'Sullivan of Lowell, John P. Sheehan, president of the central council, presided.

Rev. Fr. Mullin

Rev. Francis J. Mullin said that the American federation of Catholic societies is an organization of Catholic laymen for the purpose of impressing on the public mind Christian principles, to the end that these principles may become the basis of all moral, civil, social, and business dealings. He especially referred to federation campaign, against divorce and the necessity of true Christian legislation to protect the sanctity of marriage; and against the anti-Christian principles of socialism, which will make for the ruin of the nation.

The speaker went on to show that federation in its mission of spreading sound Christian principles for the right formation of the public opinion, must meet the attacks of a foul press that is carrying on a propaganda against the Catholic church and the Catholic citizen, that breathes insane hatred.

The true American patriot upholds with might and main the constitutionally guaranteed liberty and equality of every fellow citizen. The true American patriot holds sacred the interest not only of the nation but of its lowliest citizen.

The speaker referred to the faculty of individual action in the forming of public opinion. Federation would unite all as a great moral force for the spread of Christian principles, to uphold justice and truth, to implant in social and public life moral and civic virtues in the Christian sense of the word.

In federation the Catholic layman co-operates with all loyal citizens, and with all civil and social energies which work for truth and virtue.

President Charles T. Daly explained the aims and objects of the Federation, stating that its workings are all in the open, its principles those which every good citizen can conscientiously support.

The federation has stood upon the principle that the Catholic citizen is the equal of any and all other elements of our citizenship; that he is no more than and no less than any other American; and that he has an individual right and should be given the same opportunity to aspire to fill public and private positions of responsibility.

The history of the national federation covers a period of nearly fifteen years. During this time this wonderful organization, numbering over 25,000 societies and parishes, and comprising at present over 3,000,000 persons in the nation, has been the only really satisfactory medium through which to bring about unity of thought and action among Catholics of this country. The federation has also been largely instrumental in eliminating personal organization and racial jealousies and differences.

Not a Political Society

Throughout its history as a national and archdiocesan organization the federation has acted for a

principle regardless of personal ambitions and other considerations that might interfere with the religious and patriotic objects which it is seeking to accomplish. Partisan politics have been religiously avoided.

Federation has not been and by virtue of its constitution cannot be, a political organization. Art. 15 of the national constitution reads: "Partisan politics cannot be discussed in any meetings or conventions of the Federation, nor by any subordinate body of the Federation." The national constitution reads: "Partisan politics cannot be discussed in any meetings or conventions of the Federation, nor by any subordinate body of the Federation." The national constitution reads: "Partisan politics cannot be discussed in any meetings or conventions of the Federation, nor by any subordinate body of the Federation."

Through the Federation, Catholic opinion has been expressed intelligently and in a proper manner. Thus expression is made effective. It has been concentrated to accomplish results and has been disciplined and guided for the purpose of gaining victories over antagonistic influences who disseminate false charges and who make these charges the basis of action that would deny to Catholic citizens their rights under the constitution.

This method of expressing Catholic opinion through Federation is particularly appropriate in this age when centralization and combination characterize the conduct of business as well as all great industrial, economic, social and civic movements.

The Catholic Federation alone meets the needs of the Catholics in this state and country today of a force which will effectively influence public opinion. It is also the strongest organization in existence in this state which is exposing and working against those evils which threaten the prosperity and life of the republic.

Thomas M. Nolan of Somerville made a brief address.

James O'Sullivan, one of the pioneer Hibernians of Lowell, was the last speaker. He said the officers should be encouraged in their work, that this is not a political organization, but one for the purpose of advancing their civil, social and religious interests; that it asks no favors or privileges, but openly proclaims what is just and fair.

The committee in charge consisted of John P. Sheehan, Martin McCarthy, J. Joseph McOsker, Daniel P. Reilly, John McVerney, Patrick J. McCann and John J. Kenny.

BIDS FOR LIGHT STATION
WASHINGTON, June 15.—The department of commerce announced today that bids for the construction of the Navassa Island light station, West Indies, shortly would be invited.

The station will be located on the southern side of the island, on its high end point about 250 feet above sea level. The light will be of 50,000 candlepower, with a double white flash every 30 seconds. The range, due to the height of the light will be 27 nautical miles and to the observer's eye 15 miles above sea level.

CIVIL SERVICE COMMISSION
LOS ANGELES, Cal., June 15.—The election of officers and the selection of the place of next meeting were two of the principal topics for discussion today at the eighth national assembly of civil service commissioners.

EMBEZZLEMENT CHARGED
PARIS, June 15, 1915. —Mr. Arthur Geissler, a German, director of one of the principal hotels in Paris, now as the Japanese ambulance, has been arrested on a charge of embezzlement. Geissler was interned when the war began and the hotel sequestered. When official trustees examined the books it is alleged, they found entries altered to conceal defalcations amounting to \$140,000.

TARIFF INCREASES IN TURKEY
WASHINGTON, June 15.—Tariff increases amounting to from 15 to 30 per cent. ad valorem on practically all articles imported into Turkey went into effect June 2 according to cable advices to the state department from the American consul general at Constantinople.

WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of Resinol Ointment and Resinol Soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol Ointment and Resinol Soap can be bought at any druggist's and are not at all expensive.

C. F. KEYES - - - - - Auctioneer
OFFICE, OLD B. & M. DEPOT, COMMISSION AND SALES
ROOMS GREEN ST. TELEPHONE 1485.

Tomorrow Afternoon at 3 O'Clock

A 2 1/2-STORY COTTAGE HOUSE AND ABOUT 3300 SQUARE FEET OF LAND AT NO. 19 BLODGETT, CORNER OF INLAND STREET

This cottage consists of six rooms, unfinished attic, pantry, bath, gas, hot and cold water, has a good dry cellar and rents for \$12 per month. The lot is a corner one, having a frontage of about 55 feet on Blodgett street and about 60 feet on Inland, making an area of about 3300 square feet. It is well graded and there is plenty of yard room.

Now, Mr. Home Seeker, here is a good opportunity for you; a nice cottage house, plenty of yard room, in a good location; quiet neighborhood, one minute's walk to Chelmsford street car, and within 10 minutes' walk to several industries.

Terms: \$200 must be secured to the auctioneer as soon as struck off. From 50 to 50 per cent. can remain on mortgage at 5 per cent. Make all inquiries of the auctioneer who has full charge.

MORTGAGEE'S SALE OF REAL ESTATE BY PUBLIC AUCTION, TOMORROW AFTERNOON, IN TWO LOTS, BEGINNING PROMPTLY AT 2.30 O'CLOCK

With lot one. On the premises, Kenwood, (Dracut), Mass. A two and one-half story house and 2444 square feet of land known as the "Selzan Place."

TRY THIS FOR REMOVING HAIRS

Hairs on the face, arms or neck can be very easily and safely removed by a simple solution that dissolves them entirely, leaving the skin soft and smooth as velvet. Get an ounce of Resinol Ointment and Resinol Soap, apply with finger tips, keeping the hairs moist for a few minutes, you will soon see them shrivel and dissolve away. Any discolored skin, such as freckles, is a little expensive, but one of the best you will ever need, as the hairs very rarely return after this first application.

FURNITURE SALE AT KEYES' COMMISSION ROOMS, OLD B. & M. DEPOT, GREEN ST., TUESDAY AFTERNOON AT 2 O'CLOCK

Goods consist of round oak dining table, fumed oak dining table, two gas lamps, black walnut bookcase, oak sectional bookcase, hair mattresses, cotton mattresses, drawers, commodes, four brass beds with National springs, five iron beds with National springs, bathroom rug, leather couch, ice cream freezer, two ice cream cabinets, counters, stools, five restaurant tables, oak hall tree, mahogany writing desk, toilet sets, ingrain carpet, straw matting, trunk, two leather rockers, black walnut sideboard, mirrors, chairs, rockers and the balance of the porch rockers.

Don't forget the sale is TUESDAY afternoon instead of Thursday for the summer. Goods are now on exhibition.

Knights of Columbus Plan Trip to Nantasket Beach

Bishop Delany assembly, fourth degree, K. of C., held a regular meeting last evening at which considerable business was transacted. The assembly voted to conduct an outing to be held at Nantasket beach about the middle of July. The party will leave on a special train for Boston in the forenoon and after a sail down the harbor, dinner will be served at one of the leading hotels and the remainder of the day devoted to a general good time, returning by boat and rail in the evening. A committee was appointed to complete arrangements for the event. All members of Lowell council and their ladies will be invited to make it one big day for the Knights of Columbus of Lowell.

STEAMER ISIS PURCHASED

TO BE USED BY GOVERNMENT FOR COURT AND GEODETIC SURVEY—REPLACES ENDEAVOR

WASHINGTON, June 15.—The steamer Isis has been purchased by the government for the use of the coast and geodetic survey in its off-shore hydrographic work along the Atlantic coast. The vessel cost a little under \$30,000 and will replace the steamer Endeavor, built during the Civil war.

The new vessel is a twin screw steamer of steel construction, 150.4 feet long, beam 24.5 feet, draft 11.6 feet and depth 13.5 feet. The gross tonnage of the boat is 377 and the net tonnage 258. There are twin triple expansion engines of 2000 horsepower, and the cruising speed on natural draft is 12 knots, under forced draft the vessel can make 15 to 17 knots.

TURCOTTE LIQUOR CASE

HEARING BEFORE THE LICENSE BOARD THIS FORENOON—NO DECISION GIVEN

Louis P. Turcotte & Co., holders of a first class license on Western street, were granted a hearing before the license commission this forenoon on a complaint made by Supt. Welch alleging a violation of the terms of the license in that Henry L. Turcotte sold a half pint of whiskey to Anthony Clark last Saturday night. William A. Hogan appeared for the defense and Supt. Welch conducted the case for the government.

Anthony Clark, a reserve officer of the police department, informed the board that he and two young men whom he did not know, went to Turcotte's saloon about 9 o'clock Saturday night and bought one drink of beer. He said one of his companions called a bartender one side and asked for a half-pint of whiskey. The latter went up a stairway and returned with the whiskey and placed it in his inside vest pocket, said the witness.

Clark said he then stepped back and gave the signal for the liquor inspectors to appear. The scene, and inspectors Bigelow and Murphy responded immediately. Henry L. Turcotte denied making the sale and his father, Louis P., stated that he had given all his employees strict orders not to violate the law by selling liquor in bottles, he said.

The defense contended that no sale was made. Employees of the saloon testified that Clark and the two young men entered the room and asked for a drink. The two unknown men, it is said, were not served, as it is alleged they were already in an intoxicated condition. The board decided to consider the matter and give a decision later.

MODERN DENTISTRY

You can now possess good teeth and enjoy all the life-time benefits they give—and without pain or unnecessary suffering. You know that defective teeth endanger health and destroy beauty, even "front teeth" without which there can be no happiness. The average human life has been prolonged many years by modern dentistry. Painless operations on the teeth, as perhaps you well know from your own experience, depend largely on the man who uses the instrument. If he is careless, irritable or unsympathetic, he will inflict pain. See about your teeth today.

Paper Urges Lloyd George to Have England Supply All Her Own Needs in War Material

LONDON, June 15, 6.25 a. m.—David Lloyd George, minister of munitions, is urged by the press in an editorial to make every effort to place the munitions industry on a basis whereby England can supply all her own needs in war material.

AGAINST USE OF LIQUOR

CHICAGO, June 15.—The following telegram from Anna Gordon, president of the National Woman's Christian Temperance union, to Josephus Daniels, secretary of the navy, was sent today:

"The National Woman's Christian Temperance union, with 500,000 members, believes you will exert all possible influence against the use of alcoholic liquor in the christening of the Arizona."

TO VOTE ON SUFFRAGE

NEW YORK, June 15.—Equal suffrage and other legislation affecting women figured prominently this year in the discussions of a large majority of the state legislatures. The sessions of most of them have now come to a close and a summary of their activities discloses that the question of woman suffrage came up for deliberation in 28 states and that divorce laws, mothers' pensions, minimum wage, eugenic marriage, and other subjects relating to women were considered in 28 states.

The legislatures of seven states adopted resolutions whereby a constitutional amendment giving women equal suffrage rights with men will be submitted to the people at the fall elections either this or next year. They are Massachusetts, New Jersey, New York and Pennsylvania in 1915; Iowa, South Dakota and West Virginia in 1916.

California adopted a resolution declaring that woman suffrage, in that state had been an unqualified success. Alabama will consider the question at an adjourned session to begin July 7. In 11 states woman suffrage measures met defeat—Connecticut, Delaware, Florida, Indiana, Michigan, Nevada, North Carolina, North Dakota, Oklahoma, Texas and Vermont.

Pensions for mothers came up for consideration in 15 states. In S. Kansas, Montana, Nevada, New Hampshire, New York Oklahoma, Tennessee and Wyoming, legislation for this purpose was enacted for the first time. In two Texas and West Virginia, mothers' pension measures were killed. In the rest the present laws were amended or amplified.

California, Colorado, Connecticut, North Carolina, Nevada and West Virginia acted on divorce laws. The senate of Indiana passed a eugenic marriage measure, but it was defeated in the house. Legislation to promote healthy marriages and check the social evil was enacted in Vermont.

Labor laws for women were enacted in Kansas, Maine, Massachusetts and Wyoming. Maine went into her statutes a 54-hours-a-week law for women and boys under 16 working in mills, factories and laundries. It stipulates that such employees shall not work more than nine hours a day unless for the sole purpose of permitting a shorter schedule for one day in the week.

Massachusetts legislated to prohibit the working of women and children overtime for the purpose of making up for the time lost on a legal holiday. Wyoming enacted for her working women an eight-hour day; and both maximum hour and minimum wage laws for women were passed by Kansas. A bill providing for a minimum wage for women in Michigan was killed in committee.

An attempt in California to enact a law to forbid women to shake dice for money or prizes was defeated. So was a bill providing for women jurors.

ARE GOING TO ITALY

Two Lowell Residents Will Run the Gauntlet on Submarines—Will Sail Next Sunday

Mr. Ferdinando D'Arezzo with his daughter Adelina of this city, will sail for Italy on Steamship Canopic of the White Star Line next Sunday at 12.30 from Boston. The purpose of the visit to Italy is, says Mr. D'Arezzo, a brother there who will be ordained a priest during the month of July next, and in the meantime will dispose of the property they own there. Mr. and Mrs. D'Arezzo will return to America during the month of October next.

Fifteen Men Arrested During Raid of "Possum Hunters"

ROCKPORT, Ky., June 15.—Fifteen prominent citizens of Rockport, it became known today, were arrested yesterday charged with first degree murder in connection with the killing of Harrison Maddox during the raid of "possum hunters" on the negro section of this place April 29 last.

GREEKS SURPRISE GERMANY

Organ of Army, Discussing Elections, Refers to Greece as "The Next Enemy"

BERLIN, via London, June 15.—The news of the complete victory in the Greek general elections of the party of ex-Premier Venizelos, which is in favor of Greek participation in the war on the side of the allies, has proved an unpleasant surprise to the newspapers of Germany.

The Kreuz Zeitung publishes a headline over the Athens election despatches reading: "The Next Enemy," and says M. Venizelos will be able to carry through against all other influences his policy of joining with the quadruple entente. The paper questions whether Premier Asquith did not over-estimate the importance of Greek assistance.

The other newspapers generally are of the opinion that the success of the allies in the Dardanelles; Russian defeats and the entrance of Italy will deter Greece.

COLOGNE, June 15, via London, 12.02 p. m.—The Cologne Gazette has published a despatch from Berlin concerning the outcome of the recent general elections in Greece in which doubt is expressed as to whether M. Venizelos would be unconditionally in favor of armed intervention by Greece on the side of the allies, even in case King Constantine should again entrust him with the conduct of affairs.

It is rather to be assumed, the Berlin despatch goes on to say, that M. Venizelos is following the developments in the Dardanelles very closely; that he has noticed England's admission that progress there is possible only with great sacrifices and that the latest attempt to conquer Bulgaria and Rumania to cooperate with the allies have failed. Conditions in this quarter of the world have changed since last spring, the correspondent observes.

BERLIN, via London, June 15, 12.10 P. m.—Information reaching Berlin from Sofia is to the effect that Bulgaria in her last communication to the powers in the matter of her participation in the war, refers to her expectation, as part of her reward, of the restitution of the territory she ceded to Rumania and of portions of Greece and Serbian Macedonia.

Bulgaria is described as demanding precise details as to what she will be given, and the understanding here is that she is endeavoring to avoid a definite answer to the allies, thus leaving the way open for further negotiation.

JITNEY BUS WRECKED

DEPHAM, June 15.—In trying to avoid an automobile approaching from the opposite direction, a jitney bus operating between this town and Waltham crashed into a tree on Washington street, near Broad street, yesterday afternoon, wrecking itself and giving the four passengers a severe shaking up. One man, who refused to give his name, was cut about the face by the broken glass from the windshield.

The bus, a five-passenger car, was being operated by William H. Tobin of 12 Park street, Norwood. It was running on the wrong side of the road at the time of the accident.

FOR THE DRACUT MILLS

THE MERRIMACK MILLS HAS RECEIVED RUSH ORDER FOR BLANKETS

It was learned from Supt. Morrison this morning that the Merrimack Woolen Co., Dracut, Mass., has received a small blanket order which will keep all the machinery busy days for the next few weeks. The order has to be finished by July 15.

ON TEACHING OBEDIENCE

SOMETIMES A LITTLE CHILD RULES THE HOUSEHOLD—BEGIN EARLY

It is by no means an uncommon thing to see a little child rule the household. The tiny infant in its mother's arms goes into a fit of rage because of a little delay in feeding him; or when something he wants is denied him, he shrieks, kicks and throws his mother, who simply picks him up and finally calms him by yielding to his demand, when he should then and there have such a lesson or repression taught him as will leave its impress upon his mind. The mother who neglects this is not doing her duty toward her child. The infant, though he may be too young to speak—if old enough to raise his fist and strike a blow, is old enough to be disciplined for being in a passion, and no concession should be made to him while his tantrums last. The welfare of the child demands that the very first manifestation of a violent temper be vigorously met by the mother with the determination to subdue it at the very outset. To neglect this is to endanger its future. Many a sorrowful tragedy has its beginning on the mother's lap. The young mother who simply pities and indulges him, who treats parental authority with later respect, a like force toward his teachers, and will chafe under the restraints of the laws of the land when he grows up. A thoroughly obedient child is a joy and blessing to his home; and she who guides her children into the way of acquiring this lovely trait, has the sweet consciousness of having performed a noble life work. Obedient children are the brightest jewels in the crown of motherhood.

MURDER CHARGE IN POLICE COURT MAY GET CHILD

Five young women, four of whom were arrested last night as objectionable characters, were in the local court this forenoon. The presence of the female defendants was also responsible for an exceedingly large attendance that filled every available chair in the court room.

Ethel Carroll, Rose Groves and Ruth Roland were arrested by Special Officer Clark and Patrolmen Clark and Cullen and booked for misbehavior. Attorney George F. Toye appearing for the trio, pleaded not guilty for the Roland girl and was granted a continuance until Monday. Pleas of guilty were entered by the other two. Special Officer Clark testified that the two girls had been behaving badly for some time. He had warned them, he said, at dances and other places to keep off the street. He said, however, that both had good homes in this city. Lawyer Toye asked for a suspended sentence in each case on condition that the two girls remain away from each other and lead a better life. Judge Enright ordered each sentenced to the Women's reformatory at Sherborn and suspended the execution of the sentence for one year.

Albert Lemoline and Dorothy Richards pleaded not guilty to a statutory offense and had their cases continued until Monday, each being held in \$300 surety.

Albert Medina was also charged with a statutory offense and was sentenced to three months in the house of correction. He appealed.

The fifth woman made her fourth appearance for drunkenness and was sentenced to the house of correction for five months. She has been given two opportunities within the past two weeks to leave Lowell and abstain from using intoxicants but was arrested last night for the same offense.

Albert Blais, for nonsupport of his wife, was placed on probation for six months. Frank White, who was found guilty Monday of the larceny of a coat and vest and three razors from Coastline Thomas of the Merrimack hotel, and of a pair of trousers and a hat from William G. Greiner of Worthen street, was given a suspended sentence to the Massachusetts reformatory.

Probation Officer Slattery learned that the defendant has a widowed mother in Central Falls, R. I. Two drunken offenders were given short jail sentences.

HIS HAND INJURED

The ambulance was called to the United States Cartridge Co. this forenoon where John Donahue had the index finger of his right hand injured. He was removed to St. John's hospital.

O'Sullivan Says:

Here's an opportunity for 156 wise ones—

ACROSS FROM CITY HALL

Japanese Reporter Says Public is With Mrs. Eills

BOSTON, June 15.—The Japanese people believe that Mrs. Harriet A. Eills will eventually regain her little daughter, Olga, the 9-year-old principal in the sensational Eills kidnapping case which not long ago set lawyers to studying dusty tomes of international cases and stirred up ancient treaty relations so that two men were sent around the world in an effort to straighten matters out and recover for Mrs. Eills her little daughter.

That is the opinion of Osamu Terada, a Japanese reporter, editor and medical student, who came to Boston yesterday. According to the Japanese papers, which he receives regularly, the case is now pending in the Japanese superior court. A provisional guardian has been appointed for little Olga and public interest is running high on the case and entirely in sympathy with the mother.

Osamu Terada, who lives at 559 Heath street, Chestnut Hill, has been a reporter, editor, student and numerous other things during the last 10 years. Medicine and sciences are his professional occupations. Journalism is his avocation and favorite hobby.

At present he is a third-year student and one of the leaders in his class at Harvard Medical school. He is also the correspondent for the Tokio Medical Association, the American Medical association in Chicago, and the Osaka Daily News, which was the paper where the Japanese reporter "broke into the game" more than 10 years ago.

ANOTHER PAWTUCKET BRIDGE CONFERENCE

Engineer Denman's Ultimatum—Believes Bridge Can be Built for Less Than \$75,000

Engineer Walter W. Denman says that unless authorization is granted him to begin work on the proposed concrete bridge at Pawtucket falls within one week, he will wash his hands of all responsibility as to the cost and time of completion. Unless the work is started right away he would cancel his guarantee to do the work within the estimate, if done on the basis of city work which means the employment of "citizens only."

A statement to this effect was made by Mr. Denman at a conference held in the mayor's reception room at city hall this forenoon. Engineer Denman represents the Luten Engineering company of Springfield, and Mr. Denman allows that when it comes to concrete bridges there is no greater authority in the world than Mr. Luten, head of the Luten Engineering company.

The conference was attended by all members of the municipal council, off and on, but no action was taken and the bridge question remains today what it was in the beginning. It came as a surprise to the surprise to the mayor and others to learn that the plans as prepared by the Luten Engineering company, had not been approved by the Locks & Canals, though City Engineer Kearney had stated that "Mr. Mills of the Locks & Canals had said that all his company would expect would be the same size water way as at present, and the plans, the engineer stated, would not affect the size of the water way. It was decided, however, that there should be an agreement in writing between the Locks & Canals and the city Engineer Kearney was instructed to look after the matter.

Engineer Denman said it had been made to appear that he had been granted the contract for the building of the bridge and he said he would like to see the contract to that impression. The Luten Engineering company, whose representative Mr. Denman is, will supply the reinforced steel and will oversee the construction—perhaps. But just how Mr. Denman got it into his wise little head that the papers had made it appear that his company had been granted the contract for the construction of the bridge we are at a loss to know. It has been stated in the Sun, that sometime again, that if the Luten Engineering company is let in on the job, Mr. Denman will be the supervising engineer; that all help shall be hired by Commissioner Morse and freed by him on recommendation of Mr. Denman, and that Mr. Denman shall supply two foremen or overseers over whom Mr. Morse will have no control.

Mr. Denman stated today that he was taking a chance on the estimate and guarantee, but he believed, he said, if allowed to start at once he could build the bridge for less than \$75,000, though \$50,000 is the estimate.

City Engineer's Office
Mayor Murphy intimated that the engineer's office was responsible for the delay in bridge proceedings. He had understood that the Locks & Canals had approved the plans and he thought all details should be attended to by the engineer's office.

"That is just what I say," Lowell never had an engineer who could do this work," said Mr. Morse.

"Have you had any agreement with the Locks & Canals company in this matter?" asked the mayor, addressing City Engineer Kearney.

Mr. Kearney—"I was not asked to get an agreement."

Mr. Morse—"Were you told to go and see Engineer Mills?"

Mr. Kearney—"Yes, I saw him and talked with him, but I did not ask for any signed papers."

about the water area and he said all

his company would ask was that the water area remain the same."

Mayor Murphy—"It is the duty of the engineer's office to get the details. What is the office for, if not for work of this kind?"

Mr. Kearney—"I would have been glad to get the agreement, had I been asked to get."

Mayor Murphy—"You ought not to wait to be asked. You knew the work belonged to your office and you should have gone ahead with it."

Mr. Kearney—"I am not a mind reader and do not profess to be."

I know you gentlemen wanted me to get an agreement with the Locks & Canals I would have done so. All I was told to do was to see Mr. Mills and I saw him."

Duncan to the Rescue

The Mayor—"The municipal council has been given to understand right along that the Locks & Canals had approved the plans and that everything was O. K., and just at this juncture Commissioner Duncan came to the rescue. He said that Engineer Kearney was not told to get an agreement with the Locks & Canals; that he had been told to see Mr. Mills and ascertain if the company would have any objections to offer. He said the city should have a written agreement with the Locks & Canals company, but as yet, he said, the Locks & Canals people had not seen the revised plans. It was finally decided to have the plans submitted to the Locks & Canals in order that some definite action may be taken by the council at its meeting on Tuesday next. Engineer Kearney said today that when the bridge matter was first broached, he thought work would begin about June 1. "Unless I am authorized to go ahead within one week," said Mr. Denman, "I would be unable to handle the job with city labor."

School Graduations

The following statement, giving the exact time for the exercises of graduation in the different schools was given out at the office of the superintendent of schools today:

Bartlett, Saturday, June 19, at 2.15 p. m.

Vocational, Tuesday, June 22, at 10 a. m.

Lincoln, Tuesday, June 22, at 3.45 p. m.

Greenhalge, Tuesday, June 22, at 7 p. m.

Pawtucket, Tuesday, June 22, at 7.15 p. m.

Varnum, Tuesday, June 22, at 7.45 p. m.

Washington, Tuesday, June 22, 8 p. m.

Green, Wednesday, June 23, at 5.30 a. m.

Highland, Wednesday, June 23, at 9 a. m.

Edson, Wednesday, June 23, at 10 a. m.

Butler, Wednesday, June 23, 2 p. m.

Moody, Wednesday, June 23, at 2 p. m.

Colburn, Wednesday, June 23, at 2.30 p. m.

Riverside, Wednesday, June 23, at 3.30 p. m.

High, Wednesday, June 23, at 8 p. m.

ALLIES CHECKED

Attack on Western End of German Line Repulsed—French Make Progress—British Lose Ground in Gallipoli Peninsula—Austro-German Advance in Galicia Made at Great Cost

however, indicate that the Russians are being pushed back steadily all along the front. The latest communication from the Austrian war office says the Russians are now unable to resist their opponents.

Negotiations With Balkans
Negotiations between the allied powers and the Balkan states are again under way. According to information reaching Berlin from Sofia, Bulgaria demands territory from Rumania, Greece and Serbia in return for her participation in the war with the allies.

A Berlin despatch expresses doubt whether former Premier Venizelos of Greece, in case of his return to power following his victory in the elections, will be unconditionally in favor of going to war. The despatch on Gallipoli peninsula and the reported failure of Bulgaria and Rumania to accept the latest offers of the allies are advanced as reasons for this view.

New Allied Attack in West

The heaviest fighting of several weeks is now in progress on the western front in consequence of the new attacks by the French and British. Each side is sustaining severe losses and although reports from Berlin and Paris are at variance, it is evident the French have made some gains in the sector north of Arras, northwestern France.

LONDON ADMITS AUSTRO-GERMAN FORCES IN GALICIA STILL ADVANCING

LONDON, June 18, 12 noon.—The Austro-German forces in Galicia are still advancing on the schedule made by von Mackensen. Vienna claims that part of the heavily-fortified Grodek region, where the Russians have

concentrated, have fallen, into the hands of the Teutonic forces. Petrograd does not admit the loss of any part of this district, but states that Russian forces have gathered there for the defense of Lemberg.

In a long review of recent operations on the eastern front the Russian war office admits frequent retirements before superior numbers but declares the Russian attacks left the Austrians and Germans so exhausted that their opponents often were able to resume their offensive. The report says that the strategy of Grand Duke Nicholas enables him to change his centre three times and that the efforts of his antagonists to attack these various concentrations have caused certain signs of demoralization on their part.

French on Offensive

The French still are on the offensive along a wide front with the Vosges again figuring in the official communications after a period of comparative quiet. Two days of hard fighting has meant many small advances for the French, with the repulse of part of the German counter-attacks. Paris reports that in the Arras region alone the Germans used 11 divisions, which suffered heavily. A significant phase of the operations is the small number of prisoners reported by either side.

No definite news from the Dardanelles front has reached London, but a sudden drop in the Russian exchanges indicates that the batters either have received an intimation of an important success in that region or that for some other reason they now take an optimistic view regarding the prospects that the straits will soon be opened to the allies.

Bulgaria continues to express her uneasy neutrality by negotiating with both sides.

that international law provides expressly that this weapon may be used only in the form of an effective blockade. No effective blockade of the German coasts has been declared, however, and Germany, therefore, is deprived of the possibility of taking action against blockading ships.

Regarding the exportation of munitions from the United States, the Gazette adopts the argument of Philipp Zorn, German member of The Hague tribunal, that although the convention adopted at The Hague justifies sales by private firms a neutral state is bound to prohibit sales of this nature when the commerce in arms assumes such an extent that continuation of war is directly dependent thereon.

Capt. von Kuchwetter, the naval expert of the Tag, points out that the American note passes over in silence the German representations regarding the British admiralty's instructions to merchantmen to seek cover under neutral flags and attacks submarines under this cover. He declares this the kernel of the whole argument and the justification for the German policy.

GERMAN ANSWER

Meyer-Gerhard Confers With Officials in Berlin—Newspaper War

BERLIN, June 18, via London, 1.15 p. m.—The effect upon the preparatory work of Germany's answer to the American note of the arrival of Dr. Anton Meyer-Gerhard, who has come from the German embassy at Washington with messages bearing upon the German-American situation, is not thus far perceptible. Count von Bernstorff's emissary began today the first of a series of important conferences with officials at the foreign office. He spent most of yesterday with the secretary of state for the colonies, Dr. W. S. Wolf, at the latter's country place, following brief conversations with Gottlieb von Japow, the foreign minister, and Under Secretary Zimmermann.

It is still too early to predict what form the German note will take. Apparently an endeavor will be made to open the way to further discussions.

The newspaper war between advocates of a friendly settlement and the "no compromise" representatives continues to rage. Naval writers in particular urge that Germany cannot afford to yield an iota regarding the principles and practice of submarine warfare, but the very defense of their attacks upon the advocates of an understanding indicates that the latter are not without influence.

The Cologne Gazette points out editorially that the German press in general has shown satisfaction that President Wilson's communication offers opportunity for an understanding, and expresses the belief that diplomacy on both sides of the Atlantic will work with zeal and good will to this end.

In a leading article entitled "Bad Advice," the Cologne Gazette takes the Lokal Anzeiger to task for attempting to palliate the British "starvation" policy and exportations from America of war supplies. Conceding that the cutting off of supplies is an accepted method of warfare, it states

12 PERSONS PERISHED IN TERRIFIC STORMS

Six Killed Last Night and Six Today in Tornado That Swept Missouri

KANSAS CITY, June 18.—Twelve persons were killed as a result of the wind and rain storms that prevailed in this section of the southwest last night and today. More than a score of others were injured, none fatally.

Five members of the family of John Burges, a farmer near Onaga in Pottawatomie county were killed and two seriously injured in a tornado which swept the county early today, according to reports received at the Topeka offices of the Union Pacific railroad.

The same report asserted that houses were wrecked, stock was killed and much other property damage done.

At Westmoreland, Kas., Charles Morris, president of the Kansas Southern & Gulf railroad, his son, Guy, and John Gunther, a druggist, were drowned when a bridge gave way, and other persons who were on the car escaped. The accident followed a cloud-burst.

Three persons lost their lives at Richmond, Mo., when a terrific wind storm swept that section of Ray county. Mrs. Arthur Covey and small child and Mrs. Mary Bell were the victims.

The Covey home was lifted from its foundation and demolished. Mrs. Bell was struck by lightning. Oc Williams, a farmer, and his wife, living near Richmond were struck by wreckage when their home was swept away. Both were dangerously injured.

Paris, Sedalia, Lamonte and Nevada, Mo., reported several persons injured during the storm.

Morris and his son were on an inspection trip. Near Westmoreland a bridge had been taken out by rising water and there the car was stopped. Morris, his son, and Gunther decided to remain on the car while the others went back to tell of the discovery.

A wall of water suddenly swept down and whirled the car into the swollen stream. None of the bodies has been recovered.

Gene Nicols, a former living near Waukego, was killed by lightning. It was reported that there was a tornado at Hermann, Mo., about 100

miles west of St. Louis but news of this had not been received at the general railway offices in St. Louis at 10 o'clock today.

Reports of the tornado that struck Paris, Mo., last night, said that a hotel had been blown down but this had not been confirmed.

Yesterday's rains which extended over northern Oklahoma, all of Kansas, Missouri, Iowa, and into eastern Nebraska were the heaviest in years, according to reports to the weather bureau today.

Near Lamonte, Mo., high winds unroofed houses and levelled small buildings, but as far as known no lives were lost.

Although the storms had diminished in violence today, they extended over central Iowa and occupied a district of 800 miles, Des Moines being the eastern edge of the affected zone. The disturbance was moving in the direction of the Great Lakes.

At St. Joseph, Mo., much damage was done by flooding of cellars following a two inch precipitation. The lowlands near the city were inundated but residents were able to move their property to safety.

DROPPED DEAD

Man Injured at Hide and Leather Factory Died on Way Home

John Clark of 248 Church street dropped dead near the corner of Pond and Perry streets about 10 o'clock this forenoon while on his way home from the American Hide & Leather Co., where he was injured early in the morning. An emergency call was sent for the ambulance and the man was taken to St. John's hospital, but physicians pronounced him dead. He is survived by a sister in Fall River, whose name is not known.

About 7.30 o'clock this morning Clark's left hand was caught in a buffing machine. He was then taken to St. John's hospital where the injury was treated. He expressed a desire to return to work and did so against the advice of physicians. About 9.45 o'clock he again complained that the injury bothered him and started to walk home. An attempt was made to have him ride in a carriage but he refused to do so. While walking along Perry street he was stricken and died immediately.

Dr. J. V. Meigs, medical examiner, viewed the body of Clark at the rooms of Undertakers J. P. O'Donnell & Sons and opined that death was due to natural causes. The doctor said the injury sustained only injured the skin and he did not see how it could have hurried the man's death.

BOGUS DROWNING SCARE

MAN DISROBED AT HALE'S BROOK, SLEPT THERE AND WENT OFF WITHOUT CLOTHING

The discovery of a hat, coat and vest, the latter containing a gold watch and other valuables, on the banks of Hale's brook early this morning, gave the police a short investigation, as it was feared that a suicide or drowning accident had occurred. Sergt. Giroux was despatched to the scene in the hope of getting information. He found no other clue and took the clothes to the police station. A short time afterward Inspector Maher met a man walking in Middlesex street without hat, coat or vest. The man could not remember taking off his coat or leaving the spot this morning. He was taken to the station, however, and identified the clothes found as his property and the mystery was cleared.

Clement Baislow, manager of the Atlantic & Pacific Tea store, and Fred Rousseau spent yesterday afternoon fishing at Beaver brook, Collinsville, where they made quite a capture of eels.

JURY TRIAL FOR TRAW

ALBANY, N. Y., June 18.—The court of appeals today upheld the order of Supreme Court Justice Peter A. Hendri of directing a jury trial to test the sanity of Harry K. Thaw.

JUDGE ENRIGHT REFUSED TO REDUCE AMOUNT OF BAIL FOR JAMES KILAKAS

In police court today Dr. Clark was called to the witness stand when the case of James Kilakas came up. Kilakas is the man accused of shooting and also stabbing James Dracanthos last Saturday night. The court wished to learn to extent of the assaulted man's injuries so as to regulate the bail of the defendant accordingly. Dr. Clark said that he considered the man out of danger although he was still in a precarious condition. Bail was continued in \$10,000.

A jar between two families in Cabot street was aired in court and as a result a young girl was fined \$5 for assault on a lady who resides in the same block with her.

U.S. MAIL OPENED

Seal Broken, Letters
Opened and Censored
in England

WASHINGTON, June 18.—Formal notice that United States mails broken open in England and their contents tampered with, was submitted to the state department yesterday by W. A. F. Ekengren, the Swedish minister, with a request for appropriate action.

The minister called at the department and delivered to Secretary Lansing a letter written on instructions from his government reciting instances of interference with mail for Sweden and pointing out that such acts were in violation of the provisions of the world postal convention and of other treaty stipulations. The letter stated that the seals of mail bags were broken, that letters were opened and censored, and that one registered unit was retained.

Two specific cases were mentioned, one involving mails sent on the American steamer for New Sweden which left on May 25, and the other pouches carried by the British steamer Adriatic which sailed on May 27.

In the former case it was asserted that out of 24 registered letters and packages, seven arrived in Sweden unopened, while the greater part of the other mail had been censored. Of the Adriatic's mail, which arrived in Gothenburg on June 8, several letters were said to have been opened and one registered unit to have been retained. Whether the piece of mail matter shown by a comparison of receipts to be missing was an official communication has not been revealed, but it is known that diplomatic correspondence was sent from Washington on the Adriatic.

Unofficially it was stated in allied diplomatic circles today that there had been various instances of interference with official mail in this country, and that the Russian embassy had evidence of six cases in which mail had been tampered with on United States railway mail cars.

PROTEST BEFORE SEC. LANSING
WASHINGTON, June 18.—The first official protest growing out of reports of the interference with the mails since the European war began was before Secretary Lansing of the state department today with a request for action.

The complaint in point was that lodged with the secretary by Swedish Minister Ekengren, who in a letter written on instructions from his government, stated that United States mail pouches destined for Sweden had been broken open in England, that letters had been opened and censored and that one registered unit had been retained. The communication recited two specific instances of interference with United States mail for Sweden, pointed out that such acts were in violation of the provisions of the World Postal convention and asked that appropriate action be taken.

While state department officials declined to indicate what, if any action, would be taken, it was said in diplomatic circles that representations probably would be made by the United States to Great Britain, asking that special precautions be taken to protect American mail passing through British territory.

DENIAL BY SHAUGHNESSY
Canadian Pacific Railway President Says He Is in England on Transportation Matters

LONDON, June 18.—In an interview Sir Thomas Shaughnessy, president of the Canadian Pacific railway, denied that he had been offered officially the position of contractor for munitions mentioned by Lloyd George.

"Such a report," said Sir Thomas, "is premature. My business in London is merely to negotiate with the war office to see what assistance the Canadian government can offer in the way of supplying food and other material for the equipment of the British army. In this connection the Canadian Pacific railway could, of course, facilitate the conveyance of food to the allied armies."

LIEUT. WARNEFORD DEAD

ZEPPELIN CONQUEROR KILLED
BY FALL—NEEDHAM, AN AMERICAN, ALSO DEAD

PARIS, June 18.—Lieut. Reginald A. J. Warneford, who gained fame recently by blowing to pieces a Zeppelin over Belgium, was killed today by the fall of an aeroplane at Buc, France.

Lieut. Warneford was piloting the machine, which had as a passenger Henry B. Needham, the American writer, who also was killed.

The lieutenant had been spending a few days in Paris, where he came after his Zeppelin exploit to receive his decoration of the Legion of Honor.

According to a report received in Paris the accident resulted from an explosion in mid-air, which caused Lieut. Warneford to lose control. The machine fell from a height of 500 feet. Needham's body was taken to the English hospital in Trianon Palace, Versailles. He had been in Europe about four months acting as correspondent of magazines and a New

STOMACH SUFFERER GETS PROMPT HELP

Hartford Resident Gets Quick Relief From Use of Wonderful Remedy

Mrs. S. E. Johnson of 61 Whitmore street, Hartford, Conn., was a victim of stomach and digestive disorders, attended by much pain. She suffered from pains in the side and other discomforts.

She took Mayr's Wonderful Remedy and found quick relief. In writing of her experience she said:

"The pain left me the next day after taking the remedy. It's simply wonderful how it relieved me; and you may be sure I shall tell every one who has stomach trouble about it."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist and try it on an absolute guarantee. If not satisfactory money will be returned.

WHAT THE FRENCH MAID SAID

THE DAINTY HANDKERCHIEF

"I want to give auntie a present for her birthday," announced Marjorie. "I can't afford to buy anything elaborate but would like to make something that would be a love gift," she concluded to Marie.

"Why not give her a beautiful handkerchief?" asked Marie. "Few people stop to think how acceptable a gift handkerchief may be, not only the plain common kind, but dainty hand-

made and embroidered affairs. Not that the plain initialed handkerchief is to be despised as for general wear the good twenty-five cent handkerchief will look neater and wear longer than any number of cheap lace affairs, which not only wash ragged in a short time but look cheap all of the time.

"Like on baby clothes, if lace is used at all, it must be of the finest and there must not be too much of it. Here is where the hand work comes in. It is no trifling piece of work to roll the edge of a fine piece of linen and apply a bit of Valenciennes edging by way of ornament. The neatness and most dexterous of fingers, but when finished there is no more acceptable gift. The narrow lace edging should be real and the linen of the finest. If a tiny initial for a monogram is added all the better."

IN TYPHOID SUITS

Steamer Rochester Labeled by Rhode Islanders Who Claim \$265,000 Damages
BUFFALO, June 18.—The steamer Rochester of the Richelieu & Ontario Navigation company was labeled here yesterday for \$265,000 damages on be-

half of 15 residents of Rhode Island. The label and damages are claimed upon the charge that impure water was provided on the steamer in September, 1913, when the Rhode Islanders were in a party of excursionists carried on the steamer to the Perry centennial celebration here.

It is charged that many cases of typhoid fever resulted, of which several proved fatal. The steamer came to this port to convey the Rochester chamber of commerce to Detroit.

WAR FASHION IN PARIS

PARIS, June 18.—Warm weather has finally brought fashion back to the Bois de Boulogne—war fashion, particularly. The other morning were noticed taking their morning ride a pretty American girl in the costume of a boy scout and an English girl in khaki leggings, at crowned cap and all. On foot was another girl in a blue skirt giving a perfect illusion of dark blue trousers with a black stripe down the legs. There was also a pretty blonde with the blouse of a marine and a brunette in a cantinieres red tunic and pale blue skirt. Horizontal regulation infantry blue—with green and red trimmings are now very common. The only war costume that is not very closely imitated in extreme fashion is the red cross; it is prohibited by government decree.

REWARD FOR CAPTURE OF FLAGS

BERNE, June 18.—An Italian manufacturer, Signor Clerici, has given \$10,000 to be distributed in five rewards of \$2,000 each to the soldiers who capture the first five German or Austrian flags in battle. Similar patriotic offers are being made in many Italian towns.

In Vienna, Baron Leopold Chlumsky has offered a prize of \$500 to the first Austrian or Hungarian soldier who captured an Italian flag.

Gloucester Boxer Loses Gracelling Con-
test to Johnny Mello of New Bedford
—Other Items

LOWELL, June 18.—In what old ringsters call the most grueling boxing ever seen here, Johnny Mello of New Bedford put away Battling Sylvia of this city in the 11th of 12 scheduled rounds.

Sylvia was on the receiving end throughout and only his extraordinary gameness carried him so far. Billy Burke of Lynn and Joe Rivers of Gloucester boxed a six-round draw. The Syrian Kid got a decision over Young Myett, both local men, in four rounds.

LANGFORD JOLTED AT MILFORD
MILFORD, June 18.—Sam Langford, the Boston boxer, was given a jolt here yesterday morning by a Johnson, much less famous than the heavyweight, but more effective. Langford and his trainer were motorizing into Milford Centre from West Medway and tried to pass a long dirt trolley car run by Motorman William G. Johnson. The auto skidded at the wrong minute into the trolley car and Langford was upset, but with only his feelings hurt. His car was badly wrecked.

You need a good lawn mower now. The Thompson Hardware Co. has a full line of Philadelphia and other fine makes.

LEFT FIELDER STIMPSON

PITCHER ZIESER

EDGEWATER, N. J., June 18.—Officially Jim Rice is the head coach of Columbia university's rowing crews, and acting in his official capacity he has made for himself a name in that branch of sport which is second to none. Each year his first task is to build up the physiques of eight young men to stand the wearing rigors of the grueling four mile races, and with the limited material he has to work upon Rice has in the past worked wonders. Of course his crews have never approached the performances of those of Cornell, but when one takes into consideration the plentiful supply of material for crews that Cornell has to choose from the results achieved by Rice seem remarkable. A good mixer and predominantly democratic, Rice en-

joys the respect and admiration of his oarsmen, and it is because of his sterling qualities that his charges "pull hard" for him, both figuratively and literally. Rice at present is hard at work developing a crew with which he hopes to repeat last year's victory, and whether or not he succeeds in his endeavors, it is certain that when the crews line up at the starting line the Rice entry will compare favorably with any in the race. Picture shows Coach Rice giving instructions to Captain Sanborn of the Columbia first varsity.

Under screens, The latest word in screens. The Thompson Hardware Co. sole agents.

The Fitchburg team is badly crippled at present and does not look like the fast aggregation which McCune presented a week ago. Robinson has wandered away because he couldn't get a raise in salary, they say, and Duggan is also not in uniform yet. With the fans down there ready to bet money on the tickets on their club, Noonan had better stock up with a few more ball players.

Barrows came through with two important slaps yesterday, both of the one-base variety. His single to centre in the first round scored Fahey with the initial counter while Barrows scored himself in the seventh after

Fitchburg Beaten 2-1 in Shortest
Contest of Season—Zieser on
the Mound

In the shortest game of the New England league's 1915 season thus far Lowell took another diamond squabble from Fitchburg yesterday afternoon at Spaulding park by a 2-1 score. An hour and fourteen minutes was the official time of play.

Carl Stimpson, Lowell left fielder, was the individual hero of the contest. It was Stimpson's bat in the seventh session which crashed against the seamed sphere for a double to left bringing Barrows home with the winning run.

It was also Stimpson who provided the afternoon's fielding features. In the seventh and eighth innings Stimpson was a very busy personage. Two putouts in each round were his contribution and a couple of 'em were of the sensational order. His catch of what looked like a certain safety off Young's bat brought the spectators to their feet in unstinted applause. Fitchburg was lucky to score at all while both of Lowell's runs were earned tallies. A boot by Shorty Dee in the fourth gave the visitors an incentive with one man already gone into the discard. Dee played the ball poorly for it was of the simpler variety of ground knocks.

The error was followed by a long single and a sacrifice hit which served as a scoring medium for Smith who was on third at the time.

Ahearn is another player who should come in for his share of credit for the victory. The local catcher snatched the ball to McGuinn in the fourth with the bases choked, getting Pennington in the midst of a quiet little sacrifice. Zieser then tightened up and forced the next batter to drift one toward Fahey.

Fahey played a rare game at the hot corner. His case in being several of his chances were deceptive for they did not look as difficult as they really were. It was the best job of third base tending that we have seen here this season. Zieser and Tuckey both pitched good ball although the local twirler held himself in better restraint of control than Tuckey wasn't slaughtered by any means but his delivery was found for shots to safe territory when his meant runs. Only one set of gears was displayed during the game, Zieser passing Pennington in the fourth.

The game in detail: Campbell, Fitchburg's first adventurer against the Zieser staff, shoved a fly into Barrows' hands. It was easy picking for "Cuke". The next two batters were easy infield out. Fahey and Bowcock being on the pegging ends with McGuinn the receiver.

Gaston took his place behind the bat for the visitors in spite of his injured wrist which Fahey spiked as he sought home in the first inning of Wednesday's game. The efficiency of the Fitchburg catcher was demonstrated when he grabbed Swayne's foul fly near the grandstand.

Fahey snatched a blow for two bases down the left field foul line and scampered across the scoring spot when Barrows singled to centre. Bowcock hit into a double play when his grounder took a lucky hop near second into Young's hands.

Fitchburg looked dangerous for a moment, but only a moment in the second. Moran opened with a Texas leaguer to left. Fahey made a fine play of Sullivan's grounder and his bullet peg to Bowcock cut off Moran at second. Ahearn took Pennington's foul fly and McGuinn sunk into oblivion on a grounder to Zieser.

Lowell fared no better in her portion of this round. Ahearn lifted a base hit to centre. Stimpson died on a soft roller to Sullivan and Tuckey threw out both McGuinn and Dee. The visitors never had a glimpse of a run in their third turn with the stick. Gaston lifted to McGuinn outside the foul line and the Lowell first baseman then smothered a grounder off Tuckey's bat. Dee pegged out Campbell.

With Zieser at bat a foul tip split Gaston's thumb so badly that the Fitchburg catcher was forced to retire. McGuinn donned the protector, while Smith went to first and Press to the right pasture. Zieser and Swayne both died to Smith, and Fahey went out on a grounder to Sullivan.

Dee's boot in the fourth of Smith's simple grounder started trouble for the locals and before three men were retired the score was tied. Dee's error was made after Fahey had thrown out Young. Moran followed the misplay with a clout to right which sent Smith to third. A scratch hit along the third base line scored Smith. Ahearn's snappy throw to McGuinn after Matty filled the paths with freedom to Pennington helped relieve the situation as Penny was caught off the bag. Fahey

then threw across the diamond for McCune's extinction.

Nothing of moment occurred in the fifth for either club. Matty was invaluable and scored two punchouts, while the horseshoe caromed off the Lowell bats into waiting gloves. The sixth was also a series of putouts, although a spectacular catch by Stimpson in extreme left broke up the monotony in the first of the seventh. Lowell broke into the run column again in the latter half of the seventh. Barrows opened with a fly which fell safe in short centre and was pushing to second by Bowcock's advancing sacrifice. A long double to left by Stimpson brought in Barrows with a tally. Ahearn and McGuinn were unable to bring Stimpmy home.

Stimpson made another wonderful catch in the eighth. After Campbell failed to reach on his grounder to Dee, Young sent up a short fly to left centre. It looked like a safety but Stimpson's sprint, coupled with a dive at the end of it, completed a sensational putout. Stimpson was roundly cheered by bleachers and grandstand alike. Lowell's left fielder also took Smith's fly. Lowell didn't do a thing in the eighth either, although Swayne dumped a single into left.

Zieser was supreme in the ninth and all three batters to face him dropped out of the race without a murmur. Moran was easy for Fahey and McGuinn on his grounder. Swayne took Sullivan's boost to right and Pennington fanned. The score:

THE O'BRIEN LABEL GUARANTEES VALUE

Any way you look at it, the Blue Serge Suit is the one best buy for any man.

If you want service, a blue serge suit, properly tailored, will outlast two average suits of other fabrics.

If you want the dressy look the answer is blue serge—if it's properly tailored.

If you want style you get it, too, if the blue serge suit bears the O'Brien label.

Good tailoring is the keynote to complete satisfaction in a blue serge suit. Don't overlook that.

The O'Brien Special \$15 Serge Suit is the limit of good value in \$15 clothes.

The Stein-Bloch Serge Suit at \$20 is the greatest value in high grade clothes we know of.

We provide blue serges in models for young men with all the style cleverness of our fancy suits.

You cannot go wrong on an O'Brien Serge Suit.

TALBOT'S
AMERICAN HOUSE BLK., CENTRAL ST.

A QUARTER CENTURY AGO

The employment of "spotters" so-called to secure evidence of violations of the liquor law has always been a bone of contention in different communities, some of the opponents of the system claiming that a man who will engage in such business is not the surest man in the world to trust, while it has been argued that justice is inclined to take "spotter" testimony with a grain of salt.

Quarter of a century ago, Lowell was a no-license town and while the liquor inspectors who at that time were Messrs. Goodwin and Palmer, worked overtime and made many arrests, the law was being generally violated. Suddenly "spotters" appeared on the scene and arrests were made in unexpected quarters. When on the witness stand in police court, one morning, one of the "spotters" testified, when asked by whom he was employed, that the city of Lowell had employed him; there was a big sensation in and out of city hall and a lively discussion was held on the matter at the next meeting of the board of aldermen, reported in part by the old Sun, as follows:

"Alderman Drury having obtained permission of the board to say a few words, took the floor and said, in part: There has been a matter that both

the public and the press have been deeply interested in for the past few days, where a man on his oath in the police court recently, swore that he was in the employ of the city, and with full knowledge of the board of aldermen. Now I want to speak simply for myself for I know that every member of this board is capable of speaking for himself. I want to declare that I had no knowledge that any man was in the employ of the city, or of the board of aldermen, doing work that every fair-minded man has no sympathy with, for it seems to me that if there is a man on the face of the earth to be despised it is the man who attempts to have another do an illegal act simply to betray him. It is work that I am surprised to learn any man would countenance, and I am surprised that it has been done in the police department, as it seems to me that our police department is thoroughly equipped, the seizure force recently having been increased by the addition of another man. It ought to be able to do its work without resorting to the means of all mean work. The idea of any man or man, a non-resident at that, being employed on this work is no credit to those who employ him. It is said that he is to be paid out of the city treasury, but can know of no right that any man has to pay such an employee out of the city treasury. I should not have said so much about the matter had I not seen in the evening paper that the chairman of the committee on police, displeased at the course that the committee has taken wipes his hands of the whole affair which really is very creditable of him."

"When Alderman Drury had finished, Alderman Fletcher took the floor and said: "The gentleman wishes to know who has been a party to this spotter business. I stand here to say that I am one of them. I am a member of the police committee and the mayor, the chairman and the committee have

worked harmoniously, until lately when the chairman of the committee has washed his hands of the committee entirely and announces it in the papers. I think it would have been well to have told the committee of it. If the other member of the committee were present I think I could prove that the chairman of the committee was in favor of adopting this method to detect violation of the law. He is the cashier of a bank and he would not think it dishonorable to catch a rogue by means of marked money. The chairman has not been in harmony with us of late about many things and we know all about it. The place for him to express himself, it seems to me, is in the committee and not in the newspapers."

"Alderman Sawyer, the next speaker, said: 'What purports to be an interview with me in the paper is no such thing. There has been no interview with me.'"

"Alderman Fletcher replied: 'Oh, well, if you deny it, that's different. The gentleman from ward 6 (Mr. Drury) has laid great stress on the spotter matter. He does not know anything about the men who are selling liquor; how they use every means to see the officers when they are coming. If you are treating with a man who is breaking the law you are not going to handle him with kid gloves; you must take him as you find him. If I have this matter to handle I shall do the best I can. If the board of aldermen does not approve of it it can take the matter away from me.'"

"Alderman Drury: 'I would like to know why it was necessary to increase the seizure force if you believed the officers could not do their duty.'"

A lengthy altercation followed, Alderman Fletcher, Drury and Sawyer alone taking part in it. Mr. Drury maintained his position against the spotter system, alleging that it was a reflection on the police department and Mr. Sawyer defending the police committee.

The spotter system continued during the year and subsequently was brought into use by the Law and Order league in the days of license. At one time some 40 or more licensed places were convicted in the lower court, by spotter evidence. At another time nearly all of the hotels in Low-

ell were convicted in the lower court on spotter testimony, the old Lowell Sun, then conducted by Thomas F. Hoban, being the only one to escape, though brought into police court but found not guilty after a trial. These cases went up to the superior court and after the jury had found the proprietors not guilty in several of them, evidently refusing to convict on such testimony, the district attorney proposed all of the others and since then spotters have been rarely heard from in this city.

The nearest approach to "spotter" work in the past has come this year when the liquor officers, disguised with false whiskers and wig, have gone into places and purchased pints and half-pints. But they were regularly appointed police officers.

St. Patrick's Boys' School

The closing exercises of St. Patrick's Boys' school were held last evening and the diplomas will be given the graduates on Sunday next.

Twenty-five years ago the annual commencement exercises drew a large gathering to Huntington hall, on which occasion there were three graduates, James B. O'Connor, John J. O'Hearn, who formerly lived in No. Chelmsford, and William F. Finnick. Of the three one became a physician, Dr. O'Connor, and at the present time is a resident of California. The other two became priests. Fr. O'Hearn is stationed at St. Francis de Sales church, Charlestown, and Fr. Finnick is in Marlboro. The closing exercises of quarter of a century ago were reported by the old Sun in part as follows:

"The graduating exercises of St. Patrick's Boys' school were held in Huntington hall, Monday evening and attracted a large audience of friends of the school. Although the closing exercises of this school have been very creditable in past years, as indicating rapid progress, thorough training and strict discipline, yet those of this year far excelled all others, not only in point of brilliancy but also in the proficiency shown by all who participated as well as by the first appearance on such an occasion of the school band and orchestra. The clergymen who were present were Rev. Michael O'Brien, Rev. D. J. Gleason, Rev. J. J. Shaw, Rev. D. M. Burns, O. M. L., Rev. H. A. Constantineau, O. M. L., Rev. J. H. Pelletier, O. M. L., Rev. J. L. Gilday, Rev. William O'Brien, Rev. William O'Brien, Rev. J. J. Foley, Rev. Bro. Alexis, provincial of the Xaverian order. The exercises began at 5 o'clock and the program was highly creditable to the school."

After presenting the diplomas to the three graduates mentioned above Fr. Michael O'Brien made an eloquent address.

Vets at Charlestown
Most every other city in the Commonwealth except Lowell welcomes the opportunity to have a firemen's muster on the occasion of its big celebrations. As firemen's musters have ever been great crowd-drawing features, and have drawn crowds that spend money, which is as much to be desired as the entertainment afforded by the vets. In Charlestown on the 15th of June despite the many counter-attractions, it has been customary for years to hold a firemen's muster, if not every year, every few years, and this date, being over quarter of a century. At the celebration of 25 years ago, a firemen's muster was a feature and the Lowell Vets as usual were on hand. The old Sun reported their visit to Charlestown as follows:

"At 5 o'clock Tuesday morning, headed by the Dunsstable band, the Lowell Veterans Firemen's association marched from their rooms in Dutton street to the Boston & Maine depot on their way to the Charlestown celebration. They took with them as their guests Mayor Palmer, Aldermen Dickinson and Wilson, Councilman Crowell, Chief Engineer Bent and Assistant Engineer Larned of the Gardner fire department, and D. L. Farge went along to provide refreshments. The veterans returned in the evening and attracted much attention as they marched through Central and Merrimack streets with Capt. Peabody and Mayor Palmer in the rear ranks. It was a pity that Mayor Palmer did not don the red shirt and wield the baton in directing the movements of the company. The boys played well, but not quite well enough to gain the coveted prize. They all report a most tedious day as the arrangements at least so far as the firemen were concerned, were at sixes and sevens. This procession started at 10 o'clock but so great was its length that the veterans were kept standing in line until 12 o'clock, when the march was called off until 3 o'clock, when they were to dinner. This of course delayed the trial of the machines, and instead of beginning at 2 o'clock as was announced it was half past four before the first stream was played. There was an immense crowd of people passing and Lowell was the scene of the trial. The Lowell Vets are under obligations to the Urban club for many courtesies extended. The first prize was taken by the Wakefield company, the second by the Peabody and the third by the Pastmasters. The Lowell men did well but as usual the tub was not in good trim."

In recent years the Butler Veterans have succeeded the old Lowell Vets and have established a reputation throughout New England as a company to be feared in a playing card test. The Butters suggested to the municipal council recently that some of the \$3000 appropriated for the Fourth of July celebration be given for a firemen's muster but the suggestion was frowned upon and the militia will net the entire amount. The Butters are understood to have been keen to appear in the parade but it is doubtful if they will put in an appearance.

Once Owned Sun Building
Says the Sun of quarter of a century ago:

Mr. Edward Garner of the Hamilton family has been granted leave of ab-

sence for four months. Mr. Garner has been in continuous service as overseer of the yard for 21 years. He left for New York on Tuesday and will make an extended tour of Europe. Mr. Garner was a well known figure in Lowell quarter of a century ago and died in the early '90s. He owned considerable wealth and owned the old Sun building which he sold to John H. Harrington in April, 1888. Mr. Garner married in the latter part of his life, his wife having been a Mrs. Ireson. After his death, his widow married a Brooklyn man who subsequently became the mayor of that city on the socialist ticket. Mr. Garner's step-daughter, Miss Stella Ireson, married Mr. Chester Coram, formerly of Lowell.

The Old Ward Three Club

The report in yesterday's papers of a meeting of the ward three republican committee, at which plans were made for the coming republican outing, calls to mind some other ward three clubs of the past, notably the famous old Ward Three Republican club of 10 or 15 years ago, with Stephen Puffer, and John S. Stratton as active members. This club was independent on politics and spoke its mind without fear or favor on all public matters; its particular hobby being the Cook wells. But quarter of a century ago there was a Ward Three Improvement association, and the hobby of that club was Hule's brook which at that time smelled to heaven for vengeance. These

orators of the old ward three clubs were veritable thorns in the sides of the members of the city council for they watched their official actions closely and criticised them in the plainest of language. Recent happenings at city hall, had they occurred in the good old days of the Ward Three clubs, would have caused the members of those organizations to put up a protest that would have halted the members of the municipal council if nothing else did. In those days the members of the city council received no salaries and hence weren't as sensitive about adverse criticism and its effects, as are the men who draw \$2500 per year. Twenty-five years ago while the people of old ward three were crying in vain for relief from the foul-smelling brook the city council after much jockeying bought the land along the river bank and established the Pawtucket boulevard. At a meeting of the old ward three club just quarter of a century ago, one of the speakers unburdened himself on the Hale brook matter as follows: "This is a matter that should be above party politics, but the present government has fallen into political ruts and their failure to treat us properly in this matter is as gross a piece of political stupidity as I know of. They vote away \$25,000 of \$26,000 for a boulevard or race track which nobody wants except

a few interested land owners, but they take no steps to redress a matter that affects the growth and welfare of the city. They cannot do anything properly. Look at the bungling over the city hall and Memorial buildings. You cannot point to a single performance of theirs that has not been marked by some political jobbery. Incompetency characterizes all of their actions."

Those words "they cannot do anything properly" have a decidedly up-to-date flavor, if all we read in the newspapers is true.

HURL BOTTLE AT WALSH

Thugs Attack Governor and Mayor in Boston Parade—Missiles Thrown From Roof

BOSTON, June 18.—A broken bottle and other missiles were thrown from the roof of a four-story tenement house upon Governor Walsh, Mayor Curley and other city and state officials as their carriages passed by Cottage street, on Bunker Hill street, in the parade that commemorated the 140th anniversary of the battle of Bunker Hill, yesterday.

Thousands of spectators stood in astonishment when they saw the governor shielding his face from the shower of pebbles which a group of hoodlums had aimed directly at the carriage. Then came confusion and a wave of anger swept through the masses of people who lined the sidewalks and had witnessed the attack. The bottle fell harmlessly a few feet from the governor's carriage. A heavy brick crashed into the pavement between horses of Troop C (cavalry) that were riding directly behind. Pebbles and sand rained down upon the riders and also struck Councillors Daniel MacDonald and James A. Watson, who occupied another carriage.

Captured After Chase

The fear that an attempt had been made to kill Governor Walsh caused the entire parade line to stop. The cavalry escort spurred their horses into the streets and alleyways that surrounded the house where the hoodlums were quartered. Policemen dashed into the building, and a spectacular chase followed. The young men on the roof ran to the rear and leaped across an open space on to an adjoining roof and made their escape from the houses.

A few minutes afterwards two were captured on the streets through an identification made by John Hale of Fitchburg, a motorman of the Fitchburg & Leominster street railway, who saw the attack from the curbing on Bunker Hill street. At the City Square police station the young men were booked as John Dooly, 17, of 174 Bunker Hill street, and William Healey, 21, of 78 Lexington street. Both refused to talk when questioned at the station house.

During the evening John D. Broderick, 24 years old, of 29 Everett street, Charlestown, was arrested in connection with the affair.

Neither is Injured

Both Governor Walsh and Mayor Curley declared that they did not believe that it was a personal attack upon them. Neither was injured, and out of the shower of missiles nothing but a few pebbles struck them. News of the happenings spread along the miles of streets, where more than 30,000 men, women and children were anxiously awaiting the parade. Vociferous applause greeted the governor and the mayor as their carriages passed through the streets, and it was seen that neither had been harmed. Indignation was expressed everywhere. A damper had been spread over the festivities of the day in spite of the governor's appeal that the incident be forgotten.

Although he would not let the attack mar his enjoyment and enthusiasm in the celebration, Governor Walsh felt grieved that anyone should seek to break up a parade by such malicious actions. "I noticed the young men on the roof as we were coming down the street," he said.

"As we came by they threw pebbles such as are used for roofing. It seemed to me as though they wanted to hit the horses to make them panic. I was afraid for a moment or so that the pebble throwing might cause the horses to run away and injure persons in the crowd. While I was thinking about this, a bottle crashed down and broke on the pavements."

"Between the carriage and the place where the bottle struck was an outrider of the cavalry troop, which was acting as an escort. As soon as the bottle dropped I had the carriage stopped and called for a policeman to preserve order. About that time the cavalryman started in pursuit of those responsible for the incident. We had quite a lively few minutes while it lasted."

Mayor Curley agreed with the governor that the bottle throwing could not be believed the hoodlums knew who were in the carriage," he said. "The matter is now in the hands of the police, and there is nothing I can say or do in the matter now."

Watson's Silk Hat Hit

Adjutant-General Charles H. Cole and Captain James D. Coady, the governor's personal aid, were seated in the same barouche. In the next carriage were Councillors MacDonald and Watson and Alexander Rorke, vice-president of Tammany Hall, New York. They received the tail end of the shower of stones. One stone landed on top of "Jerry" Watson's silk hat

and bounced off, striking the Tammany Hall official.

The cavalrymen controlled their frightened horses masterfully. No one in the parade line would say that the missiles were intended for anyone in particular although a number declared that there has been some anger among Charlestown youths because the city refused this year to appropriate money for the annual bonfire and there may have been some resentment behind the incident.

Policemen Nicholas H. Flynn and William J. Kirwin of Division I made the arrests. It was stated last night that other arrests might be made. On the police records the two prisoners were charged with assault and battery on unknown persons. Captain Michael J. Goff, who had charge of the 500 police scattered throughout Charlestown expressed his regret at the happening, stating that he had done everything in his power to have the district well policed.

Councillor MacDonald declared that there should be a city ordinance prohibiting people from collecting on roofs of houses during street parades. He pointed out the dangers to which paraders are exposed from above when people collect on roofs and seek to cause annoyance on the streets below.

Patrick F. Healy, chief marshal of the parade, felt much annoyed over the affair and declared that he had served to blight the otherwise successful parade.

The parade started from the junction of Elm and Bunker Hill streets at 2 o'clock with Chief Marshal Healy and Lieutenant Andrew T. Wilson in the lead. It was on the roof of the house at 155-156 Bunker Hill street where the hoodlums had collected. The first section of the parade, including regulars from the forts, navy yard and warships, passed without molestation.

When the carriages containing the guests of honor reached this point the young men began their action and interrupted the whole parade.

Among the Paraders

Following the regulars and the carriages were three provisional regiments, composed of companies of the Fifth, Eighth and Ninth Massachusetts Infantry. Other organizations in line were Company A, Naval Brigade; Company A, Signal Corps; Bunker Hill and Colonel Fred B. Bogan camps, U. S. W. V.; First and Ninth Regiment Veterans Associations, Abraham Lincoln Camp, S. of V.; Charlestown High School and Dudley School Cadets; Sacred Heart Cadets of St. Joseph's church, Somerville; St. Mary's Cardinal Cadets of Charlestown and military organizations of Irish National Foresters and A. O. U.

The parade was reviewed by the chief marshal at the junction of Common street and Winthrop square and by Governor Walsh and Mayor Curley. Councillor MacDonald, chairman of the celebration committee of the city, and Executive Councillor Buckley at Catholic Literary union.

DRACUT

The Y. P. S. C. E. of the Dracut Centre Congregational church conducted a very successful strawberry festival, salad supper and entertainment in the church vestry last evening. The affair was largely attended and the receipts were very substantial.

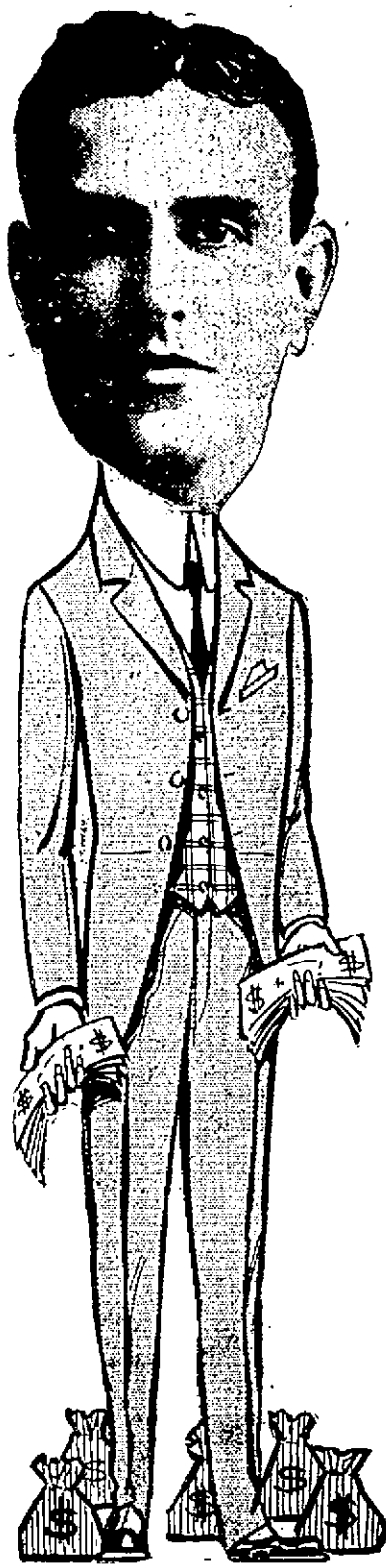

The supper was the real thing, while the entertainment which followed was very pleasing. The program consisted of the following numbers: Miss Edna Kierstead, piano selections; Miss Grace Kendrick, songs; Miss Mabel Kendrick, readings; Joseph Curry, violin selections; Lyle Sewell, songs. Miss Curry accompanied on the piano.

Miss Anna Roth had general charge of the evening's program and she was assisted by Misses Anna Bartlett, Helen Bryant, Evelyn Dutton, Edith Yates, Elizabeth Nehlinger, Melba Coburn, Gertrude Cluff, Hazel Cluff, Annie Hogue, Ruth Hill, Orpha Coburn, Frances Smith, Doris Fox, and the following members of the Ladies' Aid Society: Mrs. Conant Udell, Mrs. Jesse Currier, Mrs. Dora Cluff, Mrs. Guy Richardson, Mrs. Martha Fox, Mrs. A. P. Bryant. The following were also active assistants during the supper: A. B. Bryant, George R. Fox, Gus Dutton, Fred Swindler, Thomas Kearns, Kenneth Currier, John Guild, George Hogue, Claude Harvey.

Miss Anna Roth had charge of the entertainment program.

I'll Torpedo Prices on Blue Serges

FRIDAY AND SATURDAY

A GALA ROUND-UP OF OLD CUSTOMERS IN ONE OF MY FAMOUS PRICE SLASHINGS

SPOT CASH BOUGHT 60 FULL PIECES OF WANSKUK BLUE SERGE

TO the lay mind this statement isn't as important as it is to the people who know something about woollens. Mr. Metcalf is considered the most efficient manufacturer of all worsted and wool serges in this country. His colors are guaranteed during the life of the goods, the cheapest cloth that he turns out of his mill is sold by the commission man around \$1.75 a yard, and the better grades around \$2.75 to \$3.25 a yard. These goods sold by the retailer would cost the average tailor \$3.50 to \$4.00 per yard. These are not exaggerated statements, and any tailor paying from \$3.00 to \$3.50 per yard for Wanskuk Serges and selling them for \$30 to \$35 for a suit would be giving his customer full measure for the money.

When you come to my store Today and Saturday looking for Wanskuk Serges, I won't show you short ends or remnants, but full pieces, about five thousand yards in all, in light, medium and heavy weight, not over two weeks old from the loom. When ordering your suit ask for Wanskuk Serge; it not only proves the efficiency of advertising, but it guarantees you One Hundred Fifty Cents on the Dollar in value.

SUIT TO ORDER
\$12.50

Tailors, Attention!

For the balance of this month I will sell you by the yard or suit pattern any number on the Wanskuk line in my stock, 15 per cent. less than you have to pay your wholesale house. Goods are all sponged, and sold for cash only.

Signed, MITCHELL

MITCHELL, the Tailor

31 Merrimack Sq., Lowell

INDUSTRIAL AND STORE NEWS

Timothy Bourke, past president of the Trades & Labor council is confined to his home with a sprained ankle. Thomas J. Regan, general organizer for the United Textile Workers will visit Philadelphia within a few days, according to advice received here.

Organizer Ross Hall of the International Machinists arrived in Lowell yesterday morning, and at noon he addressed a large gathering of employees of the Saco-Loell shops at the Dutton street hall.

If Dr. Anton Meyer-Gerhard, ambassador von Bernstorff's special messenger to the Kaiser visited the plants of the U. S. Cartridge company, in this city, the plant officials know nothing of it, and no relations were entered into with him for munitions.

Typographical Union

The regular monthly meeting of the Typographical union will be held tomorrow night in Post 129 hall, Merrimack street, at which the officers recently elected will be installed.

Organizer Thomas F. McMahon

Organizer Thomas F. McMahon of the United Textile Workers spoke last night in Brunswick, Me. Tomorrow he will visit Maynard, and on Sunday he is scheduled to speak in East Greenwich, R. I. On Monday, Tuesday and Wednesday of next week he will speak in Springfield.

Middlesex Lodge, 135, Carmen

A largely attended and interesting meeting was held by the Painters' union in the union quarters in the Runnels building last night at which considerable business of importance was transacted. Two new members were admitted and several applications for membership were received.

Billiteria Billermakers

A special meeting was held last night by the Billiteria Billermakers' union, at which resolutions on the death of John Flaherty, who was a

charter member of the organization, were adopted. The charter was ordered draped and a delegation was appointed to attend the funeral.

Stationary Engineers

Local 362, Stationary Engineers, elected the following officers at its meeting held this week: John H. Smith, president; William Kenefick, vice president; Michael Ryan, treasurer. The election of the other officers was held over until the next meeting. Mr. Kenefick made a report on the convention held recently in Lynn which was accepted and two new members were received into the organization.

Trades & Labor Council

The Trades & Labor council held an interesting meeting last night in the union quarters in Middle street, with Pres. Frank Warnock in the chair. There was a full attendance of delegates and considerable business of importance was transacted. Reports were

received from several organizations showing an increase in membership since the starting of the labor forward campaign and the delegates reported business good in several trades. The executive committee submitted a report relative to the meeting held recently at city hall pertaining to labor on the Pawtucket bridge and the report was accepted as progressive. It was voted to celebrate Labor day as in former years with a parade in the morning, sports in the afternoon, and a band concert and speaking in the evening on the South common.

DROWNED WHILE BATHING

MRS. JESSIE HOLLIDAY DANA, ENGLISH PORTRAIT PAINTER, WAS CALLED "PERFECT" BRIDE

BOSTON, June 15.—Mrs. Jessie Holliday Dana, wife of Edmund T. Dana of Cambridge, who is a grandson of the poet Longfellow, was drowned yesterday while bathing alone in the surf at Nantucket. Her body was recovered.

Mr. and Mrs. Dana gained country-

ADAMS & CO.
Closed Thursday at 12 O'Clock. 174 CENTRAL ST.

wide publicity in the summer of 1913 by being principals in a so-called "perfect" marriage ceremony performed under the trees on the estate of Mr. Dana's father, Richard Henry Dana, one of the wealthiest citizens of Cambridge. They were married by a justice of the peace.

Before her marriage Mrs. Dana was a portrait painter of considerable prominence in England. She was the daughter of one of the foremost of the men in the steel and iron business in North Wales and was attending a socialist school in that section of Great Britain when she met Mr. Dana, who was at that time a student at Harvard. They found something in their socialistic belief, and friendship he had received no details of his daughter-in-law's death, but had dispatched a telegram asking for them.

When Mrs. Dana came here from England she made her home at the Adams residence as a guest of Mrs. Co.

Hot Weather Conduces to Chronic Constipation and Diarrhoea

A disposition to confine one's diet to cold food and to indulge freely in food drinks is one reason why constipation and diarrhoea are so prevalent in summer, and there is no season when bowel disturbances should be more carefully avoided, as much serious disease is directly traceable to these conditions.

To regulate the bowels and quickly relieve even an aggravated case of constipation, the combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is highly recommended by many physicians and all those who have used it. Unlike cathartics and violent purgatives, Dr. Caldwell's Syrup Pepsin acts gently on stomach, liver and bowels, without griping or other discomfort and brings relief in an easy, natural manner. Mild, pleasant to the taste, and inexpensive, it is the ideal family laxative. By cleansing the bowel tract and

eliminating the foreign matter and poisons that irritate and inflame, it will quickly check an attack of diarrhoea and restore normal conditions. Dr. Caldwell's Syrup Pepsin has been the standard remedy in countless homes for more than thirty years, and is sold in drug stores everywhere for fifty cents a bottle. A free trial can be obtained by writing to Dr. W. B. Caldwell, 433 Washington St., Monticello, Ill.

LEFT TIED TO TREE

Man Robbed by Armed Men in the Woods at Roxbury

BOSTON, June 18.—Residents of the West End are excited over the experience of Abid Alley, a recent arrival in this city, who on one of his first trips as a peddler of books and fancy wares was robbed in the woods at West Roxbury Wednesday by three men and left bound to a tree.

Yesterday the police had their first opportunity to investigate the case, because it was not reported to them until late Wednesday night after the Syrian had found his way back to friends in the West End.

Alley, who boards at 15 Stratford street, is in a pitiable plight. He can speak very little English and is now penniless and dependent on his friends. The robbers took from him \$30 in bills, which represented his savings of the past year, and a leather suit case containing his goods valued at \$60. They even took a comb and a cheap watch, leaving him with nothing except his clothes.

He had been in this country nine months and came here about a week ago from Portland, Me. He bought an outfit from John Audi, proprietor of a lace-irrigating establishment at 12 Green street, and early Wednesday morning took an elevated train and started for West Roxbury.

Alley left a surface car in the sparsely settled section, he does not know just where. The police spent many hours yesterday with Alley and

a young friend, Badie Audi, a cousin of the lace importer, trying to find the spot where he was held up, but without success.

Alley says that he had gone some distance from the car line and was in the thick woods when he saw three men approaching. He paid little attention to them. Suddenly they surrounded him and drew revolvers. There were two clean shaven light complexioned and rather tall men about 25 years old, a short, stout, dark complexioned man with a mustache, who acted as spokesman.

"You'd better leave your suit case with us," he ordered.

Alley offered no resistance, and says he was not handled roughly. The three men led him about 15 feet from the roadway and bound him to a tree with his arms doubled in front of him. They used a flat tape which did not hurt, Alley says.

He fell among the thieves just before 10 o'clock and it was 3.30 in the afternoon before a good Samaritan came to his relief in the person of a wagon driver. He untied Alley and gave him five cents to get back among friends.

SOCIAL AND FRATERNAL

At this week's meeting of Industry council, 1222 Royal Arcanum, an interesting circular from the grand lodge was read calling the attention of all the subordinate councils in the state to observe Royal Arcanum day on June 23, when the order will be 35 years old. Routine and important business was transacted with Regent Harvey Chase presiding. Following the business session, which was enjoyed by the prize winners being:

Ladies, first Mrs. J. Farnham; second Mrs. J. W. Sharkey; Gentlemen, first Thomas J. Campbell and John Gordon; second Mrs. D. A. Harrington.

The following musical program was also presented:

Piano solo, Harold Mehan; songs, Charles A. Carey; piano solo, Miss Ruth Mower; song, Jas. E. Gorman; monologue, Harold Hennessey.

During the evening refreshments were served by the following members of the entertainment committee: Mary J. Chase, Thomas H. Wilson, George T. Stafford, Alex. E. Rountree, John McKinley, George H. Desrochers, James E. Gorman and R. F. Mower.

Elgin Lodge, N. E. O. P.

A well attended meeting of Elgin lodge, 166, N. E. O. P. was held last evening in Veritas hall at which much routine business was transacted. Secretary H. A. Burrows, representative to the supreme lodge, reported the proceedings of the meeting in Boston Saturday. A pie social followed the business meeting. It was announced that Deputy Grand Warden Mrs. Estelle I. Evans of Cambridge will probably visit Elgin lodge at the next meeting.

Court Wamessit

Two new members were admitted and two applications for membership received at the regular meeting of Court Wamessit, Foresters of America, held last evening. A report of the outing committee was read. The election of officers will take place on the first Thursday in July.

Going to the Exposition? Don't Miss Colorado Scenery

No one can be indifferent to the beauty and grandeur of the Colorado Rocky Mountain scenery, and visitors to the California Expositions should make a point of seeing it. Also Denver, Colorado Springs, Pueblo, the Royal Gorge and Salt Lake City.

Now there's no extra charge for all this if you go via the Burlington Route (C. B. & Q.) because it so happens that the through service of that line has been planned so that you pass all of these points by daylight, and you can view from the train a panorama of mountain scenery that is as celebrated as any in the world.

Early on your way, you will not miss this opportunity and I would like to send you free, some pictures, maps and printed matter not only of the Colorado wonders, but also of Glacier Park or Yellowstone Park, which, by all means, you should visit on the return trip. Please make use of me—let me help plan the trip for you. Call on or write

Alex. Stocks, New England Passenger Agent, C. B. & Q. R. R., 204 Washington st., Boston, Mass.

NEWTON MAN MISSING

W. D. WAGENFELD DISAPPEARED IN STRANGE MANNER—RELATIVES ASK POLICE TO FIND HIM

BOSTON, June 18.—The disappearance of a well-known Newton man, William D. Wagenfeld, became known yesterday through an appeal made to the Newton police by his relatives. He dropped out of sight on Monday, leaving no word. Mr. Wagenfeld lived in one of Newton's best known residential streets, 251 Ward street, Newton Center, and he has been connected with a Boston firm.

His relatives, in appealing to the police stated that he had not been ill, that his home life was happy, and that they could not conceive of any possible reason for his disappearance. According to them he left his home for business at his customary hour Monday morning, arrived safely at his Boston office and left there about 10 o'clock. Since that time he has neither been seen nor heard from.

Those connected with his family also state that his business affairs are in the best condition, and that no developments there could have arisen to cause his disappearance. The conclusion has almost been reached that he has suffered some mental lapse and wandered off. A search of Boston hospitals and morgues will be made this morning.

Wagenfeld is 41 years of age and has been manager of an engraving firm at 217 Atlantic avenue. He has resided in Newton for three years. When he left his office he wore a dark mixed suit, a brown soft hat, high laced black shoes and turn-down collar, size 16. He is 5 feet 7 inches in height and weighs about 160 pounds. He is dark and smooth shaven.

He wore a gold Waltham open-faced watch, numbered 15340128. He carried an Aetna insurance policy in his pocket and an Old Fellow's past grand claim. He belongs to Bethesda lodge, I. O. O. F. of South Boston.

SCALE OF LIVING TOLD BY MRS. PELL ON WITNESS STAND—HUSBAND IN RAILROAD ACCIDENT

MRS. PELL

NEW YORK, June 18.—The scale of living in the household of S. O. Pell, before Mr. Pell was killed in a Long Island train near Long Beach on Aug. 3, 1913, was the subject of testimony in the trial in the Long Island City supreme court of Mrs. Pell's damage suit for \$250,000 against the Long Island railroad. The purpose of the testimony was to establish the extent of the financial damage suffered by the plaintiff through the death of her husband. The witness said that her husband's income averaged about \$20,000 a year, some years going as high as \$40,000 and in other years dropping to \$10,000. Mr. Pell allowed her, she testified, \$2,000 a year for household expenses and from \$500 to \$1,000 a year for clothing. He also

made expensive presents to her, giving her the house in Westbury, N. Y., where she now lives, and jewelry, the principal articles of which were a string of pearls worth \$4000, a sapphire ring valued at \$1200, a diamond worth \$1200 and a diamond pin valued at \$1500. Mrs. Pell entertained frequently before her husband's death, she said, and traveled rather extensively. Her last trip to Europe cost Mr. Pell \$1600. He allowed Isabella Pell, his 15-year-old daughter by a previous marriage, \$750 a year for school expenses and \$150 a month for general expenses. The accompanying picture of Mrs. Pell was taken as she left the courtroom in Long Island City.

ON ESPIONAGE CHARGE

REPORT THAT FORMER GERMAN AMBASSADOR TO FRANCE AND WIFE HAVE BEEN ARRESTED

MILAN, via Paris, June 18, 3.15 a. m.—The Corriere della Sera says it is reported that Prince von Radolin, former German ambassador to France, and Princess von Radolin were arrested in Berlin at the end of April, charged with espionage against Germany but that the censors forbade any mention of the incident.

After serving as German ambassador at Paris for nine years, representing his country in delicate negotiations with France when the two nations seemed on the verge of war over the Moroccan situation, Prince von Radolin, retired in 1914, with the announcement that he was through with public life. He was decorated by the French government early in 1915. President Fallieres called upon Prince von Radolin at the embassy in 1914, the first time a French president had visited the German embassy since the Franco-Prussian war.

The retirement of Prince von Radolin was reported to have been hastened by the theft of his diary, in which he kept a minute record of his diplomatic experiences in Paris. These accounts were said to have been of such a nature that they displeased the French government.

OTTAWA, June 18.—The present situation of international exchange is blamed for Canada's failure to get war munition orders from the allies on a

larger scale by W. T. White, minister of finance. Because of the great trade balance in favor of the United States, Mr. White asserts, European nations can buy there only by exporting gold, by establishing credits with New York banks or by selling their securities in America. Mr. White asserts, "the rate of exchange is decidedly against Canada as between us and New York."

COMPANY C OFFICERS
The result of the election of officers of old Company C Associates yesterday was as follows: President, Franklin S. Pevey; vice president, Capt. George L. Cady; secretary and treasurer, William H. Spalding; executive committee, Charles B. Kitchen, William F. Farrington, James Christie, Albert T. Green, Henry C. Hutchinson, Charles H. Horton.

DRUGGISTS' CONVENTION

MANY ARE TO ATTEND THE ANNUAL MEETING IN SPRINGFIELD NEXT WEEK

Many of our local druggists are to take an active part in the 34th annual convention of the Mass. State Pharmaceutical association, which will hold a three days' session at the Kimball hotel, Springfield, Tuesday, Wednesday

and Thursday of next week. The convention will open Tuesday with President F. J. Campbell of this city in the chair. Mayor Storey will extend the welcome of the city, after which will come the address of the president, and yearly reports of the officers and delegates to the national convention. Wednesday forenoon the nomination of officers takes place, and will be followed by the very important report of national and state legislative activities of the past year, to be submitted by the legislative committee. The election of officers will be held Wednesday afternoon, followed by the reading and discussion of papers, and the convention will close on Thursday with the installation of officers and a general cleaning up of unfinished business. Anro M. Dows is a member of the legislative committee. William H. Noonan has served on the executive committee. Ray Webster has served the past year as a member of the special telephone pay station and postal sub-station committee, and John H. O'Neil is the chairman of the entertainment committee, all of whom are planning to attend, and also George A. Wilson, Frank Goodale, F. P. Moody, A. E. Moors and many other local men.

PAIGE STREET BAPTIST CHURCH
The Paige Street Baptist church was last evening the scene of a delightful

strawberry festival held under the auspices of the ladies of the church. After the supper an entertainment, including the following numbers, was given: Piano solo, Doris Brown; violin solos, Dorothy Farley; reading, Orpha Hutchinson; piano duet, Helen Bassey and Ruth Davis; dialog, St. Brown, Neida Cross and Dexter Neal; recitation, Walter Hayes; duet, Robert Smith and Wesley Boynton. The supper was served under the direction of Mrs. John Evans, assisted by a large committee of women of the church.

TWO LOCAL SOLDIERS ATTENDED SCHOOL AT NOBSCOTT HILL AND REPORT GREAT SUCCESS

Sergt. Maj. Geo. D. Crowell, Second battalion, Sixth regiment, and Sergt. Fred Fahy, Co. K, have returned from the cooking school which was held at Nobscott hill, South Sudbury, during the past four days. The men report the school was very beneficial, for they claim they are now able to do most anything in the culinary line.

The school was under the command of Lieut. E. Everett Arnold, battalion quartermaster, Eighth, and the instructor was Quartermaster Sergt. F. Baner of the Washington barracks, who has had charge of experimental cooking for 21 years.

Yesterday the school for officers at the same point began. Those from Lowell who attended were Major Colby T. Kirtledge, Major Charles A. Stevens, Capt. W. Peterson, Capt. F. James N. Greig, Lieut. H. G. Sheldon, Lieut. W. C. MacBrayne, Lieut. S. R. Waller, Lieut. A. H. Cashin, Lieut. Melvin Masten, Lieut. J. J. Powers and Lieut. Charles J. Duffey.

THE FINAL MEETING

The final meeting of the season of the Men's club of the First Universalist church was held in Harrington hall last night. Routine business was transacted. The next meeting will be held in October.

Will repeat their big musical act which created a furore at Academy last night. Routine business was transacted. The next meeting will be held in October.

PAUL BUTLER'S DENIAL

STATES THAT NOBODY ANSWERING DR. GERHARD'S DESCRIPTION VISITED CARTRIDGE SHOP

There seems to have been very little, if any, foundation in fact for the report that Dr. Anton Meyer-Gerhard, Ambassador von Bernstorff's special messenger to the Kaiser, was in Lowell within the last month or so and that he had been recognized at the U. S. Cartridge company. If at the Cartridge shop at all he must have obtained a permit to enter, as none are allowed to enter without permits and the management says that no permits have been issued and no strangers admitted.

Mr. Paul Butler is the one man who would be most likely to know if Dr. Meyer-Gerhard was around, or if any negotiations for munitions had been made, and Mr. Butler is quite positive that the mysterious doctor has not visited the plant of the United States Cartridge company in this city.

Mr. Butler ought to know, but from other quarters comes the report that

a stranger, said to have the looks and general appearance of a German, visited the plant several times within the last three or four weeks. However, these reports are unofficial and may be without foundation. The U. S. Cartridge company is very particular about allowing strangers around the plant and nobody is admitted to the works without a permit granted only to those who are known to be all right, but not to strangers mysterious or otherwise.

ENFORCE WORLD PEACE

LEAGUE FORMED AT INDEPENDENCE HALL, PHILADELPHIA—TAFT PERMANENT PRESIDENT

PHILADELPHIA, June 18.—In historic Independence Hall yesterday—the anniversary of the battle of Bunker Hill—there was formed an organization whose object it will be to promote the creation of a league of nations with a view to preventing wars or, at least, to lessen the possibilities of armed conflicts. The name adopted by the organization, after some debate, was "League to Enforce Peace, American Branch."

Former President Taft, who presided over the conference for a part of the time, was elected permanent president and, in addition, many representative American citizens were named permanent vice-presidents. A permanent executive committee was selected with instructions to take all measures necessary to promote the objects of the league.

In moving the adoption of the report of the committee on resolutions, which embodied the objects of the league, the former president of the United States expressed the hope "that out of this historic building may come a message that shall again help the world."

The conference was not an assemblage of what one participant termed "pure peace" men, but a gathering of those who for the most part believe in trying to bring about peace, even though it be necessary to use force to do it. There was an animated discussion over the adoption of the name, and the only divisions that occurred on the several questions that came before the conference were on the changing of the rule of the organization and on the elimination from the report of the resolutions committee, that paragraph which bound members of the proposed league of nations to use both their economic and military forces against any one of their number that goes to war against another member before the questions at issue are submitted to the tribunal provided by the league.

TAKEN AFTER BATTLE

TEXCOCO CAPTURED BY GENERAL GONZALES—MOVED ON TO MEXICO CITY

GALVESTON, Texas, June 18.—Gen. Pablo Gonzales yesterday expected to occupy the city of Mexico in a few hours, following the capture of Texcoco, 15 miles from the capital, according to despatches received today by the constitutionalist consulate here from Vera Cruz. The messages added that Gen. Gonzales' force had moved forward from Lagos and was beginning the investment of Aguas Calientes. Texcoco, it was said, was taken after a sharp engagement with Zapata forces.

HOLDS BIG REMOVAL SALE

The Broadway Wholesale Millinery Co., of 125 Merrimack street, because of a decision to remove the store to the former quarters at present occupied by the King Dental office, is holding an extensive removal sale. No doubt the women of Lowell will be glad to take advantage of this opportunity for economic millinery buying and the bargains offered by the Broadway Co. will be filled with delight. The prices of new millinery and trimmings have been greatly reduced for this occasion. The store was very busy today, the opening day of the sale.

YOU CAN'T RUB IT OUT

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that on the affected part, but after all the rubbing the pain remained.

Thin blood and rheumatism come together and if they are properly treated they will go together. One prominent medical writer says that "there is no acute febrile disease in which an anemia occurs with greater rapidity." Anemia means thin blood and thin blood is something that can be corrected so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Acute, muscular and particular rheumatism all show improvement as the thin blood is built up and when the poisons in the blood are burned up and driven out the rheumatism does not return as long as the blood is kept rich and red.

Care in the diet is important during the treatment and every rheumatic sufferer should have two booklets published by the Dr. Williams' Medicine Co., Schenectady, N. Y., called "Building Up the Blood" and "What to Eat and How to Eat." They are free on request. Your own druggist sells Dr. Williams' Pink Pills.

Napoleon Met His Waterloo One Hundred Years Ago Today

The memorable battle of Waterloo was fought June 18, 1815, a few miles south of Brussels. It was at this battle that Napoleon, the man who sought to conquer the world, met his disastrous defeat. With the great conflict now raging in Europe more than ordinary interest attaches to the centenary of this event. It will be recalled that it was the sensational stand of the Duke of Wellington's men that won the day and settled for all time the ambitions of the man who sought control of the world's destinies. In the accompanying illustration are shown Napoleon, the tomb of Napoleon in the Madeleine chapel in the Hospital des Invalides, in Paris, and Napoleon as he sailed away from France.

Story of the Battle

One hundred years ago today the most momentous battle in history—the battle of Waterloo—was fought. On that day the great French army of 125,000 men, led by Napoleon Bonaparte, was practically wiped out.

At 1 o'clock in the morning Napoleon was waiting in the rain and darkness before the plain of Waterloo; at 8.30 that night he was rumbling back to Paris, lost.

The French losses were over 40,000, the Prussian only 7,000, and the British and allied 15,000. Some 45,000 killed and wounded lay on an area of about three square miles.

Marshaled His Army

At 1 in the morning Napoleon rode out to the front, which was hung along the plateau that looks north over the field of Waterloo. The rain was still falling heavily. Between 7 and 8 he rode out again. The field looked bad.

He hoped to open fire at 10 o'clock on the British troops which had bivouacked in the wet corn on the ridge opposite. By 10 it was clear, but the field was still hopelessly soft. A little before 11 he rode a third and last time along the lines to marshal the army. A half-hour later the great battle began.

After more than an hour's fighting the French were driven down the slope.

FRENCH OFFICIAL REPORT

PARIS, June 18, 2.30 p. m.—The report on the progress of hostilities, issued by the French war office this afternoon, consisted of ten words. It said there was nothing to add to the announcement given out last night.

If you want help at home or in your business, try The Sun "Want" column.

Bulwag's Troops Arrive

Already there had been another discouragement in a battle which had gone home too successfully from the start. Napoleon had seen a dark cloud emerging from the woods at St. Lambert off to the east. It might be the expected aid from Grouchy. But not long after 1 o'clock there was no doubt that it was Bulwag's troops, moving rapidly to Wellington's assistance. Grouchy had not intercepted.

This was the crux of the battle. Bulwag was near at hand. There was nothing for Napoleon to do but to leave Marshal Ney with the order to carry La Haye Sainte at whatever cost, and hurry off to keep the German contingent from cutting off his supplies. Line of retreat at the village of Plancenoit.

It was a hard and gallant fight that the French offered the unexpected attack on their right. But more and more divisions were ordered to hold the Prussians back, and still there were no signs of Grouchy. The Young Guard, the cream of the army, went in, but still Plancenoit was held by Bulwag. Three battalions of the Old and Middle Guard, valuable material, were ordered in two batteries followed and Plancenoit was taken.

COLLISION DURING FOG

MACHIGONNE RAMMED BY SCHOONER TACOMA IN BOSTON HARBOR—NONE INJURED

BOSTON, June 18.—Passengers aboard the inbound Nahant steamer Machigonne were frightened yesterday afternoon when the big fishing schooner Tacoma, inbound in the black fog, collided with her off Deer Island, inside Sound Point.

The crash came out of the thick mist with such force that the 49-foot bowsprit of the fisherman was snapped off short at base and after it had demolished a 4-foot section of the side of the steamer, forward of the gangway on the port side.

The women passengers aboard the Machigonne screamed when the heavy shock came, which knocked some of the crew at supper below decks, off their stools, and hurled one man against the starboard inside house forward of the forward gangways.

The bow of the Tacoma was plowed into the side of the Machigonne. It plowed through the quarter-deck, splintered the mainmast, and then, with a crash, it struck the side of the steamer, where it was held by the mainmast.

The Tacoma was held in position by the mainmast of the Machigonne, which was splintered and a short length of the mast and part of the passenger deck.

The bow of the Tacoma fell away from the Machigonne's main deck and the wreckage after the crash. The Tacoma was held in position by the mainmast of the Machigonne, which was splintered and a short length of the mast and part of the passenger deck.

The Tacoma was held in position by the mainmast of the Machigonne, which was splintered and a short length of the mast and part of the passenger deck.

The Tacoma was held in position by the mainmast of the Machigonne, which was splintered and a short length of the mast and part of the passenger deck.

Napoleon hurried back to the front,

unconscious of the fact that the Prussian reinforcement under Pirch I. and Zielen were coming up. These reinforcements forced their way into Plancenoit and Napoleon became desperate.

He made one last reckless snatch at victory. Before the farmhouse of La Haye Sainte he addressed his men. He urged them on. They rallied superbly, and the Imperial Guard started forward in its last effort to drive the English back from the coveted turnpike.

Walked to Destruction

The French army, what was left of it, walked straight to the jaws of destruction. Yet Wellington waited for the final factor before putting out his hand for victory. He delayed advance until Zielen had pierced the northeast corner of the French right and thrown the whole wing into confusion. Then, seeing that the battle was won, he gave the famous order for the whole line to advance—a thin line, but one which met with little resistance.

A little after 6 o'clock Wellington and Blucher met at La Belle Alliance, and it was agreed that the Prussians should take up the pursuit, which they did, driving the French out of seven successive bivouacs, and finally forcing them across the Sambre.

SUSPEND SHIP CAPTAIN

COMMANDER OF STEAMER PERRY HELD RESPONSIBLE FOR ACCIDENT

HALIFAX, N. S., June 18.—The court of inquiry that has investigated the stranding and subsequent sinking of the Plant line steamer A. W. Perry off Chebucto Head on June 1, ruled today that the certificate of Capt. Alfred Ellis, commander of the steamer, be suspended for six months. The two officers of the steamer were relieved of all responsibility.

The Perry, bound from Boston for this port, with 42 passengers and a cargo of valuable freight, struck on the ledge of Chebucto Head and a heavy fog hid all of the vessel, and crew were removed in safety. The steamer was on her last trip before being turned over to agents of the Mexican constitutional party for use as a military transport.

PLAN BIG ZEPPELIN RAIDS

GERMANS TO ATTACK BOTH LONDON AND PARIS "In Retaliation"—Complete a Zeppelin Every 24 Days

GENEVA, Switzerland, June 18.—Despatches received from Geneva from Friedrichshafen say that daily raids are now being made in the Zeppelin factories, which are turning out completed Zeppelins at a rapid rate.

One of the Zeppelins destroyed yesterday was the one which was shot down by the British on June 4.

The Zeppelins are now being prepared for a raid on Paris and London, and are expected to be used in retaliation for the recent raid on the British towns by Zeppelins.

The Zeppelins are now being prepared for a raid on Paris and London, and are expected to be used in retaliation for the recent raid on the British towns by Zeppelins.

CEMETERY COMMISSION

MEMBERS FIND THEIR AUTHORITY LIMITED TO ROUTINE—CITY SOLICITOR'S OPINION

Before and after the bill creating the cemetery commission was enacted into law, The Sun said in interviews, had been ex-Senator Fisher and others, that the bill was uncertain and would raise legal questions because it did not specify the duties of the new commission. It was pointed out that the commission would not have the power to appoint a superintendent or to make the appropriation of the present cemetery funds. The cemetery commission has arrived at that conclusion.

The commissioners met yesterday afternoon and decided that it would be necessary to appeal to the legislature of 1916 asking that changes be made in the act whereby the duties and powers of the municipal council may be transferred to the municipal commission. The question of authority was raised when Chairman Robinson brought up the matter of granting deeds to lots in the public cemeteries.

Commissioner Taylor said he did not see anything in the act that gives to the commission the power in granting deeds to lots, and it was finally decided to ask City Solicitor Hennessy's opinion in the matter. The solicitor said:

"Before the creation of this charter all powers were vested in the cemetery trustees. But later such powers were vested in the municipal council. But when this bill was passed it transferred only to the cemetery commission the powers and duties of the commissioner of public property and licenses. I pointed out this apparent discrepancy—I wrote to Mr. Lewis about it."

"Who has the right to sign deeds?" asked Mr. Harris.

"I should say the municipal council," replied Mr. Hennessy. "The only transfer of powers has concerned the transfer of duties vested in the commissioner of public property, and not a transfer of the duties and powers of the municipal council."

"But it says that all acts inconsistent with this act shall be repealed," said Chairman Robinson.

"But only such acts which concern the duties and powers of the commissioner of public property," replied Mr. Hennessy.

Asked as to the rights of the commission relative to eight lots owned by the city in St. Patrick's cemetery, the solicitor said the commission has the same right to look after them that it has lots in the public cemeteries. He said the commission has no land rights in St. Patrick's cemetery, although the city was given permission to use these lots, upon the payment by the city of money for them.

Mr. Taylor wanted to know how the

commission would charge up the cost of grading and care of the lots in St. Patrick's cemetery. The city solicitor said it would have to be charged up to public cemeteries. "I consider," he said, "that those lots constitute just as much a public cemetery as the others."

Mr. Rigby asked if there was any record of the appropriation of money for the purchase of lots in St. Patrick's cemetery, and Mr. Hennessy said the record is in the city clerk's office.

Mr. Taylor allowed that the only way to straighten the apparent inconsistencies in the present act is to appeal to the legislature next year and get further points enacted. Mr. Hennessy said the bill should be revamped.

Mr. Taylor then moved to instruct the secretary to request the city solicitor to prepare a note to be presented to the municipal council authorizing the mayor to sign the deeds to lots in the public cemeteries. The motion was adopted. Mr. Harris alone voting in opposition.

A letter from Supt. Duckworth asking that an ordinance be prepared to create perpetual care for single graves, such graves to sell for \$25, was read and ordered to lie on the table.

Adjourned.

REV. BROTHER OSMUND
Principal of St. Patrick's School

Standing room was at a premium at the Lowell Opera House last evening, when the boys of St. Patrick's parochial school gave their thirty-third annual entertainment, one of the most elaborate affairs ever conducted under the auspices of this school. Never in the history of the school, according to a few of the old timers, had such a crowd gathered under one roof to attend an entertainment by school children. The large amusement place was taxed to its capacity and the audience was well repaid, for the program was bright and highly entertaining. It gave the parents an opportunity to see what is being done in this school in the line of education. The interpretation of the various difficult parts demonstrated the excellent training the boys are getting under the able direction of the Xaverian Brothers, in charge of the school.

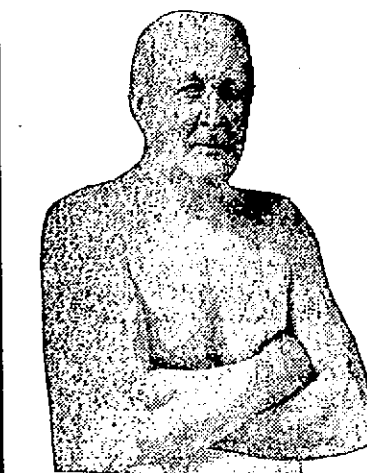

One of the busiest men of the evening was the master of the school, Bro. Osmund, who had general supervision of the affair, and it may be said that nothing lacked in the execution of the program. Each number was given with ease and satisfaction, and the frequent applause was a good mark of appreciation from the large audience.

The program consisted of several numbers, both musical and literary, that greatly pleased, but a feature of the evening was the presentation of a romantic drama in four acts, given by the pupils under the able direction of Bro. Idephonse, C. F. X. The piece was entitled "Under Two Flags," and was based on true patriotism and respect for the Stars and Stripes. The staging of the play was excellent in every way, while the various difficult parts were well sustained. It was really astonishing to many to see a number of boys still in their teens interpret such a masterpiece so very cleverly. The elocution shown was dramatic, the articulation distinct and the stage business perfect. All the parts were well sustained and the boys who took part deserve special mention, while the leaders did remarkably well. The chief trouble with school dramas is to get the speakers to make themselves understood. Success in this respect was

67 YEARS OF AGE GAINS 22 POUNDS IN 23 DAYS

Remarkable Experience of F. Gagnon—Builds Up Weight Wonderfully

"I am a man of 67 years of age and was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now thanks to Sargol, I look like a new man. I gained 22 pounds with 23 days' treatment. I cannot tell you how happy I feel."

PAST "THE PRIME" BUT STOUT, STURDY AND ATHLETIC

"After I had taken Sargol for ten or twelve days I could see for myself that I was gaining weight at a rapid rate," writes Homer Dale. "I gained 9 pounds in 15 days. I never felt better in my life."

"Your Sargol has done wonders for me," states John McKay. "I weighed 21 pounds and look and feel like a new person."

"Would you, too, like to quickly put from 10 to 20 pounds of solid muscle 'stay-there' flesh, fat and muscular tissue between your skin and bones? Don't say it can't be done. Try it. More than half a million men, women and children have gladly made the test, and that Sargol does succeed, does make thin folks fat even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, flesh creams, massage, pills or emulsions, but a simple, harmless home treatment."

All reliable dealers sell Sargol with a positive guarantee to refund your money should there be no satisfactory weight increase. Louis K. Liegett Co., Carter & Sherburne Co., Falls & Burkinshaw, C. F. George & Co., P. H. Butler & Co., Fred Howard, Lowell Pharmacy, Phelps' Pharmacy, Theo. C. Walker, Geo. F. Webster, J. L. Fields will gladly explain the comprehensive guarantee that goes with every box of SARGOL.

PRESENTED WATCH CHAIN TO AMERICAN RESISTRY

REV. BRO. BERNARDIN OF ST. JOSEPH'S COLLEGE RECEIVES MARK OF ESTEEM

Rev. Bro. Leon Bernardin, master of St. Joseph's college, was last night tendered an agreeable surprise by the members of the present and past executive committees of St. Joseph's college alumni, who as a token of love and esteem, presented him a handsome silver watch chain with charm. The custom of the order forbids the use of gold watches.

The affair had been organized by the present officers of the executive committee, as a mark of esteem and appreciation of the good work performed by the brother toward the organizing of the alumni, for it was really with the able support and through the untiring efforts of Bro. Bernardin that St. Joseph's college was formed.

The matter of forming an organization composed of former pupils of St. Joseph's college was suggested to Bro. Bernardin in the early part of the year 1913, and it was mainly through his efforts that the organization was formed. The presentation address was made by E. J. Laroche, a former secretary of the association. The gift was accepted in terms of appreciation in the course of which Bro. Bernardin assured his guests he will always do his utmost for the success of St. Joseph's college alumni and its members.

A pleasant evening followed during which a musical program was carried out, about every one present taking part in the entertainment. A light luncheon was served. Those present were Leonce Glonet, Edmond S. Desmarais, Edmond Foisy, John B. Richard, Arthur Simard, George E. Cosette, Arthur Giroux, H. J. Ducharme, Arthur D. Lamoureux, Isidore Trudel, Arthur St. Hilaire, Arthur L. Eno, Esq., Eugene Ricard, Joseph F. Montminy, H. V. Chabonneau, Esq., Rodolphe E. Jodoin and E. J. Laroche.

R. G. WAGNER SAYS HIS REQUEST FOR TRANSFER OF DANISH STEAMERS MADE IN GOOD FAITH

NEW YORK, June 18.—R. G. Wagner, president of the American Transatlantic Co., whose application for American registry for a number of so-called Danish freight steamships has been refused by Eugene T. Chamberlain, United States commissioner of navigation, said in a statement made public today that his request had been made in good faith and that all the stockholders of the company are Americans. He explained his efforts to obtain American registry for the vessels by saying that while in Denmark last January he saw the opportunity to obtain an interest in the ownership of several vessels and was informed by the American consul that there would be no difficulty in transferring them to American registry.

Returning to the United States he incorporated the American Transatlantic Co. Mr. Wagner said he laid all the facts before the navigation commissioner at Washington, assured the commissioner that all the vessels always had been under neutral flags, and gave him a guarantee that the ships would not be used in any way to embarrass the United States government.

FORCED TO LEAVE HOMES

LACK OF FOOD HAS DRIVEN PEOPLE OF EASTERN SONORA INTO MOUNTAINS

DOUGLAS, Ariz., June 18.—Lack of food in the towns and farming districts have driven most of the people in eastern Sonora into the mountainous section where they are subsisting on acorns and pitillas fruit, a species of cactus, according to reports received here today.

Hundreds in addition to those already in the hills, have been forced to leave their homes in the Campas district, it is reported, because of the confiscation of the wheat crop by Gen. Treviño, Villa's commander, for his troops. Only a small portion of the

crop was given to the civilians. GUARANTEE BY CARRANZA. WASHINGTON, June 18.—John R. Silliman, United States consular agent at Vera Cruz, today advised the American Red Cross that Gen. Carranza would do everything possible to facilitate the work at Vera Cruz of Charles J. O'Connor, who has been sent to Mexico to personally direct the relief operations of the Red Cross in southern Mexico.

Mr. O'Connor, who sailed from Galveston for Vera Cruz Tuesday will be joined at Vera Cruz by Mr. Shanklin, American consular general at Mexico City and the two will proceed to the Mexican capital and co-operate in solving relief problems there.

PEACE CAN BE RESTORED ANYTIME, SAYS BRYAN

Suggests Mediation as "The Way Out" in Third and Concluding Section of His Statement

WASHINGTON, June 18.—Former Secretary Bryan in the third and concluding section of his statement on the "Causeless War," issued today, suggests mediation as "the way out." As a preventive of war, Mr. Bryan proposes universal extension of his investigation commission peace treaty plan.

"Mediation," the former secretary of state says, "is the means, provided by international agreement through which the belligerent nations can be brought into conference; time for investigation of all disputes is the means by which future wars can be averted and the cultivation of international friendship is the means by which the desire for war can be rooted out."

Peace Educational Movement
In elaborating his plan for restoration of peace, Mr. Bryan urges: "That neutral nations in advocating peace crystallize sentiment in favor of peace into a coercive force and offer mediation jointly or severally; that the warring nations join in a treaty to provide for investigation 'by a permanent international commission' of every dispute that may arise, no matter what its character or nature; and that a world-wide educational movement to cultivate a spirit of brotherhood among the nations be undertaken as the final task of the advocates of peace."

Cannot Exterminate Great Nations
"Great nations cannot be exterminated," says Mr. Bryan. "Predictions made at the beginning of the war have not been fulfilled. The British did not destroy the German fleet in a month; Germany did not take Paris in two months and the Russian army did not eat Christmas dinner in Berlin. But if extermination were possible it would be a crime against civilization which no nation or group of nations could afford to commit."

How to Restore Peace
Mr. Bryan continues: "When can peace be restored? Any time now if the participants are really weary of this war and ready for it to end. If any nation is not ready, let its ruler state in clear, distinct and definite terms the conditions upon which it is willing to agree to peace; then, if an agreement is not reached, blame for continuance of the war will be upon those who make unusual demands."
In proposing mediation, the former secretary points out that The Hague convention expressly declares an offer of mediation shall not be considered an unfriendly act, and adds:

Continue Offers of Mediation
"The duty of offering mediation may seem to rest primarily upon the United States, the largest of the neutral nations and the one most intimately bound by ties of blood to all the belligerents. The United States did make an offer immediately after the war began, but why not again and again until our offer or some other offer is accepted? But our action or failure to act need not deter any other neutral nation from acting."
"This is not a time to stand on ceremony—no matter what the reason may be—in a better position than we to tender its good offices, it should not delay a moment."

Investigate Treaties
To assure permanent peace, Mr. Bryan urges that his plan of investigation of treaties be adopted by the warring nations.
A treaty such as those which now prevent the peace of the United States, he said, "would give a year's time for investigation and report and who doubts that a year's time would be sufficient to reach an amicable solution of almost every difficulty? Does anyone suppose that the present war would have been begun if a year's time had been taken to investigate the dispute between Austria and Serbia?"

ANOTHER WHITE WAY

UPPER MERRIMACK STREET MERCHANTS TO CELEBRATE ON MONDAY EVENING

"We are going to have a celebration of our own Monday evening," said a prominent business man of upper Merrimack street to a Sun reporter this forenoon. "In connection with the opening of our great white way, and although the affair will not be on as large a scale as that which marked the opening of the other white way, we expect to do things right and open the eyes of some one."

The promoters of the extension of the white way in upper Merrimack street from Colburn to Cabot, or in other words the officials of the Upper Merrimack Business Men's association, were notified yesterday by Supt. John A. Hunnevell of the Lowell Electric Light Corporation that in all probability the lights would be turned on Monday evening, and immediately, despite the fact that the stores were closed in the afternoon, three of the most energetic workers of the district took it upon themselves to organize a celebration and today they are doing their utmost to interest every business man of the district and their efforts are being crowned with success.

These men are Thomas J. Fitzgerald, J. C. Manseau and John A. Osgood. They held a meeting at Mr. Osgood's drug store yesterday afternoon with a few other business men present.

FIGHTING IN GALICIA

Progress of Austro-Germans Dearly Bought, Says Official Review Issued in Petrograd

PETROGRAD, June 18, via London, 9.55 a. m.—An official review of some recent occurrences along the Austrian battle front which, among other things, calls attention to the fact that the progress of the Austro-German forces in Galicia has been dearly bought, was given out in Petrograd today. It reads as follows:

"The development of the battle along the Tismitzka-Sivka front along which one of the six armies attacking our forces in Galicia is operating, will serve to give some idea of the magnitude of the actions in this region. The significance of the operations in the vicinity of Sivka is found in the fact that they were an endeavor to turn our front opposed to the plan-lanes under Gen. von Mackensen."

Lost "Tens of Thousands"
"The above referred to sector on the Dniester river, however, was not the scene of the principal fighting, even with regard to the numbers of troops engaged. On May 19 the enemy, closely following our troops retreating from the Carpathians, met our opposition in the region to the east of Drobyshy, north of Sivka and in the vicinity of Belachow. On the 19th the enemy brought all his forces into action, but at the end of two days he was compelled to quit this offensive, having lost tens of thousands of men."

"His only success in eight days' fighting was the turning of our right wing near Slonisko with the threat of a possible outflanking movement. During this week we remained passive, confining our operations to exterminating the enemy as he approached our trenches. The next four days were devoted by the enemy to bringing together heavy artillery and supporting detachments."

"May 25 was the beginning of the decisive attack and the crisis came on the fifth day of the fighting."

"Three days—May 30, May 31 and June 1—were undecided whether to attempt to turn the Germans, and they decided to collect funds from the business men of the district and make the celebration worthy and attractive. This morning they set to work interviewing their brethren along the line with satisfactory results."

The celebration will consist of a concert by the Sixth Regiment band, a parade and a fireworks display. It is understood that all the business men of the district will offer special inducements in their respective lines in order to demonstrate to the citizens of Lowell in general that that district is composed of live wires and that despite the fact that the business points along the district are being crowded with stores closing time. Red fire will be burned throughout the evening and fireworks will be set off. Some one stated this morning that an automobile will be secured and Messrs. Fitzgerald, Manseau and Osgood will be forced to play through the district, and the brass band, for it is said that it was mainly through their efforts that the extension was secured.

The merchants contributed generously toward the success of the affair and the money collected will be utilized in newspaper advertisements, band and fireworks expenses, while a small portion of it will go toward defraying the cost of placards advertising the business of the district, which will be carried throughout the city on Monday.

The "light brigade" of the Lowell Electric Corp. is rushing the work along and this noon all the poles on the right side of the street as far as Cabot street were up, while about half on the other side had been done. It is believed that tomorrow the brush artists will get busy, and by Monday forenoon the finishing touch will be on. It is expected that the Lowell Electric Light Corp. will provide some special feature for the celebration, the nature of which has not yet been announced.

Members of the Upper Merrimack Street Business Men's association stated this morning the organization would be permanent and everything will be done to improve conditions in the district. The officers of the association are as follows: John H. Beaulieu, president; John Osgood, secretary; treasurer, J. E. Manseau; Frank Ricard and Joseph Dextra, directors.

The lights will be turned on at 7.35 o'clock. The business men of the district wish it understood that despite the fact that special bargains will be

who had broken through our front near Sivka, or to fall back on the Dniester river. The general situation in Galicia finally caused us to adopt the latter course. The night of June 2 the enemy demonstrated against our bridgeheads in the direction of Mikolajow, losing several thousand men."

Germans Crossed Dniester
The principal attack was delivered by the army under Gen. von Bothmer at a point more to the east. The attack against Zidaczow was repulsed, but on June 8 occupied the left bank of the river for a distance of 15 miles. "June 8 and June 9 the bulk of the German forces were decisively defeated and thrown back across the Dniester. Nevertheless on June 13 the German commander, beginning a general offensive, delivered a new attack with what remained of his regiments. The principal German force moved along the right bank of the River Stry and attacked our bridgehead near Zidaczow."

Lost 150,000 at One Point
"Toward June 15 the time came for another reverse of the enemy. At Bezenica and Krulenska alone we killed with the bayonet and buried 1000 Germans who had abused the white flag. Between May 26 and June 15 we captured in this sector 40,000 prisoners, including 800 officers; over 100 machine guns and two dozen cannon. The total losses of the enemy on a front of 38 miles were between 120,000 and 150,000 men."

"Dense additional columns descended the slopes of the Carpathian mountains daily and reinforced the enemy. Many supplementary detachments, originally destined for Eastern Prussia met their final fate in the valley of the Stry."

"We have noted serious symptoms of demoralization which are beginning to show themselves in the ranks of the enemy in the vicinity of Mikolajow."

offered, car fares both ways will be refunded to customers purchasing one dollar's worth or more.

Upper Middlesex Street Interested
The business men of Middlesex street from the railroad station to McIntire street are also planning to have a celebration Monday evening in connection with the opening of the white way in that district and this evening they will hold a meeting at the rooms of the Middlesex Social club in order to complete all arrangements for the event.

Sigmund Rostler, who is at the head of the movement, says the Lowell Military band will be hired for concert work during the evening as well as for the parade which will be held sometime between 7.30 and 9 o'clock. It is expected that the members of the Middlesex Social club will take part in the parade with a special feature, while every business man in the district who owns a horse and carriage or automobile will be invited to follow the band. Further announcements will be made tomorrow.

FUNERALS

SMITH—The funeral of Mrs. Eita's Smith was held from the home of Mrs. C. B. Smith, 121 Jewett street, yesterday afternoon. The services were conducted by Rev. Walter E. Pittenger, pastor of Centralville M. E. church. Mrs. A. C. Spaulding and Mrs. H. E. Reynolds sang appropriate selections. The hearers were Messrs. Alexander and William Stewart, Walter Smith and Robert Salter. Burial was in the family lot in Lowell cemetery, where the burial service was read by Rev. Mr. Pittenger. The funeral was under the direction of Undertakers Young & Blake.

JOHNSON—The funeral of Mrs. Catherine Johnson was held yesterday morning at 9.30 o'clock from the home of her niece, Mary L. Welch, 21 Pacific street, Fitchburg. A funeral mass was sung at St. Bernard's church, Fitchburg at 9 o'clock. Rev. Geo. W. Welch of Fitchburg, a nephew of deceased, officiating. Burial was in St. Patrick's cemetery, this city. At the grave Rev. Welch, assisted by Rev. David Murphy, pastor of St. Andrew's church of North Billerica, read the communal prayers. The hearers were Edward J. Welch, Cornelius Duggan, Martin J. Manix and Thomas Welch. Undertakers James P. O'Donnell & Sons were in charge of the funeral arrangements.

QUINN—The funeral of Austin Quinn took place this morning from the funeral parlors of Undertaker Geo. B. McKenna. The hearers were George Allen, William Thompson, Charles Fairburn and Albert Maguire. The burial took place in St. Patrick's cemetery where the final prayers were read.

where the final prayers were read.

FLAHERTY—The funeral of the late John Flaherty took place this morning at 9 o'clock from his home, 108 Strongquist avenue and was largely attended by sorrowing relatives and friends including 150 brother employees of the Boston & Maine car shops, Lodge 371, Boltemakers and Helpers union, who marched from the house to the grave. At the Sacred Heart church a high mass of requiem was sung at 9 o'clock by the Rev. Franklin T. Wood, O. M. I. There were many beautiful floral tributes, including: Pillow inscribed "Husband and Father," home bereaved family; wreath inscribed "Cousin," Mr. and Mrs. B. Roach and James, and offerings from Mr. and Mrs. Denis Crowley, Lodge 271, Boltemakers and Helpers union, United Shell Dept. E. S. Carrigan Co., Loyal Order of Moose, Concord, N. H.; Mrs. Charles Ames, Concord, N. H.; Miss Catherine and Mary Crowley, Miss Minnie Cosgrove, Somerville, Mass.; Mrs. Quinn and family, Machineists Local Lodge 312; spiritual bouquet, Mrs. Martin Hansberry. The hearers were the following members from the Local Lodge 371, Boltemakers and Helpers union, of which the deceased was an esteemed member: Messrs. Michael Gallagher, Jeremiah Casey, Bernard Roach, James Crowley, John Welch, Howard Cronin, John Cronin and James Cronin. There were many relatives and friends from out of town who attended the funeral, among them were: Miss Minnie Cosgrove of Somerville, Mass., Mr. and Mrs. Albert Grant of Concord, N. H., and Mr. George J. Rev. Francis T. Wood, O. M. I., read the communal prayers and burial was in St. Patrick's cemetery, in charge of Undertaker J. J. O'Donnell.

DEATHS

FARRELL—Michael Farrell, aged 60 years, died yesterday at the Lowell hospital. He was a member of St. Patrick's parish for a number of years. The body was removed to the rooms of Undertaker C. H. Molloy.

GLEASON—Mrs. Della E. Gleason died yesterday at St. John's hospital. She leaves one son, John J., and three sisters and two brothers. The body was taken to her home, 553 Bridge street.

HOLLINGSWORTH—Mrs. Margaret Hollingsworth died yesterday at her home, 5 Richmond avenue, aged 54 years. She leaves her husband, Thomas, three daughters, Mrs. Margaret Rock and Lillian and Helen B. Hollingsworth, and two brothers in Scotland.

CASEY—Julia Casey died at the home of her niece, Mrs. John Manchester, 21 Lynde street, Salem. The body was brought to this city and taken to the home of her sister, Mrs. Edward J. O'Neill, 22 Phillips street.

SULLIVAN—Daniel Sullivan, aged 45 years, died this morning at the Chelmsford street hospital. The body was removed to the rooms of Undertaker Molloy.

FUNERAL NOTICES

SULLIVAN—The funeral of Cornelius Sullivan will take place Saturday morning at 8 o'clock from the home of his sister, Mrs. Timothy Kennedy, 99 North Main street, Lowell. A high mass of requiem will be sung at St. Patrick's cemetery. Burial in St. Patrick's cemetery, in charge of James P. O'Donnell & Sons.

GLEASON—The funeral of the late Mrs. Della E. Gleason will take place on Thursday morning at 8 o'clock from her late home, 553 Bridge street. High mass of requiem will be sung at St. Michael's church at 9 o'clock. Burial will be in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

CASEY—The funeral of Mrs. Julia Casey will take place Saturday morning at 8 o'clock from the home of her sister, Mrs. Edward J. O'Neill, 22 Phillips street, at 8 o'clock. High mass of requiem will be sung at the immaculate conception church at 9 o'clock. Interment in St. Patrick's cemetery, P. H. Savage in charge.

MATRIMONIAL

Mark L. Flaherty of Chelsea and Miss Jennie F. Dorris of this city were married yesterday afternoon at the immaculate Conception rectory by the pastor, Rev. Lawrence P. Tighe, O. M. I. The bride was attended by Margaret E. Dorris who acted as bridesmaid, while the best man was Martin Flaherty. The bride wore white crepe meteor with allover lace trimming. She wore a veil caught up with orange blossoms and carried a shower bouquet of lilacs of the valley. The bride-maid was handsomely attired in pale blue crepe de chine and carried a bouquet of sweet peas. The bride's gift to the bride-maid was a diamond pendant and the bridegroom's gift to the best of the ceremony the bridal party repaired to the home of the bride, 173 Pleasant street, where a dinner was served, followed by a reception. The house was handsomely decorated for the occasion. Many friends were present from Chelsea, Everett, East Boston, Dorchester, Lawrence, Cambridge, Woburn and Norwood. At the close of the ceremony the recipients of numerous costly gifts, including cut glass and silverware. The happy couple left on a wedding tour through the White mountains and after July 1 they will be at home to their friends at 239 Webster avenue, Chelsea. No cards.

STREET DEPT. CRITICIZED

By Auditor in Case of Rafferty vs. City of Lowell—Award Plaintiffs \$1253 for Paving Blocks

James J. Kerwin, auditor, before whom was heard the evidence in the case of Thomas Rafferty et al. vs. City of Lowell, one of several of the city's paving block disagreements, has made a finding in the case, in which he awards the plaintiffs the sum of \$1253.42, with interest from January 4, 1915, the date of the writ.

In making his finding Mr. Kerwin scores the city's lack of system in keeping count of the paving blocks consigned to it.

The case grew out of the refusal of the present administration to pay a bill for paving blocks ordered under the former administration. The paving blocks were delivered as called for and the last consignment was made during the latter part of the year. The final bill was not presented until after the new administration came into office, and the latter disputed it and refused to honor it.

Legal proceedings were then instituted by Edward J. Tierney, on behalf of Mr. Rafferty and at the hearing the city was represented by City Solicitor Hennessy.

Auditor Kerwin's finding, in part, is as follows: It appeared in the evidence and I find that the plaintiffs had granite quarries in Grantville, Mass., and that commencing on June 14th, 1913 and ending September 15th, 1913, they, in pursuance of this contract, shipped to the defendant via Boston & Maine railroad several cars of granite block paving, and that said cars containing said block paving were delivered by said Boston & Maine to said defendant on track sidings in Warren and Tanner streets in said Lowell, and there unloaded by said defendant. At the time the paving block was loaded on the cars by the plaintiff, count was kept of the number of paving blocks so loaded on each car. When the blocks were unloaded from the cars by the defendant, said defendant did not pursue any definite system relative to keeping account thereof, account being kept of the blocks unloaded from some cars, and no account being kept of the number unloaded from others. The system of the defendant, as shown by the evidence, in keeping account of the number of blocks unloaded from the cars received by it from the plaintiffs was so careless that I cannot give any weight to the account made by it as against the account kept by the plaintiffs, whose course of conduct in counting the blocks as they were loaded on to the cars, was in accordance with the manner in which careful persons would conduct their business.

Upon all the evidence I find that these paving blocks were used by the defendant in paving Bridge street, Gorham street, and according to the evi-

dence of Newell F. Putnam, who was at that time superintendent of streets, and who is now commissioner of public property, said blocks were also used in other places.

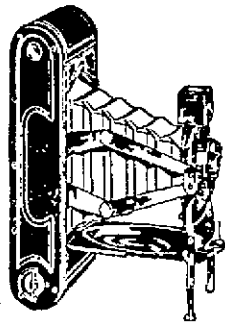

No evidence was offered that the purchasing agent and commissioner of streets and highways of the city of Lowell, inspected said paving blocks, and no evidence was offered that any of said paving blocks were rejected because they did not conform to the specifications contained in said contract. In fact, the evidence of Harry R. Sprague, a civil engineer in the employ of the defendant city of Lowell, and attached to the city engineer's office as an engineer, who had charge of measuring pavements, showed that the blocks furnished according to specifications varied from eight (8) to twelve (12) inches in length, and that the average width of same was four and a quarter (4 1/4) inches.

Upon all the evidence I find that the defendant, through the office of the city engineer, did measure the block-paving furnished and delivered by the plaintiffs to the defendant when the same was laid on Bridge street and on Gorham street, but no measurement was made of the paving which was laid in other places. The number of square yards of block paving furnished by said plaintiffs and laid on said Bridge street and Gorham street, according to the measurement made by the city engineer's department, was seven thousand nine hundred and fifty-one and 81/100ths (7551.81) square yards, but no measurement of the same was made by either of the plaintiffs, or any of their agents of the block paving furnished by them.

Evidence was offered by both the plaintiffs and the defendant as to the number of blocks furnished under the terms of this contract which would make a square yard of granite block paving when laid. Upon all the evidence I find that twenty-seven and one-half (27 1/2) average blocks of the paving furnished by the plaintiffs to the defendant under the terms of this contract would make a square yard of block paving when laid. Upon all the evidence I find that under the contract the plaintiffs did deliver to the defendant, and the defendant did accept, nine thousand forty-eight (948) square yards of granite block paving, and as per the terms of the contract the defendant was to pay the plaintiffs the sum of one dollar and nineteen cents (\$1.19) for each square yard of granite block paving. I find that the amount due the plaintiffs from the defendant for said granite block paving was ten thousand seven hundred sixteen and 12/100ths dollars (\$10,716.12). The defendant has already paid the plaintiffs the sum of nine

thousand and sixty-eight dollars (\$9068).

As per the terms of the contract the plaintiffs were to deliver the paving blocks to the defendant in Lowell and upon all the evidence I find that the defendant did pay the freight charges on certain cars containing said granite block paving, and it has been agreed by counsel that the amount so paid by the defendant, was three hundred and ninety-four and 69/100ths dollars (\$394.69). Therefore, upon all the evidence I find that the total amount due the plaintiffs for granite block paving furnished and delivered to the defendant by them was ten thousand seven hundred sixteen and 12/100ths dollars (\$10,716.12). From this sum should be deducted the amount already paid the plaintiffs by said defendant, namely: Nine thousand and sixty-eight dollars (\$9068), and in addition, the sum of three hundred ninety-four and 69/100ths dollars (\$394.69) paid by the defendant for freight, making a total of nine thousand four hundred sixty-two and 69/100ths dollars (\$9,462.69). A balance due to the plaintiffs from the defendant of one thousand two hundred fifty-three dollars and forty-three cents (\$1,253.43) with interest from Jan. 4, 1915, the date of the writ.

High School Graduation Next Friday Night—Trainmen Jump for Lives—Other Notes

The Forty Hours' Devotion at St. John's church, North Chelmsford, opened this morning with a high mass at 7:30 o'clock, celebrated by Rev. Henry L. Scott. Following the mass there was a procession in which the choir boys and the flower girls, led by Miss Marcelle Sweeney, took part. Benediction of the Blessed Sacrament was given after the procession by Rev. Fr. Scott. This afternoon and tomorrow afternoon, between the hours of 4 and 5, the Sunday school children will take part in a short devotional service, at which hymns will be sung by the children. They will be under the direction of the Sisters of Notre Dame of Lowell. Confessions will be heard this evening and tomorrow afternoon and evening, by Rev. Michael E. Doherty of the Holy Rosary parish, South Boston, who will also be the celebrant at both masses on Sunday. Fr. Doherty is a former curate of the parish. A special musical program has been arranged for the closing exercises on Sunday by Miss Gertrude Quigley, the church organist, and the service will close with a solemn procession, at which all who were present at the May procession will take part. The sacred emblems which were a feature in the May pro-

cession will again be borne by the children. Rev. Fr. Scott will celebrate the masses at St. Catherine's church, Graniteville, on Sunday.

Miscellaneous Shower

A miscellaneous shower was tendered to Miss Margaret Calvin this week in honor of her approaching marriage. The affair was held in St. John's hall under the auspices of the Ladies' auxiliary, and there was a large attendance. The young lady received many handsome as well as useful presents and the evening was enjoyed by all. A program of a miscellaneous character was carried out and refreshments were served.

Well Known Residents

Word has been received from Mrs. Owen McNally and son James, well known residents of the village, who are now in San Francisco. Both are delighted with their western trip, and also state that their imagination of that part of the country has been far surpassed by what they have seen. During their stay in San Francisco they have made frequent visits to the exposition grounds, and many beautiful colored postal views have been received by friends in the village from them.

LAMSON CO.'S OUTING

ENJOYABLE DAY AT NABNASSET GROVE—LIVELY BALL GAMES AND OTHER SPORTS

Nothing daunted by the murky atmosphere and the drizzling rain of yesterday, about 200 employees of the Lamson Consolidated Store Service Co., headed by Supt. Stevens, participated in the annual outing at Nabnasset grove. The start for the grove was made early in the morning, and upon the arrival of the party, a ball game between the "Oldtimers" and the "Youngsters" was immediately arranged. Supt. Stevens was on the mound for the "old boys" and what he didn't do in the line of mixing shoots of all descriptions that had the opposing batters breaking their backs to reach, remains to be told. In the first inning, the first three men sent up dinky pop flies which were easily captured by the members of Supt. Stevens' aggregation. In their turn at bat, the "Oldtimers" went right out for the game, and before the frame ended six "vets" had crossed the plate. From that time on, Supt. Stevens pitched a tight ball, and he showed no signs of letting up until the eighth inning when he eased up and allowed the opposing side to send three men across the plate. The final score was 10 to 3.

After the game, the majority of employees repaired to the waterfront, where swimming races were held. Nelson Holmes showed his superiority over his opponents in all three races, and he received three handsome awards.

A boxing exhibition of four rounds between Jack Boyle and Young Stone of Lowell was next in order, and this proved one of the features of the day's program. Both boxers showed plenty of speed and toward the end of the fray one would never think it was an exhibition. In the beginning of the fourth round Stone advanced from his corner and immediately went after Boyle with amazing speed, and Johnny, nothing daunted, came back with as good a kick as his adversary handed him. From then on until time was called both fighters stood toe to toe in the center of the grassy ring and lambasted each other left and right. The award of a draw by the referee was popularly received, and the boxers were presented quite a sum of money for their work.

The boxing fever proved quite infectious during the afternoon and a number of bouts between the employees were staged. One of the best of these was the "go" between "Battling" Bill Maxwell and "Sluggo" Bill Scanlon. These two heavyweights showed amazing skill with the padded mitts, and their bout was roundly applauded by all present. Young Rousseau and Charley Neil also gave a clever exhibition of the manly art.

While the lesser lights were mixing it with the mitts, a ball game was in progress on the ball field between "Cameron's Busters" and "Boudreau's Terrors." "Chickie" Dowd, the fleet-footed little felder of the South End team essayed to pitch for Cameron's team, and with the exception of a little wildness in three of the nine innings he pitched a good game. His batting was also of spectacular order, and his wand was instrumental in turning in the winning run in the last inning when two of his teammates were on base with two out. Tom Boudreau, manager of the opposing side was the star of the game, with two three-baggers and a single to his credit in four times at bat. He also turned in some clever fielding stunts, and kept the members of his team fighting for a lead at all stages of the game. The final score was 5-4. McDonald, who pitched for "Boudreau's Terrors" has 14 strikeouts to his credit.

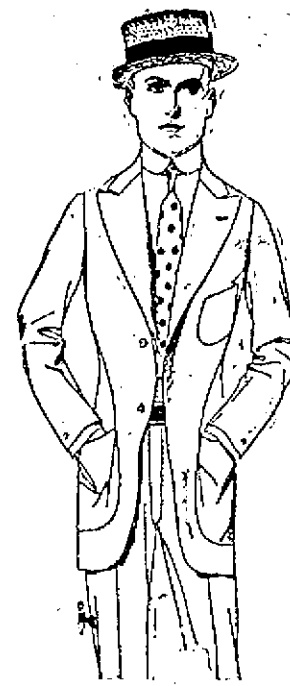

After this contest, the members repaired to the grove where a fine dinner was awaiting them.

The track events were run off after the "cats" had been disposed of, but they proved a little interesting as Nelson Holmes, Andrew Dowd and George Brennan won the places in every event, completely outclassing all other entrants.

During the early evening, the employees gathered in groups under the trees in the grove and vocal selections were enjoyed. The start for home was made about 8 o'clock, some making the trip in the electric cars, while the majority rode in two of the company's big trucks.

These in charge of the affair, which was voted by all present to be a great success were: Supt. D. J. Stevens, R. Griffin, Fred Cameron, Percy Dennison, Thomas Blades, H. Thomas, B. House, P. Boudreau, T. Ryan, Edward Winslow and John Hogan.

went without their meals, but they consider themselves mighty fortunate that they escaped serious injury.

Persons

Elmo Crane of Brookline visited friends in the village and West Chelmsford Wednesday.

Misses Laura Mason and Stella Malorey have returned from an enjoyable week-end visit to Lynn. Miss Mason is now expecting to leave for Bethlehem, N. H., where she has accepted a position at the Howard for the season. The services at St. Alban's mission

on Sunday will be conducted by Rev. Wilson Waters of Chelmsford Centre. The mills of the village are running well and the operatives are very steadily employed.

The street department is still busy fixing the streets of the village and the state department is oiling the state roads.

It is reported that work will be started at once on the erection of a new store building on the site formerly occupied by Mrs. Marinel. The land and present structure is owned by a Mrs. Adams.

EXPOSING FAKE COLLECTORS

In protecting the American public against fakes of all descriptions, our laws have made great strides of late years, but there is still room for the exercise of cautious investigation and the punishment of offenders. The Bureau of Education of the United States government has been making an exhaustive study of the educational question for some time past, especially in relation to more or less obscure schools advertised in papers and magazines, or schools for which subscriptions are solicited throughout the country, and the results of the investigation will be published broadcast in order to drive the fraudulent out of business.

Private or civic bureaus of information in leading cities are also constantly confronted with the question of fake schools or fake collectors for certain schools. From the result of their observation, and the number of inquiries that come in from those who have been approached or imposed on, it is evident that fleeing the public is as frequent on the educational plea as on many others. One of the commonest forms of fraud is the soliciting of funds for the colored schools of the south, and Lowell has been imposed upon by this game as much as other centres. Every little while some colored agents go through the homes and stores of this city, collecting funds for an alleged charity, but in most cases the school for which the money is collected is non-existent, and in many instances the scheme is wholly unworthy of support.

The public should also be wary of the fake college student who is so apt to be found selling books during the summer months, and of the charity worker in religious garb. Whether the collector be in the dress of a Catholic nun or that of a Syrian priest, it will do no harm to investigate before subscribing to their cause, and it may be readily ascertained if the solicitors are genuine or impostors. It is too bad for the cause of real charity that so many fraudulent agents abuse what is sacred until all good people are naturally suspicious of strangers who ask money for almost any purpose.

Only a year ago an enterprising agent gathered together a body of young book agents in this city and sent them out over New England. Each was furnished with a dark suit in order to look like a student, and there was a carefully-rehearsed story that was meant to appeal to the credulous. So far has this form of fraud gone in Boston that the Boston Chamber of Commerce has established a bureau of information through which many innocent people are protected and which has been instrumental in exposing the worst forms of collection frauds.

In a broader sense, the Bureau of Education of the United States government found in its investigation of educational conditions in the south that for a long time money has flowed freely from this section for the support of undeserving or downright dishonest institutions. Almost every southern state has such institutions with agents working all over the country, and while the dishonest promoters of fake schemes grow fat and flourish, deserving educational institutions find it difficult to bring their needs to the attention of the country. The government still now strive to weed out the unworthy and fake schemes and to educate the public as to the need for greater caution in all relating to subscriptions towards distant schools or directly to alleged students of colleges and seminaries.

PUBLIC MARKETS

From the tone of the public press it is apparent that the first enthusiasm with which the public market idea was greeted in this part of the country has died down, nevertheless it is by no means a dead issue. References made to it save more of business than formerly, and the limitations of this form of public service are readily acknowledged. Still, reports from centres where public markets have been established are contradictory, some asserting that they have proved a veritable boon, some declaring that they have been unqualified failures.

It is noteworthy in this connection that the city planning commission of Boston—an energetic and active body—has just recommended that four new experimental markets be established in that city, in order to bring about a reduction in the cost of living. Last summer, Mayor Curley opened two such markets, and was apparently satisfied with the result, and the suggested departure is only a continuation of the system. It is not proposed to go into it on an elaborate scale; the new suggestion states that suitable locations should be secured, if possible, without cost or at a nominal cost, and that the markets should be kept open from July 1 to Dec. 1.

The committee which made the investigation of Boston conditions reported matters that are equally applicable to this city. It was stated, for instance, that with the exception of comparatively few commodities, practically the whole food supply of New England comes from outside New England, and that the New England products in our markets are almost negligible. This is a condition that should be remedied, though whether a public market system would come to the rescue is problematical. It is largely a question of transportation and the lack of storage facilities.

Still, it seems peculiar to say the least that the farmers of Tewksbury, Tyngsboro and other parts are forced to take their commodities into Boston, and that these commodities are for the most part shipped out of New England. To a very slight extent the public market would make it possible for the farmers and the consumers to get together, but the larger problems would still remain unsolved. Only those who would put up with the inconveniences and primitive systems of a public market would profit by its establishment, and in time when the novelty wears off, it would in all probability die from disuse.

So far as this city is concerned, the authorities do not appear willing that we should even try the public market experiment. The legislature passed a bill authorizing its establishment and the people of Lowell voted in favor, but the matter has never come up officially. If it be deemed advisable to try the scheme, as in Boston, it would not be necessary to pay out any great sum for a temporary trial, and a few months would suffice to show if it would be beneficial to the city or the contrary. All New England will fol-

low the Boston experiment with interest.

A LESSON IN METHOD

The humiliating spectacle given at city hall in connection with everything relating to the erection of a new bridge at Pawtucketville is a sorry lesson on the methods followed in municipal business of late. Without any attempt to respect the spirit or letter of the city charter or to observe the ordinary rudiments of business procedure, a stranger to this city was chosen enthusiastically to direct a bridge job amounting to \$50,000 or over, though there was no competition and no safeguard for the public interest. It is not strange that when attention was called to the peculiar proceeding, some of the commissioners should have a change of front, seeing possibilities in the case that they either did not see or would not see at the start.

The erection of a bridge is a big proceeding, but it is not necessarily anything over which we should have such ridiculous misunderstandings and round-about explanations. There is one definite, open and honest way to transact the business of the city; had that way been followed, there would have been no trouble and no public criticism. That way is the way prescribed by the charter—the way of competition, of full publicity and of open dealing. Had this way been chosen, we should not have some commissioners striving to justify an untenable course and others confessing that they acted hastily and unwisely. Our municipal heads cannot do better than to cancel all engagements and obligations made and start on the bridge matter with open minds and in accordance with good business methods.

It is perhaps well for the Lowell public that the original plans for the erection of the bridge were not as feasible as they looked. It will now be necessary to present definite plans to the war department, to the Locks and Canals company and to the Bay State railroad, and it will be just as necessary to take no step that is not dictated by prudence and provided for by the charter. A mistake has been made, luckily not a costly one, and profiting by that mistake, it will be possible for our commissioners to arrange for a new bridge in Pawtucketville while keeping the demands of economy and the restrictions that govern all municipal undertakings well in mind. Much as the people of Pawtucketville desire a new bridge, they do not desire a bridge in the construction of which any irregularity or lack of good business should enter. It is to be hoped that in all connected with the undertaking for the future, the commissioners will put the interests of the public above their own wishes and erect a suitable bridge in accordance with the charter and at the lowest possible cost.

A PEACE ARMY

Recent utterances of Henry Cabot Lodge on the subject of international peace or military preparedness, as the case may be, indicate that he has modified his views somewhat since he first came out in support of his belligerent son-in-law, Mr. Gardner. He now contends, and reasonably, that it is futile to propose a cessation of world wars by the elimination of armaments, and for a democracy like ours to go unarmed is to invite the open hostility of other powers. He believes that to ensure peace here we should have adequate armament, but created on the understanding that it is for the preservation of our peace only and not for aggression. In other words, he is opposed to a continuation of our present policy, with a navy increased enough to meet modern requirements.

In the main, this is also the view of ex-President Taft who has expressed the conviction that this country could never become militarist in sentiment. Mr. Taft holds that it is not for America to indulge in peace dreams while the rest of the world refuses to see things in the same light, but says also that we must keep clear of the complexities of the world powers and maintain a navy large enough to afford a strong protection, should we be menaced by any foe from without. Neither commentator inclined to the twenty-fifth century idealism of our ex-secretary of state, but both sailed clear of the shoals of militarism on which the lingers would steer the ship of state. The entire country will agree with Messrs. Lodge and Taft that it would be foolish for this country to believe too implicitly in peace, to change its national policy during the European war or to be satisfied with anything less than an efficient and competent army and navy, according to American ideals and traditions.

With all due respect for the patriotism of our leading men of business, it must be confessed that the agitation for increased armament died down in proportion as war orders came in from the belligerents. The militarists may not have been over-zealous, but the views of the eminent statesmen as quoted sound like the disinterested views of wise and patriotic Americans.

CHICAGO STRIKE

The ending of the Chicago strike

and the submission of the questions at issue to arbitration is certainly gratifying, but the wonder is that at this age and after long experience in all parts of the country, such a strike should be necessary. In all relating to the public, as in street car difficulties, there are side issues involved that make it unfortunate, should a protracted trouble ensue. It would seem that had the conferences which brought about arbitration been held previously, the strike could have been averted, and even had it dragged on for months, it must eventually have been brought to a close by some agreement. Why, then, should it be necessary that the rights of the public be impaired, the transportation of the city injured, perhaps permanently, the bitterness of class struggles engendered and other evils stirred up by a strike that is entirely avoidable? There is something childish, if it were not tragic in its possibilities, in the sight of men playing at a game which is as dangerous as it is needless. Why, in all such difficulties as that of Chicago, should not arbitration come first and the strike last, if it must come at all?

AERIAL FLIGHTS

England lost forty lives as a result of two recent Zeppelin raids and at last the situation is beginning to look serious. A speaker in the house of commons a few days ago urged a marked increase in airship protection, stating that very probably a serious raid on London would be made in the near future. He was assured by H. J. Tennant, under-secretary for war, that bigger aeroplanes were under construction and that the number of machines have been increased ten-fold since the beginning of the war. Though reports are carefully censored, it is apparent that the incendiary bombs used recently by the Zeppelins did grave damage, even though only a few dirigibles were used. England may well prepare for a concerted attack of a large number, calculated to do grave injury to life and property.

SEEN AND HEARD

Nobody cares whether a man is self-made. It's what he has been made that counts.

Lots of men who boast of their cold tub in the morning kick like steers when a woman leaves the front door of the car open in zero weather.

That French plan of fastening revolvers to the heads of dogs and firing them when the mouth opens to bark at Germans is good; but imagine a hundred dogs biting at fleas and shooting at the same time.

The Bay State street railway has just issued its yearly folder entitled "Trolley Trips." Besides some handsome views and cuts of things historical and notable, much valuable information is given as to trips on the city street and connecting lines.

HAD SOME PIPE

A long time ago, about 40 years to be exact, there lived a man in this city (he also lived for a time in Nashua, N. H.) who made it a rule not to smoke more than one pipeful of tobacco each day. In spite of this fact he probably smoked more every 24 hours than many other men who were accustomed to think their pipes several times. Every morning when this particular man went to work it was his habit to fill and light his pipe, and as regularly when he went to bed at night, he

shook out whatever ashes remained so as to have the bowl ready for use when the next morning came round. The man's name was Joel Hamilton, and the reason he was able to smoke in this fashion was revealed to the Man About Town yesterday when Joel's brother, George Hamilton, of 5 Cedar street, this city, called and showed him the pipe. It had a huge meerschaum bowl, so huge that the average sized five cent plug of tobacco just filled it. When the man who was smoking it became tired of the taste and desired a rest he used to put it in his pocket, or lay it down somewhere, and when he was ready for another smoke he did not have to fill it up. The pipe has been in a trunk ever since its owner died, 40 years ago this month, and was taken out by his brother Sunday for the first time since June, 1875. It had formerly a rich cherry color, Mr. Hamilton said, but had faded greatly during its long period of inactivity. However, it would probably not take very long to get it colored again.—Lawrence Telegram.

NOT A FLIRT SIGN

If you are anxious, dear sir, of avoiding every semblance of being a flirt, better not drive an automobile or do the arm-extension stunt for the driver when rounding corners. A couple of local women, at least, thought

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

A man was flirting with them yesterday afternoon, for this reason. The young women were near the corner of Central and Market streets when an automobile turned into Market street from Central. As is customary, when the signal is to the left, the one riding in the left hand side of the car extends the hand as the signal. The second looking man beside the chauffeur did this, and the women saw him. Instantly one smiled and waved her hand back. The man in the car paid not the slightest attention to her, however, although holding out his arm in her direction until he had passed. "I wonder what that man was holding out his hand to us for," the woman was heard to ask the other. "I thought he was trying to flirt with me and I waved my hand at him, but he never noticed me. I did not hear the reply, but it is to be hoped for the reputation of the man, if for no more, that the other woman was suitably informed as to the customs of the times to enlighten her as to the reason for the extended arm."

THE CALL TO LIFE

There's a broad highway with an open reach,
And it leads far out from the swales
Of life.
So it's off with the old,
And on with the new,
In the land of sky and the wide glad air.

There's a friendly kiss in the tossing foam,
There are bells a-chime on the witching deep,
So it's up and away
On the blue, blue bay,
In our race for life up its rocky steep.

There is peace of love in the magic hour,
With the hay and the sun and the singing bird,
So it's off with the old,
And it's on with the new,
Where the trumpeting call to life is heard.

Oh, it's up and away where the mountains dwell,
By the highroad of the sky and air,
And it's off with the old,
And it's on with the new,
With the heart of a child where there's life in spare.

—Boston Transcript.

EDITORIAL COMMENT

THE END NOT NEAR

Those who have thought the war in Europe to be nearing an end must have had a feeling of disappointment on reading the announcement that preparations are now in progress for another winter campaign. Large numbers of German women are already seeking new furs for the army, while those used last winter are being renovated. Germany's efforts for some time past have been concentrated upon preparing for what will follow the efforts of the summer and autumn.—Lan Item.

GREEK SENTIMENT

Greek elections make it seem very much as if popular sentiment were in favor of entering the war on the side of the allies. That would mean immediate assistance for the forces which are aiming at the capture of Constantinople and would make the fate of Turkey all the more sure and speedy.—Fitchburg Sentinel.

HUNTING VICE

Anthony Comstock, who has been hunting vice as a post-office inspector since 1872, it is reported will quit by request of his superior officers at the end of June. Mr. Comstock no doubt will be a lot of good in his time, but he has made of late years a number of what the mass of people interested have called mistakes. A man who is looking for evil in the life of a professional is bound to find it oftentimes where there is in fact little or no evil at all.—Brookline Enterprise.

IS HE DONE?

One of the distinguished Romans, according to the school books, on leaving the ancient capital of the world, said: "I go, but I return. It is not within human probability that the former secretary of state will ever return to Washington, from which city he went yesterday in any public capacity."—Providence News.

THE AMERICAN VIEW

"The note of February 10 is the best and most impressive statement yet made of the American view," Germany that, so far as the United States and its citizens and vessels were concerned, German operations in the war zone should be conducted in accordance with the recognized rules of warfare at sea. It did not suggest in any way that the United States might assist in Germany's observing the recognized rules of warfare at sea in attacking merchant vessels belonging to other neutral nations or to enemy nations on which no American citizens were passengers.—New York Tribune.

DROWNING VICTIM FOUND

Body of William Crowley taken from Penobscot River near Bucksport, Me.

BUCKSPORT, Me., June 18.—The body of William Crowley was found yesterday on the shore of the Penobscot river at Bucksport Centre.

Crowley was one of three young Bangor men believed to have been drowned from a motor boat on the night of May 22, when bound from Bangor on a fishing trip.

Crowley was 24 years old, unmarried, a son of Mr. and Mrs. Isaac Crowley, and was a sawmill employee.

The bodies of Clarence E. Wiley and Harry N. Freeman have not been found.

SIR THOMAS LIPTON DECORATED
NISH, Serbia, June 18.—Sir Thomas Lipton has been made a grand commander of the Order of Saint Sava. This is the highest Serbian decoration ever conferred on a foreigner. The order is granted for services in education, science, art, or literature.

HAT BLEACHERY

Ladies' and Gents' straw, leghorn and Panama hats cleaned or dyed and reblocked.
E. H. SEVERY, Inc.
133 MIDDLE ST.
Open Mon. and Sat. evenings.

ATTACK SUBMARINE WARFARE.
Amsterdam, June 18.—The Society of Dutch Captains and Mates of the mercantile marine has passed a resolution expressing indignation at the

German submarine war against the defenseless merchant vessels and non-combatants. The resolution also conveys sympathy to the relatives of all those who perished on the Lusitania.

REPORT ON ALCOHOLISM ROYAL DECREE AT ROME

STATES THAT AFTER TWO GENERATIONS POSTERITY OF ALCOHOLICS BECOMES EXTINGUISHED

PARIS, June 18.—In discussion of a report by Monsieur C. Colson on alcoholism before the Academy of Science it was stated that after two generations the posterity of alcoholics becomes extinguished. Raphael George Levy gave the statistics of twenty-four families chosen at random, 12 temperate and 12 alcoholic:

	Alco-	Tem-
	bolic	perate
Dead in infancy	12	0
Deaf and dumb	8	0
Idiot	2	0
Affected St. Vitus dance	2	0
Philetics	13	0
Deaf	3	0
Idiot	2	0
Healthy	0	50

Monsieur Levy declared that 323 out of every 500 persons in houses of detention are alcoholics.

Monsieur Colson's report concludes that private distillation of brandy by fruit growers from their own crop is worse than public sale of alcohol since it introduces it directly into the family to children as well as women. The law which permits this also allows the consumption in the family of the equivalent of five gallons of pure alcohol per year without tax.

The rest is supposed to be taxed but rigid supervision is impossible and practically all the produce of private distillation escapes taxation and is sold illicitly; all of it is consumed in families.

In addition to the suppression of this privilege of private distillation the report recommends, and the academy adopted a resolution to that effect, that the licenses be raised from the present average of 45 francs, to 100 francs minimum and 3000 francs maximum, that tobacco shops be prohibited from selling liquor and that no new licenses be granted.

TURKISH SNIPERS ACTIVE

RESPONSIBLE FOR HEAVY OFFICER LOSSES TO ALLIES IN THE DARDANELLES

ATHENS, June 18.—(Associated Press.)—A great proportion of officer losses to the French and English forces in the Dardanelles are due to the activity of the Turkish snipers, who have special instructions to pick out the officers. A correspondent with the French forces writes: "The danger to officers in this part of the peninsula from snipers is very great. Parties of ten or twenty Turkish sharpshooters crawl past our lines at night and either hide in a tree or get into an abandoned trench or shell hole. There they lie concealed from view, waiting for an opportunity to snipe at some isolated officer passing within range of their rifles. They are instructed to disregard firing upon private soldiers if it involves any danger to themselves, but to miss no chance to bring down an officer."

"In many cases the sniper's eagerness for this duty is assisted by stories of the huge loot to be obtained from the pockets of the officers. Some of the snipers who have been caught were found with large sums of British and French money, as well as other property belonging to officers."

ROYAL DECREE AT ROME

PARIS, June 18, 1.30 a. m.—A royal decree has been published at Rome, according to a Havas dispatch, authorizing the issue of a national loan, the amount of which is not stated, redeemable in 25 years with interest at 1 1/2 per cent, free of all taxes present or future. The loan cannot be bought in nor converted before 1925. The issue price is fixed at 95, or at 93 to holders of bonds of the preceding national loan. Subscriptions will be opened in Italy from July 1 to 31 and abroad from July 1 to August 31.

AMUSEMENT NOTES

B. F. KEITH'S THEATRE
One of the best of western dramas, made from the play of the same name by the late Clyde Fitch, is "The Cowboy and the Lady," which was shown for the first time at the B. F. Keith theatre, yesterday. Twice today and tomorrow this excellent Metro special will be flashed on the screen, and it is sure to win much approval. The photographing of the piece was a wonderful art with Metro camera-men is specially likeable in this. S. Miller Kent and Miss Helen Case, who play the leading roles, appeared in many thrilling western scenes, and the finish of the picture is as beautiful as it is unforeseen. The story of the play is well known, for the piece was staged for several years and always it brought much real applause for the ingenuity of the situations, as well as for the very latest character costumes. Mr. Kent has appeared several times in the stage version, and is therefore, competent to give to the character his proper value. In addition to the feature there are several shorter ones, including "The Quality of Mercy," "A Lucky Loser," "The Other Woman's Picture" and a Chaplin special.

MERRIMACK SQUARE THEATRE

There are only two more days left of "Double Paramount" week at the Merrimack Square theatre, during which lovers of best motion pictures will have the opportunity of seeing ten reels of the very latest Paramount pictures, featuring the two celebrated stars, Mary Pickford, the charming, and Edgar Selwyn, the powerful and versatile actor. The picture shown to-night is "The Arab," also shown during the next two days. It is an interesting tale of Bedouin life, showing desert scenes, and a wonderful action picture. The Arab, also shown during the next two days. It is an interesting tale of Bedouin life, showing desert scenes, and a wonderful action picture. The Arab, also shown during the next two days. It is an interesting tale of Bedouin life, showing desert scenes, and a wonderful action picture.

ACADEMY OF MUSIC
The motion picture bill offered by the Academy for today and tomorrow is the best this theatre has yet presented to the public. The list, all features, includes Marie Doro in "The Morals of Marcus"; Mary Pickford and King Baggot in "The Quality of Mercy"; and a picture in a screaming comedy, "Hearts

STANLEY'S ON THE MERRIMACK
It is Lowell night at Stanley's on the Merrimack tonight and judging from the great attendance at this popular resort the numbers should be sufficient to tax the capacity of the spacious accommodations offered. The dance orchestra, led by Harry Williams, and Millington's famous orchestra of Lawrence will provide music. Dick Tallaferra, the local caterer, has charge of the dining room, and a specializing on full course meals and special lunches. Stanley's is reached after one of the most delightful electric car rides in New England. Develop the habit and become a regular patron.

BIG ORDER FROM EUROPE

AMERICAN LOCOMOTIVE CO. GETS CONTRACT FOR 20 ENGINES FOR BELGIAN RAILROADS

NEW YORK, June 18.—Announcement here that the American Locomotive Co. has received orders from the Belgian state railroads for 20 locomotives caused speculation today as to the purpose for which this equipment is intended. It is pointed out that the Belgian railroads are almost wholly in possession of the Germans and suggested that the locomotives might be intended for use in England, France or Russia, and that the order may have been placed in the name of the Belgian railroads by a representative of the allies. The American Locomotive Co. officials gave no information on that point. The engines are to be delivered to purchasers in New York.

THE CATHOLIC FEDERATION TO HAVE OUTING TRADE AT HOME MURDER CHARGE IN POLICE COURT MAY GET CHILD

Meeting at A. O. H. Hall Addressed by Rev. F. J. Mullin, Pres. Chas. T. Daly of Medford and Others

Hibernian hall was crowded last evening when members of the order and others gathered to hear addresses by the officers of the Catholic Federation of North Middlesex. The speakers were: Rev. Francis J. Mullin, chaplain; Chas. T. Daly of Medford, president; Thomas M. Nolan, of Somerville and James O'Sullivan, of Lowell. John P. Sheehan, president of the central council, presided.

Rev. Fr. Mullin said that the American federation of Catholic societies is an organization of Catholic laymen for the purpose of impressing on the public mind Christian principles, to the end that these principles may become the basis of all moral, civil, social, and business dealings. He especially referred to federation campaign against divorce and the necessity of true Christian legislation to protect the sanctity of marriage and against the anti-Christian principles of socialism, which will make for the nation's ruin.

The speaker went on to show that federation in its mission of spreading sound Christian principles for the right formation of the public opinion, must meet the attacks of a foul press that is carrying on a propaganda against the Catholic church and the Catholic citizen, that breeds insane hatred. The true American patriot upholds with might and main the constitutionally guaranteed liberty and equality of every fellow citizen. The true American patriot holds sacred the interest not only of the nation but of its lowliest citizen.

The speaker referred to the futility of individual action in the forming of public opinion. The federation would unite as a great moral force for the upholding of Christian principles, to uphold justice and truth, to implant in social and public life moral and civic virtues in the Christian sense of the word. In federation the Catholic layman co-operates with all loyal citizens, and with all civil and social energies which work for truth and virtue.

President Charles T. Daly explained the aims and objects of the Federation, stating that its workings are all in the open, its principles those which every good citizen can conscientiously support.

The federation has stood upon the principle that the Catholic citizen is equal to any and all other elements of our citizenship; that he is no more and no less than any other American; and that he has an individual right and should be given the same opportunity to aspire to fill public and private positions of responsibility.

The history of the national federation covers a period of nearly fifty years. During this time this wonderful organization, numbering over 25,000 societies and parishes, comprising at present about 3,000,000 people in the nation, has been the only really satisfactory medium through which to bring about unity of thought and action among Catholics of this country. The federation has also been largely instrumental in eliminating personal organizations and racial jealousies and differences.

Not a Political Society
Throughout its history as a national and archdiocesan organization the federation has acted for a

WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of Resinol Ointment and Resinol Soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol Ointment and Resinol Soap can be bought at any druggist's and are not at all expensive.

A 2½-STORY COTTAGE HOUSE AND ABOUT 3300 SQUARE FEET OF LAND AT NO. 19 BLODGETT, CORNER OF INLAND STREET

This cottage consists of six rooms, unfinished attic, pantry, bath, gas, hot and cold water, has a good dry cellar and rents for \$13 per month. The lot is a corner one, having an acreage of about 35 feet on Blodgett street and about 60 feet on Inland, making an area of about 3300 square feet. It is well graded and there is plenty of yard room.

Now, Mr. Home Seeker, here is a good opportunity for you: a nice cottage house, plenty of yard room, in a good location, quiet neighborhood, one minute's walk to Chelmsford street car, and within 10 minutes' walk to several industries.

Terms: \$200 must be retained to the auctioneer as soon as struck off. From 50 to 70 per cent. can be secured on mortgage at 5 per cent. Make all inquiries of the auctioneer who has full charge.

With lot one. On the premises, Kenwood, (Dracut), Mass. A two and one-half story house and 3344 square feet of land known as the "Selan Place."

Lot two consists of sixteen acres of woodland situated near the east side of Island Pond in Pelham, N. H., and will be sold immediately after lot one, and at the same place.

Terms on lot one, \$200 as soon as struck off. For further terms and particulars apply to Warren W. Fox, Attorney, Wyman's Exchange.

Knights of Columbus Paper Urges Lloyd George to Have England Supply Munitions

Bishop Delany assembly, fourth degree, K. of C., held a regular meeting last evening at which considerable business was transacted. The assembly voted to conduct an outing to be held at Nantasket beach about the middle of July. The party will leave on a special train for Boston in the forenoon and after a sail down the harbor, dinner will be served at one of the leading hotels and the remainder of the day devoted to a general good time, returning by boat and rail in the evening. A committee was appointed to complete arrangements for the event. All members of Lowell council and their ladies will be invited to make it one big day for the Knights of Columbus of Lowell.

STEAMER ISIS PURCHASED

TO BE USED BY GOVERNMENT FOR COURT AND GEODETIC SURVEY—REPLACES ENDEAVOR

WASHINGTON, June 18.—The steamer Isis has been purchased by the government for the use of the coast and geodetic survey in its offshore hydrographic work along the Atlantic coast. The vessel cost a little less than \$60,000 and will replace the steamer Endeavor, built during the Civil war.

The new vessel is a twin screw steamer of steel construction, 180.4 feet long, beam 24.8 feet, draft 11.6 feet and depth 13.5 feet. The gross tonnage of the boat is 377 and the net tonnage 256. There are twin triple expansion engines of 2000 horsepower, and the cruising speed on natural draft is 12 knots; under forced draft the vessel can make 15 to 17 knots.

TURCOTTE LIQUOR CASE

HEARING BEFORE THE LICENSE BOARD THIS FORENOON—NO DECISION GIVEN

Louis P. Turcotte & Co., holders of a first class license on Worthen street, were granted a hearing before the license commission this forenoon on a complaint made by Supt. Welch alleging a violation of the terms of the license in that Henry L. Turcotte sold a half pint of whiskey to Anthony Clark last Saturday night. William A. Hogan appeared for the defense and Supt. Welch conducted the case for the government.

Anthony Clark, a reserve officer of the police department, informed the board that he and two young men whom he did not know, went to Turcotte's saloon about 9 o'clock Saturday night and bought one drink of beer. He said one of his companions called a bartender one side and asked for a half pint of whiskey. The latter went up a stairway and returned with the whiskey and placed it in his inside vest pocket, said the witness.

Clark said he then stepped back and gave the signal for the liquor inspectors, who were just outside the door, to appear on the scene, and inspectors Bigelow and Murphy responded immediately. Henry L. Turcotte denied making the sale and his father, Louis P., stated that he had given all his employees strict orders not to violate the law by selling liquor in bottles, he said.

The defense contended that no sale was made. Employees of the saloon testified that Clark and the two companions entered the room and asked for a drink. The two unknown men, it is said, were not served, as it is alleged they were already in an intoxicated condition. The board decided to consider the matter and give a decision later.

MODERN DENTISTRY

You can now possess good teeth and enjoy all the time benefits that go with them without pain or unnecessary suffering. You know that defective teeth endanger health and destroy beauty, or even "good looks" without which there can be no happiness. The average human life has been prolonged many years by modern dentistry. Painless operations on the teeth, as perhaps you well know from your own experience, depend largely on the man who uses the instrument. If he is careless, irritable or unsympathetic, he will inflict pain. See about your teeth today.

DR. L. F. BEAN.

TRY THIS FOR REMOVING HAIRS

Hairs on the face, arms or neck can be very easily and safely removed by a simple solution that dissolves them entirely, leaving the skin soft and smooth as velvet. Get an ounce of sulfo solution from your druggist, apply with finger tips, keeping the hairs moist for a few minutes. You will soon see them shrivel up and dissolve away. Any druggist will sell you sulfo solution; it is a little expensive, but one ounce will last you for ever need, as the hairs very rarely return after this first application.

FURNITURE SALE AT KEYES' COMMISSION ROOMS, OLD B. & M. DEPOT, GREEN ST., TUESDAY AFTERNOON AT 2 O'CLOCK

Don't forget the sale is TUESDAY afternoon instead of Thursday for the summer. Goods are now on exhibition.

Fifteen Men Arrested During Raid of "Possum Hunters"

ROCKPORT, Ky., June 18.—Fifteen prominent citizens of Rockport, it being the known day, were arrested yesterday charged with first degree murder in connection with the killing of Harrison Madison during the raid of "possum hunters" on the negro section of this place April 23 last.

GREEKS SURPRISE GERMANY

Organ of Army, Discussing Elections, Refers to Greece as "The Next Enemy"

BERLIN, via London, June 18.—The news of the complete victory in the Greek general elections of the party of ex-Premier Venizelos, which is in favor of Greek participation in the war on the side of the allies, has proved an unpleasant surprise to the newspapers of Germany.

The other newspapers generally are of the opinion that the losses of the allies in the Dardanelles; Russian defeats and the entrance of Italy will deter Greece.

TO VOTE ON SUFFRAGE

NEW YORK, June 18.—Equal suffrage and other legislation affecting women figured prominently this year in the discussions of a large majority of the state legislatures. The sessions of most of them have now come to a close and a summary of their activities discloses that the question of woman suffrage came up for deliberation in 22 states and that divorce laws, mothers' pensions, women police, juvenile courts, eugenic marriage or other subjects relating to women were considered in 25 states.

The legislatures of seven states adopted resolutions whereby a constitutional amendment giving women equal suffrage rights with men will be submitted to the people at the fall elections either this or next year. They are Massachusetts, New Jersey, New York and Pennsylvania in 1915; Iowa, South Dakota and West Virginia in 1916.

California adopted a resolution declaring that woman suffrage in that state had been an unqualified success. Alabama will consider the question at an adjourned session to begin July 7.

In 11 states woman suffrage measures met defeat—Connecticut, Delaware, Florida, Indiana, Michigan, New Mexico, North Carolina, North Dakota, Oklahoma, Texas and Vermont.

Pensions for mothers came up for consideration in 15 states. In S. Hampshire, New York Oklahoma, Tennessee and Wyoming, legislation for this purpose was enacted for the first time. In two Texas and West Virginia, mothers' pension laws were amended or amplified.

California, Colorado, Connecticut, North Carolina, Nevada and West Virginia acted on divorce laws.

The senate of Indiana passed a eugenic marriage measure, but it was defeated in the house. Legislation to promote healthy marriages and check the social evil was enacted in Vermont.

Labor laws for women were enacted in Kansas, Maine, Massachusetts, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oklahoma, Texas and Vermont.

It stipulates that such employees shall not work more than nine hours a day unless for the sole purpose of permitting a shorter schedule for one day in the week.

Massachusetts legislated to prohibit the working of women and children for the purpose of making up overtime for the purpose of making up the time lost on a legal holiday.

Wyoming enacted for her working women an eight-hour day; and both maximum hour and minimum wage laws for women were passed by Kansas.

A bill providing for a minimum wage for women in Michigan was killed in committee.

An attempt in California to enact a law to forbid women to shake dice for money or prize was defeated. So was a bill providing for women jurors.

ARE GOING TO ITALY

Two Lowell Residents Will Join the Gannett on Submarine—Will Sail Next Sunday

Mr. Ferdinand D'Arezzo with his daughter Adelina, of this city, will sail for Italy on Steamship Canopic of the White Star line next Sunday at 12.30 from Boston. The purpose of their visit to Italy is that Mr. D'Arezzo has a brother there who is about to be a priest during the month of July next and in the meantime will dispose of the property they own there. Mr. and Mrs. D'Arezzo will return to America during the month of October next.

Japanese Reporter Says Public is With Mrs. Eills

BOSTON, June 18.—The Japanese people believe that Mrs. Harriet A. Eills will eventually regain her little daughter, Olga, the 9-year-old principal in the sensational Eills kidnapping case which not long ago set lawyers to studying dusty tomes of international cases and stirred up ancient treaty relations so that two men were sent around the world in an effort to straighten matters out and recover for Mrs. Eills her little daughter.

That is the opinion of Osamu Terada, a Japanese reporter, editor and medical student, who came to Boston yesterday. According to the Japanese papers, which he receives regularly, the case is now pending in the Japanese superior court. A provisional guardian has been appointed for Olga and public interest is running high on the case and entirely in sympathy with the mother.

Osamu Terada, who lives at 553 Heath street, Chestnut Hill, has been a reporter, editor, student and numerous other things during the last 10 years. Medicine and sciences are his professional occupations, journalism is his avocation and favorite hobby.

At present he is a third-year student and one of the leaders in his class at Harvard Medical school. He is also the correspondent for the Tokio Medical Association, the American Medical association in Chicago, and the Osaka Daily News, which was the paper where the Japanese reporter "broke into the game" more than 10 years ago.

Albert Medina was also charged with a statutory offense and was sentenced to three months in the house of correction. He appealed.

The fifth woman made her fourth appearance for drunkenness and was sentenced to the house of correction for five months. She has been given two opportunities within the past two weeks to leave Lowell and abstain from using intoxicants but was arrested last night for the same offense.

Albert Blais, for non-support of his wife, was placed on probation for six months. Frank White, who was found guilty Monday of the larceny of a coat and vest and three razors from Constantine Thomas of the Merrimack hotel, and of a pair of trousers and a shirt from Wilfred Grenier of Worthen street, was given a suspended sentence to the Massachusetts reformatory.

Probation Officer Slatery learned that the defendant has a widowed mother in Central Falls, R. I. Two drunken offenders were given short jail sentences.

HIS HAND INJURED

The ambulance was called to the United States Cartridge Co. this forenoon where John Donahue had the index finger of his right hand injured. It was removed to St. John's hospital.

O'Sullivan Says:

Here's an opportunity for 156 wise ones—

Today and Saturday the Merrimack Clothing Company will offer for sale 156 Men's suits strictly all wool, high grade Suits, worth \$15, \$18 and \$20, at

\$13.50

Several Suits in the lot are made by A. Shuman & Co., Sampeck, and the Alfred Benjamin Washington Co. There are gray serges, worsteds and homespun, blue serges and Glen Urquhart plaids—some made soft roll and patch pockets, others out on conservative lines—several suits have an extra pair of trousers, made from the same material, thrown in the bargain.

Every Suit in this sale has our personal guarantee of satisfaction or money refunded—sizes from 3 to 44, including stouts.

Here's an item of interest for the man with a ten dollar bill to put into a suit.

We have got together about 100 Men's Suits, left from the season's selling, only one or two of a kind, but all sizes represented from 32 to 44, including stouts. Every suit in the lot is new this season and the former prices were from \$12 to \$20. Get fitted to your size today or Saturday at

JURY TO TEST THAW'S SANITY

Allies Checked by Germans

ANOTHER PAWTUCKET BRIDGE CONFERENCE

Engineer Denman's Ultimatum—
Believes Bridge Can be Built for
Less Than \$75,000

Engineer Walter W. Denman says that unless authorization is granted him to begin work on the proposed concrete bridge at Pawtucket falls within one week, he will wash his hands of all responsibility as to the cost and time of completion. Unless the work is started right away he would cancel his guarantee to do the work within the estimate, if done on the basis of city work which means the employment of "citizens only."

A statement to this effect was made by Mr. Denman at a conference held in the mayor's reception room at city hall this forenoon. Engineer Denman represents the Luten Engineering company of Springfield, and Mr. Denman allows that when it comes to concrete bridges there is no greater authority in the world than Mr. Luten,

the head of the Luten Engineering company.

The conference was attended by all members of the municipal council, off and on, but no action was taken and the bridge question remains today where it was in the beginning. It came as somewhat of a surprise to the mayor and others to learn that the plans as prepared by the Luten Engineering company, had not been approved by the Locks & Canals, though City Engineer Kearney had stated that Mr. Mills of the Locks & Canals had said that all his company would exact would be the same size water way as at present, and the plans, the engineer stated, would not affect the size of the water way. It was decided, however, that there should be an

STAHL INDICTED TO USE WINE AND WATER

German Reservist In-
dicted for Perjury by
Federal Grand Jury.

NEW YORK, June 18.—Gustave Stahl, the German reservist who swore in an affidavit submitted to the state department by the German embassy that he saw guns aboard the Lusitania, was indicted for perjury today by a federal grand jury.

HAD CONCEALED WEAPON

MAN ARRESTED IN COURT THIS
NOON FOR HAVING BRASS
KNUCKLES

Mohammed Ali was arrested in the local police court this noon and later booked down stairs charged with carrying a concealed weapon, it being alleged that he had in his possession a pair of brass knuckles. The arrest came during the trial of the case of Hussein Elshier, charged with the larceny of \$200 from Kassem Sherakawey. Ali was one of the spectators and, it is said, he interfered with the interpreter by using threatening language. He was persistent and was placed in the dock by a court officer. After in the dock Sergt. Petrie, who was present as a witness, discovered Ali putting something in his back pockets. The police sergeant rushed at him and took from his trousers pocket a pair of brass knuckles, said to be of a very large size.

WESTFIELD PLANT TO BE SOLD
BOSTON, June 18.—The sale of the Westfield plant of the Pope Mfg. Co. in receivers' hands was ordered in the federal court today. It is expected that the bid of \$725,000 offered by H. Preston Cousins of New York will be accepted.

The receivers, George Pope, Charles A. Morse and Charles A. Parsons, reported that they had received no plan of organization from the creditors. The order for the sale of the Westfield plant was made at the receivers' suggestion.

BRITISH LOSE GROUND ON GALLIPOLI PENINSULA

Attack of French and British on the
Western End of German Line Re-
pulsed — Austro-German Advance
in Galicia Made at Great Cost

The attack of French and British forces on the western end of the German line, which has been pushed vigorously and with considerable success for some time is now said to have sustained a check. The official statement from Berlin today contains the announcement that of the forces which attempted to break through the German lines north of La Basse canal only a small number escaped death or capture. The communication gives no indication of the size of this force.

French Advance

At several other points the report concedes the French penetrated at intervals into German positions.

In northern Galicia, the Berlin announcement says the Russians have been pushed back further. They have made a stand behind prepared defenses at Grodek which is only 15 miles from Lemberg.

British Lose Ground

The British forces on Gallipoli peninsula have been compelled to abandon most of the ground they formerly occupied near Avri Burnu on the west coast. The British fleet is said to have taken refuge from German submarines at Imbros Island, 10 miles from the Gallipoli coast.

Suffer Heavy Losses

The assertion is made by the Russian war office, in a review of recent fighting in Galicia, that the Austro-German advance has been made at great cost. In two days' fighting near Strzy the Teutonic forces are said to have lost "tens of thousands of men" and on one section of 25 miles on the Galician front, between May 29 and June 15, their losses are placed at between 120,000 and 150,000.

Russians Pushed Back

Reports from Berlin and Vienna,

however, indicate that the Russians are being pushed back steadily all along the front. The latest communication from the Austrian war office says the Russians are now unable to resist their opponents.

Negotiations With Balkans

Negotiations between the allied powers and the Balkan states are again under way. According to information reaching Berlin from Sofia, Bulgaria demands "territory" from Rumania, Greece and Serbia in return for her participation in the war with the allies.

A Berlin despatch expresses doubt whether former Premier Venizelos of Greece, in case of his return to power following his victory in the elections, will be unconditionally in favor of going to war. The deadlock on Gallipoli peninsula and the reported failure of Bulgaria and Rumania to accept the latest offers of the allies are advanced as reasons for this view.

New Allied Attack in West

The heaviest fighting of several weeks is now in progress on the western front in consequence of the new attacks by the French and British. Each side is sustaining severe losses and although reports from Berlin and Paris are at variance, it is evident the district north of Arras, northwestern France.

LONDON ADMITS AUSTRO-GERMAN FORCES IN GALICIA STILL ADVANCING

LONDON, June 18, 12 noon.—The Austro-German forces in Galicia are still advancing on the schedule made by Gen. von Mackensen. Vienna claims that part of the heavily fortified Grodek region, where the Russians have concentrated, have fallen into the

hands of the Teutonic forces. Petrograd does not admit the loss of any part of this district, but states that Russian forces have gathered there for the defense of Lemberg.

In a long review of recent operations on the eastern front the Russian war office admits frequent retreats before superior numbers but declares the Russian attacks left the Austrians and Germans so exhausted that their opponents often were able to resume their offensive. The report says that the strategy of Grand Duke Nicholas enabled him to change his centre three times and that the efforts of his antagonists to attack these various concentrations has caused certain signs of demoralization on their part.

French on Offensive

The French still are on the offensive along a wide front with the Vosges again figuring in the official communications after a period of comparative quiet. Two days of hard fighting has meant many small advances for the French with the repulse of part of the German counter-attacks. Paris reports that in the Arras region alone the Germans used 11 divisions, which suffered heavily. A significant phase of the operations is the small number of prisoners reported by either side.

No definite news from the Dardanelles front has reached London, but a sudden drop in the Russian exchanges indicates that bankers either have received an intimation of an important success in that region or that for some other reason they now take an optimistic view regarding the prospects that the straits will soon be opened to the allies.

Bulgaria continues to express her uneasy neutrality by negotiating with both sides.

DENIAL BY BERNSTORFF

GERMAN AMBASSADOR CALLS ON
SEC. LANSING—DENIES UNITED
STATES TRICKED

WASHINGTON, June 18.—Count von Bernstorff, the German ambassador today personally informed Secretary Lansing that neither he nor any member of the embassy knew the whole story of the alleged trickery of the German government in the case of Dr. Alfred Meyer, said to have been secretly in this country buying war supplies.

Published reports have alleged that Meyer returned to Germany under a safe conduct obtained for Dr. Anton Meyer-Gerhard from the allies by the United States at the ambassador's request. The ambassador also assured Secretary Lansing that Dr. Meyer-Gerhard never had engaged in any work other than his mission for that effect. Secretary Lansing indicated that some statement would be made during the day.

Ambassador Bernstorff told Secretary Lansing that the story tending to confuse Meyer-Gerhard with Alfred Meyer had been related to him a week ago and he then declared it untrue. At the same time he asked his military

attaché to inquire whether the story was to be published. The attaché notified the ambassador that he had been informed it would not be printed.

The ambassador said that every indication from his government on relations between Germany and the United States was favorable.

INCIDENT CLOSED

WASHINGTON, June 18.—Secretary Lansing late today authorized the announcement that so far as the state department is concerned the Meyer-Gerhard incident is closed. He added that it had never been officially called to the state department's attention except as a denial and that Ambassador Bernstorff told him today that he had no knowledge whatever of any "Dr. Meyer."

H. K. THAW WINS

Court of Appeals Up-
holds Order Directing
Trial to Test Sanity

ALBANY, N. Y., June 18.—The court of appeals today upheld the order of Supreme Court Justice Peter A. Hendrick directing a jury trial to test the sanity of Harry K. Thaw.

The court of appeals was unanimous in its decision which held that Justice Hendrick did not attempt to evade any responsibility in directing a jury trial, but merely wished to obtain the advice of a jury. The decision holds that Thaw has no mandatory right to a jury trial, but that it was in the discretion of the trial judge to decide whether or not such a request should be granted.

FIFTY WITNESSES MAY TESTIFY
NEW YORK, June 18.—Thaw's trial had been set for Tuesday next pending

DROWNED AT SALISBURY

DR. ALBERT W. HANCOCK OF LAW-
RENCE LOST HIS LIFE WHILE
BATHING

NEWBURYPORT, June 18.—Dr. Albert W. Hancock of Lawrence was drowned while bathing in the surf at Salisbury beach today. His wife, who saw him disappear, assisted in dragging the body from the breakers.

STRONG FORCE AT POLA

AUSTRIANS HAVE 200,000 MEN
THERE, SAYS REFUGEE WHO
REACHES ROME

ROME, June 15, via Paris, 3.30 p. m.—A refugee has come into Rome from Pola, the Austrian naval base on the Adriatic and reports that the Austrians have about 200,000 men in strongly entrenched positions there. He is of the opinion that the only way to take Pola is by a bombardment or a very long siege. The Austrian fleet is at Pola.

HARVARD CREWS TRY STARTS
RED TOP, Conn., June 18.—Much of the time during the forenoon drill today was given up to practicing racing starts by the Harvard crews. The varsity and second eights were out about half an hour taking several short easy paddles and then trying the freshmen crews were taken by Coach Wray down to the three-mile mark and then drilled in racing starts interspersed with short brisk sprints. Middendorf, who has been out of the second varsity for sometime, returned to his seat in that boat today.

12 PERSONS PERISHED IN TERRIFIC STORMS

Six Killed Last Night and Six
Today in Tornado That Swept
Missouri

KANSAS CITY, June 18.—Twelve persons were killed as a result of the wind and rain storms that prevailed in this section of the southwest last night and today. More than a score of others were injured, none fatally.

Five members of the family of John Burgess, a farmer near Onaga in Pettis county were killed and two seriously injured in a tornado which swept the county early today, according to reports received at the Topeka offices of the Union Pacific railroad. The same report asserted that houses were wrecked, stock was killed and much other property damage done.

At Westminster, Kas., Charles Morris, president of the Kansas Southern & Gulf railroad, his son, Guy, and John Gunther, a druggist, were drowned when a bridge gave way under their railroad gasoline car. Five other persons who were on the car escaped. The accident followed a cloud-burst.

Three persons lost their lives at Richmond, Mo., when a terrific wind storm swept that section of Ray county. Mrs. Arthur Covey and small child and Mrs. Mary Bell were the victims. The Covey home was lifted from its foundation and demolished. Mrs. Bell was struck by lightning. Dr. Williams, a farmer, and his wife, living near Richmond were struck by wreckage when their home was swept away. Both were dangerously injured.

Paris, Sedalia, Lamonte and Nevada, Mo., reported several persons injured during the storm.

Morris and his son were on an inspection trip. Near Westminster a bridge had been taken out by rising water and there the car was stopped. Morris, his son, and Gunther decided to remain on the car while the others went back to tell of the discovery. A wall of water suddenly swept down and whirled the car into the swollen stream. None of the bodies has been recovered.

Gene Nicols, a former living near Wamego, was killed by lightning. Many miles of railroad tracks in the affected district were swept away and today all trains entering Kansas City were hours behind schedule. Because of washouts between Kansas City and St. Louis, Missouri Pacific trains were detained over the tracks of the Santa Fe.

Flood warnings to all points in the Kansas river valley and along the Missouri river between Kansas City and Jefferson City were issued by the weather bureau today. Tributaries of the Kansas river are reported bank-full.

Beloit, Kas., reported a precipitation in the last 24 hours of 5.75 inches. At Lamonte, Pettis county, Missouri, where a small tornado prevailed, the home of Ira C. Rimel, a wealthy farmer, was destroyed. The family escaped injury.

CONTAGIOUS HOSPITAL

LOWELL CITY FATHERS VIEW
HOSPITALS IN OTHER CITIES—
HOSPITAL WOULD COST \$50,000

Lowell will have at least to break ground for a new isolation hospital on or before the first day of September of the present year. The city fathers are of the opinion that breaking ground will not fill the bill, but that the state board of health will insist upon an earnest endeavor toward the erection of a hospital that will carry the proposition a little further along than the mere breaking of ground.

Four members of the municipal council, including the mayor, went to Lawrence, Reading, Somerville and Waltham yesterday for a hospital view. They were accompanied by Dr. Charles E. Simpson of the state board of health. The mayor stated today that such a hospital as would have the approval of the state board of health would cost in the vicinity of \$50,000 and that the maintenance would probably figure somewhere in the vicinity of \$25,000 a year.

The Lowell men found that 75 cases of contagious diseases were being treated in the Lawrence hospital, 40 men and 33 women, and that about one-third of them are foreigners. It costs between \$25,000 and \$30,000 a year to maintain the Lawrence hospital. The sewers empty into settling basins and the sewage finally finds its way to the Shawshoon river.

In Waltham a private corporation runs the hospital and the city pays so much for each patient. This arrangement, however, is but a makeshift as

Waltham will also have to comply with the law and build an isolation hospital. The Lowell men learned that the cost per patient for 1914 was \$1235 and this estimate did not include medical attention, fuel or wear and tear of building. There were sixty-three patients in the Waltham hospital, including scarlet fever, diphtheria, and tuberculosis cases. There are three nurses employed in the Waltham hospital, two during the day and one at night.

Mayor Murphy thinks that a hospital having some of the features of the state hospital at Reading and the Somerville hospital combined would make the proper arrangement for Lowell. He believes in a hospital with the administration building in the center and wings on either side and this is in keeping with the original plans drawn for the hospital that was to be built on city farm land; the hospital that was planned and never erected.

U.S. MAIL OPENED

Seal Broken, Letters
Opened and Censored
in England

WASHINGTON, June 18.—Formal notice that United States mail pouches destined for Sweden had been broken open in England and their contents tampered with, was submitted to the state department yesterday by W. A. F. Ekengren, the Swedish minister, with a request for appropriate action.

The minister called at the department and delivered to Secretary Lansing a letter written on instruction from his government relating to instances of interference with mail for Sweden and pointing out that such acts were in violation of the provisions of the world postal convention and of other treaty stipulations. The letter stated that the seals of mail bags were broken, that letters were opened and censored, and that one registered unit was retained.

Two specific cases were mentioned, one involving mails sent on the American steamer New York, when she left on May 29, and the other pouches carried by the British steamer Adriatic which sailed on May 27.

In the former case it was asserted that out of 25 registered letters and packages, seven arrived in Sweden opened, while the greater part of the other mail had been censored. Of the Adriatic's mail, which arrived in Gothenburg on June 8, several letters were said to have been opened and one registered unit to have been retained. Whether the pieces of mail matter shown by a comparison of receipts to be missing was an official communication has not been revealed, but it is known that diplomatic correspondence was sent from Washington on the Adriatic.

Unofficially it was stated in allied diplomatic circles today that there had been various instances of interference with official mail in this country, and that the Russian embassy had evidence of six cases in which mail had been tampered with on United States railway mail cars.

PROTEST BEFORE SEC. LANSING
WASHINGTON, June 18.—The first official protest growing out of reports of the interference with the mails since the European war began was before Secretary Lansing of the state department today with a request for action.

The complaint in point was that lodged with the secretary by Swedish Minister Ekengren, who in a letter written on instructions from his government, stated that United States mail pouches destined for Sweden had been broken open in England, that letters had been opened and censored and that one registered unit had been retained. The communication recited two specific instances of interference with United States mail for Sweden, pointed out that such acts were in violation of the provisions of the World Postal convention and asked that appropriate action be taken.

While state department officials declined to indicate what, if any action, would be taken, it was said in diplomatic circles that representations probably would be made by the United States to Great Britain, asking that special precautions be taken to protect American mail passing through British territory.

DENIAL BY SHAUGHNESSY

Canadian Pacific Railway President
Says He Is in England on Transportation Matters

LONDON, June 18.—In an interview Sir Thomas Shaughnessy, president of the Canadian Pacific railway, denied that he had been offered officially the position of contractor for munitions mentioned by Lloyd George.

"Such a report," said Sir Thomas, "is premature. My business in London is merely to negotiate with the war office to see what assistance the Canadian government can offer in the way of supplying food and other material for the equipment of the British army. In this connection the Canadian Pacific railway could, of course, facilitate the conveyance of food to the allied armies."

LIEUT. WARNEFORD DEAD

ZEPPELIN CONQUEROR KILLED
BY FALL—NEEDHAM, AN AMERICAN, ALSO DEAD

PARIS, June 18.—Lieut. Reginald A. J. Warneford, who gained fame recently by blowing to pieces a Zeppelin over Belgium, was killed today by the fall of an aeroplane at Buc, France.

Lieut. Warneford was piloting the machine, which had as a passenger Henry B. Needham, the American writer, who also was killed.

The lieutenant had been spending a few days in Paris, where he came after his Zeppelin exploit to receive his decoration of the Legion of Honor.

According to a report received in Paris, the accident resulted from an explosion in midair, which caused Lieut. Warneford to lose control. The machine fell from a height of 500 feet. Needham's body was taken to the English hospital in Trianon Palace, Versailles. He had been in Europe about four months acting as correspondent of magazines and a New

STOMACH SUFFERER
GETS PROMPT HELP

Hartford Resident Gets Quick Relief From Use of Wonderful Remedy

Mrs. S. E. Johnson of 61 Whitmore street, Hartford, Conn., was a victim of stomach and digestive disorders, attended by much pain. She suffered from pains in the side and other discomforts.

She took May's Wonderful Remedy and found quick relief. In writing of her experience she said: "The pain left me the next day after taking the remedy. It's simply wonderful how it relieved me, and you may be sure I shall tell every one who has stomach trouble about it."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee. If not satisfactory money will be returned.

Steamer Rochester Labeled by Rhode Islanders Who Claim \$265,000 Damages

BUFFALO, June 18.—The steamer Rochester of the Rochester & Ontario Navigation company was labeled here yesterday for \$265,000 damages in be-

half of 48 residents of Rhode Island.

The libel and damages are claimed upon the charge that impure water was provided on the steamer in September, 1913, when the Rhode Islanders were in a party of excursionists carried on the steamer to the Perry centennial celebration here.

It is charged that many cases of typhoid fever resulted, of which several proved fatal.

The steamer came to this port to convey the Rochester chamber of commerce to Detroit.

WAR FASHION IN PARIS

PARIS, June 18.—Warm weather has finally brought fashion back to the Bois de Boulogne—war fashion particularly. The other morning were noticed taking their morning ride a pretty American girl in the costume of a boy scout and an English girl in khaki, leggings, at crowned cap and all. On foot was another girl in a blue skirt giving a perfect illusion of dark blue trousers with a black strip down the legs. There was also a pretty blonde with the blouse of a marine and a brunette in a cantinieres red tunic and pale blue skirt. Horizon blue tunics—in perfect imitation of the new regulation infantry blue—with green and red trimmings are now very common. The only war costume that is not very closely imitated in extreme fashion is the red cross; it is prohibited by government decree.

REWARD FOR CAPTURE OF FLAGS

BERNE, June 18.—An Italian manufacturer, Signor Clerici, has given \$10,000 to be distributed in five rewards of \$2,000 each to the soldiers who capture the first five German or Austrian flags in battle. Similar patriotic offers are being made in many Italian towns.

In Vienna, Baron Leopold Chlumsky has offered a prize of \$2500 to the first Austrian or Hungarian soldier who captured an Italian flag.

FRANCE IN GOOD HEALTH

PARIS, June 18.—France is in excellent health. None of the epidemics dreaded with the coming of hot weather have developed. There were 839 deaths in Paris last week as against 913 the preceding week and 942 the average for this season of the year. Typhoid fever, the most dreaded of all diseases, made only three victims. Reports from points where soldiers are concentrated and where there were a great many cases during the winter show that the epidemic is abating.

COACH RICE OF COLUMBIA SUPPLIES
TECHNIQUE FOR HIS OARSMEN

LEFT FIELDER STIMPSON

PITCHER ZIESER

EDGEWATER, N. J., June 18.—Of the respect and admiration of his oarsmen, and it is because of his sterling qualities that his charges "pull hard" for him, both figuratively and literally. Rice at present is hard at work developing a crew with which he hopes to repeat last year's victory, and whether or not he succeeds in his endeavors, it is certain that when the crews line up at the starting line the Rice entry will compare favorably with any in the race. Picture shows Coach Rice giving instructions to Captain Sanborn of the Columbia first varsity.

Fitchburg Beaten 2-1 in Shortest
Contest of Season—Zieser on
the Mound

In the shortest game of the New England league's 1915 season thus far Lowell took another diamond squabble from Fitchburg yesterday afternoon at Spalding park by a 2-1 score. An hour and fourteen minutes was the official time of play.

Earl Stimpson, Lowell left fielder, was the individual hero of the contest. It was Stimpson's bat in the seventh session which crushed against the seamed sphere for a double to left bringing Barrows home with the winning run.

It was also Stimpson who provided the afternoon's leading features. In the seventh and eighth innings Stimpson was a very busy personage. Two putouts in each round were his contribution and a couple of 'em were of the sensational order. His catch of what looked like a certain safety off Young's bat brought the spectators to their feet in unalloyed applause.

Fitchburg was lucky to score at all while both of Lowell's runs were earned tallies. A boot by Shorty Dee in the fourth gave the visitors an incentive with one man already gone into the discard. Dee played the ball poorly for it was of the simpler variety of ground knocks.

The error was followed by a long single and a scratch hit which served as a scoring medium for Smith who was on third at the time.

Ahearn is another player who should come in for his share of credit for the victory. The local catcher snapped the ball to McGinnis in the fourth inning in the midst of a quiet little sista. Zieser then tightened up and forced the next batter to drift one toward Fitchburg.

Fahey played a rare game at the hot corner. His ease in fielding several of his chances were deceptive for they did look difficult as they really were. It was the best job of third base tending that we have seen here this season.

Zieser and Tuckey both pitched good ball although the local twirler held himself in better restraint at critical points. Tuckey wasn't slaughtered by any means but his delivery was found for shots to safe territory when hits meant runs. Only one act of generosity was displayed during the game. Zieser passing Pennington in the fourth.

The game in detail: Campbell, Fitchburg's first adventurer against the Zieser "stuff" shoved a fly into Barrows' hands. It was easy picking for "Cuke" and he made no mistake in easily inflied out. Fahey and Bowcock being on the pegging ends with McGinnis the receiver.

Gaston took his place behind the bat for the visitors in spite of his injured wrist which Fahey spiked as he scooted home in the first inning of Wednesday's game. The efficiency of the Fitchburg catcher was demonstrated when he grabbed Swayne's foul fly near the grandstand.

Fahey smacked a blow for two bases down the left field foul line and scampered across the scoring spot when Barrows singled to centre. Bowcock hit into a double play when his grounder took a lucky hop near second into Young's hands.

Fitchburg looked dangerous for a moment, but only a moment. In the second, Moran opened with a Texas leaguer to left. Fahey made a fine play of Sullivan's grounder and his bullet peg to Bowcock cut off Moran at second. Ahearn took Pennington's foul fly and McGinnis sank into oblivion on a grounder to Zieser.

Lowell fared no better in her portion of this round. Ahearn biffed a base hit to centre. Stimpson did on a soft roller to Sullivan and Tuckey threw out both McGinnis and Dee.

The visitors never had a glimpse of a run in their third turn with the stick. Gaston lifted a McGinnis foul side the foul line and the Lowell first baseman then smothered a grounder off Tuckey's bat. Dee pegged out Campbell.

Zieser at bat a foul tip split Gaston's thumb so badly that the Burghers' catcher was forced to retire. McGinnis loomed the protector, while Smith went to first and Press to the right pasture. Zieser and Swayne both died to Smith, and Fahey went out on a grounder to Sullivan.

Dee's boot in the fourth of Smith's simple grounder started trouble for the locals and before three men were retired the score was tied. Dee's error was made after Fahey had thrown out Young. Moran followed the misplay with a clout to right which sent Smith to third. A scratch hit along the third base lines scored Smith. Ahearn's snappy throw to McGinnis after Matty pulled the paths with freedom to Pennington helped relieve the situation as Fahey was caught off the bag. Fahey

then threw across the diamond for McGinnis's extinction. Nothing of moment occurred in the fifth for either club. Matty was invincible and scored two punchouts, while the horseshoe crowned off the Lowell bats into waiting gloves. The sixth was also a series of putouts, although a spectacular catch by Stimpson in extreme left broke up the monotony in the first of the seventh.

Lowell broke into the run column again in the latter half of the seventh. Barrows opened with a fly which fell safe in short centre and was pushing to second by Bowcock's advancing sacrifice. A long double to left by Stimpson brought in Barrows with a tally. Ahearn and McGinnis were unable to bring Stimpson home.

Stimpson made another wonderful catch in the eighth. After Campbell failed to reach on his grounder to Dee, Young sent up a short fly to left centre. It looked like a safely but Stimpson's sprint, coupled with a dive at the end of it, completed a sensational putout. Stimpson was promptly cheered by bleachers and grandstand alike. Lowell's left fielder also took Smith's fly.

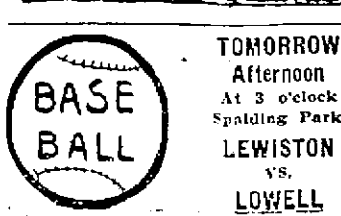

Lowell didn't do a thing in the eighth either, although Swayne dumped a single into left.

Zieser was supreme in the ninth and all three batters to face him: dropped out of the race without a murmur. Moran was easy for Fahey and McGinnis on his grounder. Swayne took Sullivan's boost to right and Pennington fanned. The score:

THE O'BRIEN LABEL GUARANTEES VALUE

Any way you look at it, the Blue Serge Suit is the one best buy for any man.

If you want service, a blue serge suit, properly tailored, will outlast two average suits of other fabrics.

If you want the dressy look the answer is blue serge—if it's properly tailored.

If you want style you get it, too, if the blue serge suit bears the O'Brien label.

Good tailoring is the keynote to complete satisfaction in a blue serge suit. Don't overlook that.

The O'Brien Special \$15 Serge Suit is the limit of good value in \$15 clothes.

The Stein-Bloch Serge Suit at \$20 is the greatest value in high grade clothes we know of.

We provide blue serges in models for young men with all the style cleverness of our fancy suits.

You cannot go wrong on an O'Brien Serge Suit.

SPRINGFIELD

DIAMOND DAZZLES

That begins to look like business. Two in a row from a club which won seven straight shows unmistakable signs of life. A few more games like that played yesterday at the park will mean hundreds of more fans in attendance.

Gaston, the Fitchburg catcher, has certainly played in hard luck during the past two days. On Wednesday in Fitchburg he was spiked by Howard Fahey as the latter stole home in the first inning, and yesterday he went in to catch with the arm bandaged. That foul tip off Matty Zieser's bat sent him to the clubhouse though the throwing finger on his right hand was so badly split that he may be out of the game for quite a stretch.

The Fitchburg team is badly crippled at present and does not look like the fast aggregation which McCune presented a week ago. Robinson has wandered away because he couldn't get a raise in salary, they say, and Duggan is also not in uniform yet. With the fans down there ready to bet meal tickets on their club, Noanone had better stock up with a few more ball players.

Barrows came through with two important plays yesterday, both of the one-base variety. His single to centre in the first round scored Fahey with the runner on first, while Barrows scored himself in the seventh after

singling and going to second on Bowcock's sacrifice when Stimpson doubled. Take it all in all most every member on the club did business in the most approved manner.

Moran, that left fielder of the Burghers, smote the ball hard yesterday. He collected two of the five safeties, procured at Matty's expense. His fielding was also better than the ordinary. Moran covered a lot of territory before squeezing Ahearn's fly in the seventh inning.

That was a costly peg of Red Smith's yesterday when he heaved the ball over Schmidt's head and lost another game for the Braves. Smith has been more erratic this season than he was last. He hasn't played the ball that he did before breaking his leg in the fall, although, of course, this injury has nothing to do with his poor peg yesterday.

The Red Sox won a peculiar game yesterday from St. Louis. The score was 11-10. 76 hits were made for a total of 31, only three stolen bases, Spenser getting two of these, and but four errors. Hobbittel was automatically retired when he was hit by his own batted ball, something that rarely occurs.

AMATEUR BASEBALL

The Brookside will meet the strong Cardinal team Saturday afternoon on the South common. Game called at three o'clock. J. Kane, manager.

The Junior A. C. will play the Killbrides, Saturday afternoon at 2 o'clock for a quarter ball.

The Bellevues are without a game for Saturday and would like to hear from some strong team. The manager can be seen tonight at the Bellevue club.

The St. Michael's Juniors will play any 12 or 14 year old team in the city the lineup: F. Kilbride, p; B. Rourke, c; J. Mara, 1b; F. Kelly, 2b; W. Nugent, 3b; Sanewetter, ss; D. Murray, p; W. Gilpin, cf; L. Edmund, rf. T. Conlon's name was put in the paper the other night by mistake.

St. Columba's Juniors would like to play the O. M. I. Cadets Saturday, June 19, for two quarter balls a side, on the Woodward avenue grounds. Tickets at 25c. Tickets through this paper or telephone 2334-R. St. Columba's defeated Sharps Pets by the score of 12-5.

SYLVIA GAME UNTIL 11TH

Gloucester Boxer Loses Gruelling Contest to Johnny Mello of New Bedford—Other Results

LOWELL, June 18.—In what old ringsiders call the most gruelling boxing ever seen here, Johnny Mello of New Bedford put away Battling Sylvia of this city in the 11th of 12 scheduled rounds.

Sylvia was on the receiving end throughout and only his extraordinary gameness carried him so far. Billy Burke of Lynn and Joe Rivers of Gloucester boxed a six-round draw. The Syrian Kid got a decision over Young Myett, both local men, in four rounds.

LANGFORD JOLTED AT MILFORD
MILFORD, June 18.—Sam Langford, the Boston boxer, was given a jolt here yesterday morning by a Johnson, much less famous than the heavyweight, but more effective. Langford and his trainer were motoring into Milford Centre from West Medway and tried to pass a long dirt trolley car run by Motorman William G. Johnson. The auto skidded at the wrong minute into the trolley car and Langford was upset, but with only his feelings hurt. His car was badly wrecked.

You need a good lawn mower now. The Thompson Hardware Co. has a full line of Philadelphia and other fine makes.

TALBOT'S

AMERICAN HOUSE BLK., CENTRAL ST.

A QUARTER CENTURY AGO

The employment of "spotters" so-called, to secure evidence of violations of the liquor law has always been a bone of contention in different communities. Some of the opponents of the system claiming that a man who will engage in such business is not the surest man in the world to trust, while it has been argued that juries are inclined to take "spotter" testimony with a grain of salt.

Quarter of a century ago, Lowell was a no-license town and while the liquor inspectors who at that time were Messrs. Goodwin and Palmer, worked overtime and made many arrests, the law was being generally violated. Suddenly "spotters" appeared on the scene and arrests were made in unexpected quarters. When on the witness stand in police court, one morning, one of the "spotters" testified, when asked by whom he was employed, that the city of Lowell had employed him, there was a big sensation in and out of city hall and a lively discussion was held on the matter at the next meeting of the board of aldermen, reported in part by the old Sun, as follows:

"Alderman Drury having obtained permission of the board to say a few words, took the floor and said, in part: 'There has been a matter that both

the public and the press have been deeply interested in for the past few days, where a man on his oath in the police court recently, swore that he was in the employ of the city, and with full knowledge of the board of aldermen. Now I want to speak simply for myself for I know that every member of this board is capable of speaking for himself. I want to declare that I had no knowledge that any man was in the employ of the city, or of the board of aldermen, doing work that every fair-minded man has no sympathy with, for it seems to me that if there is a man on the face of the earth to be despised it is the man who attempts to have another do an illegal act simply to betray him. It is work that I am surprised to learn any man would countenance, and I am surprised that it has been done in the police department, as it seems to me that our police department is thoroughly equipped, the seizure force recently having been increased by the addition of another man. It ought to be able to do its work without resorting to the means of all mean work. The idea of any man or men, a non-resident at that, being employed on this work is no credit to those who employ him. It is said that he is to be paid out of the city treasury, but I can know of no right that any man has to pay such an employ out of the city treasury. I should not have said so much about the matter had I not seen in the evening paper that the chairman of the committee on police, displeased at the course that the committee has taken wipes his hands of the whole affair which really is very creditable of him."

"When Alderman Drury had finished, Alderman Fletcher took the floor and said: 'The gentleman wishes to know who has been a party to this spotter business. I stand here to say that I am one of them. I am a member of the police committee and the mayor, the chairman and the committee have

worked harmoniously, until lately when the chairman of the committee has washed his hands of the committee entirely and announced it in the papers. I think it would have been well to have told the committee of it. If the other member of the committee were present I think I could prove that the chairman of the committee was in favor of adopting this method to detect violation of the law. He is the cashier of a bank and he would not think it dishonorable to catch a rogue by means of marked money. The chairman has not been in harmony with us of late about many things and we know all about it. The place for him to express himself, it seems to me, is in the committee and not in the newspapers."

"Alderman Sawyer, the next speaker, said: 'What purpose to be an interview with me in the paper is no such thing. There has been no interview with me.'

"Alderman Fletcher replied: 'Oh, well, if you deny it, that's different. The gentleman from ward 6 (Mr. Drury) has laid great stress on the spotter matter. He does not know anything about the men who are selling liquor; how they use every means to see the officers when they are coming. If you are treating with a man who is cheating the law you are not going to handle him with kid gloves; you must take him as you find him. If I have this matter to handle I shall do the best I can. If the board of aldermen does not approve of it it can take the matter away from me.'

"Alderman Drury: 'I would like to know why it was necessary to increase the seizure force if you believed the officers could not do their duty.'"

A lengthy altercation followed. Alderman Fletcher, Drury and Sawyer alone taking part in it. Mr. Drury maintained his position against the spotter system, alleging that it was a reflection on the police department and Mr. Sawyer defending the police committee.

The spotter system continued during the year and subsequently was brought into use by the Law and Order league in the days of license. At one time some 40 or more licensed places were convicted in the lower court by spotter evidence. Another time nearly all of the hotels in Low-

ence for four months. Mr. Garner has been in continuous service as overseer of the yard for 21 years. He left for New York on Tuesday and will make an extended tour of Europe."

Mr. Garner was a well known figure in Lowell quarter of a century ago and died in the early '90s. He accumulated considerable wealth and owned the old Sun building which he sold to John H. Harrington in April, 1888. Mr. Garner married in the latter part of his life, his wife having been a Mrs. Brown. After his death his widow married a Brockton man who subsequently became the mayor of that city in the earliest election. Mr. Garner's step-daughter, Miss Stella Harrington, married Mr. Chester Coram, formerly of Lowell.

The Old Ward Three Club

The report in yesterday's papers of a meeting of the ward three republican committee, at which plans were made for the coming republican outing, calls to mind some other ward three clubs of the past, notably the famous old Ward Three Republican club of 10 or 15 years ago, with Stephen Puffer, and John S. Stratton as active members. This club was independent on politics and spoke its mind without fear or favor on all public matters, particular hobby being the Cook wells, last quarter of a century ago there was a Ward Three Improvement association and the hobby of that club was the Cook wells which at that time smelted to heaven for vengeance. These

orators of the old ward three clubs were veritable thorns in the sides of the members of the city council for they watched their official actions closely and criticized them in the plainest of language. Recent happenings at city hall, had they occurred in the good old days of the Ward Three clubs, would have caused the members of those organizations to put up a protest that would have halted the members of the municipal council if nothing else did. In those days the members of the city council received no salaries and hence were not as sensitive about adverse criticism and its effects, as are the men who draw \$2500 per year. Twenty-five years ago while the people of old ward three were crying in vain for relief from the foul-smelling brook the city council after much jockeying bought the land along the river bank and established the Pawtucket boulevard. At a meeting of the old ward three club just quarter of a century ago, one of the speakers unbuckled himself on the Hale brook matter as follows: 'This is a matter that should be above party politics, but the present government has fallen into political rule and their failure to treat us properly in this matter is as gross a piece of political stupidity as I know of. They vote away \$25,000 of \$26,000 for a boulevard or race track which nobody wants except

a few interested land owners, but they take no steps to redress a matter that affects the growth and welfare of the city. They cannot do anything properly. Look at the bungling over the city hall and Memorial building. You cannot point to a single performance of theirs that has not been marked by some political jobbery. Incompetency characterizes all of their actions.'

Those words "they cannot do anything properly" have a decidedly up-to-date flavor. If all we read in the newspapers is true.

St. Patrick's Boys' School

The closing exercises of St. Patrick's Boys' school were held last evening and the diplomas will be given the graduates on Sunday next.

Twenty-five years ago the annual commencement exercises drew a large gathering in Huntington hall, on which occasion there were three graduates, James B. O'Connor, John J. O'Hearn who formerly lived in No. Chelmsford, and William F. Finnich. Of the three one became a physician, Dr. O'Connor, and at the present time is a resident of California. The other two became priests. Fr. O'Hearn is stationed at St. Francis de Sales church, Charlestown, while Fr. Finnich is in Marlboro. The closing exercises of quarter of a century ago were reported by the old Sun in part as follows:

The graduating exercises of St. Patrick's Boys' school were held in Huntington hall, Monday evening, and attracted a large audience of friends of the school. Although the closing exercises of this school have been very creditable in past years, an indication of rapid progress, thorough training and strict discipline, yet those of this year far exceeded all previous affairs, not only in point of brilliancy but also in the proficiency shown by all who participated as well as by the first appearance on such an occasion of the school band and orchestra. The clergymen who were present were Rev. Michael O'Brien, Rev. D. J. Gleason, Rev. J. J. Shaw, Rev. D. M. Burns, O. M. L. Rev. J. A. Constance, Rev. J. E. Ryan, J. H. Pelletier, O. M. L. Rev. J. J. Gilday, Rev. William O'Brien, Rev. William M. O'Brien, Rev. J. J. Foley, Rev. Bro. Alexis, provincial of the Navarrian order. The exercises began at 8 o'clock and the program was highly creditable to the school.

After presenting the diplomas to the three graduates mentioned above Fr. Michael O'Brien made an eloquent address.

Vets at Charlestown

Most every other city in the commonwealth except Lowell welcomes the opportunity to have a firemen's muster on the occasion of its big celebrations, as firemen's musters have been a great crowd-drawing feature, and have drawn crowds that spent money, which is as much to be desired as the entertainment afforded by the vets. In Charlestown on the 17th of June, 1914, the many century-attractions, it has been customary for years to have a firemen's muster, if not every year, every few years, and this dates back over quarter of a century. At the celebration of 25 years ago, a firemen's muster was a feature and the Lowell Vets as usual were on hand. The old Sun reported their visit to Charlestown as follows:

"At 8 o'clock Tuesday morning, headed by the Dunstable band, the Lowell Veterans Firemen's association marched from their room in Boston street to the Boston & Maine depot on their way to the Charlestown celebration. They took with them as their guests Mayor Palmer, Aldermen Dickinson and Wilson, Councilman Crowell, Chief Engineer Bent and Assistant Engineer Larned of the Gardner fire department, and D. L. Pace went along to provide refreshments. The veterans returned in the evening and attracted much attention as they marched through Central and Market streets with Capt. Peabody and Mayor Palmer in the rear ranks. It was a pity that Mayor Palmer did not don the red shirt and wield the baton in directing the movements of the company. The boys played well, but not quite well enough to get the coveted prize. They all report a most tedious day as the arrangements at least so far as the firemen were concerned, were at sixes and sevens. The procession started at 11 o'clock but so great was its length that the veterans were kept standing in line until 12 o'clock before they started, and it was not until 3 o'clock that they got to dinner. This of course delayed the trial of the machines and instead of beginning at 2 o'clock as was announced it was half past four before the first stream was played. There was an immense crowd of people present and Lowell was third in the trial list. The Lowell Vets are under obligations to the Urban club for many courtesies extended. The first prize was taken by the Wakefield company, the second by the Peabodys and the third by the Pawtucket. The Lowell men did wait as at usual the tub was not in good trim."

In recent years the Butler Veterans have succeeded in the old Lowell Vets and have established a reputation throughout New England as a company to be feared in a playing company. The Butlers suggested to the municipal council recently that some of the \$3000 appropriated for the Fourth of July celebration be given to a firemen's muster but the suggestion was frowned upon and the militia will get the entire amount. The Butlers, it is understood have been invited to appear in the parade but it is doubtful if they will put in an appearance.

HURL BOTTLE AT WALSH

Thugs Attack Governor and Mayor in Boston Parade—Missiles Thrown From Roof

BOSTON, June 18.—A broken bottle and other missiles were thrown from the roof of a four-story tenement house upon Governor Walsh, Mayor Curley and other city and state officials as their carriages passed by Cottage street, on Bunker Hill street, in the parade that commemorated the 140th anniversary of the battle of Bunker Hill, yesterday.

Thousands of spectators stood in astonishment when they saw the governor, shielding his face from the shower of pebbles which a group of hoodlums had aimed directly at the carriage. Then came confusion and a wave of anger swept through the masses of people who lined the sidewalks and had witnessed the attack. The bottle fell harmlessly a few feet from the governor's carriage. A heavy brick crashed into the pavement between horses of Troop C (cavalry) that were riding directly behind. Pebbles and sand rained down upon the riders and also struck Councilors Daniel MacDonald and James A. Watson, who occupied another carriage.

Captured After Chase

The fear that an attempt had been made to kill Governor Walsh caused the entire parade line to stop. The cavalry escort spurred their horses into the streets and alleyways that surrounded the house where the hoodlums were quartered. Policemen dashed into the building, and a spectacular chase followed. The young men on the roof ran to the rear and leaped across an open space on to an adjoining roof and made their escape from the houses.

A few minutes afterwards two were captured on the streets through an identification made by John Hale of Fitchburg, a motorman of the Fitchburg & Leominster street railway, who saw the attack from the curbing on Bunker Hill street. At the City Square police station the young men were booked as John Dooley, 17, of 174 Bunker Hill street, and William Healey, 21, of 78 Lexington street. Both refused to talk when questioned at the station house.

During the evening John D. Broderick, 24 years old, of 25 Everett street, Charlestown, was arrested in connection with the affair.

Neither is Injured

Both Governor Walsh and Mayor Curley declared that they did not believe that it was a personal attack upon them. Neither was injured, and out of the shower of missiles nothing but a few pebbles struck them. News of the happenings spread along the miles of streets, where more than 30,000 men, women and children were anxiously awaiting the parade.

Vociferous applause greeted the governor and his party as their carriages passed through the streets, and it was seen that neither had been harmed. Indignation was expressed everywhere. A damper had been spread over the festivities of the day in spite of the governor's appeal that the incident be forgotten.

Although he would not let the attack mar his enjoyment and enthusiasm in the celebration, Governor Walsh felt grieved that anyone should seek to break up a parade by such malicious actions. "I noticed the young men on the roof as we were coming down the street," he said.

"As we came by they threw pebbles such as are used for roofing. It seemed to me as though they wanted to hit the horses to make them prance. I was afraid for a moment, but I was not hurt. The pebbles might have caused the horses to run away and injure persons in the crowd. While I was thinking about this, a bottle crashed down and broke on the pavements."

"Between the carriage and the place where the bottle struck was an outrider of the cavalry troop, which was acting as an escort. As soon as the bottle dropped, I had the carriage stopped and called for a policeman to preserve order. About that time the cavalryman started in pursuit of those responsible for the incident. We had quite a lively few minutes while it lasted."

Mayor Curley agreed with the governor that the bottle throwing could not have been intended for them. "I don't believe the hoodlums knew who were in the carriage," he said. "The matter is now in the hands of the police, and there is nothing I can say or do in the matter now."

Watson's Silk Hat Hit

Adjutant-General Charles H. Cole and Captain James D. Coady, the governor's personal aid, were seated in the same carriage. In the next carriage were Councilors MacDonald and Watson and Alexander Royce, vice-president of Tammany Hall, New York. They received the tail end of the shower of stones. One stone landed on top of "Jerry" Watson's silk hat.

and bounced off, striking the Tammany Hall official.

The cavalrymen controlled their frightened horses masterfully. No one in the parade line would say that the missiles were intended for anyone in particular although a number declared that there has been some anger among Charlestown youths because the city refused this year to appropriate money for the annual bonfire and there may have been some resentment behind the incident.

Policemen Nicholas H. Flynn and William J. Kirwin of Division 1 made the arrests. It was stated last night that other arrests might be made. On the police records the two prisoners were charged with assault and battery on unknown persons. Captain Michael J. God, who had charge of the 500 police scattered throughout Charlestown expressed his regret at the happening, stating that he had done everything in his power to have the district well policed.

Councillor MacDonald declared that there should be a city ordinance prohibiting people from collecting on roofs of houses during street parades. He pointed out the dangers to which paraders are exposed from above when people collect on roofs and seek to cause annoyance on the streets below.

Patrick F. Healy, chief marshal of the parade, felt much annoyed over the affair, and declared that it had served to blight the otherwise successful parade.

The parade started from the junction of Elm and Bunker Hill streets at 3 o'clock with Chief Marshal Healy and Lieutenant Andrew T. Wilson in the lead. It was on the roof of the house at 173-175 Bunker Hill street where the hoodlums had collected. The first section of the parade, including regulars from the navy and warships, passed without molestation.

When the carriages containing the guests of honor reached this point the young men began their action and interrupted the whole parade.

Among the Paraders

Following the regulars and the carriages were three provisional regiments, composed of companies of the Fifth, Eighth and Ninth Massachusetts Infantry. Other organizations in line were Company A, Naval Brigade; Company A, Signal Corps; Bunker Hill and Colonel Fred B. Bogan camps, U. S. W. V.; First and Ninth Regiment Veteran Associations, Abraham Lincoln Camp, S. of V.; Charlestown High School and Dudley School Cadets, Sacred Heart Cadets of St. Joseph's church, Somerville; St. Mary's Cardinal Cadets of Charlestown and military organizations of Irish National Foresters and A. O. H.

The parade was reviewed by the chief marshal at the junction of Common street and Winthrop square and by Governor Walsh and Mayor Curley. Councillor MacDonald, chairman of the celebration committee of the city, and Executive Councilor Buckley at Catholic Literary union.

DRACUT

The Y. P. S. C. E. of the Dracut Centre Congregational church conducted a very successful strawberry festival, salad supper and entertainment in the church vestry last evening. The affair was largely attended and the receipts were very substantial.

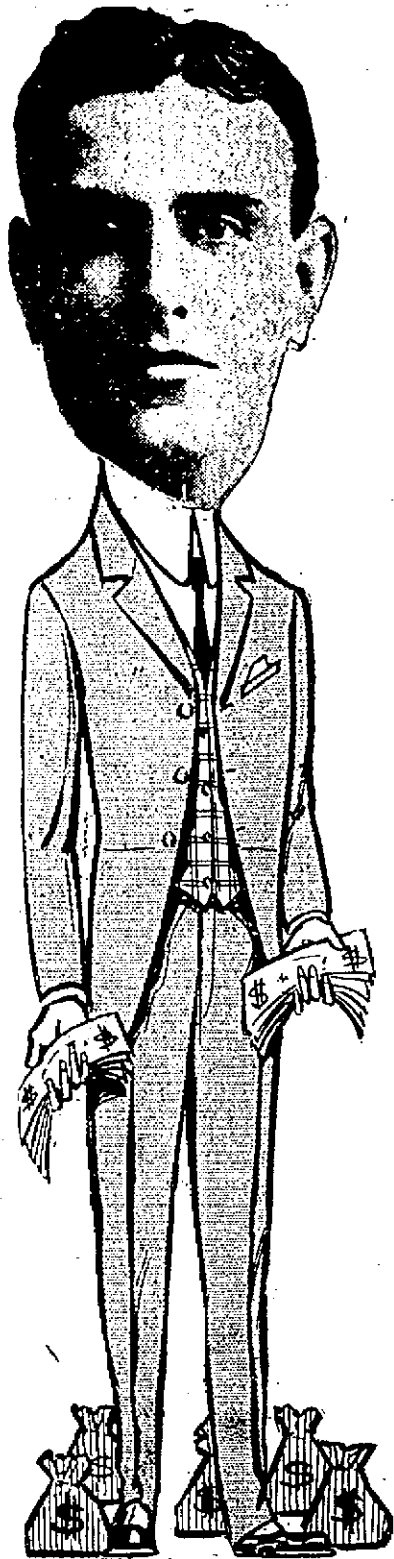

The supper was the real thing, while the entertainment which followed was very pleasing. The program consisted of the following numbers: Miss Edna Kierstead, piano selections; Miss Grace Kendrick, songs; Miss Mabel Kendrick, readings; Joseph Curry, violin selections; Lyle Sewell, songs. Miss Curry accompanied on the piano.

Miss Anna Roth had general charge of the evening's program and she was assisted by Misses Anna Bartlett, Helen Bryant, Evelyn Dutton, Edith Yates, Elizabeth Nehring, Melba Coburn, Gertrude Cluff, Hazel Cluff, Annie Hogue, Ruth Hill, Orpha Coburn, Frances Smith, Doris Fox, and the following members of the Ladies Aid Society: Mrs. Conant Udell, Mrs. Jesse Curry, Mrs. Dora Cluff, Mrs. Guy Richardson, Mrs. Martha Fox, Mrs. A. Bryant. The following were also active assistants during the supper: A. B. Bryant, George R. Fox, Gus Dutton, Fred Swindles, Thomas Kearns, Kenneth Currier, John Guild, George Hogue, Claude Harvey.

Miss Anna Roth had charge of the entertainment program.

Tailors, Attention!

MITCHELL, the Tailor

31 Merrimack Sq., Lowell

I'll Torpedo Prices on Blue Serges

FRIDAY AND SATURDAY

A GALA ROUND-UP OF OLD CUSTOMERS IN ONE OF MY FAMOUS PRICE SLASHINGS

SPOT CASH BOUGHT 60 FULL PIECES OF WANSKUK BLUE SERGE

To the lay mind this statement isn't as important as it is to the people who know something about woollens. Mr. Metcalf is considered the most efficient manufacturer of all worsted and wool serges in this country. His colors are guaranteed during the life of the goods, the cheapest cloth that he turns out of his mill is sold by the commission man around \$1.75 a yard, and the better grades around \$2.75 to \$3.25 a yard. These goods sold by the retailer would cost the average tailor \$3.50 to \$4.00 per yard. These are not exaggerated statements, and any tailor paying from \$3.00 to \$3.50 per yard for Wanskuk Serges and selling them for \$30 to \$35 for a suit would be giving his customer full measure for the money.

When you come to my store Today and Saturday looking for Wanskuk Serges, I won't show you short ends or remnants, but full pieces, about five thousand yards in all, in light, medium and heavy weight, not over two weeks old from the loom. When ordering your suit ask for Wanskuk Serge; it not only proves the efficiency of advertising, but it guarantees you One Hundred Fifty Cents on the Dollar in value.

SUIT TO ORDER

\$12.50

For the balance of this month I will sell you by the yard or suit pattern any number on the Wanskuk line in my stock, 15 per cent. less than you have to pay your wholesale house. Goods are all spooled, and sold for cash only.

Signed, MITCHELL.

INDUSTRIAL AND STORE NEWS

Timothy Fourke, past president of the Trades & Labor council is confined to his home with a sprained ankle.

Thomas J. Regan, general organizer for the United Textile Workers will visit Philadelphia within a few days, according to advices received here.

Organizer Rosa Hall of the International Machinists arrived in Lowell yesterday morning, and at noon he addressed a large gathering of employees of the Saco-Loell shops at the Dutton street garage.

If Dr. Anton Meyer-Gerhard, Ambassador von Bernstorff's special messenger to the Kaiser, visited the plants of the U. S. Cartridge company, in this city, the plant officials know nothing of it, and no one connected with the plant entered into with him for munitions.

Typographical Union

The regular monthly meeting of the Typographical union will be held tomorrow night in Post 120 hall, Merrimack street, at which the officers recently elected will be installed.

Organizer Thomas F. McMahon of the United Textile Workers spoke last night in Brunswick, Me. Tomorrow he will visit Maynard, and on Sunday he is scheduled to speak in East Greenwich, R. I. On Monday, Tuesday and Wednesday of next week he will speak in Springfield.

Middlesex Lodge, 135, Carmen Middlesex lodge 135, Brotherhood Railway Carmen of America held a meeting in Odd Fellows building, Middlesex street last evening at which a great routine business was transacted. First Vice-Pres. F. H. Knight of Kansas City, Mo., and Brother W. Chase of the International Blacksmiths' union were the principal speakers.

Woolen Spinners' Union

The executive board of the Woolen Spinners' union held a short business session in Trades & Labor hall, Middle street, last night, at which a number of applications for membership were passed upon. These members will be initiated at the meeting to be held next Friday evening.

Painters' Union

A largely attended and interesting meeting was held by the Painters' union in the union quarters in the Runels building last night at which considerable business of importance was transacted. Two new members were admitted and several applications for membership were received.

Billieken Roller-makers

A special meeting was held last night by the Billieken Roller-makers' union, at which resolutions on the death of John Flaherty, who was a

charter member of the organization, were adopted. The charter was ordered draped and a delegation was appointed to attend the funeral.

Stationary Engineers

Local 352, Stationary Engineers, elected the following officers at its meeting held this week: John H. Smith, president; William Kenefick, vice president; Michael Ryan, treasurer. The election of the other officers was held over until the next meeting. Mr. Kenefick made a report on the convention held recently in Lynn which was accepted and two new members were received into the organization.

Trades & Labor Council

The Trades & Labor council held an interesting meeting last night in the union quarters in Middle street, with Frank Warnock in the chair. There was a full attendance of delegates and considerable business of importance was transacted. Reports were

received from several organizations showing an increase in membership since the starting of the labor forward campaign and the delegates reported business good in several trades. The executive committee submitted a report relative to the meeting held recently at city hall pertaining to labor on the Pawtucket bridge and the report was accepted as progressive. It was voted to celebrate Labor day as in former years with a parade in the morning, sports in the afternoon, and a band concert and skating in the evening on the South common.

DROWNED WHILE BATHING

MRS. JESSIE HOLLIDAY DANA, ENGLISH PORTRAIT PAINTER, WAS CALLED "PERFECT" BRIDE

BOSTON, June 18.—Mrs. Jessie Holliday Dana, wife of Edmund T. Dana of Cambridge, who is a grandson of the poet Longfellow, was drowned yesterday while bathing alone in the surf at Nantucket. Her body was recovered.

Mr. and Mrs. Dana gained country-

LARGE ARM ROCKER

ADAMS & CO.

Closed Thursday at 12 O'Clock. 174 CENTRAL ST.

wide publicity in the summer of 1913 by being principals in a so-called "perfect" marriage ceremony performed under the trees on the estate of Mr. Dana's father, Richard Henry Dana, one of the wealthiest citizens of Cambridge. They were married by a justice of the peace.

Before her marriage Mrs. Dana was a portrait painter of considerable prominence in England. She was the daughter of one of the foremost of the men in the steel and iron business in North Wales and was attending a socialist school in that section of Great Britain when she met Mr. Dana, who was at that time a student at Harvard. They found something in their socialistic belief, and friendship developed into love, and they became engaged.

When Mrs. Dana came here from England she made her home at the Dana residence as a guest of Mrs.

Dana until the wedding. Previous to the ceremony the couple furnished pages of "copy" for the daily papers and magazines, for their socialistic beliefs were of a radical form, so far as conventionalities are concerned.

For some time past Mr. and Mrs. Dana and their young son lived in Cambridge, in New York and in Minneapolis. They came to Nantucket a few weeks ago intending to spend the season there. Last Friday Mr. Dana paid a visit to his father in Cambridge. He returned to Nantucket Monday, it was stated. At the Dana house last night it was said by Mr. Dana that he had received no details of his daughter-in-law's death, but had dispatched a telegram asking for them.

Bed or couch hammocks. We have a fine line. The Thompson Hardware Co.

Hot Weather Conduces to Chronic Constipation and Diarrhoea

A disposition to confine one's diet to cold food and to indulge freely in iced drinks, is one reason why constipation and diarrhoea are so prevalent in summer, and there is no season when bowel disturbances should be more carefully avoided, as much serious disease is directly traceable to these conditions.

To regulate the bowels and quickly relieve even an aggravated case of constipation, the combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is highly recommended by many physicians and all those who have used it. Unlike cathartics and violent purgatives, Dr. Caldwell's Syrup Pepsin acts gently on stomach, liver and bowels, without griping or other discomfort and brings relief in an easy, natural manner. Mild, pleasant in the taste, and inexpensive, it is the ideal family laxative. By cleansing the bowel tract and

eliminating the foreign matter and poisons that irritate and inflame, it will quickly check an attack of diarrhoea and restore normal conditions. Dr. Caldwell's Syrup Pepsin has been the standard remedy in countless homes for more than thirty years, and is sold in drug stores everywhere for fifty cents a bottle. A free trial can be obtained by writing to Dr. W. B. Caldwell, 453 Washington St., Monticello, Ill.

TOM WILSON'S ANNUAL MAMMOTH SALE

SMASHED!

EVERY PRECEDENT—EVERY FORMER IDEA OF CLOTHES VALUES
DOWN COME THE PRICES

Beginning Today

you may walk into
my store, select any
piece of goods, re-

DRUGGISTS' CONVENTION

MANY ARE TO ATTEND THE ANNUAL MEETING IN SPRINGFIELD NEXT WEEK

Many of our local druggists are to take an active part in the 31st annual convention of the Mass. State Pharmaceutical association, which will hold a three days session at the Kimball hotel, Springfield, Tuesday, Wednesday

and Thursday of next week. The convention will open Tuesday with President F. J. Campbell of this city in the chair. Mayor Storey will extend the welcome of the city, after which will come the address of the president, and yearly reports of the officers and delegates to the national convention. Wednesday forenoon the nomination of officers takes place, and will be followed by the very important report of national and state legislative activities of the past year, to be submitted by the legislative committee. The election of officers will be held Wednesday afternoon, followed by the reading and discussion of papers, and the convention will close on Thursday with the installation of officers and a general cleaning up of unfinished business. Azro M. Daws is a member of the legislative committee. William H. Noonan has served on the executive committee. Ray Webster has served the past year as a member of the special telephone pay station and postal substitution committee, and John H. O'Neil is the chairman of the entertainment committee, all of whom are planning to attend, and also George A. Wilson, Frank Goodale, F. P. Moody, A. E. Moors and many other local men.

PAIGE STREET BAPTIST CHURCH
The Paige Street Baptist church was last evening the scene of a delightful

strawberry festival held under the auspices of the ladies of the church. After the supper an entertainment, including the following numbers, was given: Piano solo, Doris Brown; violin solos, Dorothy Fairley; reading, Orpha Hutchinson; piano duet, Helen Bagshaw and Ruth Davis; dialog, Sil Brown, Nelda Cross and Dexter Neal; recitation, Walter Hayes; duet, Robert Smith and Wesley Boynton. The supper was served under the direction of Mrs. John Evans, assisted by a large committee of women of the church.

FOR MILITARY COUSINE

TWO LOCAL SOLDIERS ATTENDED SCHOOL AT NOBSCOTT HILL AND REPORT GREAT SUCCESS

Sergeant-Mat. Geo. D. Crowell, Second battalion, Sixth regiment, and Sergeant Fred Fahy, Co. K, have returned from the cooking school which was held at Nobscott hill, South Sudbury, during the past four days. The men report the school was very beneficial, for they claim they are now able to do most anything in the culinary line.

The school was under the command of Lieut. E. Everett Arnold, battalion quartermaster, Eighth, and the instructor was Quartermaster Sergeant F. Bantgart of the Washington barracks, who has had charge of experimental cookery for 21 years.

The day's program consisted of reveille at 6 a. m.; breakfast at 8:30; lectures from 8 to 11; dinner at noon; lectures from 1:30 to 4:30 p. m.; supper at 6; lectures from 7 to 7:30 and taps at 10 p. m. On Tuesday the men were required to take a written examination.

Yesterday the school for officers at the same point began. Those from Lowell who attended were Major Corby T. Kittredge, Major Charles A. Stevens, Capt. Geo. W. Peterson, Capt. James N. Greig, Lieut. H. O. Sheldon, Lieut. C. MacBrayne, Lieut. S. R. Waller, Lieut. A. H. Cashin, Lieut. Melvin Masters, Lieut. James J. Powers and Lieut. Charles J. Duffey.

THE FINAL MEETING
The final meeting of the season of the Men's club of the First Universalist church was held in Harrington hall last night. Routine business was transacted. The next meeting will be held in October.

ACADEMY

HENRY BELLIVEAU

Who made so big a hit with his Chaplin imitation last Tuesday will display a set of brand new antics.

The Best Amateur Show Ever Offered in Lowell
DON'T MISS IT

PAUL BUTLER'S DENIAL

STATES THAT NOBODY ANSWERING DR. GERHARD'S DESCRIPTION VISITED CARTRIDGE SHOP

There seems to have been very little, if any, foundation in fact for the report that Dr. Anton Meyer-Gerhard, Ambassador von Bernstorff's special messenger to the Kaiser, was in Lowell within the last month or so and that he had been recognized at the U. S. Cartridge company. If at the Cartridge shop at all he must have obtained a permit to enter, as none are allowed to enter without permits and the management says that no permits have been issued and no strangers admitted.

Mr. Paul Butler is the one man who would be most likely to know if Dr. Meyer-Gerhard was around, or if any negotiations for munitions had been made, and Mr. Butler is quite positive that the mysterious doctor has not visited the plant of the United States Cartridge company in this city.

Mr. Butler ought to know, but from other quarters comes the report that

a stranger, said to have the looks and general appearance of a German, visited the plant several times within the last three or four weeks. However, these reports are unofficial and may be without foundation. The U. S. Cartridge company is very particular about allowing strangers around the plant and nobody is admitted to the works without a permit granted only to those who are known to be all right, but not to strangers mysterious or otherwise.

PHILADELPHIA, June 18.—In historic Independence Hall yesterday—the anniversary of the battle of Bunker Hill—there was formed an organization whose object it will be to promote the creation of a league of nations with a view to preventing wars or, at least, to lessen the possibilities of armed conflicts. The name adopted by the organization, after some debate, was "League to Enforce Peace, American Branch."

Former President Taft, who presided over the conference for a part of the time, was elected permanent president and, in addition, many representative American citizens were named permanent vice-presidents. A permanent executive committee was selected with instructions to take all measures necessary to promote the objects of the league.

In moving the adoption of the report of the committee on resolutions, which embodied the objects of the league, the former president of the United States expressed the hope "that out of this historic building may come a message that shall again help the world."

The conference was not an assemblage of what one participant termed "pure peace" men, but a gathering of those who for the most part believe in trying to bring about peace, even though it be necessary to use force to do it. There was an animated discussion over the adoption of the name, and the only divisions that occurred on the several questions that came before the conference were on the changing of the rule of the organization and on the elimination from the report of the resolutions committee, that paragraph which bound members of the proposed league of nations to use both their economic and military forces against any one of their number that goes to war against another member before the questions at issue are submitted to the tribunal provided by the league.

PHILADELPHIA, June 18.—In historic Independence Hall yesterday—the anniversary of the battle of Bunker Hill—there was formed an organization whose object it will be to promote the creation of a league of nations with a view to preventing wars or, at least, to lessen the possibilities of armed conflicts. The name adopted by the organization, after some debate, was "League to Enforce Peace, American Branch."

Former President Taft, who presided over the conference for a part of the time, was elected permanent president and, in addition, many representative American citizens were named permanent vice-presidents. A permanent executive committee was selected with instructions to take all measures necessary to promote the objects of the league.

In moving the adoption of the report of the committee on resolutions, which embodied the objects of the league, the former president of the United States expressed the hope "that out of this historic building may come a message that shall again help the world."

TAKEN AFTER BATTLE

TEXOCO CAPTURED BY GENERAL GONZALES—MOVED ON TO MEXICO CITY

GALVESTON, Texas, June 18.—Gen. Pablo Gonzales yesterday expected to occupy the city of Mexico in a few hours, following the capture of Texoco, 16 miles from the capital, according to despatches received today by the constitutionalist consulate here from Vera Cruz. The messages added that Gen. Cárdenas had moved forward from Lagos and was beginning the investment of Aguas Calientes. Texoco, it was said, was taken after a sharp engagement with Zapata forces.

HOLDS BIG REMOVAL SALE
The Broadway Wholesale Millinery Co., of 156 Merrimack street, because of a decision to remove the store to the former quarters at present occupied by the King Dental office, is holding an extensive removal sale. No doubt the women of Lowell will be glad to take advantage of this opportunity for economic millinery buying and the bargains offered by the Broadway Co. will be met with delight. The prices of new millinery and trimmings have been greatly reduced for this occasion. The store was very busy today; the opening day of the sale.

YOU CAN'T RUB IT OUT

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that on the affected part but after all the rubbing the pain remained.

Thin blood and rheumatism come together and if they are properly treated they will go together. One prominent medical writer says that "there is no acute febrile disease in which an anemia occurs with greater rapidity." Anemia means thin blood and thin blood is something that can be corrected so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Acute, muscular and particular rheumatism all show improvement as the thin blood is built up and when the poisons in the blood are burned up and driven out the rheumatism does not return as long as the blood is kept rich and red.

Care in the diet is important during the treatment and every rheumatic sufferer should have two booklets published by the Dr. Williams' Medicine Co., Schenectady, N. Y., called "Building Up the Blood" and "What to Eat and How to Eat." They are free on request. Your own druggist sells Dr. Williams' Pink Pills.

Napoleon Met His Waterloo One Hundred Years Ago Today

The memorable battle of Waterloo was fought June 18, 1815, a few miles south of Brussels. It was at this battle that Napoleon, the man who sought to conquer the world, met his disastrous defeat. With the great conflict now raging in Europe more than ordinary interest attaches to the centenary of this event. It will be recalled that it was the sensational stand of the Duke of Wellington's men that won the day and settled for all time the ambitions of the man who sought control of the world's destinies. In the accompanying illustration are shown Napoleon, the tomb of Napoleon in the Madeleine chapel in the Hospital des Invalides, in Paris, and Napoleon as he sailed away from France.

Story of the Battle

One hundred years ago today the most momentous battle in history—the battle of Waterloo—was fought. On that day the great French army of 125,000 men, led by Napoleon Bonaparte, was practically wiped out.

At 1 o'clock in the morning Napoleon was waiting in the rain and darkness before the plain of Waterloo at 3.30 that night he was rumbling back to Paris, lost.

The French losses were over 40,000, the Prussian only 7,000, and the British and allied 15,000. Some 45,000 killed and wounded lay on an area of about three square miles.

Marshaled His Army

At 1 in the morning Napoleon rode out to the front, which was along the plateau that looks north over the field of Waterloo. The rain was still falling heavily. Between 7 and 8 he rode out again. The field looked bad.

He hoped to open fire at 10 o'clock on the British troops which had bivouacked in the wet corn on the ridge opposite. By 10 it was clear, but the field was still hopelessly soft. A little before 11 he rode a third and last time along the lines to marshal the army. A half-hour later the great battle began.

After more than an hour's fighting the French were driven down the slope

by the Union Brigade and Napoleon's first move had been checked.

Bulow's Troops Arrive

Already there had been another discouragement in a battle which had gone none too successfully from the start. Napoleon had seen a dark cloud emerging from the woods at St. Leger, bent off to the east. It might be the expected aid from Grouchy. But not long after 1 o'clock there was no doubt that it was Bulow's troops, moving rapidly to Wellington's assistance. Grouchy had not intercepted.

This was the crux of the battle. Bulow was near at hand. There was nothing for Napoleon to do but to leave Marshal Ney with the order to carry La Haye Sainte at whatever cost, and hurry off to keep the German contingent from cutting off his supplies and line of retreat at the village of Plancenoit.

It was a hard and gallant fight that the French offered the unexpected attack on their right. But more and more divisions were needed to hold the Prussians back, and still there were no signs of Grouchy. The Young Guard, the cream of the army, went in, but still Plancenoit was held by Bulow. Three battalions of the Old and Middle Guard, valuable material, were ordered in; two batteries followed and Plancenoit was retaken.

Napoleon hurried back to the front, all unconscious of the fact that the Prussian reinforcement under Puch 1. and Zielen were coming up. These reinforcements forced their way into Plancenoit and Napoleon became desperate.

He made one last reckless snatch at victory. Before the farmhouse of La Haye Sainte he addressed his men. He urged them on. They rallied superbly, and the Imperial Guard started forward in its last effort to drive the English back from the coveted turnpike.

Walked to Destruction

The French army, what was left of it, walked straight into the jaws of destruction. Yet Wellington waited for the final factor before putting out his hand for victory. He delayed advance until Zielen had pierced the northeast corner of the French right and thrown the whole wing into confusion. Then, seeing that the battle was won, he gave the famous order for the whole line to advance—a thin line, but one which met with little resistance.

A little after 6 o'clock Wellington and Blucher met at La Belle Alliance and it was agreed that the Prussians should take up the pursuit, which they did, driving the French out of seven successive bivouacs, and finally forcing them across the Sambre.

CEMETERY COMMISSION

MEMBERS FIND THEIR AUTHORITY LIMITED TO ROUTINE—CITY SOLICITOR'S OPINION

Before and after the bill creating the cemetery commission was enacted into law, The Sun said in interviews, had with ex-Senator Fisher and others, that the bill was uncertain and would raise legal questions because it did not specify the duties of the new commission. It was pointed out that the commission would not have the power to appoint a superintendent or to make the appropriation of the present cemetery funds. The cemetery commission itself has arrived at that conclusion.

The commissioners met yesterday afternoon and decided that it would be necessary to appeal to the legislature of 1916 asking that changes be made in the act whereby the duties and powers of the municipal council may be transferred to the municipal commission. The question of authority was raised when Chairman Robinson brought up the matter of granting deeds to lots in the public cemeteries. Commissioner Taylor said he did not see anything in the act that gives to the commission the power to grant deeds to lots, and it was finally decided to ask City Solicitor Hennessy's

opinion in the matter. The solicitor said:

"Before the creation of this charter all powers were vested in the cemetery trustees. But later such powers were vested in the municipal council. But when this bill was passed it transferred only to the cemetery commission the powers and duties of the commissioner of public property and licenses. I pointed out this apparent discrepancy—I wrote to Mr. Lewis about it."

"Who has the right to sign deeds?" asked Mr. Harris.

"I should say the municipal council," replied Mr. Hennessy. "The only transfer of powers has concerned the transfer of duties vested in the commissioner of public property, and not a transfer of the duties and powers of the municipal council."

"But it says that all acts inconsistent with this act shall be repealed," said Chairman Robinson.

"But only such acts which concern the duties and powers of the commissioner of public property," replied Mr. Hennessy.

Asked as to the rights of the commission relative to eight lots owned by the city in St. Patrick's cemetery, the solicitor said the commission has the same right to look after them that it has lots in the public cemeteries. He said the commission has no land rights in St. Patrick's cemetery, although the city was given permission to use these lots, upon the payment by the city of money for them.

Mr. Taylor wanted to know how the

commission would charge up the cost of grading and care of the lots in St. Patrick's cemetery. The city solicitor said it would have to be charged up to public cemeteries. "I consider," he said, "that those lots constitute just as much a public cemetery as the others."

Mr. Nigby asked if there was any record of the appropriation of money for the purchase of lots in St. Patrick's cemetery, and Mr. Hennessy said the record is in the city clerk's office.

Mr. Taylor allowed that the only way to straighten the apparent inconsistencies in the present act is to appeal to the legislature next year and get further points enacted. Mr. Hennessy said the bill should be revamped. Mr. Taylor then moved to instruct the secretary to request the city solicitor to prepare a note to be presented to the municipal council authorizing the mayor to sign the deeds to lots in the public cemeteries. The motion was adopted, Mr. Harris alone voting in opposition.

A letter from Sup't. Duckworth asking that an ordinance be prepared to create perpetual care for single graves, each graves to sell for \$25, was read and ordered to lie on the table.

Adjourned.

COLLISION DURING FOG SUSPEND SHIP CAPTAIN

MACHIGONNE RAMMED BY SCHOONER TACOMA IN BOSTON HARBOR—NONE INJURED

BOSTON, June 18.—Passengers aboard the inbound Nahant steamer Machigonne were frightened yesterday afternoon when the big fishing schooner Tacoma, outbound in the black fog, collided with her off Deer Island, inside Sound Point.

The crash came out of the thick mist with such force that the 30-foot bowsprit of the fisherman was snapped off short at her nose after it had demolished a 40-foot section of the side of the steamer, forward of the gangway on the port side.

The women passengers aboard the Machigonne screamed when the heavy shock came, which knocked some of the crew, at supper below decks, off their stools, and hurled one man against the starboard inside house forward of the forward gangways.

The long bowsprit of the Tacoma ploughed into the side of the Machigonne. It ploughed through the quarter-inch wooden siding with its supporting timber beams as though the whole structure was tissue paper.

It ploughed full into the upright stanchion, measuring 3 inches in diameter, bent it double, and tore it out of its socket about the windlass, flattening it along on the main deck.

It ripped off a section of the iron wearing plate and smashed in 50 feet of iron bulkhead on the main deck, and splintered a short length of the rail and bow of the passenger deck.

The heavy bowsprit of the Tacoma fell over on the Machigonne's main deck and across the windlass after the crash, and Captain William Olson of the steamer, standing in there, preserving it as evidence.

The Tacoma proceeded to Gloucester in tow, damaged only by the loss of her bowsprit and the splintering of some of the superstructural wood parts of her nose. She was under full sail, according to Pilot Buckley and Captain Olson of the Machigonne, when the collision shattered the fog.

The Machigonne was hauled over across from Otis wharf, to South Boston, just below the Northern avenue bridge on the "knuckle."

There were 13 passengers aboard at the time of the accident, including three women.

COMMANDER OF STEAMER PERRY HELD RESPONSIBLE FOR ACCIDENT

HALIFAX, N. S., June 15.—The court of inquiry that has investigated the stranding and subsequent sinking of the Plant line steamer A. W. Perry off Chebucto Head on June 5, ruled today that the certificate of Capt. Alfred Ellis, commander of the steamer, be suspended for six months. The other officers of the steamer were relieved of all responsibility.

The Perry, bound from Boston for this port, with 42 passengers and a cargo of perishable freight, struck on the ledges off Chebucto Head during a heavy fog. All of the passengers and crew were removed in safety. The steamer was on her last trip before being turned over to agents of the Mexican constitutionalist party for use as a military transport.

PLAN BIG ZEPPELIN RAIDS

Germans to Attack Both London and Paris "In Retaliation"—Complete a Zeppelin Every 20 Days

GENEVA, via Paris, June 18.—News despatches reaching Geneva from Friedrichshafen set forth that double shifts are now working in the Zeppelin factories, which are turning out a completed Zeppelin airship every 20 days.

One of the two Zeppelins destined for operations against Italy was sent west from Friedrichshafen Wednesday to replace the dirigible destroyed over Belgium recently by the Canadian aviator, Warfield.

It is reported in Geneva that the German authorities are preparing for an important combined raid of Zeppelins and aeroplanes on Paris and London in retaliation for the recent attack on German towns by aviators of the allies.

The Wild Ducks will play the Princeton on the latter's grounds Saturday afternoon. Wild Ducks players are requested to report at 1.30 p. m.

ST. PATRICK'S SCHOOL DRAMATICS

Fine Entertainment Presented Last Night at the Opera House

Very Creditable Work by Pupils — Good Elocution

REV. BROTHER EDMUND
Principal of St. Patrick's School

Standing room was at a premium at the Lowell Opera House last evening, when the boys of St. Patrick's parochial school gave their thirty-third annual entertainment, one of the most elaborate affairs ever conducted under the auspices of this school. Never in the history of the school, according to a few of the old timers, had such a crowd gathered under one roof to attend an entertainment by school children. The large amusement place was taxed to its capacity and the audience was well repaid, for the program was bright and highly entertaining. It gave the parents an opportunity to see what is being done in this school in the line of education. The interpretation of the various difficult parts demonstrated the excellent training the boys are getting under the able direction of the Rev. Brother Edmund, in charge of the school.

One of the busiest men of the evening was the master of the school, Bro. Edmund, who had general supervision of the affair, and it may be said that nothing lacked in the execution of the program. Each number was given with ease and satisfaction, and the frequent applause was a good mark of appreciation from the large audience.

The program consisted of several numbers, both musical and literary, that greatly pleased, but a feature of the evening was the presentation of a dramatic play in four acts, given by the pupils under the able direction of Bro. Edmund. C. F. X. The play was entitled "Under Two Flags" and was based on true patriotism and respect for the Stars and Stripes. The staging of the play was excellent in every way, while the various difficult parts were well sustained. It was really astonishing to many to see a number of boys still in their teens interpret such a masterpiece so very cleverly. The elocution shown was dramatic, the articulation distinct and the stage work pleasing. All the parts were well sustained and the boys who took part deserve special mention, while the chief trouble with school dramas is to get the speakers to make themselves understood. Success in this respect was

quite extraordinary at last night's show.

The cast of characters was as follows:
Willard Blake, a diamond broker, William H. Quinn
George Morris, chief clerk, Martin Clough
Larry O'Toole, second clerk, Owen F. Mulligan
Gerald Firman, Morris' friend, Sullivan
John Firman, Gerald's father, William F. J. Duggan
Hiram Hemingway, janitor, Edward Regan
James I. Brown, policeman, Joseph Vaughan
Jere Dunne, Blake's pal, William Boland
Messenger, Mr. Saunders
Ricardo Gutierrez, Cuban governor, John Mann
William Ewing, American in Cuban army, Joseph Vaughan
Father Delgado, a Spanish priest, James Gloghly
Sanchez, a farm hand, Richard Foley
Antonio, a farm hand, John Murphy
Pedro, a jester, Francis Saunders
Cuban Peasants, James Cunningham
Spanish Soldiers, James Scully, Harry Sullivan and Joseph Sheehan
Officer, Andrew Crowe
Government Messenger, Frank Saunders

Another topnotcher on the program, and a number that greatly pleased was "The Little Irish Minstrels." This consisted of a number of small boys in real minstrelsy and what the boys did not do to please their audience is not worth mentioning. There was even a "Charley Chaplin" on the stage in the person of John Lavery, who kept his minstrel in continuous laughter from the minute he appeared on the stage until he retired from the footlights. Many were heard to remark that the "Charley Chaplin" imitators who recently invaded the city, have nothing on Little John.

The minstrels proved a very amusing feature. Peter Kane, the former soprano soloist in the sanctuary choir, who is now becoming a man, acted as interloper and his work was very commendable. The others who were the real fun-makers with their jokes and songs, and who acted as end men, were as follows: John Crotter, Raymond O'Brien, Joseph Crossley, Arthur Sullivan, Charles Kilroy and John Lavery.

"Ting-a-Lings" was a novel number in which 50 of the younger pupils appeared in Chinese costume and went through a drill that closed with a lively chorus number. The A. O. H. of the U. S. A. also proved a pleasing combination of chorus work and drilling. Raymond O'Brien was heard to advantage in vocal selections. Orchestra numbers were given, and one of the hits of the evening was the chorus selection by the sanctuary choir, entitled "Great is Jehovah," under the direction of Musical Instructor Charles F. Shalen. William Chandler proved a favorite in soprano solos. All in all the affair was one of the most successful in years, both financially and artistically and much credit is due Brother Edmund, general supervisor; Brother Edphonse, dramatic instructor and Brother Albertus, accompanist.

WOMEN COPS ON DUTY

FOUR ASSIGNED TO MARLBORO SUFFRAGE FIELD DAY—SAME PAY AS MEN

MARLBORO, June 18.—For the first time in the history of this city women will do police duty in the employ of the city at the same rate of wages paid to the male policemen.

Mayor O'Halloran has assigned the four women policemen to duty during the parade and field day of the woman suffragists to be held in the streets of the city and at Fairmount park today.

The police women are Miss Elizabeth Fisher, Miss Mary E. Cutter, Miss Elizabeth Toohy and Miss Mabel Guyette. They will be attired in their regular street costume, but will wear regular police badges.

Prominent woman suffragists from all sections of the state will visit the city to attend the field day and the general propaganda work in behalf of suffrage. The city is in gala dress, and practically all the stores have decorated for the occasion.

PRESENTED WATCH CHAIN TO AMERICAN RESISTRY

REV. BRO. BERNARDIN OF ST. JOSEPH'S COLLEGE RECEIVES MARK OF ESTEEM

Rev. Bro. Leon Bernardin, master of St. Joseph's college, was last night rendered an agreeable surprise by the members of the present and past executive committees of St. Joseph's college alumni, who as a token of love and esteem, presented him a handsome silver watch chain with charm. The custom of the order forbids the use of gold watches.

The affair had been organized by the present officers of the executive committee, as a mark of esteem and appreciation of the good work performed by the brother toward the organizing of the alumni, for it was really with the able support and through the untiring efforts of Bro. Bernardin that St. Joseph's college was formed.

The matter of forming an organization composed of former pupils of St. Joseph's college was suggested to Bro. Bernardin in the early part of the year 1913, and it was mainly through his efforts that the organization was formed. The presentation address was made by E. J. Laroche, a former secretary of the association. The gift was accepted in terms of appreciation in the course of which Bro. Bernardin assured his guests he will always do his utmost for the success of St. Joseph's college alumni and its members.

A pleasant evening followed during which a musical program was carried out, about every one present taking part in the entertainment. A light luncheon was served. Those present were Leonce Gionet, Edmond S. Desmarais, Edmond Fois, John B. Richard, Arthur Simard, George E. Cossette, Arthur Giroux, H. J. Ducharme, Arthur D. Lamoureux, Isidore Trudel, Arthur St. Hilaire, Arthur L. Eno, Esq., Eugene Ricard, Joseph F. Montminy, H. V. Charbonneau, Esq., Roderick E. Jodoin and E. J. Laroche.

R. G. WAGNER SAYS HIS REQUEST FOR TRANSFER OF DANISH STEAMERS MADE IN GOOD FAITH

NEW YORK, June 18.—R. G. Wagner, president of the American Transatlantic Co., whose application for American registry for a number of so-called Danish freight steamships has been refused by Eugene T. Chamberlain, United States commissioner of navigation, said in a statement made public today that his request had been made in good faith and that all the stockholders of the company are Americans. He explained his efforts to obtain American registry for the vessels by saying that while in Denmark last January he saw the opportunity to obtain an interest in the ownership of several vessels and was informed by the American consul that there would be no difficulty in transferring them to American registry.

Returning to the United States he incorporated the American Transatlantic Co. Mr. Wagner said he laid all the facts before the navigation commissioner at Washington, assured the commissioner that all the vessels always had been under neutral flags, and gave him a guarantee that the ships would not be used in any way to embarrass the United States government.

SURPRISE IN FRANCE

FORMER MINISTER WRITES REGARDING PRES. WILSON AND WORLD'S OPINION OF HIM

PARIS, June 18. 5 a. m.—Gabriel Hanotaux, former minister of foreign affairs, has written for the Figaro an article regarding President Wilson and the world's opinion of him.

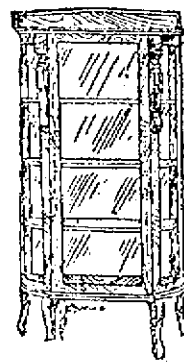

"We should be lacking in frankness to a great sister republic," says M. Hanotaux, "if we permitted it to be thought there that the three notes, particularly affectionate and friendly

FORCED TO LEAVE HOMES

LACK OF FOOD HAS DRIVEN PEOPLE OF EASTERN SONORA INTO MOUNTAINS

DOUGLAS, Ariz., June 18.—Lack of food in the towns and farming districts have driven most of the people in eastern Sonora into the mountainous section where they are subsisting on acorns and wild fruits, a species of cactus, according to reports received here today.

Hundreds in addition to those already in the hills, have been forced to leave their homes in the Campas district, it is reported, because of the co-operation of the wheat crop by Gen. Trujillo, Villa commander, for his troops. Only a small portion of the

crop was given to the civilians.

GUARANTEE BY CARRANZA

WASHINGTON, June 18.—John R. Stillman, United States consular agent at Vera Cruz, today advised the American Red Cross that Gen. Carranza would do everything possible to facilitate the work at Vera Cruz of Charles J. O'Connor, who has been sent to Mexico to personally direct the relief operations of the Red Cross in southern Mexico.

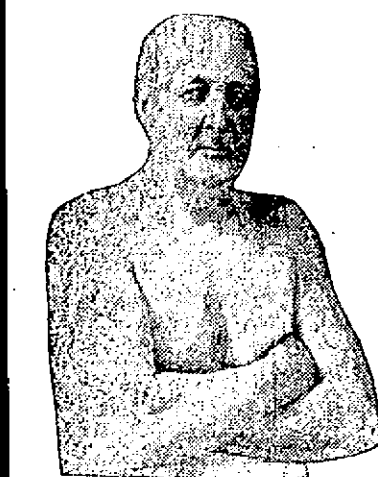

Mr. O'Connor, who sailed from Galveston for Vera Cruz Tuesday will be joined at Vera Cruz by Mr. Shanklin, American consul general at Mexico City and the two will proceed to the Mexican capital and co-operate in solving relief problems there.

67 YEARS OF AGE GAINS 22 POUNDS IN 23 DAYS

Remarkable Experience of F. Gagnon—Builds Up Weight Wonderfully

"I am a man of 67 years of age and was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now thanks to Sargol I look like a new man. I gained 22 pounds in 23 days' treatment. I cannot tell you how happy I feel."

PAST "THE PRIME," BUT STOUT, STURDY AND ATHLETIC

"After I had taken Sargol for ten or twelve days I could see for myself that I was gaining weight at a rapid rate," writes Homer Dale. "I gained 22 pounds in 23 days. I never felt better in my life."

"Your Sargol has done wonders for me," states John Cjka. "I have gained 21 pounds and look and feel like a new person."

Would you, too, like to quickly put from 10 to 20 pounds of good solid "stay-there" flesh fat and muscular tissue between your skin and bones? Don't say it can't be done. Try it.

More than half a million thin men and women have chafed made the test, and that Sargol does succeed, does make thin folks fat even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, fresh creams, massage, oils or emulsions, but a simple, harmless house treatment.

All reliable drug stores sell SARGOL with a positive guarantee to refund your money should there be no satisfactory weight increase. Louis K. Liggett Co., Carter & Sherburne Co., Sals & Parkinsons, C. F. George & Co., F. H. Butler & Co., Fred Howard, Lowell Pharmacy, Phelan's Pharmacy, Thos. C. Walker, Roy F. Webster, A. Fields will gladly explain the comprehensive guarantee that goes with every box of SARGOL.

STREET DEPT. CRITICIZED

By Auditor in Case of Rafferty vs. City of Lowell—Award Plaintiffs \$1253 for Paving Blocks

James J. Kerwin, auditor, before whom was heard the evidence in the case of Thomas Rafferty et al. vs. City of Lowell, one of several of the city's paving block disagreements, has made a finding in the case, in which he awards the plaintiffs the sum of \$1253.43, with interest from January 4, 1915, the date of the writ.

In making his finding Mr. Kerwin scores the city's lack of system in keeping count of the paving blocks consigned to it.

The case grew out of the refusal of the present administration to pay a bill for paving blocks ordered under the former administration. The paving blocks were delivered as called for and the last consignment was made during the latter part of the year. The final bill was not presented until after the new administration came into office, and the latter disputed it and refused to honor it.

Legal proceedings were then instituted by Edward J. Tierney, on behalf of Mr. Rafferty and at the hearing the city was represented by City Solicitor Hennessy.

Auditor Kerwin's finding, in part, is as follows:

It appeared in the evidence and I find that the plaintiffs had granite quarries in Granville, Mass., and that commencing on June 15th, 1913 and ending September 15th, 1913, they did in pursuance of this contract, ship to the defendant via Boston & Maine railroad several cars of granite block paving, and that said cars containing said block paving were delivered by said Boston & Maine to said defendant on track sidings in Warren and Tanager streets in said Lowell, and there unloaded by said defendant. At the time the paving block was loaded on the cars by the plaintiff, count was kept of the number of paving blocks so loaded on each car. When the blocks were unloaded from the cars by the defendant, said defendant did not pursue any definite system relative to keeping account thereof, account being kept of the blocks unloaded from some cars, and no account being kept of the number unloaded from others. The system of the defendant, as shown by the evidence, in keeping account of the number of blocks unloaded from the cars received by it from the plaintiffs was so careless that I cannot give any weight to the account made by it as against the account kept by the plaintiffs, whose course of conduct in counting the blocks as they were loaded on to the cars, was in accordance with the manner in which careful persons would conduct their business.

Upon all the evidence I find that there paving blocks were used by the defendant in paving Bridge street, Gosham street, and according to the evidence of Newell P. Putnam, who was at that time superintendent of streets, and who is now commissioner of public property, said blocks were also used in other places.

No evidence was offered that the purchasing agent and commissioner of streets and highways of the city of Lowell, inspected said paving blocks, and no evidence was offered that any of said paving blocks were rejected because they did not conform to the specifications contained in said contract. In fact, the evidence of Harry R. Sprague, a civil engineer in the employ of the defendant city of Lowell, and attached to the city engineer's office as an engineer, who had charge of measuring pavements, showed that the blocks furnished according to specifications varied from eight (8) to twelve (12) inches in length, and that the average width of same was four and a quarter (4 1/4) inches.

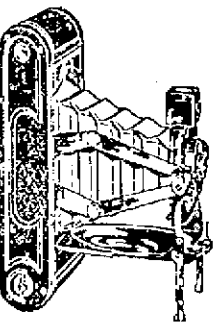

Upon all the evidence I find that the defendant, through the office of the city engineer, did measure the block-paving furnished and delivered by the plaintiffs to the defendant when the same was laid on Bridge street and on Gosham street, but no measurement was made of the paving which was laid in other places. The number of square yards of block paving furnished by said plaintiffs and laid on said Bridge street and Gosham street, according to the measurement made by the city engineer's department, was seven thousand nine hundred and fifty-one and 81/100ths (7551.81) square yards, but no measurement of the same was made by either of the plaintiffs or any of their agents of the block paving furnished by them.

Evidence was offered by both the plaintiffs and the defendant as to the number of blocks furnished under this contract which would make a square yard of granite block paving when laid. Upon all the evidence I find that under the contract the plaintiffs did deliver to the defendant, and the defendant did accept nine thousand forty-eight (9048) square yards of granite block paving, and as per the terms of the contract the defendant was to pay the plaintiffs the sum of one dollar and nineteen cents (\$1.19) for each square yard of granite block paving. I find that the total amount due the plaintiffs from the defendant for said granite block paving was ten thousand seven hundred sixteen and 12/100ths dollars (\$10,716.12). The defendant has already paid the plaintiffs the sum of nine thousand and sixty-eight dollars (\$9068).

As per the terms of the contract the plaintiffs were to deliver the paving blocks to the defendant in Lowell and upon all the evidence I find that the defendant did pay the freight charges on certain cars containing said granite block paving, and it has been agreed by counsel that the amount so paid by the defendant, was three hundred and ninety-four and 69/100ths dollars (\$394.69). Therefore, upon all the evidence I find that the total amount due the plaintiffs for granite block paving furnished and delivered to the defendant by them was ten thousand seven hundred sixteen and 12/100ths dollars (\$10,716.12). From this sum should be deducted the amount already paid the plaintiffs by said defendant, namely: Nine thousand and sixty-eight dollars (\$9068), and in addition, the sum of three hundred ninety-four and 69/100ths dollars (\$394.69) paid by the defendant for freight, making a total of nine thousand four hundred sixty-two and 69/100ths dollars (\$9462.69) to be deducted, leaving a balance due to the plaintiffs from the defendant of one thousand two hundred fifty-three dollars and forty-three cents (\$1253.43) with interest from Jan. 4, 1915, the date of the writ.

High School Graduation Next Friday Night—Trainmen Jump for Lives—Other Notes

The Forty Hours' Devotion at St. John's church, North Chelmsford, opened this morning with a high mass at 7.30 o'clock, celebrated by Rev. Henry L. Scott. Following the mass there was a procession in which the altar boys and the flower girls, led by Miss Marcella Sweeney, took part. Benediction of the Blessed Sacrament was given after the procession by Rev. Fr. Scott. This afternoon and tomorrow afternoon between the hours of 4 and 5, the Sunday school children will take part in a short devotional service, at which hymns will be sung by the children. They will be under the direction of the Sisters of Notre Dame of Lowell. Confessions will be heard this evening and tomorrow afternoon and evening, by Rev. Michael E. Doherty of the Holy Rosary parish, South Boston, who will also be the celebrant at both masses on Sunday. Fr. Doherty is a former curate of the parish. A special musical program has been arranged for the closing exercises on Sunday by Miss Gertrude Quigley, church organist, and the service will close with a solemn procession, at which all who were present at the May procession will take part. The sacred emblems which were a feature in the May procession will again be borne by the children. Rev. Fr. Scott will celebrate the masses at St. Catherine's church, Granville, on Sunday.

Miscellaneous Shower A miscellaneous shower was tendered to Miss Margaret Calvin this week in honor of her approaching marriage. The affair was held in St. John's hall under the auspices of the Ladies' auxiliary, and there was a large attendance. The young lady received many handsome as well as useful presents and the evening was enjoyed by all. A program of a miscellaneous character was carried out and refreshments were served.

Well Known Residents Word has been received from Mrs. Owen McNally and son James, well known residents of the village, who are now in San Francisco. Both are delighted with their western trip, and also state that their imagination of that part of the country has been far surpassed by what they have seen. During their stay in San Francisco they have made frequent visits to the exposition grounds, and many beautiful colored postal views have been received by friends in the village from them.

Graduation Exercises The graduation exercises of this year's class of students of the North high school will be held next Friday night in the town hall, and the affair will be even more elaborately conducted than those of previous years. Twelve students in all, one of the largest classes in the history of the school, will be presented their diplomas, and it is expected that the hall will be filled to capacity with admiring parents and friends. The exercises will start promptly at 8 o'clock, with a short concert by Marlene's Crescendo orchestra, after which essays, dealing with many important subjects, will be read by the graduates. Invitations have been sent out to several prominent school authorities, and they will be seated with the selectmen and other officials of the town on the platform with the graduates.

Narrow Escape Four section hands, employed on the Tyngham road of the Boston & Maine tracks had a very narrow escape from meeting with a serious mishap on Wednesday of this week, when the handcar on which they were riding was smashed into by a big freight engine. Fortunately, the engine was not in time and the men jumped clear of the car just as the collision came. The handcar was smashed into several pieces, and a number of dinner pails and tools used by the workmen also accompanied what was left of the car son.

The services at St. Alban's mission on Sunday will be conducted by Rev. Wilson Waters of Chelmsford Centre. The mills of the village are running well and the operatives are very steadily employed.

The street department is still busy fixing the streets of the village and the state department is oiling the state roads.

It is reported that work will be started at once on the erection of a new store building on the site formerly occupied by Mrs. Marinel. The land and present structure is owned by a Mrs. Adams.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

EXPOSING FAKE COLLECTORS

In protecting the American public against fakes of all descriptions, our laws have made great strides of late years, but there is still room for the exercise of cautious investigation and the punishment of offenders. The Bureau of Education of the United States government has been making an exhaustive study of the educational question for some time past, especially in relation to more or less obscure schools advertised in papers and magazines, or schools for which subscriptions are solicited throughout the country, and the results of the investigation will be published broadcast in order to drive the fraudulent out of business.

Private or civic bureaus of information in leading cities are also constantly confronted with the question of fake schools or fake collectors for certain schools. From the result of their observation and the number of inquiries that come in from those who have been approached or imposed on, it is evident that the public is as frequent on the educational plea as on many others. One of the commonest forms of fraud is the soliciting of funds for the colored schools of the south, and Lowell has been imposed upon by this game as much as other centres. Every little while some colored agents go through the homes and stores of this city, collecting funds for an alleged charity, but in most cases the school for which the money is collected is non-existent, and in many instances the scheme is wholly unworthy of support.

The public should also be wary of the fake college student who is so apt to be found selling books during the summer months, and of the charity worker in religious garb. Whether the collector be in the dress of a Catholic nun or that of a Syrian priest, it will do no harm to investigate before subscribing to their cause, and it may be readily ascertained if the solicitors are genuine or impostors. It is too bad for the cause of real charity that so many fraudulent agents abuse what is sacred until all good people are naturally suspicious of strangers who ask money for almost any purpose.

Only a year ago an enterprising agent gathered together a body of young book agents in this city and sent them out over New England. Each was furnished with a dark suit in order to look like a student, and there was a carefully-rehearsed story that was meant to appeal to the credulous. So far has this form of fraud gone in Boston that the Boston Chamber of Commerce has established a bureau of information through which many innocent people are protected and which has been instrumental in exposing the worst forms of collection frauds.

In a broader sense, the Bureau of Education of the United States government found in its investigation of educational conditions in the south that for a long time money has flowed freely from this section for the support of undeserving or downright dishonest institutions. Almost every southern state has such institutions with agents working all over the country, and while the dishonest promoters of fake schemes grow fat and flourish, deserving educational institutions find it difficult to bring their needs to the attention of the country. The government will now strive to weed out the unworthy and fake schemes and to educate the public as to the need for greater caution in all relating to subscriptions towards distant schools or directly to alleged students of colleges and seminaries.

PUBLIC MARKETS

From the tone of the public press it

is apparent that the first enthusiasm with which the public market idea was greeted in this part of the country has died down, nevertheless it is by no means a dead issue. References made to it favor more of business than formerly, and the limitations of this form of public service are readily acknowledged. Still, reports from centres where public markets have been established are contradictory, some asserting that they have proved a veritable boon, some declaring that they have been unequalled failures.

It is noteworthy in this connection that the city planning commission of Boston—an energetic and active body—has just recommended that four new experimental markets be established in that city, in order to bring about a reduction in the cost of living. Last summer, Mayor Curley opened two such markets, and was apparently satisfied with the result, and the suggested departure is only a continuation of the system. It is not proposed to go into it on an elaborate scale; the new suggestion states that suitable locations should be secured, if possible, without cost or at a nominal cost, and that the markets should be kept open from July 1 to Dec. 1.

The committee which made the investigation of Boston conditions reported matters that are equally applicable to this city. It was stated, for instance, that with the exception of comparatively few commodities, practically the whole food supply of New England comes from outside New England, and that the New England products in our markets are almost negligible. This is a condition that should be remedied, though whether a public market system would come to the rescue is problematical. It is largely a question of transportation and the lack of storage facilities.

Still, it seems peculiar to say the least that the farmers of Tewksbury, Tyngsboro and other parts are forced to take their commodities into Boston, and that these commodities are for the most part shipped out of New England. To a very slight extent the public market would make it possible for the farmers and the consumers to get together, but the larger problems would still remain unsolved. Only those who would put up with the inconveniences and primitive systems of a public market would profit by its establishment, and in time when the novelty wears off, it would in all probability die from disuse.

So far as this city is concerned, the authorities do not appear willing that we should even try the public market experiment. The legislature passed a bill authorizing its establishment and the people of Lowell voted in favor, but the matter has never come up officially. If it is deemed advisable to try the scheme, as in Boston, it would not be necessary to pay out any great sum for a temporary trial, and a few months would suffice to show if it would be beneficial to the city or the contrary. All New England will fol-

low the Boston experiment with interest.

A LESSON IN METHOD

The humiliating spectacle given at city hall in connection with everything relating to the erection of a new bridge at Pawtucketville is a sorry lesson on the methods followed in municipal business of late. Without any attempt to respect the spirit or letter of the city charter or to observe the ordinary rudiments of business procedure, a stranger to this city was chosen en- thusiastically to direct a bridge job amounting to \$30,000 or over, though there was no competition and no safeguard for the public interest. It is not strange that when attention was called to the peculiar proceeding, some of the commissioners should have a change of front, seeing possibilities in the case that they either did not see or would not see at the start.

The erection of a bridge is a big proceeding, but it is not necessarily anything over which we should have such ridiculous misunderstandings and round-about explanations. There is one definite, open and honest way to transact the business of the city; had that way been followed, there would have been no trouble and no public criticism. That way is the way prescribed by the charter—the way of competition, of full publicity and of open dealing. Had this way been chosen, we should not have some commissioners striving to justify an untenable course and others confessing that they acted hastily and unwisely. Our municipal heads cannot do better than to cancel all engagements and obligations made and start on the bridge matter with open minds and in accordance with good business methods.

It is perhaps well for the Lowell public that the original plans for the erection of the bridge were not as feasible as they looked. It will now be necessary to present definite plans to the war department, to the Locks and Canals company and to the Bay State railroad, and it will be just as necessary to take no step that is not dictated by prudence and provided for by the charter. A mistake has been made, luckily not a costly one, and profiting by that mistake, it will be possible for our commissioners to arrange for a new bridge in Pawtucketville while keeping the demands of economy and the restrictions that govern all municipal undertakings well in mind. Much as the people of Pawtucketville desire a new bridge, they do not desire a bridge in the construction of which any irregularity or lack of good business should enter. It is to be hoped that in all connected with the undertaking for the future, the commissioners will put the interests of the public above their own wishes and erect a suitable bridge in accordance with the charter and at the lowest possible cost.

A PEACE ARMY

Recent utterances of Henry Cabot Lodge on the subject of international peace or military preparedness, as the case may be, indicate that he has mod-

ified his views somewhat since he first came out in support of his belligerent son-in-law, Mr. Gardner. He now contends, and reasonably, that it is futile to propose a cessation of world wars by the elimination of armaments, and for a democracy like ours to go unarmored is to invite the open hostility of other powers. He believes that to ensure peace here we should have adequate armament, but created on the understanding that it is for the preservation of our peace only and not for aggression. In other words, he is opposed to a continuation of our present policy, with a navy increased enough to meet modern requirements.

In the main, this is also the view of ex-President Taft who has expressed the conviction that this country could never become militarist in sentiment. Mr. Taft holds that it is not for America to indulge in peace dreams while the rest of the world refuses to see things in the same light, but says also that we must keep clear of the complexities of the world powers and maintain a navy large enough to afford a strong protection, should we be menaced by any foe from without. Neither commentator inclined to the twenty-fifth century idealism of our ex-secretary of state, but both satiated clear of the shoals of militarism on which the Jingoists would steer the ship of state. The entire country will agree with Messrs. Lodge and Taft that it would be foolish for this country to believe too implicitly in peace, to change its national policy during the European war or to be satisfied with anything less than an efficient and competent army and navy, according to American ideals and traditions.

With all due respect for the patriotism of our leading men of business, it must be confessed that the agitation for increased armament died down in proportion as war orders came in from the belligerents. The militarists may not have been over-zealous, but the views of the eminent statesmen as quoted sound like the disinterested views of wise and patriotic Americans.

CHICAGO STRIKE

The ending of the Chicago strike

and the submission of the questions at issue to arbitration is certainly gratifying, but the wonder is that at this age and after long experience in all parts of the country, such a strike should be necessary. In all relating to the public, as in street car difficulties, there are side issues involved that make it unfortunate, should a protracted trouble ensue. It would seem that had the conferences which brought about arbitration been held previously, the strike could have been averted, and even had it dragged on for months, it must eventually have been brought to a close by some agreement. Why, then, should it be necessary that the rights of the public be impaired, the transportation of the city injured, perhaps permanently, the bitterness of class struggles engendered and other evils stirred up by a strike that is entirely avoidable? There is something childish, if it were not tragic in its possibilities, in the sight of men playing at a game which is as dangerous as it is needless. Why, in all such difficulties as that of Chicago, should not arbitration come first and the strike last, if it must come at all?

AERIAL FLIGHTS

England lost forty lives as a result of two recent Zeppelin raids and at last the situation is beginning to look serious. A speaker in the house of commons a few days ago urged a marked increase in airship protection, stating that very probably a serious raid on London would be made in the near future. He was assured by H. J. Tennant, under-secretary for war, that bigger aeroplanes were under construction and that the number of machines have been increased ten-fold since the beginning of the war. Though reports are carefully censored, it is apparent that the incendiary bombs used recently by the Zeppelins did grave damage, even though only a few dirigibles were used. England may well prepare for a concerted attack of a large number, calculated to do grave injury to life and property.

SEEN AND HEARD

Nobody cares whether a man is self-made. It's what he has been made that counts.

Lots of men who boast of their cold tub in the morning kick like steers when a woman leaves the front door of the car open in zero weather.

That French plan of fastening revolvers to the heads of dogs and firing them when the mouth opens to bark at Germans is good; but imagine a hundred dogs biting at fleas and shooting at the same time!

The Bay State street railway has just issued its yearly folder entitled "Trolley Trips." Besides some handsome views and cuts of things historical and notable, much valuable information is given as to trips on the Bay State and connecting lines.

HAD SOME PIPE

A long time ago, about 40 years or so, there lived a man in this city (he also lived for a time in Nashua, N. H.) who made it a rule not to smoke more than one pipeful of tobacco each day. In spite of this fact he probably smoked more every 10 hours than many other men who were accustomed to

filling their pipes several times. Every morning when this particular man went to work it was his habit to fill and light his pipe, and as regularly when he went to bed at night, he

shook out whatever ashes remained so as to have the bowl ready for use when the next morning came round. The man's name was Joe Hamilton, and the reason he was able to smoke in this fashion was revealed to the Man About Town yesterday when Joe's brother, George Hamilton, of 9 Cedar street, this city, called and showed him the pipe. It had a huge meerschaum bowl, so huge that the average sized five cent plug of tobacco just filled it. When the man who was smoking it became tired of the taste and desired a rest he used to put it in his pocket, or lay it down somewhere, and when he was ready for another smoke he did not have to fill it over. The pipe has been in a trunk ever since its owner died, 40 years ago this month, and was taken out by his brother Sunday for the first time since June, 1875. It had formerly a rich cherry color, Mr. Hamilton said, but had faded greatly during its long period of inactivity. However, it would probably not take very long to get it colored again—Lawrence Telegram.

NOT A FLIRT SIGN

If you are anxious, dear sir, of avoiding every semblance of being a flirt, better not drive an automobile or do the arm-extension stunt for the driver when rounding corners. A couple of local women, at least, thought

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

A man was flirting with them yesterday afternoon, for this reason. The young women were near the corner of Central and Market streets when an automobile turned into Market street from Central. As is customary, when the signal is to the left, the one riding in the left hand side of the car extends the hand as the signal. The sedate looking man beside the chauffeur did this, and the women saw him. Instantly one smile of delight waved her hand back. The man in the car paid not the slightest attention to her, however, although holding out his arm in her direction until he had passed. "I wonder what that man was holding out his hand to us for?" the woman was heard to ask the other. "I thought he was trying to flirt with me and I waved my hand at him, but he never noticed me. I did not hear the reply, but it is to be hoped for the reputation of the man. If for no more, that the other woman was sufficiently informed as to the customs of the driver to enlighten her as to the reason for the extended arm.

THE CALL TO LIFE

There's a broad highway with an open reach.

And it leads far out from the swales of care; So it's off with the old, And on with the new, In the land of sky and the wide glad air.

There's a friendly kiss in the tossing foam.

There are bells a-chime on the witching deep; So it's up and away, On the blue, blue bay, In our race for life up its rocky steep.

There is peace of love in the magic hour.

With the hay and the sun and the singing bird, So it's off with the old, And it's on with the new, Where the trumpeting call to life is heard.

Oh, it's up and away where the mountains dwell,

By the broad highroad of the sky and air.

And it's off with the old, And it's on with the new, With the heart of a child where there's life to spare.

—Boston Transcript.

EDITORIAL COMMENT

THE END NOT NEAR

Those who have thought the war in Europe to be nearing an end must have had a feeling of disappointment on reading the announcement that preparations are now in progress for another winter campaign. Large numbers of German women are already sewing new uniforms for the army, while those used last winter are being renovated. Germany's efforts for some time past have been concentrated upon the winter campaign for which will follow the efforts of the summer and autumn.

GREEK SENTIMENT

Greek elections make it seem very much as if popular sentiment was in favor of entering the war on the side of the allies. That would mean immediate assistance for the forces which are aiming at the capture of Constantinople and would make the fate of Turkey all the more sure and speedy.

HUNTING VICE

Anthony Comstock, who has been hunting vice as a post-office inspector since 1872, it is reported will quit by request of his superior officers at the end of June. Mr. Comstock no doubt did a lot of good in his time, but he has made of late years a number of what the mass of people interested have called mistakes. A man who is looking for evil will find it, and a professional is bound to find it oftentimes where there is in fact little or no evil at all.—Brackton Enterprise.

IS HE DONE?

One of the distinguished Romans, according to the school books, on leaving the ancient capital of the world, said: "I go, but I return." It is not within human probability that the former secretary of state will ever return to Washington, from which city he went yesterday in any public capacity.

THE AMERICAN VIEW

The note of February 10 is the best and most unimpeachable statement yet made of the American view. It warned Germany that, so far as the United States and its citizens and vessels were concerned, German operations in the war zone about Great Britain and Ireland would have to be conducted in accordance with the recognized rules of warfare at sea. It did not suggest in any way that the United States might insist on Germany's observing the recognized rules of warfare at sea in attacking merchant vessels belonging to other neutral nations or to enemy nations on which no American citizens were passengers.—New York Tribune.

DROWNING VICTIM FOUND

Body of William Crowley Taken from Penobscot River Near Bucksport, Me.

BUCKSPORT, Me., June 15.—The body of William Crowley was found yesterday on the shore of the Penobscot river at Bucksport.

Crowley was one of three young Bangor men believed to have been drowned from a motor boat on the night of May 22, when bound from Bangor on a fishing trip.

Crowley was 24 years old, unmarried, a son of Mr. and Mrs. Isaac Crowley, and was a sawmill employe.

The bodies of Clarence E. Wiley and Harry N. Freeman have not been found.

SIR THOMAS LIPTON DECORATED NISLI, Serbia, June 18.—Sir Thomas Lipton has been made a grand commander of the Order of Saint Sava. This is the highest Serbian decoration ever conferred on a foreigner. The order is granted for services in education, science, art, or literature.

HAT BLEACHERY

Ladies' and Gents' straw, leghorn and Panama hats cleaned or dyed and reblocked.

E. H. SEVERY, Inc. 133 MIDDLE ST. Open Mon. and Sat. evenings.

ATTACK SUBMARINE WARFARE.

Amsterdam, June 18.—The Society of Dutch Captains and Mates of the mercantile marine has passed a resolution expressing indignation at the

German submarine war against defenseless merchant vessels and non-combatants. The resolution also conveys sympathy to the relatives of all those who perished on the Lusitania.

We Have Made Sweeping Reductions

GERMAN ANSWER DROPPED DEAD

Meyer-Gerhard Confers
With Officials in Berlin--
Newspaper War

BERLIN, June 18, via London, 1:45 p.m.—The effect upon the preparatory work of Germany's answer to the American note of the arrival of Dr. Anton Meyer-Gerhard, who has come from the German embassy at Washington with messages bearing upon the German-American situation, is not thus far perceptible. Count von Bernstorff's emissary began today the first of a series of important conferences with officials of the foreign office. He spent most of yesterday with the secretary of state for the colonies, Dr. W. S. Wolf, at the latter's country place, following brief conversations with Gottlieb von Jagow, the foreign minister, and Under Secretary Zimmermann. It is still too early to predict what form the German note will take. Apparently an endeavor will be made to open the way to further discussions. The newspaper war between advocates of a friendly settlement and the "no compromise" representatives continues to rage. Naval writers in particular urge that Germany cannot afford to yield an iota regarding the principles and practice of submarine warfare, but the very violence of their attacks upon the advocates of an understanding indicates that the latter are not without influence.

The Cologne Gazette points out editorially that the German press in general has shown satisfaction that President Wilson's communication offers opportunity for an understanding, and expresses the belief that diplomacy on both sides of the Atlantic will work with zeal and good will to this end.

In a leading article entitled "Bad Advice," the Cologne Gazette states that the Lokai Anzeiger to task for attempting to palliate the British "starving out" policy and exportations from America of war supplies. Concerning the cutting off of supplies is an accepted method of warfare. It states that international law provides expressly that this weapon may be used only in the form of an effective blockade. No effective blockade of the German coasts has been declared, however, and Germany, therefore, is deprived of the possibility of taking action against blockading ships.

Regarding the exportation of munitions from the United States, the Gazette adopts the argument of Philipp Reuter, a member of the Hague tribunal, that although the convention adopted at The Hague justifies sales to private firms a neutral state is bound to prohibit sales of this nature when the commerce in arms assumes such an extent that continuation of war is directly dependent thereon.

Carl von Kuehne, the naval expert of the Tag, points out that the American note passes over in silence the German representations regarding the British admiralty's instructions to the navy to seek cover under neutral flags and attacks submarines under this cover. He declares that the kernel of the whole argument and the justification for the German policy.

TRAVERS LEADS

Former Amateur Golf
Champ Took Lead in
Play for Title Today

SHORT HILLS, N. J., June 18.—Jerome D. Travers, former amateur golf champion, took the lead in the play today for the national open golf championship when he turned in a card of 37-35-73 for the morning round. This, with the score of 148 yesterday, makes Travers' score for 51 holes 221.

TODAY'S PLAY

With only six strokes separating the first and twelfth men in the leading division, play was resumed today on the Baltusrol links for the national open championship of the United States Golf association. Yesterday the first half of the final test of 72 holes was played, but the field of 65 competitors has been reduced by withdrawals and official eliminations to 36 for the last 36 holes today.

James M. Barnes, the western open champion, and Louis Teller, Canoe Brook, N. J., a former holder of the French open title, were leading with scores of 115 each. Michael J. Brady, Wollaston, Mass., ranked next to this pair, just one stroke behind. Each of this trio of professionals had a round of 71 yesterday which equals the professional record for the course.

Jerome D. Travers, the Upper Montclair amateur who has won several national and many important golf championships, was fourth on the list of merit and had an excellent chance to add to the open to his long list of titles. Two strokes behind Brady, the young Massachusetts golfer, won this event and the honor of being the only amateur to earn that distinction. Quimet, however, played poorly yesterday and with a total of 156 for the first 36 holes was tied with John G. Anderson, a former Boston amateur and five professionals for 23rd place.

Tom McNamara, another Boston professional, who made a tie with Teller for fifth position with Robert G. MacDonald of Buffalo, each having made 145. Fred McLeod, a District of Columbia professional, stood next with 146.

IN MILADY'S BOUDOIR

BY GWEN SEARS

CURE FOR THE SUMMER FRECKLE

If you are a blonde you may be apt to freckle this summer. Instead of burning, and knowing just how much of a rage these same freckles can kindle in the feminine heart. Yet I know a girl whose freckles give her a quaint tomboyish charm that is irresistible. However, the charm of freckles is rare and seldom found, and most of us wish to exorcise them. I know of no better cream for the purpose than the one I give you here: Petroleum, one ounce; lanolin, one ounce; hydrogen, one fluid ounce; acetic acid, one fluid ounce.

When the face is given to becoming excessively oily in hot weather an application of toilet cologne after each washing will prove a great preventive of this unpleasantness. For excessive perspiration there is a pleasant

Man Injured at Hide and
Leather Factory Died
on Way Home

John Clark of 1248 Church street dropped dead near the corner of Pond and Perry streets about 10 o'clock this forenoon while on his way home from the American Hide & Leather Co., where he was injured early in the morning. An emergency call was sent for the ambulance and the man was rushed to St. John's hospital, but physicians pronounced him dead. He is survived by a sister in Fall River, whose name is not known.

About 7:30 o'clock this morning Clark's left hand was caught in a building machine. He was then taken to St. John's hospital where the injury was treated. He expressed a desire to return to work and did so against the advice of physicians. About 9:45 o'clock he again complained that the injury bothered him and started to walk home. An attempt was made to have him ride in a carriage but he refused to do so. While walking along Perry street he was stricken and died immediately.

STILL HELD IN \$10,000

JUDGE ENRIGHT REFUSED TO REDUCE AMOUNT OF BAIL FOR JAMES KILAKAS

In police court today Dr. Clark was called to the witness stand when the case of James Kilakas came up. Kilakas is the man accused of shooting and also stabbing James Drakonakos to death on Saturday night. The court wished to learn to what extent the assaulted man's injuries so as to regulate the bail of the defendant accordingly. Dr. Clark said that he considered the man out of danger although he was still in a precarious condition. Bail was continued in \$10,000.

A bar between two families in Cabot street was aired in court as a result of a young girl was fined \$5 for assault on a lady who resides in the same block with her.

Clement Barislow, manager of the Atlantic & Pacific Tea store, and Fred Rousseau spent yesterday afternoon fishing at Beaver brook, Collinsville, where they made quite a capture of eels.

150. McLeod won this championship in 1905. Walter Hagen, Rochester, the present champion, and Alec Campbell, the Baltimore professional, has 151 each. "Chick" Evans, the Chicago amateur, who also had a 71, took ten more on his second round of the links with George Sargent, a former winner, and George Low, the local club's professional, made up the first dozen with the ending scores.

Max F. Martin, Baltusrol, with 154 and D. Clark Cockran, Baltimore, were the only other amateurs among the eligibles.

Because of eliminations the pairing had been changed by another official drawing. Some of the pairs who attracted galleries today were Hagen and Teller, Travers and Brady, Evans and Dowling, Quimet and Nichols and Barnes and Hutchinson.

Out of the first 20 cards turned in for the third round a 73 by Gil Nichols was one of the best. This made the Wilmington professional's total 232 for 54 holes.

Francis Quimet, who played along with Nichols, was not in good form and even his poor score of 80 was not made without a slice of luck. Quimet's total of 236 at this stage puts him so far back that he has no possible chance of securing a place among the prize winners.

R. G. MacDonald of Buffalo, had 79, which with 145 of yesterday makes his total 222.

Wilfrid Reid, the English player, who is entered from Sea View, N. J., had 75, a total of 230.

A. J. Sanderson, Boulogne, France, also had 230, made up of 155 and 75. George Low, Baltusrol, 152-76-228, and Tom Kerrigan, Dedham, Mass., 153-76-229, were the lowest from the first ten pairs to finish the early round.

Louis Teller, paired with Hagen, the title holder, went out in 34, equalling the best outward score of the tournament but he took 42, five over par, coming back with a score of 76. This added to his previous score of 146, makes a total of 222 for the former French champion. Hagen also had 76, bringing his total up to 227.

Evans had 50 which brought his score up to 232. This put him out of the contest so far as getting a place on the prize list is concerned. Tom McNamara, the Boston player who finished fifth yesterday with 149 had a 74, a total of 223, just one stroke behind Louis Teller, the leader.

Max Marston, the local amateur, took 80 for his third round, making his total 234 and he is virtually out of the race.

Alec Campbell, Baltimore, with 74 added to his 151 yesterday is well up with 225. Other scores were: A. J. Sanderson, Boulogne, France, 145-75-220; Joe Mitchell, Ridgewood, N. Y., professional, 74-155-230.

TROOPS DISEMBARKING AT V BEACH, ONE OF LANDING PLACES AT THE DARDANELLES

ENGLISH SOLDIERS LANDING AT THE DARDANELLES

Allied troops have landed at many points on the Dardanelles. One of the principal landing places is V beach. In the accompanying illustration is shown a striking picture of the landing of English soldiers.

BOGUS DROWNING SCARE

MAN DISOBEYED AT HALE'S BROOK, SLEPT THERE AND WENT OFF WITHOUT CLOTHING

The discovery of a hat, coat and vest, the latter containing a gold watch and other valuables, on the banks of Hale's brook early this morning, gave the police a short investigation, as it was feared that a suicide or drowning accident had occurred. Sergt. Giroux was dispatched to the scene in the hope of getting information. He found no other clue and took the clothes to the police station. A short time afterward Inspector Maher met a man walking in Middlesex street without hat, coat or vest. The man said he slept near Hale's brook but could not remember taking off his coat or leaving the spot this morning. He was taken to the station, however, and identified the clothes found as his property and the mystery was cleared.

PRINCETON CLUB MEETING

On Sunday morning the members of the Princeton club and committee in charge of the feature to be presented by the organization in the coming 4th of July pageant will hold a meeting in the club rooms in Bridge street, and a large attendance is requested. Further plans for the parade will be discussed and several prominent officials of the parade will be present to address the gathering.

NATURALIZATION COURT

Clerk William C. Dillingham today finished examining applicants for first and second naturalization papers at the local court house after a very busy week, during which all eligible residents were given an opportunity to apply for naturalization papers. During the week 15 first papers were granted and 55 second papers.

FUNERALS

BOUTILLIER—The funeral of Mrs. William Boutillier took place this morning from the home of her grand-daughter, Mrs. Arthur Montminy, 78 Bolsovert street. High mass of requiem was celebrated at St. Louis church at 6:30 o'clock by Rev. J. B. Labossiere. The bearers were F. Panchaud, L. Nadeau, N. Lamoix and N. Marquis. Burial was in St. Joseph's cemetery under the direction of Undertakers Amedee Archambault & Son.

THE ANNAPOLIS SCANDAL

ANNAPOLIS, Md., June 18.—Each midshipman examined at the forenoon session today of the court of inquiry which is investigating irregularities in examinations at the naval academy was closely questioned by Judge Advocate Wait as to whether he had ever heard of a fund being raised for the purpose of buying advance examination papers. A negative reply was given in every instance.

MAY GROW FLAX TO WORK IN HOSPITAL

Method to Overcome
Threatened Famine in
Cloth Supplies

An investigation conducted by large linen importing houses of the United States into the possibilities of growing flax in this hemisphere of a sufficiently fine fibre to be amenable to spinning purposes, has apparently established the fact that in the United States northwest and in parts of Canada, near our border, there are considerable tracts in which flax of this description can be commercially produced.

Determined efforts in this direction are well justified by the seriousness of the threatening world famine in flax and the resultant complete giving out of linen cloth supplies.

Peculiar conditions surrounding flax growing and the dependent linen industry seem to render it even more imperative for Americans to try to build up independent resources in this line than in dyestuffs and other imported articles. Not only is every flax raising and spinning country of consequence in supplying the world's linen, involved in the European war, and hence largely preoccupied with more important things than spinning linen cloth, but the most prolific flax-growing districts are in the very sections where the most terrible fighting has occurred, so that ruin, devastation and abandonment are now the prevalent conditions in the flax fields.

Furthermore, it was in Flanders, the most sadly devastated of all the war-ridden districts, that was grown the selected seed with which the flax fields of all Europe were annually replanted in order to insure the requisite quality and yield of fine spinning-texture fibre; and those propagating fields of Flanders are said to have been ruined for such purposes for a period of at least five years by the flooding with salt water which was resorted to in fighting the advance of the Germans towards Calais and the Strait of Dover.

So that while flax is an annual crop and the fields might possibly, by agricultural methods, be restored to a cultivatable state in one season after the war ends, it will be half a decade before the plantations of Flanders can be brought back to a state where they can yield the choice strain of seed upon which the fine linens of Europe were formerly based.

Another factor in the linen situation is that great numbers of the skilled linen weavers of Europe are fighting and will be either killed or so maimed that they can never take up again the fine delicate work of spinning linen. And as skilled weavers are said to be, like great men, "born and not made," through having almost inherited the occupational tendencies and facilities through a long line of descent from father to son, it is likely to be a generation and more before the great weaving centers of Europe can be regenerated to the high point of productiveness and excellency in linen making, by which, up to the breaking out of the war they had for years practically supplied the world.

The lack of flax fibre for weaving purposes has already resulted in certain mills in this country closing down, notably one plant at Niagara Falls, N. Y., while others are reported to be running on short time, and will soon be entirely out of flax for yarn purposes, and also yarns for weaving purposes. Operations in the Irish linen mills are reported as being considerably restricted through lack of suitable operatives or factory hands.

It is developed that the United States and Canada contain considerable areas which afford the proper growing conditions for fine flax. It is suggested that Belgian refugees be brought here from the flax growing districts of Belgium, to cultivate and raise flax for weaving purposes in sections of Minnesota, Michigan and Wisconsin; and certain sections of Canada where large quantities are now raised for other purposes. Manufacturers heretofore have had little use for American flax and would not pay prices sufficient to make it worth while for farmers to grow it. The trade now is keenly interested and speculating on the possibility of linens of American make, from home-grown flax.

The Lowell high school will take place at the B. F. Keith theatre on Wednesday evening, June 23, and according to the plans the event will be one of the foremost in the history of the school.

Although the B. F. Keith theatre is the largest meeting place in the city, it is feared the hall will be inadequate for the large gathering that will seek admission on that evening.

The exercises will begin sharply at 8 o'clock, and Principal Irish has declared known that no one will be allowed to present the graduates any flowers over the footlights. The class will assemble at the theatre at 7:30 o'clock in order to be seated on the stage and on the scheduled time the curtain will rise.

The salutatorian will be Miss Jessie D. Bantley, a graduate of the Highland school while the valedictorian will be James P. Sullivan, a graduate of St. Patrick's parochial school for boys. The ode is written by Harold Nichols, and a very unusual event in the annals of the school is the fact that Mr. Nichols also composed the music for the ode. The young man is a talented musician, having acted as Mr. Blunt's assistant in preparing operettas by the pupils of the school.

The speaker of the evening will be Hon. Robert E. Luce, former lieutenant governor of the commonwealth. The class gift will be presented the school by Martin Conners, president of the class this year, and the acceptance will be by a member of the school committee. Hibbard's orchestra will be in attendance and Hon. Selon W. Stevens will award the Historical society prizes.

The number of tickets for admission on that night is limited to four to each pupil and they will draw lots as to the location of the tickets. The list of graduates will not be announced until next week.

If you want help at home or in your business, try The Sun "Want" column.

ANOTHER HARVARD HOSPITAL UNIT ORGANIZED FOR SERVICE IN EUROPE

CAMBRIDGE, June 18.—Another Harvard hospital unit, the second to be organized for service in the European war, was mustered in today and will leave Cambridge on June 21. Commencement day for three months in British base hospitals. The first unit is completing its term in the French hospitals and is expected to return to America next month. Both are distinct Red Cross delegations.

The second unit is headed by Dr. E. H. Nichols, for many years medical adviser of Harvard's athletic teams, with Herbert H. White of Boston as his layman assistant. It is composed of 35 physicians and surgeons, all graduates of the Harvard Medical school, and all residents of Greater Boston, with the exception of Dr. Albert A. Barrows of Providence and Dr. F. W. Snow of Newburyport. The matron in charge of the nurses, of whom there are 15, is Miss Marion G. Parsons of the City Hospital on Blackwell's Island, New York.

The party will sail from New York on the Dutch steamer Noordam on June 25, and will land at Falmouth. The unit goes by invitation of the British government which pays all expenses of transportation. The surgeons, however, will take their own instruments. It is expected that upon their arrival in London about July 1 the doctors and nurses will be distributed among the hospitals in or near London but will not go to the front. At the end of three months the doctors and half of the nurses will return home and their places will be taken either by representatives of Johns Hopkins or Columbia.

The nurses will wear a uniform of cadet blue with white caps and arm bands with "H. C." on them in Harvard crimson.

THE FAIRMOUNT CAMPERS

CONDUCTED DANCE IN TALBOT HALL AT NORTH BILLERICA LAST NIGHT

Thomas Talbot hall in North Billerica was last evening the scene of a delightful and very successful summer dancing party, conducted by the Fairmount Campers, whose events are attracting attention. The music, decorations and the favors distributed at intervals, served to keep the spirit of gaiety alive until the close of a happy occasion. The hall had been tastefully decorated, the club colors, predominating.

Musical renders by Miner's orchestra were heard to respond to several encores. During the evening an informal concert was given by the members and this proved a most enjoyable feature. Dancing was started at 8:15 o'clock and continued until midnight. During intermission fees were served.

Following were the officers of the evening: William Barry, general manager; Thomas Clark, assistant general manager; Fred Gillis, floor director; assistant floor directors, John Mulligan, Paul McCaffery; Mathew Shaugnessy, chief aid; John Welsh, treasurer; aids, members and friends.

PRICE ONE CENT

THE CATHOLIC FEDERATION

Meeting at A. O. H. Hall Addressed by Rev. F. J. Mullin, Pres. Chas. T. Daly of Medford and Others

Hibernian hall was crowded last evening when members of the order and others gathered to hear addresses by the officers of the Catholic Federation of North Middlesex. The speakers were: Rev. Francis J. Mullin, chaplain; Chas. T. Daly of West Medford, president; Thomas M. Nolan, of Somerville and James O'Sullivan of Lowell. John P. Sheehan, president of the central council, presided.

Rev. Fr. Mullin said that the American federation of Catholic societies is an organization of Catholic laymen for the purpose of impressing on the public mind Christian principles, to the end that these principles may become the basis of all moral, civil, social, and business dealings. He especially referred to the federation's campaign against divorce and the necessity of true Christian legislation to protect the sanctity of marriage; and against the anti-Christian principles of socialism, which will make for the nation's ruin.

The speaker went on to show that federation in its mission of spreading sound Christian principles for the right formation of the public opinion, must meet the attack of a propaganda which is carrying on a propaganda against the Catholic church and the Catholic citizen, that breathes insane hatred. The true American patriot upholds with might and main the constitutionally guaranteed liberty and equality of every fellow citizen. The true American patriot holds sacred the interest not only of the nation but of its lowliest citizen.

The speaker referred to the utility of individual action in the forming of public opinion. Federation would unite all as a great moral force for the spread of Christian principles, to uphold justice and truth, to implant in social and public life moral and civic virtues in the Christian sense of the word. In federation the Catholic layman co-operates with all loyal citizens, and with all civil and social agencies which work for truth and virtue.

President Charles T. Daly explained the aims and objects of the Federation, stating that its workings are all in the open, its principles those which every good citizen can conscientiously support.

The federation has stood upon the principle that the Catholic citizen is the equal of any and all other elements of our citizenship; that he is no more than and no less than any other American; and that he has an individual right and should be given the same opportunity to aspire to all public and private positions of responsibility.

The history of the national federation covers a period of nearly fifteen years. During this time this wonderful organization, numbering over 25,000 societies and parishes, and comprising at present over 3,000,000 persons in the nation, has been the only really satisfactory medium through which to bring about unity of thought and action among Catholics of this country. The federation has been largely instrumental in eliminating personal organization and racial jealousies and differences.

Not a Political Society
Throughout its history as a national and archdiocesan organization the federation has acted for a

WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of Resinol Ointment and Resinol Soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol Ointment and Resinol Soap can be bought at any druggist's and are not at all expensive.

Knights of Columbus Plan Trip to Nantasket Beach

Bishop Delany assembly, fourth degree, K. of C., held a regular meeting last evening at which considerable business was transacted. The assembly voted to conduct an outing to be held at Nantasket beach about the middle of July. The party will leave on a special train for Boston in the forenoon and after a short down the harbor, dinner will be served at one of the leading hotels and the remainder of the day devoted to a general good time, returning by boat and rail in the evening. A committee was appointed to complete arrangements for the event. All members of Lowell council and their ladies will be invited to make it one big day for the Knights of Columbus of Lowell.

STEAMER ISIS PURCHASED

TO BE USED BY GOVERNMENT FOR COURT AND GEODETIC SURVEY—REPLACES ENDEAVOR

WASHINGTON, June 18.—The steamer Isis has been purchased by the government for the use of the coast and geodetic survey in its offshore hydrographic work along the Atlantic coast. The vessel cost a little less than \$60,000 and will replace the steamer Endeavor, built during the Civil war.

The new vessel is a twin screw steamer of steel construction, 180.4 feet long, 24.5 feet beam, 11.5 feet draft and 13.5 feet depth. The gross tonnage of the boat is 377 and the net tonnage 235. There are twin triple expansion engines of 2000 horsepower, and the cruising speed on natural draft is 12 knots; under forced draft the vessel can make 15 to 17 knots.

TURCOTTE LIQUOR CASE

HEARING BEFORE THE LICENSE BOARD THIS FORENOON—NO DECISION GIVEN

Louis P. Turcotte & Co., holders of a first class license on Worthen street, were granted a hearing before the license commission this forenoon on a complaint made by Supt. Welch alleging a violation of the terms of the license in that Henry L. Turcotte sold a half pint of whiskey to Anthony Clark last Saturday night. William A. Hogan appeared for the defense and Supt. Welch conducted the case for the government.

Anthony Clark, a reserve officer of the police department, informed the board that he and two young men whom he did not know, went to Turcotte's saloon about 9 o'clock Saturday night and bought one drink of beer. He said one of his companions called a bartender one side and asked for a half-pint of whiskey. The latter went up a stairway and returned with the whiskey and placed it in his inside vest pocket, said the witness.

Clark said he then stepped back and gave the signal for the liquor inspectors, who were just outside the door, to appear on the scene, and inspectors Bigelow and Murphy responded immediately. Henry L. Turcotte denied making the sale and his father, Louis P., stated that he had given all his employees strict orders to violate the law by selling liquor in bottles, he said.

The defense contended that no sale was made. Employees of the saloon testified that Clark and the two companions entered the room and asked for a drink. The two unknown men, it was said, were already in an intoxicated condition. The board decided to consider the matter and give a decision later.

MODERN DENTISTRY

You can now possess good teeth and enjoy all the life-time benefits they give—without pain or unnecessary suffering. You know that defective teeth endanger health and destroy beauty, or even "good looks" without which there can be no happiness. The modern human life has been prolonged many years by modern dentistry. Painless operations on the teeth as perhaps you well know from your own experience, depend largely on the man who uses the instrument. If he is careless, irritable or unsympathetic, he will inflict pain. See about your teeth today.

DR. L. F. BEAN.

Don't forget the sale is TUESDAY afternoon instead of Thursday for the summer. Goods are now on exhibition.

Paper Urges Lloyd George to Have England Supply All Her Own Needs

LONDON, June 18, 6.28 a. m.—David Lloyd George, minister of munitions, is urged by the Post in an editorial to make every effort to place the munitions industry on a basis whereby England can supply all her own needs in war material.

"If the profits of our manufacturers are too high in some cases," says the Post "that can be rectified but at the worst it is not so grave an evil as the sending of orders to neutral countries when by so doing we send money out of our own country and reap none of the benefits. Profits which English manufacturers and workers make will be spent among Englishmen, while profits Americans make are altogether lost to this country. We should encourage our manufacturers by offering them long contracts on reasonable terms. As to the length of the war, it is unsafe to estimate the end as less than two or three years from now."

AGAINST USE OF LIQUOR

CHICAGO, June 18.—The following telegram from Anna Gordon, president of the National Woman's Christian Temperance union, to Josephus Daniels, secretary of the navy, was sent today:

"The National Woman's Christian Temperance union, with 500,000 members, believes you will exert all possible influence against the use of alcoholic liquor in the christening of the Arizona."

TO VOTE ON SUFFRAGE

NEW YORK, June 18.—Equal suffrage and other legislation affecting women figured prominently this year in the discussions of a large majority of the state legislatures. The sessions of most of them have now come to a close and a summary of their activities discloses that the question of woman suffrage came up for deliberation in 22 states and that divorce laws, mothers' pensions, women police, minimum wage, eugenic marriage, or other subjects relating to women were considered in 25 states.

The legislatures of seven states adopted resolutions whereby a constitutional amendment giving women equal suffrage rights with men will be submitted to the people at the fall elections either this or next year. They are Massachusetts, New Jersey, New York and Pennsylvania in 1916; Iowa, South Dakota and West Virginia in 1917.

In 11 states woman suffrage measures met defeat—Connecticut, Delaware, Florida, Indiana, Michigan, New Mexico, North Carolina, North Dakota, Oklahoma, Texas and Vermont.

Pensions for mothers came up for consideration in 15 states. In Kansas, Montana, Nevada, New Hampshire, New York, Oklahoma, Tennessee and Wyoming, legislation for this purpose was enacted for the first time. In two Texas and West Virginia, mothers' pension measures were killed. In the rest the present laws were amended or amplified.

California, Colorado, Connecticut, North Carolina, Nevada and West Virginia acted on divorce laws. In Kansas the senate of Indiana passed a eugenic marriage measure, but it was defeated in the house. Legislation to promote healthy marriages and check the social evil was enacted in Vermont.

Labor laws for women were enacted in Kansas, Maine, Massachusetts and Wyoming. Maine wrote into her statutes a 51-hours-a-week law for women and boys under 18 working in mills, factories and laundries. It stipulates that such employees shall not work more than nine hours a day unless for the sole purpose of permitting a shorter schedule for one day in the week.

Massachusetts legislated to prohibit the working of women and children overtime for the purpose of making up for the time lost on a legal holiday. Wyoming enacted for her working women an eight-hour day, and both maximum hour and minimum wage laws for women were passed by Kansas. A bill providing for a minimum wage for women in Michigan was killed in committee.

An attempt in California to enact a law to forbid women to shake dice for money or prizes was defeated. So was a bill providing for women jurors.

ARE GOING TO ITALY

Two Lowell Residents Will Run the Gannett on Submarines—Will Sail Next Sunday

Mr. Ferdinando D'Arezzo with his daughter Adeline, of this city, will sail for Italy on Steamship Canopic of the White Star line next Sunday at 12.30 from Boston. The purpose of their visit to Italy is that Mr. D'Arezzo has a brother there who will be ordained a priest during the month of July next, and in the meantime will dispose of the property they own there. Mr. and Mrs. D'Arezzo will return to America during the month of October next.

Fifteen Men Arrested During Raid of "Possum Hunters"

ROCKFORD, Ky., June 18.—Fifteen prominent citizens of Rockford, it became known today, were arrested yesterday charged with first degree murder in connection with the killing of Harrison Maxson during the raid of "possum hunters" on the negro section of this place April 29 last.

This makes the second wholesale arrest on "possum hunter" charges, fifteen citizens of Centertown having been arrested within the last week.

GREEKS SURPRISE GERMANY

Organ of Army, Discussing Elections, Refers to Greece as "The Next Enemy"

BERLIN, via London, June 18.—The Greek general elections of the party of ex-Premier Venizelos, which is in favor of Greek participation in the war on the side of the allies, has proved an unpleasant surprise to the newspapers of Germany.

The Kreuz Zeitung publishes a headline over the Athens election despatch reading: "The Next Enemy," and says M. Venizelos will be able to carry through against all other influences his policy of joining with the quadruple entente. The paper questions whether Premier Asquith did not over-estimate the importance of Greek assistance.

The other newspapers generally are of the opinion that the losses of the allies in the Dardanelles, Russian defeats and the entrance of Italy will deter Greece.

COLOGNE, June 18, via London, 12.02 p. m.—The Cologne Gazette has published a despatch from Berlin concerning the outcome of the recent general elections in Greece in which doubt is expressed as to whether M. Venizelos would be unconditionally in favor of armed intervention by Greece on the side of the allies, even in case King Constantine should again entrust him with the conduct of affairs.

It is rather to be assumed, the Berlin despatch goes on to say, that M. Venizelos is following the developments in the Dardanelles very closely, that he has noticed England's admission that progress there is possible only with great sacrifices and that the latest attempts to induce Bulgaria and Rumania to cooperate with the allies have failed. Conditions in this quarter of the world have changed since last spring, the correspondent observes.

BERLIN, via London, June 18, 12.10 p. m.—Information reaching Berlin from Sofia is to the effect that Bulgaria in her last communication to the powers in the war, refers to her participation in the war, refers to her expectation, as part of her reward, of the restitution of the territory she ceded to Rumania and of portions of Greek and Serbian Macedonia.

Bulgaria is described as demanding precise details as to what she will be given, and the understanding here is that she is endeavoring to avoid a definite answer to the allies, thus leaving the way open to further negotiation.

WRECKED

ODDHAM, June 18.—In trying to avoid an automobile approaching from the opposite direction, a jitney, bus operating between this town and Walpole crashed into a tree on Washington street, near Prospect street, yesterday afternoon, wrecking itself and giving the four passengers a severe shaking up. One man, who refused to give his name, was cut about the face by the broken glass from the windshield.

The bus, a five-passenger car, was being operated by William H. Tobin of 12 Park street, Norwood. It was run down on the wrong side of the road at the time of the accident.

FOR THE DRACUT MILLS

THE MERRIMACK MILLS HAS RECEIVED RUSH ORDER FOR BLANKETS

It was learned from Supt. Morrison this morning that the Merrimack Woolen Co., Dracut, Mass., has received a small blanket order which will keep all the machinery busy days for the next few weeks. The order has to be finished by July 15.

ON TEACHING OBEDIENCE

SOMETIMES A LITTLE CHILD RULES THE HOUSEHOLD—BEGIN EARLY

It is by no means an uncommon thing to see a little child rule the household. The tiny infant in its mother's arms goes into a fit of rage because of a little delay in feeding him; or when something he wants is denied him. He shrieks, kicks and claws his mother, who simply pities him, and finally calms him by yielding to his demand, when he should then and there have such a lesson or repression taught him as will leave its impress upon his mind. The mother who neglects this is not doing her duty toward her child. The infant, though he may be too young to speak—old enough to raise his fist and strike a blow, is old enough to be disciplined for being in a passion, and no concession should be made to him while his tantrum lasts. The welfare of the child demands that the very first manifestation of a violent temper be vigorously met by the mother with the determination to subdue it at the very outset. To neglect this is to endanger his future. Many a gallows tragedy had its beginning on the mother's lap. The youngster who resists parental authority, will later pursue a like course toward his teachers; and will chafe under the restraints of the laws of the land when he grows up. A thoroughly obedient child is a joy and blessing to his home; and the way to securing this valuable trait, has the sweet consciousness of having performed a noble life work—of making a child the brightest jewel in the crown of motherhood.

MURDER CHARGE IN POLICE COURT MAY GET CHILD

Five young women, four of whom were arrested last night as objectionable characters, were in the local court this forenoon. The presence of the female defendants was also responsible for an exceedingly large attendance that filled every available chair in the court room.

Ethel Carroll, Rose Groves and Ruth Roland were arrested by Special Officer Clark and Patrolmen Clark and Cullen and booked for misbehavior. Attorney George F. Toye appearing for the trio, pleaded not guilty for the Roland girl and was granted a continuance until Monday. Pleas of guilty were entered by the other two.

Special Officer Clark testified that the two girls had been behaving badly for some time. He had warned them, he said, at dances and other places to keep off the street nights, but his words were of little avail. He said, however, that both had good homes in this city. Lawyer Toye asked for a suspended sentence in each case on condition that the two girls remain away from each other and lead a better life. Judge Enright ordered each sentenced to the Women's reformatory at Sherborn and suspended the execution of the sentence for one year.

Albert Lemoine and Dorothy Richards pleaded not guilty to a statutory offense and had their cases continued until Monday, each being held in \$300 surety.

Albert Medina was also charged with a statutory offense and was sentenced to three months in the house of correction. He appealed.

The fifth woman made her fourth appearance for drunkenness and was sentenced to the house of correction for five months. She has been given two opportunities within the past two weeks to leave Lowell and abstain from using intoxicants but was arrested last night for the same offense.

Albert Biala, for non-support of his wife, was placed on probation for six months. Frank White, who was found guilty Monday of the larceny of a coat and vest and three razors from Constantine, Thomas of the Merrimack hotel, and of a pair of trousers and a shirt from Wilfred Grenier of Worthen street, was given a suspended sentence to the Massachusetts reformatory.

Proctor C. Slater learned that the defendant has withdrawn money in Central Falls, R. I. Two drunken offenders were given short jail sentences.

HIS HAND INJURED

The ambulance was called to the United States Carriage Co. this forenoon where John Donahue had the index finger of his right hand injured. He was removed to St. John's hospital.

EAGLES CLASS

Last Call

Sick benefits, \$1 per week for 13 weeks. Physician's service, free, self and family free, \$100 to beneficiary at death. Last day for filing application is

TUESDAY, JUNE 22, 1915.

Class initiation will be held Tuesday evening, June 22, at 7.30.

JOIN NOW!

O'Sullivan Says:

Here's an opportunity for 136 wise ones—

Today and Saturday the Merrimack Clothing Company will offer for sale 156 Men's strictly all wool, high grade Suits, worth \$15, \$18 and \$20, at

\$13.50

Several Suits in the lot are made by A. Shuman & Co., Sampeck, and the Alfred Benjamin Washington Co. There are gray serges, worsteds and homespun, blue serges and Glen Urquhart plaids—some made soft roll and patch pockets, others cut on conservative lines—several suits have an extra pair of trousers, made from the same material, thrown in the bargain.

Every Suit in this sale has our personal guarantee of satisfaction or money refunded—sizes from 3 to 44, including stouts.

Here's an item of interest for the man with a ten dollar bill to put into a suit.

We have got together about 100 Men's Suits, left from the season's selling, only one or two of a kind, but all sizes represented from 32 to 44, including stouts. Every suit in the lot is new this season and the former prices were from \$12 to \$20. Get fitted to your size today or Saturday at

\$10.00

Today and Saturday shrewd buyers can reap a harvest in our Men's Furnishing Dept. if they take advantage of the offerings printed below.
